Rose also said that British producers have awakened to the fact that they have to slant their films more towards the American market. He cited the J. Arthur Rank distribution setup in this country as an example. "Rank is making more pix for the American market and like Hollywood filmmakers is also using international casts for world wide appeal." Pa added.

Rose said that the only problem he has found with shooting pix in England is the casting of actors. He contends that everyone talks too "British," and at times it's difficult to understand them.

The producer returns to England shortly to start his next film, as yet not set. He recently completed "The Safecracker" which Ray Milland stars in and directed. Film is one of a two-pix deal Rose has with Metro.

Hamm sald girl was born to Helen Lucas Emmick, 25 years her husband's junior. Mother has since remarried. Los Angeles lawyer George C. Black, representing daughter, made original disclosure. He said he contemplated having adoption set aside if nephews and nieces succeed in breaking will. Such action would pave way for girl to get a larger share, he said. Emmick, twice married and twice divorced, was generally believed childless when he died early last year at the age of 78.

factory agreements with the film companies.

Julius Gordon, Allied president, will make the keynote speech at the Concord. He instituted the policy of "cooperation" with all segments of the industry and Allied makes much of the fact that "for eight months Gordon has, worked hard to give effect to that declaration." However, Allied board chairman Abram F. Myers, indicates that there is speculation in Allied ranks relating to Gordon's speech and he hints broadly that Gordon will take off the kid gloves in his Concord address. Myers' aim in "leaking" the tone of Gordon's speech, it's believed, is (1) to serve as a warning to distributors and (2) to steam up interest in Allied's annual meeting.

It is clear that Allied is prepared to oppose violently Paramount's recent acquisition of the Esquire Theatre in Chicago. Myers describes Par's move as a "dead pan announcement" and "a good old-ashioned coup which can be admired for its adroitness even if one fears its possible effects and dislikes the motives behind it." Myers credits Par with perfect timing since disclosure "crashed into the headlines on the eve of the conference called by the Dept. of Justice to consider whether decrees in the Paramount. case should be amended to permit the tilvorced circuits to produce and distribute motion pictures in competition with the established film companies, including Paramount."

Paramount's action in acquiring the Esquire, Theatre, and Allied's effort to induce the Dept. of Justice to permit the circuits to enter production and distribution, will be an important topic at Allied's Concord meeting. According to Myers, the following are some of the questions exhibitors must consider before taking official action:

If necessary, in order to avoid collapse of the divorcement provisions of the decrees, should exhibitors withdraw their support from the circuits' applications for leave to make and dist. blute pictures?

Should exhibitors resist any modification that would permit the film companies to acquire theatres, regardless of the ambitions of the circuits, in regard to production and distribution?

New'k Sprucing Downtown Mayor Commends Remodel Of Adams for 2-a-Day

Newark, Oct. 15. Mayor Leo P. Carlin has of-ficially commended the Adams family, owners of the Adams Theafre, for remodeling the showcase and booking "The Ten Commandments" as its initial film attraction

Mayor Carlin hailed the remodeling of the Adams as being in step with the new city government's efforts to face-lift the Newark downtown sector with new construction along Broad Street. Two new buildings—the Mutual Benefit Insurance and Blue Cross Hospital Plat—have already been put up on Broad St. In addition, the Prudential Insurance Co. has razed an old building to construct a modern one on the same site. Two other new buildings are also in the works for Broad St.

"The Ten Commandments" opened its two-aday, reserved seat engagement at the Adams on Sept. 25. In preparation for the booking, new projection and sound equipment was installed. The theatre's baroque decor, with its gilded hymphs and amouretti, was given a classic aspect through removal of plaster arabesques over the exit lintels, reconditioning of walls and floors, and the use of a white, straw and coral color scheme. The seats have been reconditioned and interior details have been stripped of excessive decorations.

Chicago, Oct. 15.

Roadshow plans of major distribs are meeting with opposition from Chicago's big exhibitors. Although anxious, for good product most of the year, theatre operators feel that roadshow policy puts them under the restricting control of distributors. Locally distributors find that the only roadshow outlets are booked up for the immediate future, and only expensive remodelling of other offibeat location theatres or empty legit houses are available. Todd's Cinestage is the converted Selwyn, only legit house with projection facilities.

The opinion expressed by exhibitors here is that roadshows are not durable enough to be profitable except for the truly rare release. Dave Wallerstein, prexy of the key Balaban & Katz theatre circuit, points to the case of a picture like "Glant" which was directed towards a "mass appeal" distribution and which prossed as high during its nine weeks at the Chicago on a grind policy as it could have being roadshowed for a couple months. "Producers," he says, "won't invest in uneconomical exhibition." hibition."

Events this year point up the same story of bungled distribution policy in Wallerstein's opinion. By dumping a heavy load of product during the summer months several features that could now be retting several weeks downtown had to be be relegated to nabes for first runs, while during the industry's heavily bublicized but aborted Golden Jubilee Celebration—"What kind of films did they offer us?"

Currently Calumbia is seeking an outlet for "Bridge Over the River Kwai" which it insists will only be released here on a road-show basis and only at a downtown location, eliminating the possibility of the near north side Esquire Theatre and the larger nabe houses. Theatreowners are right now hesitant in negotiations waiting for early results on "Raintree County" opening here next week. Outstanding success or failure is expected to bring further offers from distributors or leave the hard ticket issue dropped entirely from the scene.

Merchandizers Push Gifts on Todd

Some Weird Commercial Angle-Shooters Jump on '80 Days' Party-Stage Management of Madison Square A Real Problem in Logistics

RV FRED HIFT

Mike Todd, whom some credit with having put the "show" back into show biz, is doing an encore as a party giver tomorrow (Thurs.) night when around 18,000 will crowd into Madison Square Gar-den to mark the first anniversary of the opening of Todd's "Around the World in 80 Days" at the Ri oli Theatre, N.Y.

Sheer size of the preparations gives promise for an elaborate shindig, living up to Todd's concept of the "colossal." It also shapes as the most elaborate giveaway show ever.

The "Little Party" (as it will be billed from the marquee of the Garden tomorrow) has been in the making for some months and it was, in fact, Todd's luck that allowed it to fall on the exact anniversary date. Garden was booked solid for weeks before and after Oct. 17. Nevertheless, with the rodeo bowing out. Todd's crews can only enter the premises at 2 AM tomorrow morning, giving them precious little time for their extensive preparations.

There's the matter of the birthday cake, for instance, It'll be the largest ever baked, and the Swans Down people are doing the job, putting in \$15,000 of contributed cake-mix. Cake will have to be carted into the Garden in sections. There it'll be assembled and iced.

Another huge decoration requiring special preparations is the 24-foot Oscar replica which is being created out of copper-colored chrysanthemums. It'll take 100,000 flowers, each dunking in a water-filled vial, to do the job. In addition, the six-foot base will be made up of flowers being telegraphed in by flower dealers all over the world.

in by flower dealers all over the world.

Garden will look festive, with much bunting, flags of all nations waving from the pressbox, inscribed netting on the ceiling, reminding not only of "80 Days" but also of Todd's upcoming "Don Quixote;" the balloon replica from "80 Days," etc.

Main floor will be kept free for a-continuous show, starting at 8:30 PM and ending around midnight. Hour and a half of it will be televised by CBS over "Playhous 90" from 9:30 to 11. Show will include some film shot by Todd with wife, Elizabeth Taylor. There'll also be dancing on the floor to the music of a 100-piece band. It was originally intended to have Arthur Fiedler and the CBS Symphony, but this may be changed. but this may be changed.

Mostly Cuffo

Mostly Cuffo

Incredible part of all this is that the entire "party" isn't going to cost Todd too much. He's paying around \$12,000 for the Garden and of course he has expenses. But a staggering array of items, from "gifts" to food and transportation, are being contributed by eager merchants angling for a fat plus. Not that Todd couldn't afford to splurge. Info being given out in connection with the anni showathat "80 Days" so far has played 66 U.S. and Canadian and other overseas houses, reaping a gross of over \$17,000,000. It's been seen by some \$,000,000 people.

Adding to the attractions at the Garden tomorrow night will be the presence of the Dancing Waters, also as a contribution.

Prizes-Todd calls them "gifts"-will be awarded via a drawing, using ticket numbers. They've been coming in such numbers, Bill Doll, Todd's p.r. rep has had to store them at a warehouse. Here's a partial rundown of the "gifts" (all contributed):

A Czesna plane (complete with flying lessons) A Czesna plane (complete with flying lessons), this or four automobiles, motor scooters, record players, 100 good cameras, four mink stoles and other furs contributed by Maximilian, 250 bottles of Vodka, 10,000 imported cigars, 100 pairs of ivory chopsticks, ladies' hats, six ladies revolvers (in pastel colors!), 75 Swedish telephones (dial base and earpiece combined), 50 elephant bells from India, Austrian toy bears, 100 cases of Scotch chocolate bulscuits, a rickshaw from Japan, six Olivetti typewriters, 40 Siamese cats (gift from Todd's pal, the King of Siam, who wrote music for "Peep Show"). 1,000 Decca albums, etc.

Food Problems

Food problem also has been partly solved by con tributions, though most people will have to eat in their seats. As a matter of fact, it was discovered only recently that the Garden has no direct passage from the balcony to the main floor. Anyone wanting to come downstairs, will have to go out and come in again.

There'll be no hard liquor served at the shindig. Only champagne ("No Todd party can be complete without that!" says Doll). Todd's been offered 15,-000 hotdogs, 15,000 buns, 200 gallons of vichisoise, a ton of baked beans, 10,000 eggrolls from the Chinese Merchant Assn., pizza pies, 15,000 doughnuts, icecream from the Borden people, doughnuts from the Doughnut Assn., etc.

Todd figures he'll have more press covering than any political convention in history. Wires have gone out to 87 towns where "80 Days" is playing or booked, urging exhibs to bring in their local press people. However, Todd won't pick up the tab.

der the heading: "How to Give a Party."
Vincent Korda, scenic designer on "Don Quixote," has been brought in by Todd from London to design the Garden decor. Pat Valdo, circus vet, has been brought out of retirement to run the behind-the-scenes part of the show. Sally Pernick, formerly of the stagehands union, is working as Todd's labor relations man. Job became necessary when it turned out that union jurisdictions on the various jobs overlapped.

According to Doll, 9,000 invites have been sent out. He figures there'll be an overflow crowd. About 1,000 members of "the-public" are being "imported" from all over the party. Names are being drawn at the theatres. Todd picks up the tab. He's got a special man working for him to get the required hotel space.

Spokesman for the dissident stockholders said they'll engage in a proxy fight preliminary to the annual meeting next April unless Yates gives up the helm.

This places the Rep boss in the middle, for he's having trouble with his fellow stockholders in Associated Motion Picture Industries. Yates owns 20% of this outfit, which in turn owns \$850,000 worth of Rep bonds (16% of the total), 200,000 shares of Rep common (10% of the total) and 50,000 preferred shares (12% of the total). Yates reportedly committed AMPI holdings in a transaction with Harris and Blau based on a sellout price of \$8 per common share. However, other AMPI stockholders balked at this and are said to have forced Yates to walk away from the Harris-Blau agreement. They contend Rep would be worth \$15 per share via liquidation and told Yates to pursue a liquidation program or surrender control.

U's \$5,000,000 Gamble in Germany, * 'Time to Love,' Rolls as a Blue Chip Entry With Unknowns in Top Parts

By HY HOLLINGER

Berlin, Oct. 8.

What amounts to a \$5,000,000
gamble is currently bring undertaken by Universal in this bomb
scarced city which has been selected as the site for the complete
filming of Erich Maria Remarque's
World War II novel, "A Time to
Love and a Time to Die." The
gamble involves the employment
of two unknown actors — John
Gavin and Lisa Pulver—to essay
the principal role's of Remarque's
best-seller.

The film, which will be released under the title of "There's Always a Time to Love," is the highest-budgeted film in U's history. While Miss Pulver, a Swiss actress, is known to European audiences, Gavin, a former Naval intelligence officer, represents a complete unofficer, represents a complete un-known quantity both in the U.S. and abroad. His previous film ap-pearances have been in inconse-quential supporting roles.

quential supporting roles.

In selecting Gavin to portray the young German soldier who returns from the Russian front during World War II, Universal executives Alfred E. Daff and Edward Minh are hopeful that the Remarque story will provide for Gavin the same springboard that the author's classic of World War I, "All Quiet on the Western Front," provided for the then unknown Lew Ayres. Coincidentally, "A Time to Love" and "All Quiet" were both issued 12 years after the wars they describe.

describe.

"A Time to Love" is unique in another respect. It marks Remarque's debut as an actor. The 60-year-old novelist, who has seen six of his eight novels converted to the screen, is currently here to launch liis new career. He will play the important role of Professor Pohlmann in his own story. Remarque, who wrote the screenplay of "A Time to Love," looks upon his thespian venture as another landmark in his career. "If I'm to write for the movies," he said, "I must learn what it is like to act in a picture.

ture.

Remarque's first day on the set caused more attention than would have the presence of a contingent of first-rank Hollywood stars. He was immediately surrounded by of first-rank Hollywood stars. He was immediately surrounded by groups of German performers—many of whom remember him from the pre-Hitler days. In addition, unit publicist Fred Banker is being swamped with requests from the U.S. and foreign press for interviews with Remarque and for permission to observe the novelist in action as an actor.

While portions of other films have been filmed in West Berlin, the Universal company is not only shooting exteriors, but is employing the CCC Studios for interiors and will develop the picture in Berlin laboratories. Following the Berlin shooting, the company will move to Grafenwohr near the Czech border for Russian battle front sequences.

At this site, Gavin will be "integrated" into an actual native force with several hundred troops of the comparatively new West German Army, the Bundeswehr.

of the comparatively new West German Army, the Bundeswehr. This was arranged by special coor-dination between the Pentagon, U. dination between the Pentagon, U. and the Defense Ministry at Bonn. Since U.S. Army regulations prevent GI's from wearing foreign uniforms while on duty, the Deot. of the Army was unable to ofter American troops for the screen battles. The training ground of NATO troops, however, was opened to director Doug'as Sirk, who will utilize the Bundeswehr soldiers for the film "war." Meanwhile. GI's from the Berlin command are getting leave orders to work in the film so that they will not be discobering the no-foreign-uniforms-while-on-duty "estriction.

Two Crews

Two Crews
Two complete crews have been hired for the production. For each American in every department, there's a German counterpart. For example, an office in the building is marked "art department" and "architekten," with Al Sweeney and Jurgen Kiebach being in charge of their respective lingual groups. Similarly, there's an American and German press representative, an American and German production supervisor, etc. production supervisor, etc.

production supervisor, etc.

The three-story building contains dressing rooms, press head-quarters, etc. The entire company meets there every day before moving out to a location, "This system," according to Denning, "gives us greater control of the operation." All vehicles are dispatched from the building and all equip-ment and costumes are issued

there.

The vast rebuilding program that has taken place in West Berlin with U.S. ald has, strangely enough, hampered the U operation to some extent. Denning and his crew have had to re-ruin some of the ruins to make them seem as they were during the bombing of Berlin. Four hundred truckloads of rubble have been brought in to recreate the damage of the war years.

West Berliners have been anxious to clear the war damage that Denning and his associates have been having a job of con-vincing the local authorities to let vincing the local authorities to let the damaged buildings remain as they were until the film company has completed its exterior shoot-ing schedule. On the other hand, U is contributing to the clean-up program by blowing up damaged buildings and leaving the clearance of the sites to the local authori-ties

Permission to blow up buildings require numerous clearances. These require numerous clearances. These have been received mainly from foreign governments whose embassies have been seriously damaged by the war bombings. Since the seat 'the West German government's now in Bonn, most of the countries have no immediate plans to rebuild their war-torn embassies and have, as a consequence, given Universal permission to blow up the buildings for scenes for

sies and have, as a consequence, given Universal permission to blow up the buildings for scenes for the picture. In addition, Universal has had to build plaster foregrounds matching pre-war buildings so that the new modern edifices that are springing up throughout West Berlin can be masked out. Actually, East Berlin, where there has been little rebuilding of the war damage would have been more ideally suited for U's production, but the film company was advised by the State Dept. not to go into the eastern sector. However, U has received permission from the East German government to move equipment through the eastern sector to reach Grafenwohr. The task, however, is a gigantic one, for each fiece of equipment must be carefully listed. Us technicians are now working on the income the control of the control

Theory that too much decentralization into independent production could hurt the film industry by destroying studio facilities and discouraging financiers was advanced Sunday (6) by Dore Schary, former production chief at Metro and now an indie himself.

er production chief at Metro and now an indie himself.

Schary appeared with Bosley Crowther, of N.Y. Times, on John
Secordari's "Open Hearing" over ABC television web.

Schary called the film biz "a muscle-bound glant," and he worked hard—for some unfathomable reason—to dispet the notion that Hollywood is in trouble. In fact, neither Schary nor Crowther would allow that a "crisis" exists in the industry, though Crowther at least got around to mentioning the fact that attendance has dipped seriously.

While the picture business is good with the big pictures and faltering the lesser ones, enough in-the-middle product has come on the market of late to justify the opening of many theatres during matinee periods when heretofore they've been dark. Further, numerous situations which had been operating only on weekends are now in business weekday nights as well.

Such diverse areas as St. Louis, Pittsburgh and parts of Long Island, NEX, have been cited by distributor sources for their more active operations.

land, N.Y., hay

This doesn't add up to any newly-found prosperity for either the exhibs or the distribs, although it is an upbeat step. Theatremen who have upped their schedules to the seven-day-a-week basis are changing pictures every day in many instances. But at least they're getting the product and finding it better to stay open than remain dark.

Some spots on Long Island, while offering the customary splitweek program change at nights, are opening their doors with different pictures, with youngster appeal, including reissues, during matinee periods.

Legion of Deceney "Condemned" ratings do hurt a foreign film, particularly when it comes to the type of picture that could be booked into the drive-ins, indie exhib Cy Harvey said last week. He said, on occasions, the ozoners will reach out for an exploitable import but almost invariably they stop short of booking a picture with a "C" rating from the Legion. "They're trying to retain their 'family' appeal," Harvey said.

appeal," Harvey said.

Meanwhile, the Legion last week found only one picture out of five for its A1 (Morally Objectionable for General Patronage) category. Title was "Monolith Monsters." 20th-Fox's "No Down Payment" (with a rape scene) got tagged Unobjectionable for Adults. Ending up with "B" ratings were "Don't Go Near the Water," "Invasion of the Saucer Men" and "I Was a Teenage Werewolf" which, said the Legion, "Tends to give credence to certain philosophical theories whose accceptance can lead to serious moral harm."

David Tannenbaum, prominent film attorney who died Oct. 4 in Beverly Hills, was one of the behind-the-scenes forces in Hollywood who sat in on many of the biggest producer deals. Repping such personalities as Darryl F. Zanuck, Jerry Wald, Don Hartman, Sol C. Siegel, Dore Schary, Arthur Freed, Samuel Engel and Lew Schreiber, he handled legal details in negotiations and conclusion of pacts with studios totalling many millions of dollars. Prior to becoming interested in motion pictures, he was with the Inheritance Tax Dept., of State of California. California.

On the side Tannenbaum was a leader in educational, philanthropic and governmental fields, and in 1953 was named Man of the Year in Beverly Hills by Emanuel Temple. Beverly Hills Chamber of Commerce repeated kudo following year.

If present plans mature, half-hour telepix filmed last week, by Frank Sinatra for his ABC-TV show, guestarring: Bing Crosby, will be distributed theatrically, with part of take earmarked to annual Christinas seal drive. However, plans are contingent on various clearances, especially with unions involved, Sinatra admits. Crosby already has approved idea. Max Youngstein, United Artists veepee, has offered his firm's services for free, to distrib film to theatres. However, Sinatra would like to air the segment for a couple of years on tv, before aiming it at theatres, he says.

Telepic marked Sinatra's debut as a tv director. He also appears in front of cameras with Crosby.

Apart from Okinawa, the U.S. is the biggest customer for Japanese films, reports a Japanese Embassy bulletin, via Hill & Knowlton. The year 1956 saw Japanese films hitting a record in film exports. completed arrangements with Jercoid Electronics Corp. of Philadelphia to bring its equipment to the Concord for a demonstration so that each exhibitor can "learn all he can about the cable theatre." According to Sid Stern, general chairman of the Allied convention, Jerrold will attempt to connect its equipment to the hotel's closed-circuit system so that are wired to the hotel's co-axial system. Milton Shapp, Jerrold prexy, will be on hand to explain the operation of the cable theatre. At the conclusion of the demonstration, there will be an open forum moderated by Herbert Barnett, National Theatre Supply's authority on film and television techniques.

Minneapelis, Oct. 15.
Some exhibitor leaders including Martin Lebedog, the Exhibitor Trade Assn's Twin Cities group chairman, are training their guas again on the Hollywood producers that are releasing their theatre oldies to television. They're urging that these film companies desist from any further extension of the policy.

ing that these num companies uesist from any further extension of the policy.

In their appeal, they're claiming that the tv presentation of so many first-rate pre-1948 theatre features is hurting the boxoffice more than anything else, and the damage has been gaining nomentum.

Lebedoff assails that the sale of these pictures to video has been "shortsighted." He reasons that video-programming, in the aggregate, lacks the stuff without, these feature bictures to satisfy many dyed-in-the-wool movie fans or to lure so many away from the theatres so frequently. In his opinion, the film companies would be realizing much more money from film

the film companies would be realizing much more money from film rentals than their sales to tv have netted.

The fact that most of the pre-1948 tv features boast big stars who still are boxoffice makes them even tougher opposition for the theatres, Lebedoff points out.

Taming Sutton's Gall
and routine humor and aimed for
routine small situations.
Producer William J. O'Sullivan
and director Lesley Selander
haven't bothered to make this one
novel in any way. Two scripters—
Thames Williamson and Frederic
Louis Fox—come up with trite
dialog that may irk even some of
the non-sophisticates,
Cast is adequate, grappling with
the unlikely lines and situations.
Gloria Talbott is a looker with a
refreshing personality that comes
across even in this minor entry.
John Lupton is pleasant. As the
heavy, Jack Kelly is wooden and
vicious without clear motive. May
Wynn is supposed to personify
cheap glamor and Verna Felton, as
a cigar-smoking pioneer type, takes
care of the folksy wisdom and humor department.
Story has bank clerk Lupton arriving in the California back country to do some pheasant hunting.
He has a run-in with Kelly and
boards with Miss Telbott and her
aunt, Miss Felton. He and the girl
hit it off, but Miss Wynn starts
making passes at him, which he
rejects. Jealousy eventually makes
her shoot her husband, who believes it was Lupton who did it.
Inevitably, there's a showdown
fight, and then a gun battle. All
ends well in the end.
Selander's direction is barely
adequate in this day-and-age. Jack
Marta's photography has merit.
Tony Martinelli's editing is okay,
it's the kind of simple-minded,
good vs. evil film that'll get by
mostly because theatres need film.

Based on Charlotte Hasting's play, "Uncertain Joy," this emerges as a run-of-mill domestic drama which will serve as a routine booking for minor houses. It has a touch too much of sentimentality and many situations are implausible. Any draw that it may have must be chalked up to a most appealing performance by a child actor, Colin Petersen, who sprang to prominence in the film. to prominence "Smiley." in the

Richard Attenborough is a schoolmaster, and he and his doctor wife befriend a youngster whose father, a drunken vaude-wille actor, neglects the child and leaves him to rum wild. When he goes on a tour of South America, he reluctantly leaves his son with Attenborough and his wife who try to show the kid a new way of life. But he can't live down his background and despite their kindness he continues to get info scrapes.

One of these is sufficiently serious to get him into trouble with the authorities who order that he should be returned to his father who has returned from tour with a new wife. Little Petersen is again ill-treated, and in self-defense he crowns his drunken father with an ash-tray. Thinking he has killed him, he runs in terror to Attenborough and his wife for a happy ending.

While there is plenty of scope in such a story for a good, meaty the did in an alcoholic fail. So the is adopted by Attenborough and his wife for a happy ending.

Elaborate functional snack-bar concession is also run by the Metro-Valerio partnership, and is showing progressive strength as the snack "habit" grows on Romans—the numerous Yank and other diplomatic contingent showing the way. Rising takes in this sector have so far given a \$350 per evening average, but the figure, a Metro spokesman said, is increasing daily. Hard drinks will soon be added to the current fare, which already includes cokes and soft drinks, coffee, beer, plus warm snacks, sandwiches and hamburgers. remained 30%. Popcorn sales are surprisingly slow.

Opinion is that it will take some time for Italians to change their eating habits to conform to the drive-in setup. Many are still arriving at a traditional Roman late hour, but feeling is that once acclimatized, they will come earlier and eat on the spot. There seems no resistance to prices, which run from 50c from motorcyclists to \$1.30 for driver and car, plus 80c for each passenger, but here again the novelty factor must be considered. Pointed out also that gas expenses involved in the ride from the center of the city must also be weighed by some motor-ists (Drive-In is going up on the way to Ostia beach area, a much-traveled road in summer, but near deserted in winter.) Opinion here is divided on whether the late summer opening was a good thing. On the one hand, people say that it doesn't brand the spot as a strictly summer affair. On the other, observers opine that bad weather may close in before the ozoner has a chance to become a Roman habit, thus postponing a definite verdict until next spring. Metra intends to be introed into each car during the performances. (According to be introed into each car during the performances, while averaging three fog days annually over same span.)

Time will also tell if a grand-stand for summertime motorscooter trade will be needed. Temporary steel one this year proved overdistant from screen and was torn down.

Physical plant of Rome's Drive-In is impressively up-to-date and perfectly organized in every detail, from multi-gated entrance to copious ushering system to play area and rest rooms, from approach to exit, from the giant reinforced concrete screen (100 feet by 60) to the much-heralded billingual soundtrack system, certainly the most interesting and important innovation in the entire setup.

Gimmick works on Yank-made pix only, of course, and consists in spectators being able to choose the English - language dialogue (piped in perfect magnetic synch), or locally dubbed print with Italo dialogue, merely by turning a switch on each speaker bait. The sound system on both tracks is exceptionally good, and generally better than many local first-run situations in tone-range effect. Current shows consist of the main pic, two (Metro) trailers, a Metro cartoon (rarely seen elsewhere), an Italian documentary and a newsreel. This, added to -lengthy intermission times, makes for a long show, but this is no deterrent here, at least according to early indications.

In Pete Martin's current Satevepost closeup on Clark Gable, including a frank and interesting detail on how long it took for Metro publicist Howard Strickling to "agent" the interview, there is this personal memoir by the author which should ever be a reminder to all byliners who may slight the importance of the medium which backs up their identity:

Tomlinson then attempted to place some of the blame for the poor showing of Metro pictures on Vogel. prevent a recurrence of the abuses" which led to the 1948 Supreme Court decision.
Other exhibitors felt the divorced circuit's should have premptive rights only in designated showcase theatres in large cities. Finally, Harry Arthur, of L.A., said he believed "there is a great shortage of product and any means to increase it should be encouraged." But he added that he was "apprehensive over any pre-empshortage or product and any means to increase it should be encouraged." But he added that he was "apprehensive over any pre-emptive rights." Arthur raised the point that pre-emptive rights might discourage, rather than encourage, overall production volume. He said divorced circuits with pre-emptive rights would slough off films of existing studios from their first-run houses, thus causing old line producers to reduce production.

When John Vertero, general counsel for National Theatres, claimed the majors turned out only 255 pictures in 1956, compared with 379 in 1950, a producer spokesman immediately challenged. He pointed out that the 255 pictures was for information and that the full figure for 1956 was 340 films produced.

Vertero said National has 14,000 shareholders and \$50,000,000 in properties. He said his company needs other sources, of revenue to solve its problems. 24th-Fox, from which National was divorced, went along solidly in sppedition to production by the circuits.

A detailed analysis of the future prospects for Britain's picture industry, about 5,000 words long, has been prepared by the Finance and Management Committee of the Cinematograph Exhibitors Assn. Report was inspired by two papers read to the association's summer conference last May by John Davis and Clifford Barclay.

The report suggests that the industry has to face four urgent problems. First is shortage of Hollywood product. The second is falling attendance. Third problem is listed as rising costs while the admission tax takes the rap as the fourth problem.

It admits that a substantial cut

taxation would have little direct effect on falling attendance or rising costs, but would increase the depleted revenue now left with exhibitors. It would also yield a greater return to the producer and could have the effect of raising the level of production.

Because British production has been maintained on a constant level, the report puts the blame for the existing shortage on Hollywood. It believes that this is due firstly to divorcement and secondly to the effect of tele. On the type of film currently available the committee believes that greater concern should be shown by Hollywood in making films for world market rather than the purely domestic one. It was cited that many U.S. pix seem to be aimed at bringing back Yank tele addicts into American theatres, which meant that many of them were less suitable for British audiences.

Cités Sordid Films

The report also stresses the importance of a greater selection of 'U" films (the censor's seal which admits members of the public of all ages without restriction) and warns that too many sordid and unpleasant "X" films (to which under-16's are not admitted) can damage the reputation of the whole

trade.

Without appearing defeatist, the report recognizes that with increasing outlets for money and the hot competition for leisure time, a fall in attendance compared with immediate postwar levels must be accepted. Whether patronage will eventually settle at approximately a prewar level of 990,000,000 or a bit higher remained to be seen. However, it was clearly the duty of the trade to do all in its power to arrest the decline.

arrest the decline.

The committee recognizes rising costs as an accepted part of an inflated economy and has examined the problem by considering where other sections of the industry could effect echannies by re-organization. It's suggested that producers are best able to deal with the problem themselves, but makes this proposal; while exhibitors find this proposal; while exhibitors find visits to studios both interesting and instructive, reciprocal visits by producers to cinemas, not solely in the capacity of audience members, might be even more beneficial.

Backs Up Star System

The report believes the star system justifies its cost as a necessary part of show business, but opines that it would spileve better results part of snow business, but opines that it would achieve better results if stars were more consistently type-cast instead of jumping from one role to another, and thereby gaining no particular following.

On distribution, the committee believes there's room for economy, but does not feel qualified to make but does not feel qualified to make detailed suggestions. It draws attention, however, to a number of existing, customs which militate against maximum revenue being obtained. Among these are the delays in making threeday bookings, an item which had been discussed separately at the council meeting. The committee believes that on the exhibiting side costs have been held down to a greater extent than

In more general terms, the report takes a slam at the proposed European trade area, if that were to result in an increase of subtitled and dubbed foreign films. Further, it observes that any sug-Further, it observes that any sug-gestion that exhibitors should be called upon to show this type of film under some form of quota sys-tem would receive strong opposi-tion. The committee would welcome the free trade project if it resulted in an increase in the supply of acceptable films made under some co-production arrangement.

According to the analysis, one of the urgent problems facing the industry is to save the large number of theatres which, for economic reasons, are threatened with closure. The committee has rejected a redundancy scheme which was advanced at the summer conference, but feels that some theatres could be saved if distributors cut their rental terms.

Instead of the present minimum According to the analysis, one of

their rental terms.

Instead of the present minimum hire charge of 25%, the committee proposes that distribs should make their product available at a figure only slightly in excess of the bare cost of servicing. It is recognized that acceptance of this principle would involve a "greater degree of mutual trust between distributor and exhibitor than now exists."

If there's no format to the show, there is a point of view, however. Houseman feels all the shows, while dealing with the lively arts, must be "hot" items of current interest. "The Proclaimers," the upcoming show on evangelism, might have been thought of for the series if there were no Billy Graham, but in light of Graham's record-breaking New York "crusade," it's a must on the agenda. Deal is still in the negotiating stage, principally because the CBS agenda is so crowded at the moment that the web has to find time slots for the shows. Originally, Canada Dry and CBS were talking in terms of five of the specials, but the web has found that it can't clear for that many and is going back to the softdrink firm with the idea of doing fewer, possibly three of them. Web's lineup at this point-is so crowded that it had to let the Bell Telephone science specials go to NBC.

At the same time, the web's other participating program, "To-day," is also increasing its sales via solo buys plus combination deals with "Tonight." Station lineup for "Tonight," at the same time, has now reached the highest point ever, with a total of 76 stations carrying the show. Since the Paar format got underway, NBC has added 10 stations to its lineup. Last week, the web picked up the following: WSOC-TV, Charlotte; WINR-TV, Birstol, Va-Tenni, WCYB-TV, Erie; WLEX, Lexington, KV, and WTVO, Rockford. Earlier, web had picked up WSM-TV, Nashville; KSD-TV, St. Louis and WHDH-TV, Boston.

DECLINE & FALL OF THE EAST

Kintner: A Year Later

It was one year ago last Thursday (10) that Bob Kintner was "voted out" as ABC prexy by Leonard Goldenson and the parent AB-PT board of directors. In the interval, since assuming the program-sales stewardship at NBC, he has surrounded himself with most of the key associates that served under him at

As one half of the Bob & Bob (Sarnoff and Kintner) team heading up the NBC operation, Kintner's role in spraying the tv network with some Trendex stardust this semester is hardly an industry secret. A year ago NBC was struggling to maintain No. 2 position over ABC. Thus far this season the "Bob & Bob" combo has moved NBC into a s rong competitive position with Columbia.

Between Fishing, Robt. Sarnoff Talks of Pay-TV, Tint, New Season

Houston, Oct. 15.

Pay television is a threat to free television, lack of competition has kept color tv from moving faster than it has, and the current tv season should be the medium's most exciting ever. This according to Robert W. Sarnoff, NBC president, a visitor here, who was on a fishing trip at Aransas Pass.

trip at Aransas Pass.

The fishing trip was combined with an informal meeting with the heads of the four NBC Texas affiliates, Jack Harris, of KPRC-TV here; Hugh Halfi Jr., of WOAL-TV, San Antonio; Harold Hough of WBAP-TV, Fort Worth, and T. Frank Smith of KRIS-TV, Corpus Christi.

"We don't think free tv and pay tv can survive side by side." Sar-noff said. And pay-tv, he believes, would be the survivor, if the two joined battle. Pay-tv, he said, has promised many things which free tv already is providing.

"Last week you had the World Series, the Michigan football game, Perry Como . . And CBS had some big shows, too. All free. I think that would be no longer free" tif there were a way of charging for programs of this sorp).

Of color television, Sarnoff said: "NBC is doing everything humanly possible for color. if some other manufacturer would start manufacturing sets, it would move faster. We have always had to go it alone. We would more than welcome competition."

We would more than welcome competition."

Sarnoff believes that color television would take hold if more people were able to see it and therefore be impressed by it. The two main problems, he said, are giving viewers a chance to see color telecasts and getting more manufacturers to make color receivers.

"NBC already has more than enough programming to justify an individual buying color set," he said. And there is no point in waiting for a cheaper color tv set.

"It will be a long time before the price comes down," he said emphatically. "In fact, it may go up. Costs are increasing."

Last week, North American Philips Co. (Norelco shavers) worked out a deal under which it will pick up sponsorship of "\$64,000 Challenge" on Nov. 26 and Dec. 10, relieving Revlon. In a smilar situation, Seven-Up bought one-time half-sponsorship of "Wagon Train" on Dec. 11. And Van Heusen shirts is negotiating to take on three alternate-week "Restless Gun" segments on NBC. In the latter case, deal isn't assured, since Warner-Lambert has expanded its sponsorship on the show from alternate weeks to every week through January.

every week through January.

Most of the relief deals are seasonal, -with advertisers who depend on the Christmas trade (such as Norelco) trying to get in with short'ermers during the shopping season. Similarly, the heavy Christmas advertisers who are on a regular sponsorship basis usually welcome relief after the first of the year. Hence the possibility that Florida Citrus Commission will take over Remington Rand's "What's My Line" slot for two or three shows in January, when Remington sales usually slacken off.

Three major distributors now are negotiating with Charles Antell, Inc., and its agency Paul Venze, for the licensing of telefilm, feature and cartoon properties. Among those distribs with whom talks have taken place are Official Films, NBC Film Sales and Television Programs of America.

Hazards of Location Shooting

Shooting in New York for location footage can have its headaches, as attested by Dick Irving, Revue Productions producerdirector on MCA-TV's "Mickey Spillane's Mike Hammer."

With the series accented on rough and-tough private eye meller
stuff, there were a number of instances of brushes with the real
life gendarmes and passerbys who thought they were witnessing
the real thing. One woman in the downtown area screamed murder when she saw a parked passenger car being held up; teenage
girls in another area ran for the cops when they saw some extras
roughing it up in a parking lot; New York's Finest stopped a number of requisitioned cars with phony license plates; etc.

All of which probably accounted for two boners in the footage.
In one scene, a girl extra called for police, only instead of using a
police call box, she made the call on a fire box. In another shot, a
New York police car is tagged with New Jersey plates.

Horror Pix for Webs a Poser

Socko ratings registered by Screen Gems' horror features in the past two weeks will almost certainly be reflected on the network level next spring as the new horror series production cycle reaches full bloom. As of the moment, there are four such thriller series in the works, "Baron Frankenstein," being done in London, "Tales of Frankenstein," starring Boris Karloff and out of the Screen Gems hopper, an "Invisible Man" series being prepped by Screen Gems, and a series based on Madame Tussaud's Wax Museum and Chamber of Horrors by Robert Siodmak. As word gets around on the ratings pulled down by the horror features, there will undoubtedly be additional series entries.

While sponsorship acceptance on the Screen Gems "Shock" features has been good, national sponsorship poses some unique questions. Namely, the horror films would first of all violate the Television Code if produced in traditional thriller fashion, and secondly, would arouse the various to "policing" groups who normally object to violence.

If sponsors do buy the made-for-tv horror stuff, the result will be watered-down versions, thematically inclined to horror stuff but in specific footage eschewing the scare scenes. What this may do, however, is to so weaken the programs themselves as to destroy their uniqueness, and make the anticipated horror cycle one of the shorter trends in television annals. Film Directors In N. Y. Gain Sanction Of Producers Org

The newly-organized film directors of New York have been rec-

The newly-organized film directors of New York have been recognized by Gotham producers. Film Producers Assn. of New York has agreed to negotiate shortly with the new Screen Directors International Guild.

A spokesman for the Guild, which claims a membership of 260 directors (all but an estimated 10% of New York directors, according to the SDIG), said that both sides are formulating their demands and that their respective lawyers are already meeting to do preliminary work.

SDIG was formed as an independent union on Sept. 7 this year, after months and months of negotiating with Screen Directors Guild on the Coast and the Radio-TV Directors Guild here. Group's spokesmen also investigated the possibility of joining other unions. It wasn't until shortly before Sept. 7 that it was clearly decided to go ahead without the support of an established union.

New York film directors have never before be en organized. Though indie, SDIG is going to pattern many of its demands along the lines of the SDG contract on the Coast. A minimum of \$150 a day for freelances will be asked of FFA, whose 32 member companies primarily make commercials and industrial films.

the ratings pie two ways in the period.

WNBQ, the NBC-TV outlet here, dealt from the top of its newly-acquired United Artists package with "African Queen," the Humphrey Bogart-Katharine Hepburn starrer. Against it, Jim Moran's "Courtesy Theatre" on WGN-TV (which once had Sunday evening all to itself and was then the high-est-rated show in town) pitted another Bogart biggie, "Casablanca." WBBM-TV, deeming it wastfull to go with a blockbuster against these odds, essayed a sleeper play with a Bela Lugosi chiller, "Mark of Vampire," with which it hoped to skim off a fair share of the morbid and curious. And WBKB pitched in a tuner of 1944 vintage, "Something For the Boys," with Perry Como's name on the marquee.

There were several reasons why There were several reasons why this was a momentous scrap locally: (1) it occurred on a rating week; (2) it tested the potency of high powered, high priced firstrun firm against top-rated network and local shows; and (3) it happened on the so-touted "biggest viewing night in tv history," with three and a half earlier hours of spectaculars promising to increase drastically the sets in use.

promising to increase drastically the sets in use.

Stations hope to learn other things from the Sunday night showdown when all the ratings are in. For instance, WNBQ, which showed "African Queen" in color, may learn how much an asset tint may or may not be in the film wars. From WBBM-TV's chiller, the stations may get an Index to the value of Screen Gems "Shock" and AAP's "Horrors" packages, which are still up for sale in this market. And in coming weeks, the Sunday night film brawls should settle the question of whether or not the three (and sometimes four) way battle of blockbusters will increase sets in use or whether the stations will merely be divying up the same audience more ways.

To WNBQ the past Sunday's applications with the stations will merely be divying up the same audience more ways.

To WNBQ the past Sunday's showing could have other, private consequences. The NBC-TV outlet's "Movie 5," a spot carrier, is now sold out for the first time since it began last Feb. 17. Sta-

Los Angeles, Oct. 15.

Unauthorized appropriation of the property "Bachelor Father" was charged to MCA, Revue Productions, Bachelor Productions, Bachelor Productions, CBS and American Tobacco in a \$200,000 Superior Court suit filed by writers Jay Sommers and Don Nelson. Action also seeks declaratory relief and an accounting.

Sommers and Nelson contend they submitted a "Bachelor Father" script to MCA which was to act as their agents. Subsequently, according to the complaint, MCA assigned it to Rovue and the series was made and sold to CBS for American Tobacco sponsorship.

Complaint alleges that the original script involved a wealthy young bachelor and the manner in which his "unfettered" life is changed by the arrival in his household of a 14-year-old girl.

The shortened 5:30-6 "MMC" is also doing well, with a 10.1 rating versus CBS' (using various programs, either local or network) 5.9 and NBC's (on same program basis) 4.3. Both NBC and CBS have improved slightly over last semester, while "MMC" on ABC has remained essentially at the same addience level.
"American Bandstand," on ABC from 3 to 4:30 is shead of the competition, by nearly one full rating-point. However, the 4:30 to 5 strip on ABC, "Do You Trust Your Wife?" is n.s.g.

No Prostie Pix For KNXT, Yank WB Oldie

Hollywood, Oct. 15.

KNXT has no room for dramas about prostitution. Local CBS-TV outlet yanked scheduled "Marked Woman," Warner's oldie starring Bette Davis, Saturday night because it didn't meet station or NARTB standards.

Another Davis vintage film, "Dangerous," was shown instead. Editor Wes Elliott had eyed first that of Maria Market of it just before airtime and nixed it.

Not Only Beautiful But Rich

Hottest television property of the year is a strictly-from the-left-field event, the annual Miss America pagean. As of last week no less than three major advertising agencies were making inquiries as to how they could get television rights to the event. Answer, of course is that they can't, since Philoc Corp. has the rights locked up air ight under a longterm pact, but the interested agencies haven't given up on the possibility of competing for it yet.

Reason for all the excitement, of course, is the rating the page in pulled down on CBS-TV, drawing a 42.6 ARB rating, some 15-6 9 homes and 40,000,000 actual viewers. Pageant has been to for some years now, but until this past summer via Ak. V, with satisfactory but unspectacular results. The first time on WCBS-TV, it wowed 'em in terms of audience.

One advertiser highly interested in acquiring full rights is Pepsi-Cola, which already has a tie-in with the pageant and the Mrs America promotional tours. Another interested advertiser is the Toni Co., never at a loss in making shrewd cost-per-thousand buys. In the third case, a large agency has been making quiet inquiries for an unnamed client.

Cultural & Educ'l TV Projects in 3-Way Bow Under META Auspices

Without much fanfare and hosanahs, the Metropolitan Educational Television Assn., is providing a unique service to the New York community, with its four-and-a-half hours weekly live programming schedule, soon to be expanded another half hour.

The programs being offered are "Problems of Everyday Living," the title explaining the nature of the panel show; "The Living Blackboard," aimed at enriching the school curriculum of children of varied age levels; and "META Presents" designed to acquaint New Yorkers with many of the city's cultural and educational centers.

WPIX, N.Y.

A sampling of each of the shows evidenced interesting form ats, knowledgeable participants, good technical craftsmanship, and a spirit of inquiry, all in all, qualities which are in the best traditions of public service programming. The nature and the quality of the programming should redound to the benefit of WPIX, the New York Dally News indic which is lending its tv facilities, going on the air earlier in order to accommodate META.

Not that there weren't wesk-

Not that there weren't weaknesses in each of the shows sampled; some parts were too static, a. few of the participants could have handled themselves better. But the faults that were in evidence were minor compared to the overall impression, the presentation of interesting material for adults as well as children, in an interesting manner.

Hefiner also is host on "Problems of Everyday Living," telecast Mondays, Wednesdays and Fridays at 11:30 a.m. On show caught, (9), the spotlight was on pre-school and kindergarten children, their fears in relation to going to school, in leaving their parents, in encountering bullies, etc. Panelists included Dr. Rose Franzblau, columnist and psychiatrist; Lawrence Goldstein, school psychologist with the board of ed, and a PTA mother. The flow of ideas were kept at a lively pace, the talk was down to earth, and the content could be used to advantage by any mother. The participants handled themselves ably.

U.S. Steel Hour
A sprightly score by Anne Croswell and Lee Pockriss converted Oscar Wilde's "The Importance of Being Earnest" into a pleasant musical on "U.S. Steel Hour" last week. The musical had its short-comings—primarily because in the hour's length, there was little room for anything but bare plot and the musical numbers—but within its limitations it proved an enjoyable hour.

ilimitations it proved an enjoyable hour.

Miss Croswell's adaptation, as aforenoted, left little time for anything but the plot outlines, leading to the conclusion that the treatment might have been better for a 90-minute show than for the one-hour route. But her sharp and lively lyrics compensated in part for the Wilde wit omitted from the adaptation and Pockriss' tunes were lively and melodic, fitting the mood and setting of the play.

Best of the numbers was "A Wicked Man," the showcase tune for Dorothy Collins which she handled in fine style. Martyn Green and Nydia Westman had a fine comic number (that could have been expanded or reprised) in "Metaphorically Speaking," and Miss Collins and Louise Troy had a lively patter number in "My Very First Impression."

Unfortunately, the performances

al lively patter number in "My Very First Impression."

Unfortunately, the performances weren't up to the musical par of the show. Edward Mulhare was fine in his speaking role as Algernon, but his singing and acting end—this stint should open more doors for her in ty for dramatic and musicomedy roles. David Atkinson and Miss Troy, as Worthing and Gwendolyn, were too subdued, Miss Westman as Miss Prism was fine and Green as the vicar had too small a role to do him credit.

David Alexander's direction of the action and music was surefooted and firm, guiding the show evenly and quickly; if his direction of the performances had been as good, "Who's Earnest?" would have had more of a hit quality. Other production credits, particularly the conducting of Ralph Norman Wilkinson, who let the singers sig their piece without sacrificing the impact of the accompaniment, were fine.

Youth Wants to Know

Youth Wants to Know "Youth Wants to Know" and Mike Todd sure told them this past Sunday over NBC-TV in pure Mike Todd. No subtleties. It was straight-from-shoulder stuff in a curious blend of Lindy's-Brown Derby - Brill Bldg. - Romanoff's patois. Everything was a "script"—the American way of life to Russo relations.

Todd's pride as a showman was ever to the fore and there was no equivocating on certain platforms, such as the query, "What single element do you think the most important in a show or production?" Without hesitation Todd summed it up in one word: "Entertainment." He had views on budgetitus, card-carrying writers and such; "color crit get in the way" of a film production, "don't stay too long with anything till it gets chronic" din answer to his split away from Cinerana); "the very nature of show business is change". "like Samuel Goldwyn I'm never through with a show" (referring to its followup selling", on writers relations, "with me it's always better if the authors are dead," in reference to his balloon intrusion into the Jules Verne "30 Days" classic; his gala parties which have a habit of "sneaking out into the press"; from the Reds to comediennes to scandal mags if was pure, unhibited Mike Todd. On "producing what you like versus commercialism," Todd observed, "if you do what you like wersus commercialism," Todd observed, "if you do what you like wersus commercialism," Todd observed, "if you do what you like mad it comes out how and he told 'em in not-so-purist language but they and the NSC lookers rarely had as bouncy a half-hour.

Steve McCormick was moderator of this marathon-run Theodore Cranik Sunday afternoon stint and could have telephoned his stuff over—Todd was in command all the way and the kids seemingly ate it up, including when asked "what age for showmen?" and he tobserved, "Some of you might be too late and some of you are too young yet." The showman doubled that night as stand-in for Dorothy Kingallen on "What's My Line?" while the N. Y. Journal-American staffer was "covering"

drama and just about wrecks a family that befriended her. Such a dish was served up by CBS-TV's "Climax" with all the sinister trimmings and in the idiom of this series must have passed muster with the home viewers. It had moments of high drama that were skillfully controlled by Pau'l Nickell's direction. The psychological shadings tensed teation and gripped the interest.

Play opened with a melodramatic suddenness, a piercing scream and a sock on the Jaw that set up the ensuing action and main-springed the entire movement. Steve Forrest, a rugged-type Tab Hunter, delivered what he believed to be a lethal blow and took upon himself the responsibility of caring for the victim's widow confined to a wheel chair. Talk about stirring up a hornet's nest. With the diabolic cunning of abject frustration, Jan Sterling dragged the dregs of her bitterness to vent it upon Forrest and his wife, Nita Talbot, after dispatching her husband to a tragic death.

When her attention are spurned was participating in a luau (transwap a participa

death.

When her attention are spurned by Forrest, she proceeds to wreak her vengeance. To turn him against his wife, she even sought to poison herself and shift the blame on Miss Talbot. When that didn't work she weakened a railing and sent Miss Talbot sprawling to an almost fatal drop. Still in madened rage she makes one last attempt to win over Forrest but a little investigation on the side by Paul Stewart dooms her little game. It finally dawns on Forrest that it was the fall downstairs that killed Sterling's husband, Herbert Patterson, and not the blow when he drukenly barged into his wife's bedroom. The police took her away and that ended her orgy of crime. From Miss Sterling and Forrest was drawn sensitive acting of opposite types by Nickell's direction. Miss Talbot and Stewart were able abettors and the four star-sharers gave John McGreevey's tight script a bursting head of steam. To work up such a hate for Miss Sterling is the plus that belongs to Nickell. When her attention are spurned

Playhouse 90
Tad Mosel's "The Playroom" on "Playhouse 90" last week was a confusing exploration into the subconsciousness of its various characters, a talky drama which held only spasmodic interest. Trouble with Mosel's story is all his characters seemed to be bewitched, bothered and bewildered; the Freudian maze crisscrossed so often it was impossible to comprehend the characters.

and bewildered; the Freudian maze crisscrossed so often it was impossible to comprehend the characters.

"Playroom" has a deceptively simple beginning. A Connecticut widow is picked by a mag äs mother of the year, and to celebrate she has a family reunion. One son is a w.k. criminal attorney; the other an educator; a daughter, an actress. The attorrey, it develops, is a bitter, cynical rat whose idea of good clean fun is to verbally jab at everyone, including mom. And he's not above making a pass at brother's wife, a onetime gf. Daughter is a mixed-up gal who thinks she's killed her husband in a fight, until he shows up alive. Educator son seems fairly normal, but he's rightfully concerned about his wife and brother. Eventually it evolves that the lawyer-son is suffering from a bad case of momism, and when he and a murderess he has freed eventually discover they love each other, lawyer makes clear he wants her mainly as a mother. So the femme arranges a car ride in which she and the heel are killed. News of son's death comes to mom as she's receiving her award at a banquet, and she tearfully toasts her kids.

she's receiving her award at a banquet, and she tearfully toasts her kids.
"Playroom" contained so me corny dialog as well as implausible characters, and while it was all supposed to symbolize something or other, to the viewer it only symbolized confusion. Tony Randall coped as best he could with the unrealistic characterization of a w.k. lawyer who wants his momma; Nina Foch drifted in and out of the fog as the murderess; Patricia Neal was good in her actress role; Marilyn Erskine, Charles Drake and Mildred Dunnock performed well within the confines of the soggy script. Direction by Franklin Schaffner was stymied by the story.

Val Parnell's

Saturday Spectacular

Val Parnell's "Saturday Spectacular" is the top vaudeo weekend feature aired from London and the latest edition, with a cast headed by Allan Jones and including Leo de Lyon, was up to the familar standard.

Jones devoted a large slice of his air time to a reprise of a selection of the hit songs from Rodgers and Hammerstein's "Carousel" and provided a narrative link to explain the sequence. Although admitting to a heavy cold, he was in good voice and did ample justice to a number of other songs, ending inevitably with "Donkey Serenade."

"Keep It In The Family" is a manufacturer's delight. For a donation of "prize merchandise," the manufacturer gets the kind of high-powered plug that will mini-mize his cost-per-thousand if the quizzer grabs an audience. This, however, is doubtful.

Format of the show pits a family of five against another family of the same number. The families bid for the question and if each member of the family answers correctly the loot is won. When 350 points are accumulated (from the number of bids) one family is Eliminated and other comes up for a try at the prizes. It's a simple gimmick but it doesn't attract much viewer interest unless the overlong blurbs on the loot have some appeal.

Hottelet news strips.

Deal was set via D. P. 60 Mins., Sun. (13), 5 p.m.

CBS-TV, from N. Y.

Considering the basic issues which the struggle between the French and the nationalists in Algeria poses for the United States, this whole area has been given insufficient attention on the air.

CBS-TV, coming up with the kind of searching reporting rarely found filled the void last Sunday (13) when it presented "Algeria Aflame."

when it presented "Algeria Aflame."

Hour-long report, replete with on-the-spot footage and commentary by CBS newsmen, brought the Algerian fighting down to the understandable, human level. It was as fair as such a program can be, everyone being scrupulously concerned with retaining the property balance. Yet, despite the obvious role of the "neutral," CBS' commentators managed to make some salient points and, if anything, they helped to point up the difficult position of the U.S. which, as Eric Sevareid observed, has no position.

The Algerian war is costing the French \$3,000,000 a day. It has already cost vast number of casualties, both civilian and military. It is a war that seems to defy solution. And, as one Arab on the program warned, if it is allowed to go on for too long, the Soviets may well take a hand.

well take a hand.

Some of the footage obtained for this show, particularly by Frank Kearns and cameraman Yousef Maraff, who spent considerable time with the rebels, watching them being trained and seeing them go into action, was nothing short of sensational and helped bring alive the kind of personalities involved, and the reasons for their being there. there.

there. David Schoenbrun gave a good picture of life in Algeria under this undeclared war. He showed people going about their daily tasks, knowing that any moment terrorists may toss a bomb; he showed a cafe bombed out, and how French farmers turn their farms into forts. But perhaps most revealing was his final short interview with Robert La Coste, the French minister general, in which the latter asserted that the vast mass of Algerians do not wish in dependence and would make a mess of it if they had it.

mass of Algerians do not wish independence and would make a
mess of it if they had it.

In this respect, the show lacked
one facet. It did not come through
with what the average Frenchman
thinks of Algeria and whether he
considers it worth fighting for; nor
did the Sevareid commentary ever
bother to mention the reaction in
France to the statement by Sen.
Kennedy of Massachusetts, in
which he called on the French to
give Algeria its independence. Algeria was of course, the foeal point
of the report, but it can't be divorced from the rest of the world,
and a short French, or even U.S.,
reaction would have been helpful.
A great deal of careful work
went into this well put together
and smoothly paced show. Perhaps, there was quite a lot of
Kearns' footage just showing Algerian nationalists going through
various routines and climbing in
and out of ravines, but considering
the trouble 'Kearns went to get
the shots in the first place, this
is certainly logical.

A lot of credit must go to producer Edwin P. Hoyt and his various assistants for making this more
than a mere pletorial report with
sensational angles. With the films
went sound, inclsive commentary,
For once, television expressed opinions, founded on the facts discovered by the reporters. Thus, it was
interesting to hear Kearns say
that, to the 'Algerians, the U.S. is

Walt Disney's "Zorro" is not another adult western, although at
first it seemed as if that were the
direction Disney was going to take.
It is strictly for kids—the "Lone

The initial half-hour telepic,
"Presenting Senor Zorro," was a
jam-up of vim, vigor and dash. It's
no-girl horseplay in the grand

The obvious tactic is to get the gradeschoolers in control of that set. Thursday nights at 8. Yet for the most part this \$500,000 production added up to pedestrian fare. The Mayehoff "management consultant" report, despite all the standard Mayehoffisms, didn't quite make it; the Champions offered little in the way of refreshing or novel choreography; the Durante-Bert Lahr teamup, which should have been the show's standout comedy segment, suffered from lack of appropriate material; Duke Ellington was too concerned with selling his Shakespearean-themed "Such Sweet Thunder" album; Jane Powell's Paristan turn (with a brief intro by columnist Art Buchwald, who was flown over from Peris for the 60-second quickle), was more distinctive from the scenic designers' viewpoint than the star's contrib. "Just about the most important business in America ... the education of the future citizen."-United States Department of Health, Education & Welfare.

The NBC Owned Radio and Television Stations are now engaged in a 6-week know your schools project, exploring on an unprecedented scale the educational needs of their home communities.

Essentially a local level operation, with active support from school boards, Parent-Teacher Associations, colleges, and other local organizations, KNOW YOUR SCHOOLS is also receiving full cooperation from the U.S. Department of Health, Education and Welfare, the U.S. Office of Education, the National Education Association, and other national groups.

The NBC Owned Stations are using their highly successful IMPACT PUBLIC SERVICE technique to probe problems like: overcrowded schools, underpaid teachers, inadequate financing, deficient curricula.

They are developing special programming: panel shows, interviews, talks, feature events, contests, and documentary dramas.

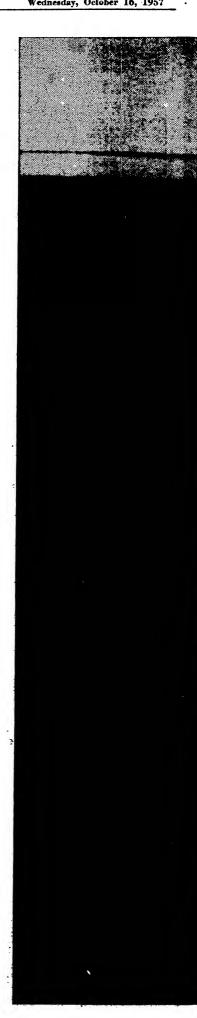

They are contributing talent, facilities, and a total of \$1,000,000 in air-time - 200 program hours, 3,000 public service announcements.

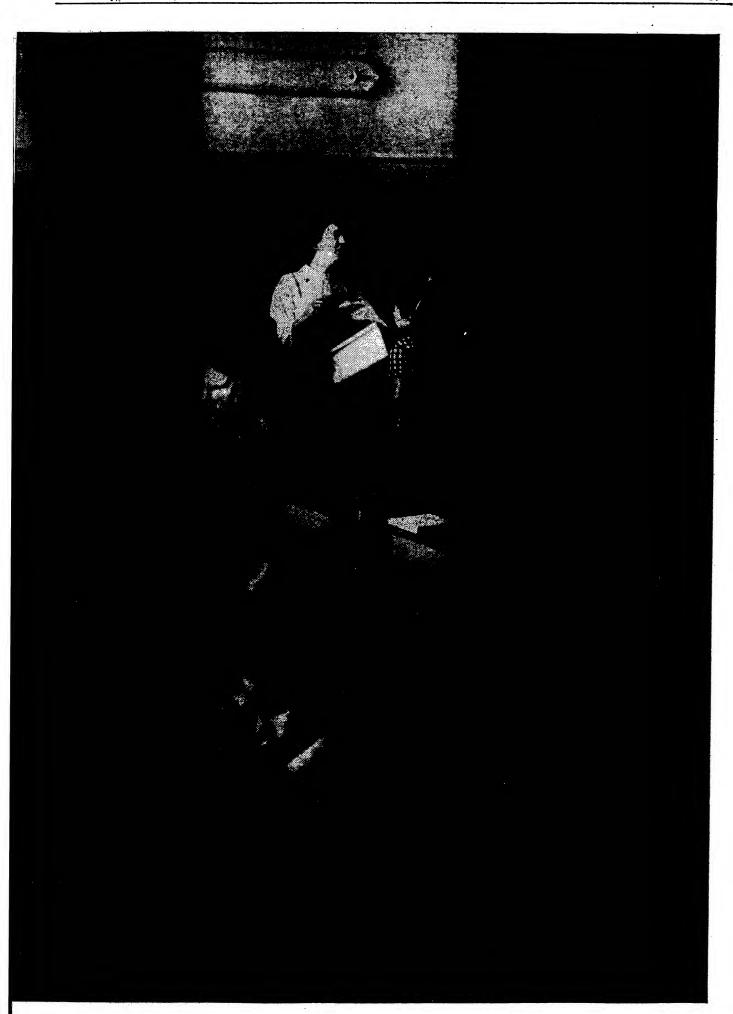

The objective, in the words of Marion B. Folsom, Secretary of Health, Education and Welfare: to stimulate "better citizen understanding of the schools." And, beyond that: to foster productive solutions, and to inspire concrete community action.

When this six-week project ends during American Education Week in mid-November, NBC will make a full report, documenting the techniques employed and the results obtained. NBC hopes its know YOUR SCHOOLS project will serve as a blueprint by which local stations in other communities will help solve one of America's most fundamental problems.

How general will be the acceptance of non-tournament golf on tv should be indexed by this series after it has run a while. On the face of it, the guess is good that the game's growing number of aficianados will get their off-season kicks vicariously from it, and even the non-addicted should find it fascinating the way the pros make golf look easy. As for viewers golf look easy. As for viewers who've never tried the sport, the game's objective is simple enough,

game's objective is simple enough, the playing easy to follow, and certainly the atmosphere and scenic decor of the links are pleasanter than the gridiron, diamond or bowling alley.

These plus factors loom even bigger in the production excellence of this series. It's a neat trick to squeeze 18 holes of golf into the space of an hour without making it seem hurried or crammed, and the film editing even availed time for interviews with the players. The camera work could hardly be better considering it's virtually impossible to follow a golf ball in flight from the tee.

possible to follow a golf ball in flight from the tee.

Chicago auto dealer Pete De Met, who started in television as a sponsor of local shows and became a producer of tv films three years ago with the "Championship Bowling" series, has produced these 28 golf episodes at a reported cost of \$750,000. It's evident De Met hasn't stinted on the footage, although the talent comes cheaply enough, considering it's a network show. Winner of each match gets \$2,000 and the loser \$1,000. Bonus of \$500 is paid for an eagle (there were none in the initialer), and \$10,000 is the reward for a hole-in-one, but these aren't likely to occur often in the series.

Opening match pitted Ed (Porky) Oliver against Julius Boros and found the latter shooting a fancy 63, three under par, yet not good enough to beat Oliver's 62 which broke the competitive course record at Phoenix Country Club where the starter-offer was played. It was a break for De Met's series that the first match was such a beaut Oliver becomes defending champ in the second chapter. Jim Britt's narration was lucid and never overly dramatic, and it gave insight into the players' techniques and golfing styles. Game moved quickly, averaging about two minutes per hole. Limitations of the camera were commensated for in diagrams of each hole, showing the distances and handicaps of each and the positions of the balls after teeoff. Director Sid Goltz diled the cameras in for extra curricular color, facial expressions of the players, their measuring of the green, and attitudes of the onlover. TV on Television Playhouse, it
emerged as one of the most adult
and serious plays yet presented on
the commercial web. Direction by
Silvio Marizzano maintained a constant level of suspense and tension.
"Thunder on Sycamore Street"
is an essay on mob law and, according to the author, was inspired
after seeing newsreel pictures of
white residents stoning Negroes in
front of their homes on a new
housing estate near Chicago.
The play, a courageous yet terririying indictment, was developed
along unusual lines. Each of the
three acts opened in identical fashion, introducing the three main
characters — the rabble rouser
(Gareth Jones), an unwilling accomplice (Peter Dyneley) and the
victim (Earl Cameron). In turn
each act showed how the three
families spent their last few minutes before the riot began.
The first became so elated he decided to take his two children
along for the fun; the second found
he was no match for his determined wife, who was afraid of being different from her neighbors;
and the Negro resolutely made up
his mind to stand firm. The
moment of climax made taut drama,
but the retreat of the white was
somewhat out of character with the
mood of the mob.
Nevertheless, it was a fine and
praiseworthy effort, sm o o thly

If you want to shout about a show, the man to get to do it is ex-Regimental Sergeant Major Brittain, a recently retired soldier in the British Army. That's who Jack Hylton, who presented the program, called in for this offering to yell out the title. But though the show had several really high spots, it depended too much on Alfred Marks to carry it through, for there to be much else to shout about.

Affred Marks to carry it infough, for there to be much else to shout about.

The star is a versatile comedian with a good singing voice, who knows how to get the best out of tv. In several sketches he switched roles which varied between a cockney, Othello and a Russian Count and brought laughs easily in each. Paddy O'Neil, his wife, who, too, can hold her own in the comedy stakes, provided the only sound support for the comedian, although the rest of the cast included some big British star names. Marks' now standard rendering of "The Flea Song," was up to operatic level, and still registered well after many past performances. Lucille Mapp, who also contributed to the vocalistics, gave out with a bluesy version of "I Want A Sunday Kind Of Love," nicely backed by the Steve Race orch.

"The Army Game" is a weekly series about life in the British Army seen through the eyes of a bunch of privates who are constantly led into hot water by their corporal, Michael Medwin, who's never stuck for a bright idea. Its appeal naturally enough, is with British audiences.

Comedy content of the show is high, but only in a specialized direction—to those who've served in the British forces. William Hartnell was as convincing a Sergeant Major as the real thing in the show actualth, and Geoffrey Sumner as the scatterbrained Major was good. The show sets out to be a good natured satire on the Army and more than succeeds.

know when and how to brake it. The Tracey plug, could have been done—but up to a point. And the plug would have been pardonable—and understandable. But when Edwards gave it the "hard sell" that he did, not once but two more times, it only resulted in two things: it made Mr. Tracey, who has a book due coincidentally, not look as benevolent and noble the knight in shining armor, and from the show's viewpoint it impinged on the warmth and genuineness it has been successfully imparting for more than one television season. Where the pattern is cut from an aura of integrity this type of show can only do itself a disservice by injecting gimmicks, no matter how necessary the rating hypo may be. necessary the rating hypo may be. Seemingly the westerns, or whatever, have made their impact on "\$64,000," and now there's an audience-participation g im mi c k, based on a postcard raffle system, which is palpably primed to cement looker-inner interest. Twice before the entrepreneurs were successful in varying the theme (1) by creating a completely independent project called "The \$64,000 Challenge," a sort of alma mammy corrollary; and (2) evolving a formula for extending the basic 64G winnabs to go for a double, triple and quadruple jackpot, ranging in sequences from \$128,000, \$196,000 and the ultimate of \$256,000. That's solid showmanship based on the show's prime appeal—solid That's solid showmanship based on the show's prime appeal—solid cash. Hal March's charm-boy conferenciering notwithstanding, the "star" of these shows is still the Manufacturers Trust Co.'s coffers for the contestants. But the extension of the now cliche Benny gag—trimming the sponsors into a free ride coast-to-coast and ending on his trademarked miserliness by insisting on the 64-buck payoff, is a trite niggardly joke that beis a trite niggardly joke that be-littles a giant jackpot show. Even the studio audience wasn't hysterical about it all. Much like the Edwards of yore,

cal about it all.

Much like the Edwards of yore, when he put on a slick pitch, was the salute to the Ziegfeld Girls Club, personified by its prexy, the once Ziegfeld "glorified" showgirl Gladys Feldman (Mrs. Horace Braham), with Billie Burke Ziegfeld also personaling on the show. She's honorary president of the humanitarian organization. Ed Wynn did a Hollywood pickup salute, and the parade of the yesteryear beauts, not all wearing well with the years (financially and physically) pointed up the terrific job Miss Feldman is doing, as is w.k. intra-trade, im succoring the former Ziegfeld girls. It's noteworthy also that the still active or semi-active alumnae are professionally sleek, and of course, prosperous looking, viz., Miss Burke, Norma Terris (Wagner), and an ensemble group of apparently well married choristers still retain their handsome fronts.

Exhibs Threaten Embargo on Ealing Pix If Brit. TV Deal Goes Through

A five-year old resolution, threatening an embargo on the product of any producer or distributor who sold entertainment films to television, may be invoked against Ealing Films if they proceed with their franchise deal with ABC-TV. as reported in Variety last week.

The matter was raised as a fixed as a fixed was raised was a fixed was raised as a fixed was raised was was

with ABCTV, as reported in Variety last week.

The matter was raised as a matter of urgency at the general council of the Cinemotograph Exhibitor's Assn. by the president, George Singleton, without appearing on the agenda paper. He said that he had first heard of the negotiations a few days back and had taken the initiative of discussing the matter with Sir Michael Balcon and Major Reginald P. Baker, the two Ealing toppers. According to the CEA prexy, Balcon had defended their action on the grounds that the accruing finances could be used for future productions. Subsequent talks have also been held with Sir Philip Warter, the Associated British president.

There was almost a unanimous reaction strong exhibitors at the council meeting for firm action by the CEA to prevent the deal. Many drew attention to the fact that exhibitors were supporting the production industry by means of the Eady levy and a number of theatre owners described the Ealing action as a "disgraceful thing."

The original resolution not The original resolution not to trade with companies who made their product available to tw was passed at the Association's summer conference in Llandudou in 1952 and during last week's debate Cecil G. Bernstein (attending as a director of Granada Theatres) recalled that he had moved that resolution. Since Granada had entered into tw he had pressed that the bar on televising films should be enforced.

Several exhibs insisted there was no parallel between the present deal by ABC-TV for a batch of Korda productions as these had been acquired from the late producer's estate. This was a case where a British production company was offering between 90 to 100 pre-1945 features for use on the commercial network.

Pacific also has long sights set on productions to help fill the great need for filmed tv programming in Japan. Latter stems from lack of sufficient studio space and personnel to do the job locally at this time.

Fujita also said that his company had been queried by NBC re the making of animated cartoons in Japan for U. S. use.

MIDDLE EAST, ITALY BENEFIT

The Yank dollar is looming as a major force behind commercial video in at least three foreign countries. Iran is expected to have the first sponsored operation in the Middle East and, like Italy, anticipates a goodly share of its income from American companies or from the native subsidiaries of American companies. Australia is American companies. Australia is already getting a "substantial" share of its sponsorship dollars from U. S. firms.

BBC's Tint Tests

London, Oct. 15.

The BBC has begun a further series of color tv tests. This is a continuation of its experiments to study problems of producing, transmitting and receiving in color, although a regular service is not likely for some considerable time yet, according to a BBC spokesman. The tests will last for about six months and will take the form of live programs, telefilms and slides, all of which will be transmitted after normal programs on Mondays, Wednesdays and Fridays. They will be able to be seen in black and white on ordinary receivers.

British TV Preps 'Stop Press Drama' **Actuality Series**

London, Oct. 15.

Dennis Vance, head of ABC-TV drama, is preparing a new series of actuality programs to be called "Stop Press Drama." Eight skeleton scripts covering such disasters as a train accident, shipwreck, revolution, coal mine tragedy and so on are being prepared by a team of scriptwriters.

When any such disaster occurs in any part of the world director, cameraman and scriptwriter will be flown to the spot. The scriptwriter will fill in his fictional story against the actual background of the tragedy. Actors, will then go into rehearsal against back-projection.

edy. Actors will then go into re-hearsal against back-projection. Vance hopes to start this new scheme in the New Year. "We aim at first to televise these "Stop Press Dramas" not later than three weeks following any major dis-aster but eventually we expect to be able to step this up to make, the dramas even more topical," he said

be able to step this up to make, the dramas even more topical," he said.

Vance is also planning eventually to dispose of ali ABC dramas with the exception of classical plays. "Instead of elaborate sets I propose to make more and more use of impressions. Instead of building the set of a saloon, for instance, I shall create the illusion by shooting, say, a dart board, a hand holding a glass of beer and a beer pump against black curtains, thus creating the illusion of a public house," explained Vance. "After all, radio listeners became used to creating their own sets in their mind's eye and I see no reason why this should not work with television. The saying of time and expense will be enormous."

Rome, Oct. 15.

A vast face-lifting operation is currently under way in the RAI-TV organization, which runs Italy's entire radio and television network operation under a long-running, subsidized, arrangerient. Basically, the updating process is said to be designed to provide more variable fare, new faces, more freedom of action, better coordination in effort, especially in the rapidly rising "new" field of television. Complaints, which often resulted in law suits, centered around the RAI-sponsored Song Festivals at Naples and San Remo, as well as in the network's outside selection of songs for broadcasting over the monopolistic setup. Another public relations black eye for RAI recently resulted from the discovery that a RAI car lottery (tied to new listenership) was being rigged by one of its employees.

First sign of change came in the so-called "August Revolution," when RAI failed to nenew contracts of some of its mainstay orchestras, among them those of Pippi Barzizza, Angelini, and Trovajoli. New policy is said to call for two to four month pacts with various orchestras, and will probably also include foreign combos for the first time in many years. A similar procedure has also been adopted with many popular singers, many oldtimers having been dropped from the rosters, while a number of new faces have joined the RAI fold, especially in the tv sector. in the tv sector.

In a related move, RAI appears to have decided definitely to drop both the Naples and the San Remo song festivals, which had previously been RAI-run and subsidized. Feeling apparently is that move will remove the (mouetary) speculation

VARIETY - ARB City-By-City Syndicated Film Chart

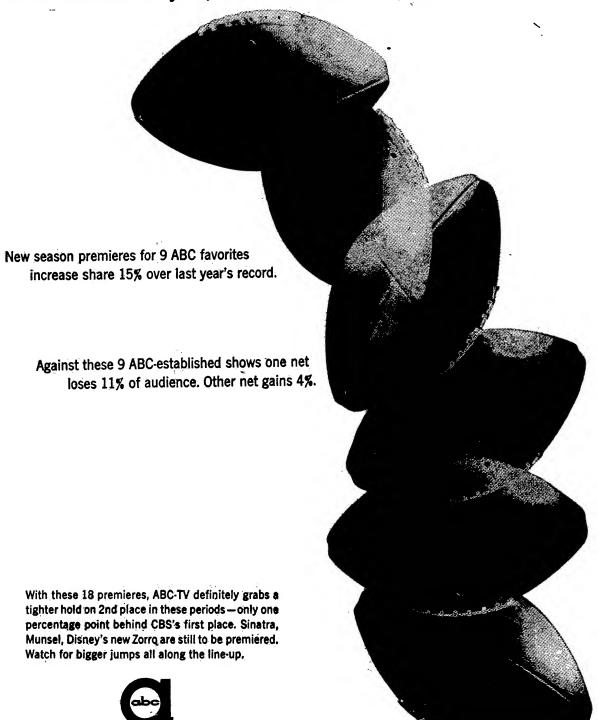

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Bureau on a monthly basis. Cities will be rotated each week, with the 10 top-rated film shows listed in each case, and their competition shown opposite. All ratings are furnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets-in-use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quis; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national sponsor from whom the film is aired.

3-Year Test of Subscription TV; 15-Station Limit in N.Y., Chi, L.A.?

Washington, Oct. 15.
The Federal Communications
Commission will probably issue its
order this week laying the ground
rules for a three-year trial run of
subscription tv. It's expected
that the agency will vote 5-1 for
the order, as it did in issuing staff
instructions about a month ago instructions about a month ago for preparation of the terms and conditions under which applica-tions will be considered.

It's understood the order will limit each of the subscription sys-tems, which now total five, to three markets out of about 15 with three markets out of about 15 with four or more ty services. Con-ceivably this could limit pay-ty to 15 stations in the top three mar-kets of New York, Chicago, and Los Angeles.

Los Angeles.

However, there's more likelihood that arrangements for subscription will be spread around to include other markets. There's also the possibility of additional systems being developed.

There will be no limitations on which stations in elegible markets can broadcast subscription programs—network o and o outlets, affiliates or non-network operators.

erators.

But stations will be required to carry at least 28 hours of free programs and no restrictions will be imposed on which hours can be used for pay programs.

programs and no restrictions winbe imposed on which hours can be
used for pay programs.

At the outset, there will be no
regulation of rates but stations.

Will be charged with public interest responsibilities in maintaining
reasonable charges.

Licensees will also be held responsible for programming in the
public interest. In filing applications, they will be required to
specify the types of subscription
shows planned and from time to
time report on programs carried.

Conditions under which subscription service will be authorized, it's understood, will be flexible and subject to revision as
developments warrant.

Although the agency will withhold action on applications until
March 1, thus giving Congress an
apportunity to act on pending bills
to prohibit subscription, there is a
growing belief that nothing will
be done to prevent the commission's authorization from taking

Pay-TV Will Drive People Back To Theatres: Gable

By DAVE KAUFMAN

Hollywood, Oct. 15.

Clark Gable has joined the parade of proponents of toll television, but for an entirely different reason, feeling "it will drive people back to the movie theatres" and bring back prosperity at the b.o. Remarks the vet star: "Pay-tv is still tv, and it can't do justice to any motion picture presented on the small screen. Consequently, it will make people want to go back to the theatres where they get their money's worth; it will make them appreciate movies. Gable is currently starring with Burt Lancaster in Hecht-Hill-Lancaster's "Run Silent, Run Deep."

Gable stated flatily he would never appear in any film made for any form of toll-tv, saying "I'm in the movie business, and I don't call it movies if it's on that small screen."

Gable, who last year lashed out at the studios for unloading their backlogs to tv, saying it would only result in competition for current product and a drop at the b.o., commented that today he sees his fears were justified. Speaking of nearly 4,000 post-1948 theatrical pix which haven't yet been sold to tv, the actor said "I hope they don't make the same mistake twice. Sure, they got immediate money from these sales, but it only hurt them in the long run."

The day of the small movie is gone. We have to make bigger and better pictures and production to compete with tv. You can't and shouldn't try to compete with tv on any other basis. "On tv, they get it for nothing, and that word 'free' is a potent factor. That's one reason I think pay tv will send them back to the theatres, and the best thing that could happen to the picture business would be if we had toll-tv. "People who will pay for anything on a pay-as-you-see system will get what they pay for on a small screen, and they don't like it. This can only help the theatres, because the competition has been over the fact tv has been free. That's why I believe the industry will get a big boost if pay-tv comes. You Can Be Sure If It's Sputnik

Westinghouse Broadeasting tions broadcast the first II S

Westinghouse Broadeasting stations broadcast the first U. S. telecast of motion pictures of the Russian satellite Sputnik on Saturday (12) from 5 to 5:30 p.m., making the historic films available to the rest of the nation via newsreel services and the networks.

Filming represented a successful collaboration of Westinghouse's oldest station, WBZ-TV, Boston, which originated the broadcasts at 5 p.m., and again at 6:30 p.m., and its newest, WJZ-TV, Baltimore, which shot the films at 6:17 Saturday morning. WJZ-TV photographer John Kelly shot the footage, using special optical instrumentation, developed by Bendix Aviation Corp., in Baltimore, which amplifies light 10,000 times.

The four eastern television stations of WBC, WBZ-TV, Boston; WJZ-TV, Baltimore; KYW-TV, Cleveland; and KDKA-TV, Pittsburgh, were linked for the two special half-hour broadcasts, KPIX, the WBC San Francisco station, broadcast the films on its Sunday and Monday news programs.

Later Saturday night, WBZ-TV,

the WBC San Francisco station, broadcast the films on its Sunday and Monday news programs.

Later Saturday night, WBZ-TV, an MBC affiliate, originated a network broadcast at 11-105, carried in New York as part of the "11th Hour News" with Bob Wilson. Indie WPIX, supplied by United Press-Fox Movietone News, beat the network New York flagships to the punch by breaking into their regular broadcast schedule at 7:30 Saturday night. NBC also presented the films on "Outloofs" with Chet Huntley at 5:30 p.m. Sunday. CBS carried the films on its Sunday 9 am. local news on WCBS-TV, and on its network "World News Roundup" at 4:45 p.m. Other stations throughout the country broadcast the footage as supplied by WBC through United Press-Movietone News.

But still, when some funny man wants to show an individual at the end of, the road, the scene is usually a beaten up room with broken plaster and those pesky old style wood laths visible.

"Those wood laths will be recalled by oldtimers as the things popwas frantically hunting for when he tried to drive a nail to hang a picture. They also made wonderful 'swords' for kids who picked them. up around construction jobs and played like Robin Hood."

Cook says changes have been made since those days and plaster is now applied over smooth gypsum sheet lath, or to modern metal lath which fireproof the wall and ceiling.

"We wish the funnymen would bring our industry up to date. Celluloid collars are gone; so are the old wood laths."

Bricker Anxious For Pronto Action **On Barrow Study**

Washington, Oct. 15.
Early consideration by the Senate Interstate Commerce Committee of legislation to implement the report of the Network Study Staff to the Federal Communications Commission was called for last week by Sen. John W. Bricker (R-O.), ranking Republican on the Committee.

Bricker said in a statement that he has asked Committee Chairman Warren G. Magnuson (D-Wash.) to schedule hearings shortly after the next session of Congress convenes (Jan. 7) to consider his bill to place the networks under direct regulation by FCC. The Barrow report recommended that this be done.

Obviously pleased with the report, Bricker said that he hopes it will receive "careful" consideration by the full Commission and that the agency will be ready with recommendations for legislation when Congress meets.

The report calls for legislation on three fronts: (1) to enlarge the Commission's regulatory powers to include networks, as well as

The report calls for legislation on three fronts: (1) to enlarge the Commission's regulatory powers to include networks, as well as affiliates, in the application of the chain broadcasting rules; (2) to amend the Communications Act to gremit the Commission to adopt regulations looking toward diversification of ownership of tv stations; and (3) to institute a system of penalties to enforce network regulations, other than by revocation of an affiliate's license.

As the author of a report charging NBC and CBS with domination of the tv broadcasting industry, Bricker noted that the report "points out clearly practices tending toward dangerous monopolies that have grown up in the tv industry" and that "it agrees with my long-standing contention that the several networks must be brought under the regulatory authority of the FCC."

National radio station reps along the Madison Ave. path turn a jeal-ous green at the mere mention of the tremendous increase in the annual volume of dollars spent in the newspaper field.

Station reps have not been able to keep pace with their newspaper brothers. For the most part the radio reps acknowledge the increase but are rather inert about the whole thing.

crease but are rather hert about the whole thing.

In 1935 the newspaper reps had over \$762,000,000 sunk in advertising and the station reps garnered \$112,000,000 of the market. In the 10-year span between 1933-1945 the radio spot business, locally, naturally came to life and it perked up to a healthy \$423,000,000 with the newspaper reps out hustling up \$921,000,000 worth of biz. In the period between 1945 and 1956 the newspaper reps zoomed away from their weak sister by gathering up over 3 billion dollars worth of advertising upile the station reps could come up with only \$700 million worth of radio time.

The jealous reps state that many

tion reps count come up with only \$570 million worth of radio time.

The jealous reps state that many newspapers, own radio stations and therefore control the biz pretty much. This is partially acceptable as an excuse along the white way but it appears that the reps aren't hustling enough for the accounts. Madison Ave. agencies state that the newspaper reps are always preparing presentations but it is rare when they have a station radio rep come into their office and the agency execs further state that the reps fail to meet with the plans board but content themselves with the timebuyers, who for the most part, do not determine or have any influence on the amount that will be tossed into the media kitty.

Hub Science Series Launched on WGBH-TV By Harvard, MIT Profs

Boston, Oct. 15.
A try at "bridging the gap between scientists and the public" is underway in a new series, "Of Science and Scientists," over WGBH-TV Sundays at 2:30 and repeated Thursdays at 9.

In the first production of its kind, Harvard and MIT scientists joined together to show what physical science is all about in a filmed series of 23 tv lectures.

Guild's stand is that with 11 radio and live tv pacts all in negotiation simultaneously, it will enforce its bargaining position, said Jerry Gottler, member of the committee on live tv.

Because it skipped demands for uppance in minimums, WGAW limited negotiations with the webs the past few months to additional coverage; time and method of payment; credits; units of time and option periods for exclusivity.

Companies agree certain material written for such programs is covered by the 1955 pact while the guild agrees certain material (hard news) is not. In event of a difference in opinion, the matter goes to arbitration. Nets have been put on notice that in 1958 the guild demands will be for coverage of all writers in this field. Also written into pact is coverage for writers who contribute questions and answers and/or ideas for stunts for quiz programs and aud participation shows. However, questions, answers and/ofeas as well as written interviews which cannot be classified as "material" will not be covered for the purpose of reuse and subsidiary rights.

A special rate structure for these stations was worked out on the basis of comedy-variety formula as it exists in the 1955 pact. Formula follows: 45% of the five-minute rate; 35% of the 10-minute rate; 35% of the 10-minute rate. But there are appropriate percentages for shows telecast one, two three and four times a week. OK ADMAN'S AUTOBIOG

"What Have You Done For Me Lately," by Walter Schwimmer (Citadel Press; \$4) is an autobiographical account of the life and times of an-ad agency man. It is provocative reading sprinkled with more than a little humor that, at the same time, gives a detailed account of "inside" agency operations.

Author (Schwimmer & Scott, Chicago) depicts his early life in Chicago after graduation from Northwestern and his introduction Northwestern and his introduction to the agency business by way of the Florida land boom of the '20s. From this humorous episode of travail in the deep south, author switches back to hometown Chicago and his various jobs in retail advertising, leading up to ad manager for the Studebaker dealers of Chicago and eventually to the establishment of Schwimmer & Scott. At this juncture the book takes on greater weight going into the fine points of agency operations, particularly early use of radio, yet does not lose its humorous light touch or balanced presentation.

Development of S&S as a big Development of S&S as a big agency with national accounts and network shows including Tell-O-Test and the "Abe Lincoln Story" (Schwimmer's favorite) are told with the first person authority of a man who was there and very much aware of what was happen-ing

while obviously relating his per

mg. While obvlously relating his personal experiences, author has, at the same time, set forth some fascinating tales that can easily double as pretty sound advice in the field of care and feeding of accounts. Point-of-sale stories are outstanding and Schwimmer is at his relaxed best with these tales. Author's eventual disenchantment with the agency business and his severence from S&S, coupled with some caustic comment on present-day agency functions, make good reading. Final chapters devoted to his present tv-film production company are well done and up to the minute.

"What Have You Done For Me Lately" is a good book and should be must reading for those in the agency or allied fields.

Gabriel Heatter, vet news commentator, has signed a new three-year contract with Mutual.

The new pact is effective Nov. 4 and expires Jan 2, 1961. Deal was made prior to the expiration date of the commentator's old pact, which still had a year to run. Heatter, virtually fully sponsored, airs his thrice daily MBS weekday news program from net's Miami newsroom, as well as his Sunday afternoon wrapups of weekend developments.

Radio Review

"This Is Your Business" is a sixweek series of radio programs on WRCA which combines a 10-minwatch which combines a formulation uter orunditable discussion. Series kicked off Sunday (13) as part of the NBC flag's project "Know Your Schools" and the initialer, which had its up and downs, dwelled on the integration problem (with regard to Puerto Ricans in the main).

The drama, nothing more than The drama, nothing more than a one-man narrative by young actor Jaime Sanchez, was compelling. Himself a Puerto Rican, it is reported, he made Draper Lewis' good lines about a highschool kid seem supremely real. Little more can be said about the last part of the show—which should have been the heart of the affair—than it was routine panel talk by some so-called experts.

MacRae: 'Too Many TV Musicals'

There's too many musical shows on tv at present and "I'm happy to stay off for a year at least," feels Gordon MacRae. He's set up a five-month concert-nitery tour and "I'm not losing any money" by foregoing video, he notes.

Niteries are "dying for big name acts, not dying," MacRae comments, and reports about ill health of botte biz are exaggerated, according to terms he got for his tours Most names are tied up with pix and tv, and can't get away for such tours, which is main reason for industry's ill health, he sets forth.

Interesting is MacRae's booking into a highpowered supermarket promotion in Oklahoma City and Tulsa later this month. Such promotions have become a big show biz item, he reports, and McA, his agency, has a special "industrial" department which books up to 100 such shows yearly. Unit with which he'll appear includes Herb Shriner, the De Castro sisters, Jaye P. Morgan and the Jimmy Dorsey orch, he points out.

Tour kicks off with engagement at Cotton Bowl for Dallas State Fair, starting today (15). He'll also play Town Casino, Buffalo: Three Rivers Inn in hometown Syracuse; open the newly-built New Capri Hotel in Havana; Fontainebleau, Miami; Chez Paris, Chi; and Blinstrub's, Boston.

Meanwhile, he'll play selected guest shots on video, but keep them down to avoid overexposure. Mainly, he's trying to snag dramatic roles for his guestings.

Additionally he and A. C. Lyles are dickering with Paramount on doing "The Wonder of It All," a "comedy with music," he discloses.

Inside Stuff—Radio-TV

"Hallmark Hall of Fame" producer-director George Schaefer has been using a wheelchair to direct rehearsals of "Green Pastures," tomorrow night's (Thurs.) "Hallmark" preem show. Schaefer has been bothered by a bad back and has used the chair occasionally in the past but the "Pastures" layout is so large and contains so many sets that he's been using the chair throughout the rehearsals.

However, a producer will spare no pains to protect his cast, so Schaefer relinquished the chair this week to William Warfield, the show's lead. Warfield had been out with a cold, and when he returned Monday (14), Schaefer gave him the chair just to make sure he took things easy.

U. S. scientists, tracking the Russian space satellite, rely on a little known Government radio station to coordinate their timing. This is Station WWV, in suburban Beltsville, Md.

Station WWV, is the free world's yardstick in several respects. It sets the standard for Nayal Observatory time which, in turn, sets the official time for this nation and unofficially sets the time standards for many others. It also helps to keep radio and tv stations in their allotted channels. It is the yardstick for channels which is checked directly, or indirectly, by the Federal Communications Commission and broadcast stations to restore beams from the slow drift out of their channels.

And it provides the musical pitch of A above middle C, the standard musical pitch in the U.S. Indirectly, musical instruments are tuned against one of the beams WWV sends out, to keep properly in tune. A sister station, WWVH, operates in Hawaii.

Exciting educational shows are apparently still creating most of the excitement on tv scene this Fall, at least as reflected in press breaks. Like WCBS-TV's "Sunrise Semester." Westinghouse's new tv mathamatics series-for youngsters with the Bil Baird marionettes, is getting lots of attention in mags, from wire services and from dailies—even before it goes on air. Life mag recently gave it three-page picture spread, N.Y. Times gave it two three-column plx and story on page one, second news section, syndicates have done several features and pix layouts, and upcoming are other mag stories, including color pix in TV Guide. Like WCBS-TV's lit program, WBC's "Adventures In Number and Space" is basically "local," and was produced on a non-etwork type budget. WBC is backing up show with bigtime promotion eampaign.

Variety's weekly chart, based on ratings Jurnished by American Research Bureau's latest reports, on feature films and their competition covers 120 cities. Each week, the 10 top-rated features in a particular city will be rotated.

Factors which would assist distributors, agencies, stations and advertisers in determining the effectiveness of a feature show in a specific market have been included in this Variety chart. Listed below is such pertinent information regarding teatures as their stars, release year, original production company and the present distributor, included wherever possible along with the title. Attention should be paid to such factors as the time and day, the high and low ratings for the measured

leature period and share of audience, since these factors reflect the effectiveness of the feature, and audience composition, i.e. a late show at 11:15 p.m. would hardly have any children viewers, but its share of audience may reflect dominance in that time period. In the cities where stations sell their feature programming on a multi-stripped basis utilizing the same theatrical throughout the week, a total rating for the total number of showings for the week is given, the total rating not taking into account the duplicated homes factor. Barring unscheduled switches in titles, the listed features for the particularly rated theatrical filmed show are as accurate as could be ascertained from a multiplicity of station and other data.

In this season of westerns on the networks choose the night and there's a gunslinger firing away), there's a comparatively few riding the first-run syndication, not corralling a network slot, strapped up its saddle and took "26 Men" on the market-to-market hitch, apparently riding a wave of popularity, for it hit a galloping sales gait with the skein.

skein.

On the basis of the preem, the show avoided any new fandangled adult approach, sticking its clean action and plot situations. Episode was hardly distinguished, similar plots and situations having been seen so many times before, both in other series and in the lower double bill of theatres. Production values also appear on the weaker side, when compared to many network oaters.

sales also appear on the weaks values also appear to many network oaters.

Slotting on WABC-TV at 10:30 p.m. leaving out the kids as an audience, night hurt its rating, but the sponsors riding the show, Bryl-creem and White Owl Cigars, apparently want the heads of families: For the gunslinging addicts, the preem evidenced sufficient values along those lines to do a job. Also the "26 Men" tune is an assist; it's rugged and melodic.

The initial episode dealt with the recruit of a young man into the band of 26 men, delegated to keep law and order in the territory of Arizona, the dramatization based on the experiences of the Arizona Rangers. Story had the recruit and the Ranger leader cleaning up a troubled Arizona town, terrorized by a heavy and his cohorts. There was some fancy shooting by the recruit, well played by Kelo Henderson, and Tris Coffin lent authority to his role as the Arizona Ranger Captain. Supporting cast was competent within the confines of the script. Direction by Reg Browne was well paced. Horo.

"Dragnet" in a nautical setting
pretty well sums up this Ziv offering, dealing with security forces of

In syndication, the series has racked up a healthy sale in all sections of the country, local sponsors and stations, in closer touch with their particular situation being not nearly as queasy. Only in the most elemental level could this series, judging from the opener, cause any rise in sectional feeling, for what is unreeled is a romantic horse opera in a Civil War setting.

values, action and setting earning its rating way.

The series, based on books by Virgil Cavington Jones, who served as technical adviser, concerns itself with the exploits of Confederate ranger leader Major John Singletone Mosby, played with theatrical dash by Tod Andrews. Initial episode dealt with the kidnapping of a Union General in order to free a pretty, romantic Rebel spy, in love with Andrews. (This is the kissing type of horse opera.) The Union General, portrayed by Willis Bouchey, and his intelligence officer, played by Douglas Dick, were no match in the brains department, the Rebs outsmarting them virtually every turn.

The growing international character of the syndication biz is exemplified in one area by "Tomahawk", produced and aired by the Canadian Broadcasting Corp., and distributed in the U. S. by Lakeside Television.
Skein of. 26 episodes concerns the adventures of Pierre Radisson, billed as the Davy Crockett of the Canadian Northwoods, and in point of historical time, taking place in a period when the North American continent was just being explored and settled.
For the kiddies, judging from the second episode, it's a good series, with plenty of action, lost of rugged scenic values, a display of scouting lore and a feel for capturing the Indians in their native settings. Weaknesses, though in the history and the lack of insight into characterization, failings which the kids may take in their stride considering the other values, but which makes the skein less palatable for adults.

sidering the other values, but which makes the skein less palatable for adults.

Jack Jacques Godin, as the lead Pierre Radisson, lent a primitive assist to the proceedings. He was not handsome in the Hollywood sense, dressed up as he was as an Iroquois Indian, some offbeat casting not usually seen on American television. Supporting cast of Indians and white men was okay. Episode dealt with Godin's escape from the Iroquois tribe, which he had joined in order to avoid death as a Frenchman. Segment also had a reference to the U.S., with one of the locales being a Dutch trading fort which later became Albany, N. Y. Horo.

wife, Anna Minot, whom he's holding hostage at gunpoint.

Location photography in Phoenix is generally well done, but other technical credits, especially sound recording, are not too quality. Cast, generally recruited from N. Y. ranks, is competent. However, Martin goes rather overboard as the hunger-crazed con. Still, this could be fault of director Stuart Rosenberg, who also must bear blame for rambling story-telling.

Meredith seems determined to recreate his famed "Winterset" role in his stints, even to costume, references about "under the bridge" and philosophical comments in an approximation of blank verse. It doesn't quite fit the proceedings.

Chicago, Oct. 15.

"It's Polka Time," Chicago origination on limited ABC-TV network for the past two years, faces an all-or-nothing verdict from the web in next coupla weeks. Web feels the show can be valuable and is considering a Saturday night slotting if it can find one, but its originating source, WBKB, finds the show too costly for a local showcasing. It's either going to be on the network or off try, so far the present, until a decision is handed down, show's cast is marking time with personal appearances in the midwest, booked by Al Borde.

midwest, booked by Al Borde.

Last season, when "Polka Time" was on against CBS-TV's "\$64,000 Question," it drew respectable Trendexes of nine and 10 but, moreover, opened "clearances for the web which it had been unable to get before. Feeling is that the show might continue to serve the net in a similar way in another net in a similar way in another time period. Also to be considered are the "Polka Time" LP record-ings for ABC-Paramount, net-work's sister company, for which the group reportedly has earned a reported \$100,000 in disk revenue.

ARB's Chi Setup To Serve Midwest Clients

Chicago, Oct. 15. American Research Bureau has pened a Chicago office primarily to service agency accounts, making it the second ratings service (Nielsen is the first) to move bodily into the country's second largest ra-dio-tv market. Hops on Puzzle Contest As Audience Come-On

As Audience Come-On

Chicago, Oct. 13.

A device which newspapers have been using for years to boost circulation has been adopted by a local tv station here as a possible ratings hypo. WBBM-TV is preparing a nightly contest which would make attention to that channel imperative during the two-hour stretch after 10 p.m., when the CBS network programming ends. Station feels it may be ploneering a new television trend with its plan, which goes into effect Nov. 1.

A brainchild of WBBM-TV program director Frank Atlass, idea is to spot one clue in each of the 1-minute segments of the 10 p.m. hour and to set up a special switchboard from 11 to midnight for viewers to call in their answers will then be revealed sometime after the middle of the nightly feature film. All winners will get a prize of \$20. The contest currently being muffled is a kind of crossword puzzle quiz.

WBBM-TV is the unchallenged word puzzle quiz.

WBBM-TV is the unchallenged

WBBM-TV is the unchallenged top rated station in Chi, and its "Standard News & Weather Roundup" with Fahey Flynn and P. J. Hoff at 10 p.m. is the highest rated local show outside of occasional blockbuster feature films. The ratings dip sharply at 10:15 and thereafter, however, as the number of sets in use diminish. Atlass is hoping the contest will hold the ratings closer to the level of "Standard News" by increasing the sets in use.

in use.

Possibility that many viewers may not actually be watching their screens in order to work the puzzle seems not to deter WBBM-TV. Ratings, the station feels, are determined by the sets in use and not by how intently the viewer is watching.

Hottest Radio-TV Grid Town—Mpls.

Minneapolis, Oct. 15.
Greater interest in football than ever, if possible, in this always redhot gridiron sport area, due to what's believed to be the best U. of Minnesota team in years, is enriching Twin Cities' television and radio stations.

There probably are more football airlane shows here this fall than anywhere else and they're all spon-sored. Nothing else is so easy to sell to bankrollers, station heads

As a typical example, last Saturday four radio stations here were carrying the Northwestern-Minnesota game from Evanston, Ill., direct play by play.

There also were, of course, the NBC telecast of the Ohio State-IIlinois game, any number of tv and audio pre-game and after-game and scoreboard shows and a radio play by play broadcast of the Michigan State-Michigan game.

During the week, too, there are numerous other tv and radio foot-ball shows, all bankrolled. Even KMGM-TV, which confines its pro-gramming mostly to movies, carries the Frank Leahy Frlday night foot-ball game forecasts.

Television is an "awful drain" on comedy material, he continued. He tried video nine years ago, for a 17-week season. "By the 14th, 15th, 16th week, it was tough trying to think up material. You've got to redo things, try do things a different way. You have to steal and borrow."

At most, tv comics should confine themselves to one show a month. Overexposure "don't help," he remarked dryly. In days of two-recelers, "We made at best eight a year. When features came in, we made two a year, for fall and spring release, and that's all."

Realism in drama also runs in cycles, Keaton stated. "Even in silent days, we had the German pictures, 'Variety' and 'The Last Laugh'," he pointed out, in connection with current cycle of "realistic" pix. At most, ty comics should confine

Hence the cut-throat competition, the bitterness, and the law-suits. In order to divorce itself of charges of favoritism, RAI has now decided to farm out the actual selection of songs for its yearly repertoire to a series of six selection groups (three in Milan, two in Naples and one in Rome) under the jurisdiction of RAI and SIAE, the Italian Society of Authors and Editors. These groups will be charged with selection of 100 finalists from among the 3,387 songs submitted to RAI for the next year. If one of these winners eventually hits the "big" money here, such as that attained recently by Renato Rascel's "Arrivederic Roma," if stands to make about \$50,000 in a year from disk sales (30%) author's cut (50% of total), sheet sales and pic rights (20°).

A clause in his contract stipulates that the actor could continue with "Romance of Helen Trent" every day during rehearsals and fly back from D.C., K.C. and L.A. soon as his stint is finished. "Trent" sudser agreed to write him out Tues.-Wed. and it's worked out, so much so that he managed to squeeze in "Frontiers of Faith" doing the lead role of Peter Stuyvesant. This couldn't be done with mitrors or Furst as it required him to walk with a wooden leg. He'd practice walking on it during the Coke show rehearsals and mastered the gait by Sunday when the gam collapsed during dress. Departure of Rabinovitz indicates the great strength Simon (Si) Siegel knows within the network. Riddleberger reports to him, since Siegel recently became financial veep of American Broadcasting-Paramount Theatres, ABC's parent company. Seigel has been taking a more ac-tive interest in the tv web for the past six or seven months. It's be-lieved that this interest led at times to a conflict of duties with Rabino

A fourth party, Don Coyle, veep in charge of research, looms as another important man within the ABC-TV fold; he seems to be charged with increasing responsibilities as time goes on.

Week before last, another key administrative change was made. John Eckstein left as director of John Eckstein left as director of advertising, and was replaced yesterday (Tues.) by Dean Linger, who was brought in from CBS on the Coast. Still further changes are anticipated in higher administrative jobs, not necessarily by men being axed but by having them moved into new operational jobs. These changes are still being worked out.

changes are still being worked out. There is an irony in all this, particularly where it concerns Rabinovitz. His departure, leaked on Friday (11), signifies the end of the key execs who were gained for the network from the Al-PT sphere. Siegel being the only outstanding exception. Goldenson brought him into the network when Bob Kintner was axed a year ago, and nearly everyone who thought be was privy to Goldenson's plans believed that Rabinovitz, originally an AB-PT (watchdog' when Kintner was ABC boss, was one of the network's "fairhaired boys."

Recently, Robert O'Brien quit AB-PT completely for a key ad-ministrative post at Metro. Three years ago, he was in the ABC-TV scene, he too as a Goldenson repre-sentative, but was shortly taken back to AB-PT.

Essentially it's these four basic shows that keep New York tv alive in terms of major live showcases. But more and more Sullivan, Como and Aflen have been obliged to put reliance on Hollywood berthed guests, On an average it takes anywhere from \$1,000 to \$2,500 to fly in a personality and keep him or her in the style to which they are accustomed. Over a period of a season, this totes up to several hundred thousand dollars in the aggregate, a sizable investment that could be circumvented through a permanent Coast origination.

tion has been selling it on a sevenday per week basis, using the Sunday show as kingpin with first-runs. Other days, "Movie 5" goes on 4:30-6 p.m. with subsequent runs that are spaced no less than seven weeks apart. .

Sellout, the station admits, came about largely on the expectations of the WNBQ's first package buy, the 50 UA titles, and to stimulate buying the station has instituted several bargain plans for 13-26-39-52 week schedules. If the ratings hold up, "Movie 5" cross-the-board 52 week schedules. If the ratings hold up, "Movie 5" cross-the-board should be worth some \$1,200,000 in yearly revenue to the station. It takes 84 one-minute spots per week. This would represent a terrific improvement over the programming which "Movie 5" supplanted, a moppet show, "Elmer the Elephant," which did well until "Mickey Mouse Club" opposed it on ABC-TY, and an ambitious but low-rated live musical, "Adults Only."

WNBQ's showing of "African Queen" had the momentum from the 90-minute Standard Oil spec which just preceded it on the NBC net and a half-hour advantage over the other local feature film by starting at 9-30 pm. At that hour, however, it fell opposite CBS-TV's "What's My Line," one of the highest rated shows in Chicago. "Casablance" on WGN-TV and "Something For the Boys" on WBKB opened at 10 pm. opposite WBBM-TV, the WBBM-TV, "Standard News and Weather Roundup," upquestionably the top-rated local show cross the board. WBBM-TV the CBS station, started its Bela Lugesi film at 10-30 pm. after two-thirds of "African Queen" and one-third of the other competing films.

one-tuned of the other competing, films.

Overnight Treadex ordered by WNBQ found its "African Queen" acoring 25.0 against CBS' 25.5 for "What's My Line" at 9:30. At 10 the pic outstripped all competition with 29.0 against 14.3 for WBBM-TV's "Standard Roundup," 11.9 for WGN-TV's "Casablanca" and 1.8 for WBKB's "Something for the Boys." In final half-hour, "Queen" got 22.5, "Casablanca" 21.1 and of start WBBM-TV's "Mark of Vampire" 4.2.

Info Agency Curtails Following Cutbacks

Washington, Oct. 15.

The U. S. Information Agency which sharply stepped up its film, and television niber during the first half of this year, has cut them back under the reduced budget which became effec tive July 1 last. In its semi-annual report to Congress, for the period Jan. 1 to July 1, the agency ex-plained it had been steadily broadening its use of the media. However, continues the report:

Sarnoff agreed there is an overabundance of Westerns ou to this year but said, "We as a hetwork have no control over what other networks and individual stations have. We have only four Westerns in our night time programming.

"If you took all the hours of Western programs on all stations in the United States, well, maybe you have got too many Westerns."

While here Sarnoff and his party were entertained at a luncheon at the home of former Goy and Mrs. W. P. Hobby.

At the top of the heap was Filmways exec v.p. Marty Ransohoff, who came up with the idea and who served as World Highway prexy and exec producer of the project. He then signed on Kevin McClory, who had been overseas on-location director for Todd's "Around the World" as producer-director, and Jeannie Sims, whohad been assistant to John Huston in the I'lming of "African Queen," as coordinator in N. Y.

All this was done in utmost secrecy, since any leaks on the project would have enabled Ford's competitors to photograph the undisguised prototypes as far back as last July, when the trek started. Miss Sims' end of the operation, along with the World Highways offices, were sequestered at a hotel suite in N. Y. All thavel arrange.

Miss Sims' end of the operation, along with the World Highways offices, were sequestered at a hotel-suite in, N. Y. All travel arrangements were done on the q.t., as well as purchase of additional equipment, etc.

In May, McClory and a four-man team from Ford and JWT did a five-week preliminary survey of the titnerary, covering all of the 23 countries involved, just to see if the round-the-world trek was feasible. They decided it was, and Ford and Filmways got busy. Ford supplied a camera car and two equipment trucks (the latter including generators and refrigeration to keep the film at the right temperature), along with the two prototypes. Filmways began hiring agents and production managers in all 23 countries (an arrangement which will be maintained permanently by the commercial outfith, and started booking sea and air passage for the personnel and equipment. Cars and personnel were airlifted while the trucks and equipment travelled by sea to London, arriving July 15. Filming started in London; then another afrilift to Paris; thence to Geneva, through the Simplon Pass to Portofino, then to Rome and Venice and into Yugoslavia, for filming at Dubrovnik and Split. Then into Greece for stops at Salonika and Athens, then finally into Turkey for locationing at Istanbul and Goreme.

With the film coming into New York in a steady stream via some 15 separate airlifts, another project got underway two weeks ago. Filmways started construction of what he claims is the largest tyset in Television history, a 40-foothigh rotating globe, which was too hig for any of the New York studios and consequently was set in nearby Jersey City, at the state armory there. Set alone was \$40,000.

While the commercials are being whipped into shape, Filmways is dickering with United Artists for theatrical release of the 60-minute documentary, which will be pegged to a one-world, one - highway theme. He's assigned Allan Chase to head up the scripting of the feature, and has a staff of editors assembling and pruning the 6,000 feet of film that will go into the feature. Additionally, Ford will make dealer use of the feature and

Cuban Rebels: TV In States Should Tell Both Sides'

Are the U. S. networks taking sides in the Cuban revolution?

Cubans are wondering about this in view of the fact that NBC has so far, carried three interviews with President Fulgencio Batista this year, two of them within the past month. CBS, on the other hand, made headlines with its coverage of the guerilla force led be Fidel Castro in the Sierra Maestra Mountains.

A Cuban newsman expressed this feeling: "No one disputes the right of NBC to interview anyone they want, but in the interests of fair play why don't they give the opposition a chance to speak also?"

A spokesman for the rebels said:
"NBC thinks it has a big story in
interviewing Batista. Actually,
Batista is delighted at the chance
of putting his views before the
American public. This is particularly true in view of the daily and
widespread criticism he receives
from the American press because
of his tyrannical methods.

Matt Cyetic Slaps 110G Suit Against Ziv, Sez 'FBI' Contract Breached

**FBI' Contract Breached

Pittsburgh, Oct, 15.

Matt Cvetic, whose undercover work served as a basis for the Ziv radio series "I Was A Communist for the FBI," has filed suit against the Frederic W. Ziv Co., claiming breach of contract and seeking the sum of \$110,200.

Suit was filed in Western Federal District Court of Pennsylvania, with preliminary hearings slated in November or December.

Allegations stem from Cvetic's agreement with Ziv to serve as technical advisor for the series and Cvetic's promise to lecture before groups, etc., for a fee. Deal with Ziv, according to the complaint, called for payment, to Cvetic of 200 per single engagement plus expenses for lectures and \$600 per week plus expenses, the plaintiff's lecturers not to exceed four during the course of a week. Cvetic alleges an unpaid balance for the lectures he delivered during 1952 and 1953 of \$10,200. He also is seeking \$100,000 on the basis of an alleged breach of contract, which according to the complaint occurred when Ziv continued to use his name and material after the termination of his contract in October, 1956, Plaintiff acknowledged in the complaint that Ziv paid him the agreed price of \$5,000 for technical assistance and expenses during the period of his contract.

Stereo-Disks 0.0. Money Market; London Label, Westrex In Demos SOUNDTRACK SETS

Stereophonic disks are beginning to shape up as an early commercial possibility. Last week, in conjunction with the N. Y. High Fidelity Show and a conclave of audio engineers, both London Records and Western Corp., a subsidiary of Western Electric, staged demonstrations of their respective tone disk pursems.

ords and Westers Copt., a sussidiary of Western Electric, staged
demonstrations of their respective
stereo-disk systems.

Both the London and Westrex
systems are based on mono-groove
disks played by a single stylus. The
stereo sound is cut into each
groove via separate sound channels which are picked up by two
amplifying systems and a multispeaker setup to give the aspect of
depth to music, similar to the reality of the concert hall.

In the London system, existing,
monaural disks can still be played,
with the, stereo stylus but the
stereo disks are not matched with
the present LP pickups. Under the
Westrex system, there is a two-way
compatibility between the stereodisks and equipment and the current LP's.

London is ready to market the
stereo-disks at an early date, but
has not yet placed a price on the
product. Harry Kruse, London's
general manager, stated that he
didn't want to start any battle of
systems, but wanted the industry
as a whole to study the stereo-disk
potential and determine a competitive price structure. London's
stereo-disk is a 12-inch platter capable of playing 28 minutes.

Although no price has been set
on the stereo-disk, Kruse is certain that it will be considerably
cheaper than stereo-tapes for
equivalent music.

tain that it will be considerably cheaper than stereo-tapes for equivalent music. An average stereo-tape of a longhair work now costs around \$12 or \$13 and has proved to be one of the most important limiting factors for this market. Another plus for the stereo-disks is the ease of handling, whereas tapes have to be threaded onto machines. Several tape mechanisms have been developed recently to counteract this handiap via cartridge-type feeding of tapes into playback machines.

SAMMY DAVIS JR. RE GRANZ AND SATCHMO

New York.
Editor, Variety:
Having read a statement by Norman Granz in the Oct. 2 issue of Variety, I feel I can't let it go unsured in Montreal, in regard to Louis Armstrong, I said, I felt that although I agreed with his sentiments, I didn't think his language apropos for the occasion. Further, I felt that if Louis Armstrong or any Negro headliner, or white, for that matter, felt so strongly about racial issues, then why do they appear before segregated audiences. May I remind Norman Granz and Louis Armstrong that it was a little over a year ago that Louis was bombarded for the usage of "darky" in a song.

BMI Critic in New Try For Place on Board

Broadcast Music Inc.'s annual stockholder meeting in New York stockholder meeting in New York yesterday (Tues.) was marked by another unsuccessful attempt by Al Nicol, ex-BMI comptroller, to get elected to the BMI board. Nicol had been soliciting proxies from various radio station stockholders and has been one of BMI's persistent critics. He once had to be forcibly removed from the BMI premises by a foliceman: At the board meet, all 14 of the directors were reelected. were reelected.

Barney Young, in attacking BMI.
The latter two currently have multi-million dollar antitrust suits
pending against the licensing organization.

The United Artists picture company, which has entered the music biz via publishing and recording subsids, has a good possibility of acquiring Mills Music, a top-rated ASCAP affiliate, as the basis of its catalog. UA exces have been talking to Jack and Irving Mills, heads of the music firm, for the past couple of months and negotiations have reached the point where UA has made a firm offer.

It's understood that the price

It's understood that the price It's understood that the price offered by UA is substantially lower than the standard going price for established firms, namely, 10 times, the annual ASCAP revenue. Mills earns around \$400,000 yearly from ASCAP, but the asking price of \$4,000,000 is regarded as too high by the UA toppers.

power of the purchased company.

Operation of the UA publishing company, which also would include a Broadcast Music Inc. subsidiary, is regarded as an additional key exploitation service for film producers distributing through UA. Max E. Youngstein, UA exec who is president of the music enterprises, said that, in the past, plc producers frequently suffered from the bad timing of the music plugs with regard to film release dates. In any case, important songs have come out of UA-distributed, films in recent vears, such as "The Song From Moulin Rouge," "High Noon," "Terry's Theme From 'Limelight," and others.

UA is also exploring the possibility of taking over some indiedisk company. In the meantime, however. Youngstein is lining up artists & repertoire personnel for the UA label. Two deals with staffers with commitments to other commanies have been virtually finalized. The pic company execs, meantime, are looking into the curestion of utilizing the UA distribution network for the merchandizing of their music output. Artist-wise, UA plans to offer deals similar to those offered to indie pic producers. Youngstein stated there would be incentives to artists over and above the normal royalty deals.

John Carroll delivers in a pleasant, big-voiced style. Marni Nixon supplies an effective vocal background motif. "ONE IS A LONE-LY NUMBER" (Miller*) has been picking up scattered wax shots during the past few months but Carroll's heavy treatment won't help the ballad any.

Trio, with Louis Bellson on drums, in a soft tasty swinging groove.

Gene Kelly-Mitri Gaynor-Kay Kendall-Taina Elg: "Les Girls" (MGM). Cole Porter's score for "Les Girls" runs to only five numbers, so this soundtrack offering only takes up one side of a 12-inch LP. Although it isn't one of Porter's most imaginative or lyrical efforts, it does have some bright moments. Taina Elg's "Cest L'Amour" and the Misses Gaynor, Kendall and Elg on "Ladies in Waiting" come across fine on wax. Flip side of the LP features the LeRoy Holmes orch working over six-Porter oldies. It's a tasty medley.

Santer-Finegan Orch: "Straight Down The Middle" (RCA Victor) is one of the best efforts of this crew. There's less chance-taking, but the sound is crisp and swinging on a group of standards and some originals by Ed Sauter and Bill Finegan.

"American Colleges Sing Stephen

Finegan.

"American Colleges Sing Stephen Foster": (Request). Hans Lengsfelder, Request topper, has rounded up a flock of college glee clubs and choirs for this Stephen Foster salute. It's a standout presentation of the Foster catalog handled with slick musical craftsmanship. The vocal groups come from Codist, Mississippi Southern, Nelumbia, Xavier, Southern Methobraska, Lafayette, Florida State,

Ella Fitzgerald-Louis Armstrong:
"Ella and Louis Again" (Verve).
The "Again" in the title of this package tips off that this is a sequel to Verve's current high-rider "Ella and Louis." And it's a sequel that will do as well on the retail level. Here, again, are Ella fitzgerald and Louis Armstrong in top form and with top material. They work together and in solo spots making every one of the 19 items in this two-pocket package a musical gem. They are expertly backed by the Oscar Peterson Trio, with Louis Bellson on drums, in a soft, tasty swinging groove.

She gives an appealing feel to "It Never Entered My Mind," "Make The Man Love Me," "My Melancholy Baby" and "Smoke Gets In Your Eyes." Patty, Maxene, LaVerne: "Fresh and Fancy Free" (Capitol). Here's more evidence that the Andrews Sisters still know how to set up a song. Repertoire is topnotch and they swing 'em out in a catchy musical style set down by Billy May's arrangements.

Roger Williams: "Plays Beautiful Waltses" (Kapp). There's plenty of appealing, melodic schmaltz here as planist Roger Williams fingers his way through a flock of waltzes. "The Merry Widow Waltz." "Sleepy Lagoon," "Always," and "Oh, What A Beautiful Morning" are among them.

Eddie Cochran: "Singin' To My Baby" (Liberty). Eddie Cochran has made his mark with the teenagers via his click single, "Sittin' In The Balcony," The set follows a similar groove.

In The Balcony," The set follows a similar groove.

Roberto Rossi Orch: "Rainy Night In Rome" (Capitol). The Roberto Rossi orch is an attractive instrumental package here. It's a musical portrait of Rome using a batch of new melodies that may get to mean something as time goes by.

"The Sun Also Rises" (Kapp). The soundtrack packaging of Hugo Friedhofer's score for Darryl Zanuck's "The Sun Also Rises" stands up strong without the marquee lures of Ava Gardner and Tyrone Power who, incidentally, are prominently displayed on the album jacket, front and back. Lionel Newman conducts the themes pegged on Parisian and Spanish sequences. It's Kapp's first soundtrack and it should be a big one.

takes for a clickful ride. "HOW CAN I TELL" (Valando*) is a tasty ballad that rates a lot of spinning attention.

Hal March (Dot): "HEAR ME GOOD" (Famous*) is a swinging rocker which gives Hal March a first-time crack at the lists. It's the title tune from his Paramount starrer, which will help, too. "ONE DOZEN ROSES" (Famous*) gets an okay revival but the side isn't strong enough to get it back on the hit lists.

Bing Crosby (Kapp): "I LOVE YOU WHOEVER YOU ARE" (Walton*) sets a romantic lyric in a latino mood and Bing Crosby gives it clicko stature. "NEVER BE AFRAID" (Walton*) is a well-fashioned message song but its pop play potential is limited.

Eddle Heywood (RCA Victor): "ALL ABOUT YOU" (Meridian): has an okay melodic line but lacks the pop appeal of Heywood's previous "Canadian Sunset" click. "LIES" (Meridian) is another stylish Heywood composition but it'll be tough sledding for pop action.

STEEN (Meridiant) is another stylish Heywood composition but it'll be tough sledding for pop action.

Louis Jordan (Mercury): "I NEVER HAD A CHANCE". (Berlin*) gets an interesting Louis Jordan treatment that could work into a good spinning item. "PEACE OF MIND" (Pera*) is just another shouting blues item.

Lu Ann Simms (Jubilee): "THE CHA-LYPSO". (Southern*) is Lu Ann Simms first for Jubilee and she whips up a chile-tinted storm that will be good for jock and juke action. "I REMEMBER MARCELLINO" (Leeds*) has a happy beat that will do especially well in the jukes of the pizza palaces.

Alan Dean (Roulette): "THE HEART OF A FOOL" (Joy*) is a big ballad that's sung to the hilt by Alan Dean. "HOW FAR CAN ANY MAN GO?" (Kahl*) is another big ballad but too pretentious to catch on.

Johnny Desmond (Coral): "I WOULD LOVE YOU STILL" (Frank*) is a quiet ballad out of the upcoming legituner "Carefree Heart" that will have trouble geting heard. "RICH MAN, POOR MAN" (Frank*) sounds like it means something within the shows ("Carefree Heart") concept but it will mean little to the jock and Juke trade.

Anthony Roma (Prep): "ER-

Judy Scott (Decca): "The CHALIYEO" (Southern*) has a neat chile flavor that Judy Scott dishes out nicely. "ON MY FRONT PORCH" (Rayven') is a ten-pegged rocker that could go over big with the coke set.
Lawrence Welk Orch (Coral): "MOON LOVE" (Famous') comes back in a rich rendition by Welk's tootlers. "HE'LL BE THERE" (Champagne*) is just par for the instrumental course.
The Upbeats (Prep): "NEVER IN MY LIFE" (Carlyle*) is just a fair showcasing for this new group but they hint at a potential. "I DON'T KNOW" (Preferred*) is a vivid rhythmic number.
Teress Brewer (Coral): "WOULD I WERE" (Frank*) has a happy lilt that will appeal to many. It's from the tuner "Carefree Heart." "YOU SEND ME" (Higuera') sust what to do with it.

Fed. Court of Appeals Ruling Gives Pubs Whip Hand Vs. Delinquent Labels

cision of the U.S. Court of Appeals making distributors and dealers liable for pirated disks, publish ers have been given a strong whip hands against delinquent disk companies. A flock of retailers and chain stores have already notified disk companies that they will not handle any disks from any company without indemnification or other guarantees that they will not be responsible for disks that are not licensed by publishers.

are not licensed by publishers.

Harry Fox, publishers' agent and trustee who, togther with Julian T. Abeles, sparked the suit which resulted in the Court of Appeals decision, is preparing to take the legit diskeries off the hook by a letter okaying them as regular licensees of his clients. Any diskery, which has not been paying accurate royalties to the diskers, is not likely to get such a clearance from Fox.

ance from Fox.

The majors and the top indie labels are not expected to face any trouble from the indemnification front. Numerous small labels, however, may be put into a tight squeeze since retailers, especially the big ones which would be particularly vulnerable to legal action, are now reluctant to handle product which may turn out to be pirated. Under the court's decision, dealers are liable for the 2c per side royalty on unlicensed tunes.

George Wein Sez Jazz Promotions Now Full Of Pitfalls

Boston, Oct. 15.
George Wein, director of the Newport Jazz Festival and operator of Boston's jazz nitery, Storyville, says "concert promotion is a tricky business at best." Commenting on the recent Jazz at the Philharmonic's appearance at Symphony Hall, he said it "failed to draw erough people to even fill the half one time."

Wein pointed out: "There are so many pitfalls in concert promotion that a producer must avoid that financial success in the field of concert jazz promotion has become the exception rather than the rule."

The Jazz at the Philharmonic floperoo was strange he opined. "With interest in jazz at the greatest height ever, why was it such a flop at the gate? Musically it certainly was a good program. Ella Fitzgerald and Oscar Peterson by themselves were a great success at themselves were a great success at Castle Hall this past spring.

castle Hall this past spring.
"It certainly is disheartening to one who is concerned with producing jazz concerts to observe the failure of a presentation of such proportions. The possible reasons for this boxoffice debacle are many and varied. Perhaps the second week in September is too early to promote a jazz concert in Boston?

promote a jazz concert in Boston?

"Could it be that the roster of
Jazz at the Philharmonic paled into
insignificance beside the gigantic
list of names presented at the
North Shore Jazz Festival just 24
days earlier? Or could it be that
the people were not fully aware
that JATP was in town on Sept. 15
due to some fault in its publicity
planning?

"Any one of these and many."

due to some fault in its publicity planning?

"Any one of these and many more could be offered as an excuse for failure. Don't forget, however, that JATP has been the most successful of all jazz concert packages for more than a dozen years without changing its basic format. Probably next year will find producer Norman Granz presenting a radically different lineup.

"I personally feel that the JATP failure points out the need for a new approach to the presentation of jazz artists in concert. Of course, monster shows will always draw people. Jazz festivals with hundreds of names should continue to create interest. The danger here, however, is that the great galaxies of stars congregating in one place at a given time can become so commonplace that the public will adopt a blase attitude about the whole thing."

He said he feels "there is need to great the presentation and the

whole thing."

He said he feels "there is need in jazz for the presentation and the acceptance of the artist as an individual. This is the only way his career can be assured of any degree of durability. The leading classical artists have achieved such stature that one name, such as a Helfetz, can sell out in advance at Symphony Hall.
"Can you imagine an all-star classical care in the such as the suc

"Can you imagine an all-star classical concert with Heifetz and Rubinstein and Platigorski and Reginald Kell featuring a battle of the violins between Menuhin and Oistrakh, with Marian Anderson handling the vocals?

"Sounds kind of silly, but in effect, this is what happens at these all-star jazz shows."

Brubeck's Short Haul

Brubeck's Short Haul
Trenton, N. J., Oct. 15.
Among modern jazz fans, it has become fashionable to downbeat the abilities of the Dave Brubeck Quartet. But the controversial pianist, probably the best known practitioner of modern jazz, proved in Trenton Friday (11) night that he is underrated as a musician.
It was unfortunate that more persons didn't turn out at the War Memorial to hear him pound out his highly emotional, but still swinging, brand of jazz. The huge 1,900-seat auditorium was only about one-quarter filled (see separate story for gross and other factors).

Michael Many so-called jazz "concerts" are merely parades of tenor sax honkers accompanied by footsamping and handelapping fans, this current touring Brubeck presentation is a concert in every sense.

Brubeck and his superbly-talented mate in counterpoint, alto saxophonist Paul Desmond, conduct themselves strictly in the manner

of the classical concert artist, soberly and dignified.

Although the music they present is jazz in form, Brubeck and Des-mond, and their equally talented rhythm men, take themselves as seriously as a Heifetz or Ruben-

For two hours, the quartet worked over standard Brubeck items such as "A Train," "Tanger-ine," etc., and somehow sounded lighter and more fluid than usual.

Hardworking Joe Morello, drummer, and bassman Norman Bates supply a driving and solid background for Brubeck's complex piano and Desmond's lyrical alto. Morello's presence in the unit for the past year seems to have given it a lift it never had before.

it a lift it never had before.

Brubeck himself is playing less heavy and seems to be adding a more earthy note to his solos. Desmond, on the other hand, is playing more forcefully, although still retaining the light touch and tone which give his horn its unique sound.

The only lementable thing was

sound.

The only lamentable thing was that more persons didn't turn out. It was hoped that medium-sized cities such as Trenton would patronize a relatively low-budget concert with only one group performing. Musically, the Trenton Brubeck concert was a success. But the fact that Trenton area residents stayed away in droves made it a dismal night boxoffice-wise.

Geitz, Gering Due Here

Frankfurt: Oct. 15.

Heniz Geitz, one of Germany's top pop songsmiths, and his pub-lisher Hans Gering, are going to the U. S. this month on a business

Gering will precede Geitz to the U.S. by a few days with the latter due for a deal to write some songs in America.

Inside Stuff—Music

Paul Anka, 16-year-old Ottawa highschool boy whose self-written disk of "Diana" has passed 1,500,000 on this continent and 750,000 in Britain and Australia, was given a caricature of himself at a luncheon in the Brown Derby, Hollywood. Lee Palmer presented it for ABC-Paramount. His father Andy Anka, restaurateur in the Canadian capital, flew there for the shindig. Kid gets his million-disk award Nov. 3 on the Ed Sullivan tv show—but a more practical token than a gold record: a \$200 gold watch with a "Diana" disk in centre of its face. He plays his home city Nov. 18 in Irv Feld's "Greatest Show of Stars of '57," at 8,500-seat Auditorium. He'll likely get a civic reception, and is slated for a presentation at a luncheon thrown in his honor by Dewaan Foundation of Ottawa, a Syrian business & professional men's association. His mother was born in Syria, his father in Magog, Que., of Syrian parents. of Syrian parents.

The Louis Braille Music Institute of America, which provides free musical services to the blind, is staging a big cocktail party at the Grand Ballroom of the Biltmore Hotel, N.Y., Nov. 3. The tab for the benefit is \$25 per couple. There'll be a raffle for ticketholders with the top prize being a cuffo vacation in Miami Beach. With some 40 exhibits from airlines, steamship companies, foreign fourist offices to be shown, the affair has been titled the First Annual International Vacation Festival. be shown, the aff Vacation Festival.

Gerry Mulligan, baritone saxist and one of the luminaries of the modern jazz school, has been set for a two-part profile in the New Yorker mag. Nat Hentoff, Saturday Review jazz columnist, wrote the piece. A couple of years ago, another cool cat, Dizzy Gillespie, had a three-part workover in the New Yorker.

The 50th anni of the U.S. Air Force is being marked this month with a Vox package titled "Air Force—A Portrait in Sound," with Arthur Godfrey narrating. Produced in cooperation with the Air Force, disk is compendium of, aeronautical sounds, including the boom of a jet crashing through the sound barrier, a noise known as the sonic boom.

Judy Garland, in London for a vaude stint at the Dominion Theatre, waxed "It's Lovely To Be Back In London," specially written for her by Roger Edens, the day after her arrival. She recorded the number for the Capitol label of EMI last Thursday (10). It will be on sale to the public on Friday (18). Miss Garland commences her six weeks' engagement tonight (Wed.) and will use the song as her show opener.

Over the past four decades, Bourne established a reputation for being both an astute business and music man. He was among the first publishers to understand the importance of mechanicals. During the 1920s, when the usual hit-making route was via the top vaude, artists, Bourne was romancing the disk companies, getting the top platter artists of the day to cut his songs. He would then use the disks to demonstrate the song to the vaude names.

U.S. Talent to Hit Jamaica Trail In Island's Hotel-Building Spree

An influx of more American talent is expected to be a staple of the Jamaican hotel mart as \$48,000,000 for new inns is being blue. printed for that island, according to John Pringle, developer of lux-ury resorts in Jamaica who was visiting in New York last week.

Thus far, according to Pringle; an increasing amount of talent is being imported to Jamaica from Miami Beach. Although no names are being plotted for the Jamaican hotels as yet, it's expected that they will come within a few years.

that they will come within a few years.

Now being constructed under Pringle auspices is the tallest building on the island, the eightstory, 100-room Casa Montego, which will re readied for Jan. 15 teeoff. Others in the Pringle group include the Round Hill and the Casa Blanca. All these inns are located in the Montego Bay area some distance from the city. With this kind of arrangement, the Jamaican hotels will be able to absorb both mass and class trade with the latter hitting the hotels away from the cities, says Pringle.

Pringle developed the Round Hill hotel and cottage colony at the early age of 26 when he persuaded personalities such as Noel Coward, Adele Astaire, Gladys Cooper, Clive Brook, among others, to put coin into the venture. A main building was erected and each of them got a cottage, which is kept for their use, but rented out during (Continued on page 74)

Jan. 2, 1950.

He first asked \$250,000 as his share of the profits under his contract, but at the beginning of the trial his lawyers withdrew that claim, conceding that since Proser left, the inn had made no profits to chare.

Proser now producing shows at the Tropicana. Las Vegas, was dis-charged, the directors said, under a clause in his contract calling for immediate dismissal if he "shall commit any improper or immoral acts detrimental to the inn."

commit any improper or immoral acts detrimental to the inn."

The directors claimed Proser was drunk frequently and used obscene, profane and insulting language at the directors and was overheard by patrons. Proser said that as part of his job as host, he had as many so 10 or 12 drinks a night with newsmen and celebrities but never had been drunk in all his life.

The \$2.000 verdict the jury gave him represented eight weeks' sai-ary. Proser said after the verdict:

"I'm delighted, I'd be glad with six cents, I was vindicated." He testified that last week his earnings at the Tropicana were \$3,600.

Among those who testified against Proser were Harry Haenisen, and Donald Walker, now musical director of the Lucky Strike Hit Parade orchestra. Proser admitted that on Oct. 2, 1954, he had used obscene language against Ben Snyder, now president of the inn away from him.

WITH VARIETIES

By MIKE KAPLAN

Hollywood, Oct. 15.

Supermarket circuit is becoming a growing factor in the overall show business picture and more and more grocery firms are eyeing the exploitation possibilities of "free ham and whole wit." Stunt has developed slowly in the last few years but has shown indications of emerging as a major source of employment for vaudenitery talent of all levels.

Basically, the grocery store shows are an outgrowth of the stunt that originated some years back with the Hadacol promotion. At that time, the patent medicine promoters toured several big shows, replete with top talent, for one-night stands admission to which was on a bottle-top or label basis. Now, the large chain groceries—particularly in the midwest—are utilizing the same device as a business booster. Customers are admitted free upon presentation of cash register tapes showing purchases of a stipulated amount, generally \$25. In a sense, it's a battle of performance against premiums since the food operators have, traditionally, offered either trading stamps or register tape to their mustomers.

Typical of the layouts being mounted for this new type of show biz is the current package put together by the Music Corp. of America for the Humpty Dumpty chain in the southwest. Grocer is understood to be paying \$50,000 for the package, which will play selected cities, beginning with a six-day stand in Oklahoma City, followed by four days in Tulsa before undertaking a series of one-nighters through Texas. AGVA'S FISHER RAP FOR LEWIS' CUFFO

Hollywood, Oct. 15. The American Guild of Variety Artists hung an "innocent by-stander" tag on Jerry Lewis and assessed Eddie Fisher \$500 for the performance Lewis gave at Fisher's opening at the Tropicana in Las Vegas. Case was heard by an AGVA board headed by western regional director Irvin P. Mazzei and Los Angeles branch manager James Kelly.

Under the vaude union's regulations, a performer can be fined for getting onstage to do a stint for which he has not been signed and for which he is not paid. In this case, however, the union ruled that the fault was Fisher's since he encouraged audience-applause to the point where Lewis would have been "embarrassed" if he had not performed.

Mass. Fairs Going to the Dogs And Hosses; Race Handle Spurs Talent

Horse and dog racing keep county fairs hotsy these days, it was indicated here with the release of figures showing that Massachessetts fairs broke records this year for attendance and for \$8,420,231 that went into the pari-mutuels.

for attendance and for \$8,420,231 that went into the pari-mutuels. While some quarters contend that racing now keeps the fairs alive. Eastern States Exposition in West Springfield rolled up an attendance of 460,000 without horse or dog racing, but it did have Bob Hope.

Racing makes the other parts of the fair possible, some fair promoters point out. They also recall that countly fair orgs worked the hardest and threw the greatest support to legalization of pari-mutuels in the early '30s. The fairs were said to be on the verge of bankrupfcy when they pressed for legal betting on their grounds.

Pari-mutuel betting has zoomed up and up in the past few years and with it have come the booking of big name attractions, upped prizes and attendance.

Some of the fair figures show that the oaters keep the crowds coming. Brockton Fair had a 30% increase in attendance and the horse betting handle was \$707,651, compared to \$507,8\$5 last year and \$378,682 in 1955; \$\$51,786 last year, and this year it went over the \$1 million mark to \$1,036,657. Paid attendance comed to 132,000, not counting moppets admitted free.

Paid attenuance zoonned to absolute free.

Wagering at Marshfield Fair was up from \$326,966 in 1955 to \$547,602 this year. Weymouth Fair was up from \$109,732 in 1955, and \$481,361 in 1956 to \$570,000 this year. At Northampton, the handle went from \$1,279,000 in 1955 to \$1,721,078 this year.

Of the gross handle, 8.3% was returned to winning bettors. The fairs and the state shared in the remaining 17%. The state gets 2% on every dollar up to \$65,000 per day and \$32% of amounts wagered over that sum daily.

One of the biggest takes was at Great Barrington Fair where \$3,187,923 was handled at the horse

Roy Rogers Corrals 101G In Albuquerque, N.M., For Biggest Round-Up in State

Hollywood, Oct. 15.

For nine performances of his rodeo, which required only 270 minutes of his time, Roy Rogers took out of Albuquerque, N. M. \$101.306 as his share of the receipts, the richest haul of any attraction in the state's history. He was guaranteed \$40,000 against 75% of the gross after expenses. What makes the record take all the more significant is the fact that his ty show has never been

that his tv show has never been seen in Albuquerque.

Show in the town's new area seating 12,000 was a sellout every night against the competition of a circus, football and rainy weather. Rodeo played to more than half of the town's population of 175,000. On Indian Day at the state fair attraction, more than 42,000 redmen representing 35 tribes sought admission.

Rogers rodeo will be televised as an outdoor spec for Chevy on NBC-TV Feb. 2 from Will Rogers Memorial Coliseum in Fort Worth.

Acapulco Hotels Try To Discount Cost Tag Mexico City, Oct. 8.

Mexico City, Oct. 8.

Hotelmen of Acapulco, lush Pacific coast resort, are campaigning to wipe out "the myth of Acapulco," as they call it, that the spot is the most expensive one in Mexico. They plan to advertise far and wide, particularly in the U.S. that in Acapulco you can enjoy all the charms without going broke because accommodations and what else you want can be had by all

charms without going broke because accommodations and what else you want can be had by all as they are gauged to fit all purses." The hotel operators say the "myth" has put a dint into their business by inducing many tourists either to avoid Acapulco or visit it too briefly. Their publicity, already underway in Mexico, stresses reasonable costs.

The Acapulco bonifaces admit increasing competition from a spot on the other side of Mexico, the port of Vera Cruz, which certain tourists describe as "the place of a haunting charm, top enjoyment, and not nearly as hot and far less expensive than Acapulco." A feature of Vera Cruz is the scenic and inexpensive ride there via the Mexican Railway, this country's oldest long distance railroad, opened in 1873.

Pringle points out that dance bands provide the bulk of the entertainment needs of the island, although the recent calypso craze has started the recent calypso craze has started the trend to more usbstantial shows for the hotels. Harry Belafonte, he said, has highlighted the island's brand of entertainment and "in a peculiar way has captured the mountain madness of the islanders." Jamaica as well as the other islands never realized the potential of calypso as a means of enticing tourists until the professionals, Belafonte included, took it in hand. It has since aided in the tourist development of all the islands. Thus, talent will play an increasingly important part in the development of the tourist trade in the entire area. in the entire area.

In the case of the Modernaires, arrangements were made for them to miss one of their scheduled performances on the Rosemary Clooney tv show, so that they could fulfill all the terms of the grocery date.

Store promotion puts talent more into the "free show" category than ever before. There has been a growing trend in recent years toward the use of vaude and nitery talent for fairs and other expositions which formerly played only circus type acts and other "free attractions." Development of the supermarket circuit, at the present rate, combined with the number of fairs swinging to this style of entertainment could produce a new type of vaude road that would rival, in the amount of available plaving time, the heyday of the big circuits.

Rothafel; choreography and staging, Ray Frost, Kenny Springer, scenery, Bruno Maine; costimes, Winniford Morton; musical arrangements, Perry Burgett; "My Man Godfrey" (U), reviewed in Variety Sept. 4, '57.

New stageshow is one of the best in many months for the Roxy. It has more precise direction, overall production know-how and smoothness than has been on view at this house in countless weeks. Aside from the usual ice canters and improved production, this introduces Mari Adi, a comely Swedish singer, who appears to have real possibilities. This huge auditorium perhaps is not the best place in the world to showcase her potentialities but she has them even though ties but she has them even though nervous and a bit stiff at show

nervous and a bit suit at show caught.

Robert C. Rothafel, who directed he whole production, selected Miss Adi after listening to many singers in Stockholm. While she can belt out a song, her stage presence mitigates against Miss Adi's coming across as she should. And some fault can be found with launching right off signg in Swedish when obviously the audience expected her to warble in American. She immediately swings in English on the same tune, "Think of Me," which is the American adaptation of the Swedish pop tune, "Vill Ni Se En Sjarna." And she continues singing in English through her appearance. her appearance.

unues singing in English through ber appearance.

Best of her numbers are "Wonderful Guy" and "Tammy." She does the latter so well, one wonders why it was not spotted up front. Miss Adi then doffs her evening gown for tights to warble "Diamonds Are A Girl's Best Friend," with six Roxyettes prancing in the background. Signoff tune is "Saints Go Marching In." She is brought back for a bow at the show's end where dividing her song stint would have brought her no with a couple of tunes and a more effective blowoff for the whole show. As is, she appears to overstay her welcome because of the long strings of songs.

Whole buildup of the production

the long strings of songs.

Whole buildup of the production is for Miss Adi, with newsreel clips showing her taking a plane for the U.S. arriving in America and deftly segueing into her actual appearance on the stage. Vyvyan Donner, femme commentator for fox Movietone News, succinctly narrates the background explanation of her junket to this country in many respects it looks like a terrific plug for Pan-American Airlines.

lines.

The "Scandinavian Holiday" portion of the stage production is best, teeing off the show. Holiday in question is the village wedding, with Nancy Lee Parker and Nicky Powers iceskating soloists. Both are familiar to Roxy audiences, Miss Parker being unusually skilled with her twirling a la ballet but on skates.

"Denizens of the Deep" brings in mermaids, Vikings, giant crabs and sea horses. This builds into the best skating sequence of the show, "Mermaid and the Prince." This has Miss Parker and Powers in a skating duet with Miss Leslie Sang intervening to try to break up the romance. Miss Sang does on ice skates what many dancers have difficulty doing in ballet shoes. She gives a terrific performance. formance

Success might have mellowed some of the new songs, but Brassens remains a unique top staple entry here, though he would probably defy transplanting to the States. Cole, Dyerettes (4); "Gun For A Coward" (U).

House is taking a breather from rock 'n' roll this session and it comes off as a likeable musical stanza sparked by headliner Roy Hamilton and bandleader Erskine Haykins. With a flashy femme foursome called the Dyerettes laying down some nifty terp turns and some pleasant comedics from emcee Bill Cook, the whole layout is reminiscent of the pre-r'n'. days when talent and not noise counted. This is Hamilton's first Apollo date since his hospitalization about a year ago. He's still got a power-packed set of pipes and knows how to milk a lyric for all it's worth. He gets across mightily with "Five Minutes More," "If I Loved You," "All Of A Sudden My Heart Sings" and a swinging "I'm Going To Lock You In My Heart and Throw Away. The Key."

Hawkins, too, is a solid musical bet here. His trumpet leads the way for three rhythm, four reed and four other brass. His blowing, on "Birth of the Blues" is standout. Also in scoring position are "Sweet Georgia Brown" and "That's Best," the opener.

The Dyerettes, in the next-to-closing spot, intersperse their tapping and twirling with some songs and comedies. It's the terping that shows up best for them and fortunately they give out plenty. Rest of bill is routine but easy to take. Acts are on and off with a two-number set, except for the Tune Weavers, two and gals and two guys, who get an extra song shot. They do okay with "Old Man River," "I Remember The Day We Met" and "Happy Birthday, Baby," Repped in the two-song rum are Dolly Lyons, Billy Barnes, Ann Cole and the Lovers. They all manage to keep the house interested.

This really doesn't count as far as the Paramount stageshow potential' is concerned. It's something gotten up by the theatre dept, probably over the objections of those who know talent, for picture exploitation purposes at the last minute when any benefits the house might derive couldn't be properly exploited.

Dr. Neff's function is to help exploit the horror pic, "The Black Scorpion" (WB). As such it's a dispointment, since there's no screaming down the aisles, the surplises are mild and the modus operandi could be employed in a show at an old age home. Dr. Neff's tricks are in the standard category. There is no brightness of presentation and probability is that he'd have a better turn if he cut down on his working time. There was nearly an hour of magic presented. The same amount of tricks could have been done in half the time. Among his efforts is the standard of putting a femme in a box and piercing it with weapons. Many of his tricks are variations on that theme. The excitement in this turn is minimal.

Eddie Arnold, sleepy-eyed English impressionist, comes up with clever travesties of William Bendix, Robert Mitchum, Edward G. Robinson and Nat King Cole. His attempt at Scot comedian Chie Murray is too brief and off the beam. Winds with a satisfying Marlon Brando. This act could make more of obvious potential. Francois & Zandra, novelty dancers, are well-above-average openers, with stylish flair and a strong second-half slotting in an adagio. Exit to satisfying mitting. The two Merenos, mixed duo, roli-cr-skate on dais, distaffer's head almost scraping ground level as her partner whirls her. Kalanag's Sim Sala Bim (RIVIERA, DETROIT)

A handsomely mounted and superbly executed magic show with stooges, gimmicks and girls galore marked the U. S. debut last night (Mon.) of Kalanag & His Magic Musical Revue "Sim Sala Bim" at the 2,700-seat Riviera. Show is in for two weeks.

Fast paced two and one-half hour Harold Steinman production is remarkable for its something for everyone variety and polish. It is an amazing melange of the mysterlous and the transparent; it approaches cheap burlesque at times, yet manages to capture an aura of genuine magic. It ranges from disappearing eggs to flying doves, from weaving snakes to a whole bar full of different liquox abouted from pitchers seemingly full of water; from boxed wrist watches to boxed, scantily clad girls; from an automobile that vannishes in a puff of smoke to sprouting flowers, and from levitation to a lady cut in thirds with a buzz saw.

Kalanag, who has appeared in Europe, South America and Canada, is a smouth working, adroit magician who obviously delights in the switcheroo—you can see his tongue inside his cheek. For example, he goes to great pains to get participants from the audience and to make everything appear on the up & up, then by the use of some gimmick in the participants from the audience and to make everything appear on the up & up, then by the use of some gimmick in the participants' apparel makes it obvious that a stooge is being used.

Gloria De Vos, a blonde looker, is given featured billing and displays a talented versatility. Sie sa memory artist, she dances, she goes into a trance for levitation, she is chief disappearer and she is chief assistant magician.

Show has 14 shapely girls, seven original songs by Theo Buchner which work in well in production numbers, and a full orchestra. It is in two acts.

Most Distinguished Flop "Bonjour Tristesses," the filmization of Francoise Sagan's first novel, is Preminger's first picture since "St. Joan," which he frankly describes as "my most distinguished flop," but he hastily added, "I have had much less distinguished ones." "St. Joan" also represented a serious disappointment to Jean Seberg, the Marshallton, lowa tyro who was awarded the title role after a nation-wide contest. Despite the severity of the critical panning she took for her performance in "St. Joan," Preminger, who has the young actress performance in 'St. Joan, Freminger, who has the young actress under a long-term contract, has dared cast her in the sensitive role of the wily French girl of "Bonjour Tristesse" whose malice brings suicide of her father's fiancee.

All the doubts of all the critics about Miss Seberg's thespian ability does not concern the outspoken producer-director. "I think she has talent," he said incontrovertibly. "If I'm wrong, I'll pay for it. I don't say I'm infallible, but neither are the critics."

Unlike "St. Joan," in which Miss Seberg was called upon to carry the brunt of the picture, "Bonjour Tristesse" has the name value and pre-sold support of a pair of seasoned pros of proven ability and popularity—Deborah Kerr. as one of father's mistresses, and David Niven, as the suave man-abouttown daddy.

Of course, the opening night mishaps didn't contribute to the cuphoria of the layout. The amplification system was an offender as far as the performers were concerned and this contributed to a noisy audience which had the cast in an uphill battle for the ever, the bulk of the room was in position to discern that a lot of entertainment was being dispensed. Adams and Kelly seem to be right at home in this element. The former can mix his Yiddishisms as much as he wants in this atmosphere, and get good results. Johnny Desmond, Shelley Berman, Bruxellos (4), Thunderbird Dancers (8), Al Jahns Orch (14); produced by Marty Hicks; \$3 minimum.

Johny Desmond makes his umpteenth return to the Navaho Room, this time for three weeks, singing better than ever. His strong bary pipes seem more relaxed with a tune now, and occasionally he foregoes belting to inject an effective falsetto croon into the melody. His format again is geared to wisely selected songs in the pop and ballad vein, each a surefire tune paced to a neat pyramid. Desmond also points up a dramatic ability, drawing pathos out of a specialty tune, "Martini." Opening night (7) he added a showman's touch, singing "Back to Sorrento" to his alling parents by way of long distance telephone from the stage to Detroit.

Shelley Berman is well received

Detroit.

Shelley Berman is well received on his first trip here. A former Steve Allen scripter, Berman recently turned to enacting his own comedy lines. While on only for what seems to be a brief spin for a comic, he scores yooks with a pair of monologies, drolly written and drolly intoned.

and drolly intoned.

The Bruxellos score well during aero gymnastics, climaxed when one of the four flips a somersault while holding a tray of eight wine-filled glasses. Rex Johnson capably emcees and tunes up the vocals to the three sprightly Gayle Robbins choreos toed by the Thunderbird Dancers (8). Al Jahns orch keeps up a lively musical backdrop.

Jim Paul Eilers presents "In Your Hat," three-act revue with Karen Anders, William Graham, kenneth MeMillian, Barbara Sharma; music & lyrics, Rick Besoyan; staged by Christopher Heuett, Ray Harrison; musical director-pianist, Natalie Charlson; decor & costumes, Howard Barker; lighting, Edmund Roney; special hats executed by Xenia Cage; \$3.50-\$5 minimum.

Jim Paul Eilers, ex-male model who recently opened a ginmill-with pianola yclept Speakeasy downstairs, is having himself a ball downstairs, its naving number a oan as impresario of an intime revue upstairs. His Showplace is located in the heart of the Greenwich Village belt 4th St. just off 6th Ave.) as Ellers' affable answer to Julius Monk's kindred shenanigans at his Downstairs room in the Wort 50c. at his D West 50s.

West 50s.

Only the cognoscenti of the off-beat saloons and the off-Broadway bandboxes would be familiar with Eilers' talent. They're in the "new face" grouping with mostly "national company" "off-Broadway" "stock" (etc.) experience. The cast numbers four down from five, with Jo Ann Hill, who was to make her pro singing debut, felled by that familiar flub.

pro singing debut, felled by that familiar flu).

They're a lively, vigorous and generally talented group making somewhat like the old Revuers (which brought out Judy Holliday et al.) in a three-act "intimate musical revue" that for the most part spoofs the pants off pretty nearly everything in entertainment. No ballad or torcher, Venetian gondolier or madrigal chant is safe from their Irreverence, but all of it is handled skillfully and is not se broadly done as to become monotonous. They even work out a far satire on a mythical kind of opera meller "dug up" from circa 1919; it's called "Little Mary Sunshine" and is the second-act hijinks of considerable appeal and with of considerable a chuckles built in. appeal and

chuckles built in. In some 40 numbers down to very proper size, since virtually all the song and other capers are quickles — though not bereft of protein — the quartet comport themselves devilishly or dynamically, as the case may be. Karen Anders, a blonde with no pretense at being a chicken carries a good Anders, a blonde with no pretense at being a chicken, carries a good deal of the comedy burden. She's in the farceuse class, not overboard on the uninhibited style, and with-out benefit of classy chassis comes out as a good cutter-upper. Most what pleasantly plump figure. The kudos would go to a charming little creature called Barbara Sharma. She's pert and redhaired Sharma. She's pert and requaired, fronts a whispery volce, and seems to have been grounded in ballet, or at least some straight dance work. She's a shapely miss with educated gams and with a wistful and often malicious way of attacking a song or piece of business.

educated gams and with a washing and often mallclous way of attacking a song or piece of business.

The two males in the group are William Graham and Kenneth McMillan, both of whom have a savygrasp of what they're doing and with a wide versatility to match. What shows them off is their finely developed sense of grappling with the repertoire tongue-in-cheek, without deviation. Certainly the staging, by Christopher Hewett ("Shoestring Revue," "Ziegfeld Follies" sketches, and an actor), had not a little something to do with the sly and not overdone slant in which the miniature revue is approached. His direction is compatible with the miniature revue is approached. His direction is compatible with the missic & lyrics, fashioned by Rick Besoyan with mischlevous definess, especially the words, which are little gems of saloon type poetry put through a wringer to come out sharp and frequently saity. Strangely, perhaps, neither the performers nor the material have any tendency at any time to get off-base; it's a show in the Sunday school gehre, with cleverness in lieu of dirt or indigo. An unsung heroine is Natalie Charlson, who functions as batonist without wand from a plano which she keeps pounding away in a durable showbacking stint that hypoes the stage fare. As to the stage, it's a bandhox, like the table area, elevated only about six inches from the fact that a number of wk. designers have come in with chapeaux, including Mr. Arnold, Mattie Carnesie Walter Florell.

The "fin Your Hat" title derives from the fact that a number of wk. designers have come in with chapeaux, including Mr. Arnold, Hattie Carnegie, Walter Florell, John Frederics, Mr. John, Beatricamartin and Laddie Northridge, as per the credits in the program; the millinery "specials" were made by Xenia Cage and men's strawhats supplied by Cavanagh. Bright and sparkling, also, are Howard Barker's costumes and his decor.

Many another nitery, incidentally, could well emulate this new Showplace in the case of the Off-Bway Showbill, a clean, hand-somely orinted opposite number of the "bill of fare" on Hroadway.

Carol Channing, Paul Hebert

Orch (6); \$2.50 cover.

For most of its years of electronicking entertainment, television has been trying to develop someone in the image of Carol Channing. It has been a losing fight and the reason will be on view for the ensuing fortnight at the Mocambo At her opening to a jampacked room of class clientele, she diplayed the talent that has eluded the newer crop of mimics.

Despite fact that she did practically laif her act on tv ("Crescendo"), the bloom of her mimicry has lost little of its blush for the smart crowd. It has been some years since she first flashed across the footlights as the singing-comedy star of "Gentlemen Prefer Blondes," but the songs that helped propel her success still have a fresh glow in the fashion that is so characteristically hers, "Little Girl From Little Rock" and "Diamonds Are a Girl's Best Friend" would have a diminished impact at the hands (and voice) of some imitative talent. She carries the song rather than the song projecting her. That's the hallmark of distinction that keeps her level of artistry so beyond the reach of entulators.

Her caricatures of Sophie Tucker and Tallulah Bankhead are delights of gentle spoofing. More broadly burlesqued are "Calypso Pete" and "Cecllia Sisson," the latter and howler with the lisp-whistic interludes, She should refrain, however, from losing herself to the level floor audience by sprawling on all flours and languishing in a chair. Necks were craned and some stood up not to miss her conicalities.

George Jessel and Groucho Marx were on hand to help out, but her blonde mop of hair almost bristled and her wide staring eyes narrowed when Groucho seemed to her too interruptive. At one point she sked, half seriously, "you all through?" and then some half-lost remark about Groucho some day being onstage himself. Jessel, however, played it straight other than quip that, "she's the first one of this generation I've ever introduced." It was Groucho's birth-day and a cake with one candle was cut, hut it wasn't-needed to trev up the jollies. Miss Channing did that very wel

From here on in, they've got it made in this area, marking up a big click, with three return date options speedily picked up by boniface Larry. Tisch. The duo work in the screwball tradition of Martin & Lewis, but there the resemblance ends; their routines are tied to more characterization and continuity, the material containing a load of fresh yockmakers of which a howler on the Sputnik satellite is typical.

yockmakers or which a hower on the Sputnik satellite is typical. Allen is a moonfaced guy with a sharp sense of timing and a deceivingly bewildered delivery that hops up the punchlines. DeWood handles a straight song in solid manner and adds to act's impact with sharp mimicry in duo-bits pegged to satirizations on current toppers. Their "Joe the Bartender" (niery version) is by now a standard and strong bit for them. Ditto at Lypanese lampoon on a "long lost" hideout from the late war. Dorothy Sarnoff, co-topliner, is the sort of class songstress who belongs in these smart surroundings. The auditors gave plenty heed to her musicomedy, specials and, natch, score—rundown from "King and I" (in which she was featured). Slick gowning, mature stage deportment and deft delivery add to the build which brings encore segments.

Drafted at last minute when Johnny Coy was unable to make the date, young Bert Michaels, a U. of Miami student, showed strong potentials as a loose-limbed hoofer in the Ray Bolger pattern. Lad, besides the expertly leggy eccentrics, adds gasp-raising flips and butterflies, to get them palming fast. Lee Martin and his crew tae a plus on their showbacks; Jackie Heller, per 'usual, dances, and tees off matters with a brace of tunes. Downstairs, N. Y.

Julius Monk presentation of "Take Five," three-part revue with Ronny Graham, Ceil Cabot, Ellen Hanley, Jenny Lou Law, Gerry Matthews, Stan Keen & Gordon Connell; \$4-\$5 minimum.

This is Julius Monk's third—and last—season at the Downstairs which, along with the Upstairs, must make room for a new building. And as his fareweller; Monk presents "Take Five," which shapes easily as one of the best "little" revues to hit Gotham in quite a while. Thanks to the talents of its five performers, a sophisticated and extremely funny script and very clever staging, this is sock cafe material from beginning to end and assures this spot of top attendance.

Monk is given credit for having conceived and supervised the whole show, and it spells Credit with a capital C. Pacing is perfect, singles and ensemble work are cleverly interwoven for maximum effect on the extremely small stage, and the whole thing vibrates with high good humor on a better-than-average, at times satirical, level. Max Adrian and John Heawood have staged and directed the show, which comes in three sections and gives every one of the five performers an ample chance to shine.

Star of the program is Ronny Graham, a comedian who can not only take the close-quarter work but seems to thrive on it. Graham can be both subtle and obvious, and his material is firstrate. Much of it he writes himself. His "R. & H. Factor" routine, the "Say Hello" number and the "Vending Machine" bit all are of top calibre and in a class quite by themselves. He deservedly goes off to very big mitting.

But around Graham are a quarter of perfectly matched people. Ellen Hanley Graham's wife does a stumning job in her. "Pro Musica Antiqua" number. She got a very good voice and displays it amply. Ceil Cabot is a charmer who has a grand way with a song and a laugh. Jenny Lou Law emerges as sock comedy talent' and Gerry Matthews contributes solidity.

Rarely, in a cabaret such as this, do all elements fit so perfectly and manage to match the mood of the audience. Ensemble work, and imagination, in the "Gossiping Grape-vivine" sequence are tops and the whole troupe proves its amazing coordination. Stan Keen & Gordon Connell work the duo pianos. Gatineau Club boniface Joe Saxe has whipped up boffo floor fare for the week of the Royal Visit in Ottawa. Toppers are Joan Roberts & Her Escorts, an act that collected great kudos early in its nitery career in the Gatinean Club last August and has been repeating on all appearances elsewhere since then. The original Laurey of "Oklahoma!," Miss Roberts has rewritten most of the stint since then and improved an already standout stanza, retaining only socko excerpts from "My Fair Lady" and, of course, "Oklahoma!"

The routine is tightly knit, fast and slick Miss Roberts exhibits top savvy collected from her stagemusical experiences, and her Escorts—Jimmy Eiler and Bill Nuss—show ability in chant, terp and staging know-how. They work nicely in several appearances alone and form strong backing for Miss Roberts.

In items like her "Mary Brown from Allentown," a bit that parallels her own struggle to reach the Rogers & Hammerstein level, canary leaves no doubt as to her skills in thesp, terp and piping in concert and pop slots. Session's weakness is a comedy skit. It seems out of character with the rest of the routine and the trio works too frantically. Bit could get more impact with neater pacing and line-handling.

Dorothy Kramer Dancers—four femmes and male—are on twice to big effect. First is a tap session, closer uses jazz and blues. Routining and costuming leave no doubt that the girls are expert terpers and have standout linear qualities. Male works nicely with them in terp but could beneficially omit his sole chant effort.

Champ Champagne band handles difficult showbacking arrangements nicely despite forced use of replacements due to current fiu epidemic.

Sidelined for a day with recurring fainting spells, Pearl Bailey returned to the Flamingo Room stage for a performance greeted by the healthlest type of applause. Even the entrance to the showroom is covered by a canopy, that reads, "Club Pearlie Mae."

Miss Bailey entry the entire show. Even the entrance to the showroom is covered by a canopy, that reads, "Club Pearlie Mae."

Miss Bailey enters the stage via the audience at the outset of the 70-minute shop. In tow with four chorines, she joins the cast of 12 dancers in "C'est Magnifique." During her main routine, Miss Bailey sings 10 songs, two of them with the Ink Spots (4). She uses some of her old favorites such as "My Man," "Birth of the Blues," plus special material, "Gotta Get if When He's Got It." Even though still affected by her illness, the veteran performer masters her audience in a manner that will spell boxoffice, as usual.

The Ink Spots carry an abbrevisted role of only four songs, "From This Moment. On," "My Echo, My Shadow find Me," "A Slianty in Old Shantytown" and 'if I Didn't Care." The youthful version of the original group fails to vary much from the wellknown format and carbon-copies the popular classics faithfully.

The Apache-dancing Mazzone Abbott Dancers thrill with their madcap antics of daring and destruction. Three lithe and zestful female dancers are duly hurled about amid the "smashing" of large props. The act is warmly received.

distinction to a layout which otherwise would be par for the October course.

A regular on the plush hotel-cafe run in this town, Miss Valli comes back with a plentiful array of newies to buttress her recording book, with accent on ballads at which she is highly adept. The "Fascination" class of tunes currently popular receive soild work-overs from her full-throated vocability. Injects of upbeat cleffings give balance and her quietly assured manner and unaffected, straightforward delivery add plenty plus values to her stint.

Johnny Morgan, a fast replacement for Dominique, originally booked and cancelled out by Asiatic flu, is a pleasant guy who with some original material could hit a higher bracket. As is, his act is a mishmash of heard-befores, with reaction mixed. He garners giggles with the spoon-in-glass dance gimmick and winds best when he hits the song trail.

DeMay & Moore are a vet pair of comedy ballroomlogists, held over from previous show. They make for a breezy, amusing teeoff act. Mal Malkin, back from long vacash, emcess likeably and batons the musical portions in top manner. Arriving end of week: Don Rondo and Jane Kean.

LOS RIVEROS (3) Dance 10 Mins. Chateau Madrid, N. Y.

Los Riveros, comprising two lads and a girl, are a youthful en-

terprise who put a lot of zest into their work. •They function in a Latin dance vein with occasional song interpolations. They make an excellent appearance with vivid and imaginative costuming.

At this point, their work needs a lot of channeling and direction as their dancing is frequently devoid of climaxes. They could achieve greater results with more knowing choreography. They are individually good dancers, but the group work needs a sharper focus.

He also essays portrayal of little boy eating a follipop, and repeats his tv type, the ungrammatical Scot known as "Albercomble Wellington." Winds with patriotic song about Glasgow.

With patriotic song about cuasgow. Comedian has obvious potential if quickly taken in hand and given some modern patter-polish. He should avoid using the same old phrases, such as beginning each sentence with "However:.." and should avoid using the same old phrases, such as beginning each sentence with "However..." and interjecting constantly the regional vulgarity "Murder, Polis" (translatable to U.S. ear's, mebbe, as "Murder, Police"). Del Markee, 5-10 stocky, redheaded comic, who was in the New

replacing Tom Pettl, is breaking
in a new nitery act here, which
looks to have considerable merit
for the saloon trade. Essaying the
switch from musicomedy to the
nightclub floors, Markee, who has
a background of piping, displays a
gravel-throated voice for his oneliners and comic repertoire, but
gets off his song numbers in clear
slick baritone.
He identifies himself with "Guys

bits on gangsters, detectives and
version of "Oldest Established
Crapgame in New York." He takes
a 10-gallon Texas hat for a rousing
rendition of "Money Tree" and
then goes into a Jolson "Mammy"
bit. Markee displays a nice affinity
for slapstick throughout and uses
a hearty, congenial chuckle which
gets audience impact, and a liberal
sprinkling of chi-chi material ag
immicks. His songalog is good
with "Nothing Like a Dame" and
"Only Haye Eyes for You." Act
has a liberal sprinkling of smart

magnum opus is an Oriental fakir

every standpoint were inevitable. I have yet to hear anyone fail to agree that this touring company is comparable in every way.

The whole point is that it would have been possible for Levin to have done this production a lot less expensively. He could have thinned it out around the edges and very few people would have known the difference. But he went the other way, and I am grateful to any producer who has the foresight to provide a road company that not only ducer who has the foresight to provide a road company that not only renews the faith of the ticket-buying public, but gives rew vigor to us local managements who find it a pleasure to be in a position where no apology for quality is called for. Tony DeSantis, after essaying four shows in a makeshift theatre, is satisfied that year-round stock will help his restaurant business and has darkened Drury Lane for a few months to rebuild it into a permanent in-the-round operation.

Theatre, which locates in the asement of DeSantis' capacious Martinique Restaurant in Evergreen Park, Ill., should relight in February with a name policy and a 52-week blueprint.

DeSantis moved the theatre indoors when a rainstorm blew down the adjacent Drury Lane ient last summer during a performance of "Will Success Spoil Rock Hunter?" with Marie Wilson. Miss Wilson returned with the vehicle when the theatre went underground and did fair-to-good business there. Tom Duggan in "Seven Year Itch" proved a bonanza, but James Dunn's "Harvey" and Eddie Bracken's "Three Men on a Horse" drew poorly. When latter closed Sept. 29, DeSantis decided to suspend operations and remodel. He said that even when the theatre operated at a loss he made up for it in dinner and after-theatre trade in the Martinique.

Mixed Reaction To Jose Limon At Berlin Fest

Berlin, Oct. 8.

The ballet side of the Berlin Cultural Festival was particularly substantial this year. One of the most eagerly awaited foreign ensembles was Jose Limon and his American Dance Company. Latter's local sixday (Oct. 1-6) guest appearance at the Titania Palast was arranged by American National Theatre and Academy (ANTA) in conjunction with Bureau Artistique International (Paris). The last mentioned agency, headed by Anatole Heller, has the European exclusive representation of this troupe which after Berlin went to Poland for appearances.

Berlín went to Poland for appearances.

Limon's ensemble performed here a total of 12 different works, split up over the six days, with choreography mostly by Doris Humphrey and Limon himself. Before Limon had even come to Berlin, he was hailed as the world's best modern dancer in the local Festival publication. Consequently, the expectations were sky-high on the part of local ballet critics and Berlin's comparatively large set of ballet adherents. The reviews in the papers differed quite a bit: While some praised him as an incomparable performer of modern dancing, there were others who openly expressed disappointment. The reviewer in Der Abend called him a daneing great—but of yeshim a dancing great-but of yes

nim a dancing great—out or yes-terday.

The negative reviews resulted partly from the fact that this com-pany's programs on the first two days, which saw bulke of the critics days, which saw bulle of the critics gathered, was not as strong as that presented on the following days. The third and fourth day, for instance, saw among other outstanding things Limon's "Emperor Jones" (after a play by Eugene O'Neill) and this creation was not alone a dancing sensation, it also became a highlight of the entire festival.

became a highlight of the entire festival.

In all, the Jose Limon troape consisted of 15 dancers, including Pauline Koner, Lucas Hoving, Bety Jones, Ruth Currier, Lavina Nielsen and Letitia Ide (Mrs. Victor Ratner of Benton & Bowles, N. Y.). Nor was business satisfactory. Six days were definitely too much in event-crowded Festival days here? Audience reaction was very good. There was a considerable number of ballet fans who called this presentation one of the most interesting.

Sweet Smell of Arts 'Subsidy'

But Ford Grants Strictly for 'Experiment'-to Get Cleveland Playhouse on the Road-N. Y. City Center to Have Spring Opera Season

Two experimental projects in grand opera, one in stage drama, one in symphonic composition and one in art instruction have received this week noney grants from the Ford Foundation—the first grants in the arts area made by this particular foundation. Nominal in amounts, their significance lies in the impetus Ford gives, by its action, and by its related promise of future study, to art "subsidy" in America.

But special note should be taken of what the

idy" in America.

But special note should be taken of what the foundation is not doing—very definitely it is not plunging into the bottomless pit of deficit financing of opera, symphonies and other cultural media. Its money grants are carefully hedged against diversion to cover operating losses of companies or orchestras. These grants are not for "support" but for specified "experiment." Interestingly four of the five grants have been assigned regionalty—to Minneapolis, Cleveland, New Orleans, Boston, Knoxville, Oklahoma City, San Francisco and Washington. Only one has gone to the art centre of the country—New York.

centre of the country—New York.

Thanks to Ford the N. Y. City Certer will have next April something wholly new in America, an entire spring season devoted to operas by American composers, all written since 1937 and some brand new. That means that Ford is backing a test "in depth" of opera wi h English words and American libretti. Its gift of \$100,000 is two-fitths of the necessary budget, plus \$5,000 to finance the presence of the composers (sic) at the rehearsals. This small added sum recognizes a reality—many American opera composers in the past have been woefully ignorant of the technical problems of staging, how to mount the actual performance of their work. their work.

their work.

Another test "in depth" concerns symphonic music. Scrious composers have complained that winning a prize often means only one single "premiere" by the committed orchestra. Under the Ford grant of \$210,000 to the American Music Centre Inc., six cities are tied in, their conductors, and others forming the jury for commissioning new works. Selected composers are to be handed \$1,000 to \$1,500 advance fee and are guaranteed four performances during the season. This means that the commissioned work will be exposed s raight off to the audiences—and "the critics—of four American eities and not just one, and especially not just New York, which is outside the plan entirely.

plined until to later troupe the villages and towns of Ohio—thereby opening up new audiences for the spoken drama.

Behind the five current Ford grants to the arts lies two years of preliminary investigation by its Humani'ies & Arts Division. The facts revealed to date point up the skimpy and unreliable nature of available data concerning the arts in this country. More significant than the grants themselves is Ford's undertaking an intensive behind-scenes survey of every branch of American culture which will continue from now until September of 1959 when vice president William McPeak and program chief W. McNeil Lowry are due to report to the Foundation's Board of Directors.

Lowry makes it clear that the present preliminary grants of money are part of the Ford Foundation's own education in the arts—what their needs are realistically and what FF might best do about these in the years ahead. But despite the cautions, the contractual limitations on the use of monies and the marked obsession with the stern economics of, rather than the mere emotional pleas for, worthy cultural endeavors, there is no doubting that the Ford commitment, even as it stands, is a major breakthrough in America for the cause of art subsidy by private philanthrophy.

New Orleans Risk

major break-through in America for the cause of art subsidy by private philanthrophy.

New Orleans Risk

The Ford plan at present differs from any other foundation or fund. Whereas the Rockefeller Foundation expended \$500,000 commissioning music for performance at a single symphony, Louisville's Ford is spread over six orchestras and three seasons, or 18 composers in all. Perhaps the most free-wheeling selec'ion among the five is the \$165,000 given the New Orleans Opera House Assn: This uncertain organization of 19 performances each season is distinctly also-ran in American opera. Yet it has lad a considerable success heretofore in taking promising American voices and bridging the gap between the musical coach and the finished professional with actual stage experience and stage gresence. The Ford grant aims to aid opera candidates but none of the money may be used in any way by or for the regular New Orleans "season."

The foundation is, again, seeking experience and guidance for its own future allocation of funds in the instance of the Minneapolis Society of Fine Arts plan to develop teaching methods for visually-conditioned talents that are not ideally suited for the more academic art courses of accredited colleges and universities. This venture in instructional experiment is backed by \$150,000 total over five years.

Art, Auditing & 'Subsidy'

Philadelphia, Oct. 15.

City Controller Foster A. Dunlap and Charles, I. Thompson, Pres, of the Fairmount Park Commisssion, which operates the Playhouse-in-the-Park, are on opposite sides of the fence as far as the economics of the project are concerned. The Controller regards the loudly touted claim of the commissioner that the theatre is self-supporting as "highly imaginative" and feels the public is ge ting a rose-colored financial picture.

Dunlap says the Playhouse "is not and never was self-supporting." In round figures he claims the tent was in the red for \$14,158 in 1956. An accountant for the Park Commission reported a loss of \$746. The difference according to Dunlap represents labor by park employees, painting, plumbing, carpentry and custodial charges. He suggested the present bookkeeping be adjusted to include direct and indirect charges.

"Personally," said the Controller, "I have attended performances in the Playhouse and think it is a very good thing, but I feel the people should realize it is subsidized by the city."

The Commissioner coun'ered "I still think it a good thing whether the loss for \$700 or \$14,000. I don't care whether it is self-supporting or not."

Good Will Needs Showmanship

Shanta Rao Dancers from India, which completed two weeks at the ANTA Theatre, N. Y., and is doing one week currently in Washington, has been cancelled for its fourth scheduled legit theatre booking (Locust, Philadelphia) and for all of the previously projected four weeks of concert dates, including Chicago, via Columbia Management. Thereby hangs a tale and a lesson

This booking was made for the wrong reason, as two years ago when "Tamburlaine The Great" was brought into the Winter Garden from Canada. In both instances the basic motive was to promote international good will. This never was, and it is doubtful if this ever will be, a substitute for the right kind of show for a ticket-buying audience.

That entertainment has become ammunition in the prestige war between us and the Russians is clear. For our own side it is established that singers, musicians and dancérs make fine ambassadors, especially since they have no language barriers. Jazz may indeed have made more friends for America than the Marshall Plan. But good will always presupposes that the entertainment is right for the particular audience, the frame of competition

In the after-the-facts embarrassment of the Shanta Rao experience it must be seen that international good will is strained rather than enhanced when there is a failure to apply the minimal standards of showmanship. The pity is that an undoubtedly sterling talent, Miss Rao, has been poorly managed. Her own fears that her art might be "vulgarized" is one thing. But her standards could still have been respected. How alibi opening such an esoteric offering cold, before a sophisticated New York audience, without any root break in any analysis. audience, without any road break-in, any chance to find out audience reaction prior to the all-vital bigtime premiere?

This was inviting trouble. Moreover anybody, but anybody, in show business would be enough of a professional to know that a company of dancers from a strange, faraway land must be previewed and protected against the admittedly critical New York audience. Surely nobody thinks Manhattan is a college arts appreciation concert date?

Members of the United Nations delegation who were back-stage a lot at the ANTA Theatre are whispered to have been bitter at "the Americans" for a fancied affront to a great artist. There was no such affront. Everybody wanted her to have a success. But the facts wouldn't fit the hopes. Let it not go un-mentioned that other Hindu dancers have appeared in the States in the past and have been distinctly popular

International good will has suffered this setback but the cause should be recognized. This was a naive undertaking. After the very bad notices of the first week's performance, Miss Rao changed her company's entire program with a great enhancement—the very thing which could have been, and should have been, accomplished on the road before risking New York.

Somewhere in the background of this unfortunate affair, showsomewhere in the background of this unfortunate affair, show-men will sn'ff suspiciously the incurable amateurism of the arts dilletante. To them, whoever they may be, belongs the blame. There is no lack of respect among Americans for the culture of India. It is ancient, honorable and frequently exciting. They should come again some other day.

pensation, but year-round.
Playhouse associate director K. Elmo Lowe and W. McNeil Lowry, director of the Ford Foundation's fumanities and art division, laid the groundwork for this enterprise last June. Details were worked out during the summer by Lowe and Frederic McConneil. They and several others to be selected jointly with Ford will form a panel of judges that will select 20 candidates by auditions held in early spring, 15 then to be contracted.

Cleveland group was picked for the "unsolicited" grant because of its "nationally recognized distinc-tive work," according to Lowry.

If a nominal royalty of even one-tenth of one percent was levied on the repeat performance of non-copyright classics on both the stage and concert platform, it could bring in a big annual income which could be ploughed back into the arts, the report says. ween Scotland's Mary and England's Elizabeth I.

Whenever two women come into stage conflict, there is theatrical fire a-plenty. This is a basic play-writing tenent, and the only difficulty historically with Mary and Elizabeth is that in fact they never did come face to face. Improving on the facts, various playwrights have brought them together, Schiller setting the pattern with this play in 1800.

Jean Stock Goldstone and John Reich, in their new adaptation, move the first part of the play up to the climactic meeting, the second half away from this significant event to Mary's doom and Elizabeth's spiritual isolation.

"Mary Stuart" is primarily a star vehicle for its two orincipals. In this revival, Irene Worth has the title role and Eva LeGalllenne is cast as England's virgin queen. These actresses are fine folls for one another, each dominating her own scenes yet each rising to the solirided occasion of the confrontation.

solriled occasion of the confrontation.

Miss Worth portrays no docile
Mary. In a performance of assured grandeur, she sweeps forward with scour, passion and love
of battle, and her Mary goes to
her death with regal pride.

Both in appearance and comportment, Miss LeGallenne's
Elizabeth is in close accord with
common conception of the sort of
woman the domineering queen is
said to have been. There is ruthlessness, jealously, loneliness and
raging power. Although vocally
Miss LeGyllenne does not meet
the challenge of the high moments,
she creates a woman who was surely queen.

the challenge of the high moments, she creates a woman who was surely queen.

Max Adrian portrays a slithery Lord Burleigh, a man who moves with daring craftiness through the shifting shadows of court intrigue. Douglas Campbell is suavely sure as the Earl of Leicester who, according to Schiller, was emotionally torn between the two women. John Colicos is in passioned earnest as a young knight who attempts to free Mary and must take his own life for his trouble. William Hutt and Robert Goedier have urgent moments as men at court, and Dorothy Sands has devoted fidelity as Mary's servant.

The Tyrone Guthrie touch is manifest in the dynamic excitement, attention to production detail and story drive. Donald Oenslager has designed a sumotuous court, a gloomy prison, and he has lighted with scrupulous attention to atmosphere and actors, while Alvin Colt's costumes reflect the era.

Players 14 revival of comedy in two acts by Mollers, as sdapted by Mille Malleson, Staged by Ralph Friar; setting, Edward Melcarth; lighting, Betay Rapger and Melcarth; lighting, Betay Rapger Starquee, NY, Oct. 10, 271; 82,90 top: Cast: Ellen Jane Wedell, Iris Forrest, Estiye Ackerman, Barbara Becker, Jack Evans, Franche Owen, Cliff Owen, Ralph Friar, William Shut, Joseph Boley, Don Alstyne, James Clukoy, James Sullivan, Alstyne, James Clukoy, James Sullivan.

The playing of Moliere requires more effort than taking off a T-shirt and donning a ruffle. Perhaps the most dismaying quality about therevival of "Tartuffe" at Theatre Marquee is that so many of the company evidence belief yet play with such doleful lack of style.

A revival of Moliere's diatribe against sanctimonious hypocrisy ought to be good off-Broadway fodder, and in choosing Miles Malleson's lucid adaptation, Players 14 started well. And despite lack of a playing concept that could take advantage of the play's sardonic wit, some of the delight still gets through. But it's a paltry portion where there might be a feast.

Lucklly, there is an example of how a production of "Tartuffe" might be played in Bettye Ackerman's portrait of a 17th censury French lady of fashion. As a wife too wise to become the victim of her husband's misplaced confidence in the purse-lipped Tartuffe, Miss Ackerman has poise, sparkle and crystal clear speech. The company need look no further than its leading lady for a good example.

Joseph Boley, in the title role, uses a restraint suitable to the 139-seat theatre. Francine Owen, as a daughter who is promised to Tartuffe by her easily humbugged father, carries herself with assurance, and in a few brief moments Dutton Van Alstyne, as an officer of Louis XIV, doesn't hesitate to illumine his performance with an amusingly sneerful swagger.

Some of this revival's difficulty may arise from director Ralph Friar's self-casting in the principal role of duped father. As an actor, Friar may easily have become so involved that he falled to see what was kappening to his production. Or what wasn't happening.

For how can Manhattan actors, in a play that requires some elegance, survive from rehearsal to performance saying "gemelman," 'I hate um." 'forgimme''? For that metter, how can they get onstage without combing their wigs?

Pantomime and choreography are order of the day, the only sound effects being provided by a drummer, reminiscent hurdy gurdy music, and occasional grunts from the performers.

Staged and designed by Wolfgang Roth, with helpful choreography by Nelle Fisher, particular advantages of the frolic are that it is intermissionless and relatively brief. This makes it possible for adults to enjoy the show, too, a boon often denied chaperones at children's theatre.

edy, boasting a brand new physical production, should do okay in the hinterlands.

In addition to Pidgeon, the cast has some of the original company, namely George Grizzard in the fully role of Angier Duke; Gaye Jordan, who advanced from a minor part to the major role of Cordelia Biddle; Don Britton, the youngest Biddle heir; Rocco Bufano, as one of the elder Biddle's proteges, and Joe Bishop, the older Biddle son.

To Grizzard, with his acute timing, goes the credit for keeping this one from being literally a oneman show. Pidgeon, of course, is the star in fact as well as billing and his explosive interpretation of the unpredictable Philadelphian who was a legend in his own lifetime is comedy aimed from beginning to end. Likewise, Grizzard, in the smaller more subdued role, scores at the once shy suitor who finally proves a match for his prospective father-in-law.

Producers Howard Erskine and Joseph Hayes share the director's post and again have stressed the farcical angles of the tale. The show is played strictly for giggles although there are touches of sentiment and one or two richly human incidents which help hide the fact there isn't much in the way of plot.

lerina," in which she virtually stole the picture from the more celebrated Mia Slavenska.

Ballets Charrat is a small company of virtuoso dancers which does honor to La Belle France. The star herself, is a highly skilled technician, with grace and style that should come as no surprise, for Charrat has danced with the foremost companies of the Continent. She has surrounded herself with some talented accomplices, notably Helene Trailine, Josette Clavier, Juan Gluliano and Helno Hallhuber. The company has a repertoire that is distinctively its own, including several works choreographed by its leader.

Though artistically the Charrat ensemble is first-class, it invites trouble if appearing as a single attraction, in the larger cities. Charrat isn't known to Americans and the company has no U.S. reputation, and worse, no advance build up. It is fine for the bucolic organized audience circuit and Columbia Artists Management, which booked most of the tour for talentidigger-agent, Albert Morini, has placed it on a substantial number of its Community Concerts lists. For these towns, the troupe will play with two pianos; at the Brooklyn Academy of Music, the troupe was supported by a full-size pit orchestra, assembled for the occasion and which did manfully on its two rehearsal sessions. It also bloated the cast of the show, an increase which added not a penny to the bo. take. Cash biz at N.Y. premiere was light, and the audience enthusiastic. Charrat might do better next time around—if there is one.

New York Philharmonic (WITH ANDRE TSCHAIKOWSKY)
The 116th Season will be ringed with special historic significance in the Philharmonic record as the season that opened late because of the Musicians Union. This threw the schedule off and deprived Sol Hurok's promising 22-year-old

planist from Warsaw, Andre Tschaikowsky, of the prestige advantage of opening the season with three performances. He appeared at the Sunday matinee (13); instead of Thursday evening. This young man has got a lot-to build his career on. He was perhaps a bit deferential to the orchestra, rather than giving the firm lead as soloist, as more experienced virtuosi do. Prokofieff's Concerto No. 3 in C Major is a tunult of music, rather too much for the maiden display of a new talent. Though he was always fully knowledgeable and frequently dynamic the young planist won recognition, to make an important distinction, rather than acclaim, though his four bows were fulsome and the Carnegie Hall crowd was indubitably admiring.

It takes more than prolonged talk of love and sex to make a play. This is proved to the disappoint-ment of Carson McCullers' fans in her latest work, "The Square Root of Wonderful."

of Wonderful."
There are flashes of the brilliant McCullers talent in-saucy lines but sprinkled all -too - infrequently in this "love story," to use the author's own words. But her incessant pounding of the theme that the square root of wonderful is love grows tiresome after three acts.

sant pounding of the means the square root of wonderful is love grows tiresome after three acts.

Anne Baxter works hard in trying to breathe realism into Molly from the south, a naive, "half-child, half-woman" who can't resist a charming writer who has married and deserted her twice.

Just about the time Molly decides she loves the boarder she acquired on a road near her New York farm home, back into her life comes her ex-husband, Phillip, from a mental home where he landed after his play flopped. In a third act straight out of a soap opera, everything works out neatly for the confused southern heroine. But the audience is left with a gnawing feeling of having viewed nothing significant.

The opening night crowd at McCarter, obviously expecting something special from the woman who wrote "The Member of the Wedding," was confused by the rambling, pointless recitation of the Wedding, was confused by the rambling, pointless recitation of the Nedding, special from the woman her hatred for humiliatioh.

Phillip Abbott is convincing as is possible in the role of the strong, silent boarder. As the mugg writer, william Smithers, signed late to replace the ill Gerald Mohr, has trouble being audible.

Some of the play best moments are supplied by Martine Bartlett, as the furstrated yet funny spinster "Sister," and Jean Dixon, as Molly's mother-in-law. They come across as real characters, where some of the principals fall far short cogious son.

"Monique" bears only a slight resemblance to "Diabolique," the highly regarded French film, although both are based on a novel by Pierre Bolleau and Thomas Narcejac. In both cases the 'shock' ending is the outstanding feature but the play's authors, Dogothy and Michael Blankfort, have revised the plot and provided a new twist to the surprise climax.

The major burden falls on Patri-

cia Jessel and Denholm Elliott as the lovers. Miss Jessel is the hardbolled, woman doctor who is determined to achieve security, and presumably happiness, even if it means murder. Elliott is excellent as the weakling husband, dominated by his scheming sweetheart.

Maureen Hurley has little to do in the wife role but makes a good impression in several scenes. Percy Waram gives authority to the vague role of the retired police in spector who senses foul play but can't prove it.

Lesser roles are well handled by Deirdre Owen, a love smitten teenager: Giv Sorel, a garrulous neighbor; Julie Bovasso, good for laughs as the maid, and Nell Fitzgerald, another neighbor.

The British living room setting by John Robert Lloyd and Tharon Musser's lighting effects are both on the credit side.

At the end of Act I, it appeared that Playwright Sam Locke had achieved one of the liveliest comedies seen here The first-night audience was unusually enthusiastic in its reception. After that, the pace slackened but there was certainly enough good material in Act II, though spotty, to maintain an opimistic note. That hope was still maintained in the first of two of Act III's scenes although that one, on suffered from over-length and some slow-pacing, but the final scene seemed interminable and had many disappointed patrons gathering up their hats and coats prematurely.

ing up their hats and coats prematurely.

Can "Fair Game" be salvaged? It ran way overboard in time at the opener after virtually a whole scene had been cut out. Further cutting is obvious and poses not-too-difficult a problem. A much more important one for Locke is; can he re-write his opus in such a way as to give greater focus to the role of Lou Winkler, garment-industry tycoon and self-admitted wolf, though possessed of an inherently warm and sympathetic heart. herently

wolf, though possessed of an inherently warm and sympathetic heart.

Sam Levene plays this particular character, and whenever he is on stage, "Fair Game" is extremely easy to take. Unfortunately, after making a belated appearance, the becomes lost in Act II and isn't around at all in the dragy finale. Luckily for Locke—and the play—his two central characters (supplying the love interest) are exceptionally well played by Robert Webber and Ellen McRae. The latter, in particular, a video regular making her first Broadway bid, does an outstanding job in a characterization that not only involves an unprecedented amount of wordage but might easily, because of its diffaseness and vacillation have lost all audience sympathy if less intelligently performed.

To transmute "Fair Game" into a real hit prospect is something else again. Certainly the story of Susan and her ex and her N.Y. flame, no matter how well played (especially the magnetic Miss McRae) is neither strong enough or novel enough to be any guarantee of Broadway acceptance.

lute, the ingenue and the juve clinch, and the audience can leave with a-warm feeling that all's right with the world.

Structurally, a stringent tightening is indicated, especially in the dragging first act and several other sagging patches of nondescript dialogue. However, with slightness of plot line, this would leave little to span the standard three acts. For Broadway, prospects are slight.

Tale revolves around machinations of Erwin's no-good second wife, Ruth Brady, her scheming inamorata, Michael Hughes, and her ohnoxious mother, Queenie Smith, to do Erwin out of a valuable patent for a toy. On his side are his attractive daughter, Carolyn Kearney, her FBI boy friend, George Gilbreth, and absent-minded neighbor George Meader. Also involved is Erwin's determination to assert himself along the lines of the self-help books fed him by his boss. As indicated, despite fumblings of Meader, who has The Papers, Erwin comes out ahead and the baddies get their just deserts.

Preem night was marred by recurring cases of the line-fumbles. However, Erwin, a smooth and proven trouper, had his down pat, at least, and his reading was often superior to the writing. Miss Kearney possesses a well-scrubbed and attractive charm which bears notice and Gilbreth also impresses along these lines. Hughes is properly obnoxious as the bf, and Miss Smith, veteran Broadwayite, despite considerable trouble with her memory, makes a hateful mother-in-law (although scripting is contused in her part between comedy and spitefulness).

Meader was guiltiest of the line-blowers, and Miss Smith, despite her pro credits; was somewhat wooden.

King Donovan's direction wasn't able ta whip up too much excitement and he must additionally bear at least part of the blame for the sloppy line-readings. Kove.

The vast difference between acceptable silo fare and good commercial touring or Broadway material has rarely been pointed up as sharply as, in this revival of "Merton of the Novies," starring Buster Keaton, Keaton played the cifronella circuit, with it last season and the results were sufficiently strong to encourage Huntington Hartford to mount if for key city presentation. It was a mistake.

Not that Keaton isn't great, he is. But he's not "Merton of the Movies" by two generations. And the 35-year-old script betrays its age, despite some rewriting to make it fit the star, with a creaking first act that could conceivably drive many customers back to the comforts of home and fireside. (It's particularly dangerous in the only theatre in the U.S. save the Metropolitan Opera which boasts a bar.) It picks up in the second and third acts when it resorts to pure slapstick, including some wonderful acts when it resorts to pure slapstick, including some wonderful was shot recently especially for this production but it's among the best of the deadpan comedian's work.

Basically, however, the script falls to hold up because the central character has been changed from a callow youth to a middle-aged man. Thus many of the lines that were funny in the original now are merely pathetic and there is no validity to the romance angle of the George S. Kaufman-Marc Connelly script, derived from Harry Leon Wilson's novel.

This production has been effectively mounted by Hartford and Alan Harper's direction is deflykeyed to make the most out of the dated material. Keaton, as noted, is wonderful despite all, neither his mining nor his timing having lost the touch and he's 'a constant delight to watch. There's a fine performance from Jane Dulo as "Pilps" and highly effective support from John Bennes as a silent screen director, Henry Corden as (Continued on pag

Broadway is apparently due for another British invasion this season. So far, it's a private campaign by producer David Merrick, who two weeks ago imported the London dramatic success, "Look Back in Anger" and has now followed it with the West End's comedy hit, "Romanoff and Juliet." As usual, the theatre has crossed up the predictions of the experts, for more touted "Romanoff" appea less likely boxoffice prospect the lower-graded "Anger."

the lower-graded "Anger."

Unlike "The Love of Four Colonels," a previous Peter Ustinov comedy, "Romanoff" is a light-as-fuff antic. This one spoofs American and Russian attitudes and behavior in the cold war. Locale is an imaginary dime-sized European kingdom and the lovers are the respective son and daughter of the Soviet and U. S. ambassadors.

There was some advance confections and the source of the s

Soviet and U. S. ambassadors.

There was some advance conjecture by returning London visifors as to whether Broadway audiences would resent the author's kidding at the expense of Americans. But the script must have been toned down, or else the barbs are too subtle for Yankee playgoers to appreciate, for there's nothing even remotely anti-American in the show as presented here. Even the libbing of the Russians seems fairly mild.

Actually, "Romanoff" might be a

ibbing of the Russians seems fairly mild.

Actually, "Romanoff" might be a better show if it had more bite, at the expense of both the U.S. and U.S.S.R. As it is, there's little to it except for the performance of the author-star in the role of a pixy general and prime minister, a sort of continental Pooh-Bah. The first act is pretty much a scene-setter, but there are a couple of amusing scenes in the second act and ditto in the third.

As an author, Ustinov has written a field-day of a star part, and as an actor he gives it a virtuoso comedy performance. The effect is delicious, especially since Ustinov is a new personality on Broadway and his style of playing has not become familiar. He has a light, deft touch that is hilarious.

Built something along the lines

Built something along the lines of a teddybear, with a beard and an unruly crop of hair, he has a way of starting a line as if he expected it to be a bit of sheer brillance, but before he finishes it he realizes that it's just another anticlimax, so the sentence trails off with a sort of deprecatory shrug.

But the others are no more than routine, including Fred Clark as the U.S. ambassador, Natalie Schafer as his wife, Marianne Deeming as an incomprehensibly grinning Russian ambassador's wife, Gerald Sarracioi and Elizabeth Allen as the lovers, and Sylvia Daneel and william Greene as secondary romantic interest.

With the initial propulsion of the street party bookings and the additional support of the sophisticated public, "Romanoff" should have a reasonable run. It's no powerhouse, however, and is a questionable bet for the road and a doubtful prospect for pictures. Hobe.

The recent news of the Soviet's earth satellite should have given new values to this drama about Communist infiltration and subversion in American life and the related Issue of civil liberties, Even so, the play seems to have less timely point than it might have had when it was written and the shadow of McCarthyism loomed

shadow of McCarthyism toomes, large.

Some of the problem involved in "The 'Egghead" has been pretty well worked out in the last year or so, and the question of individual liberties and obligations relating to loyalty investigations no longer seem so baffling or urgent. This first solo producing venture by Hope Abelson therefore appears to he a doubtful boxoffice bet. The fact that the play also has serious flaws theatrically probably dooms it for Broadway and likewise for pictures.

pictures.

"The Egghead" is about a brilliant, agressively individualistic political economics professor at a New England college (it could be Dartmouth, among others). Although he makes much of his liberalism and open mind, he has become opinionated and so stubornly othuse that he cannot recognize a fact that doesn't fit in with his convictions or listen to an argument of anyone who disagrees with him.

an argument or anyone who disagrees with him.

When a former student, his special protege, is being investigated as a suspected Communist, the professor files off the handle, virtually orders two FBI men out of his house, insults his guests, patronizes his young wife and ultimately manages to make a fool of himself and to embarrass the college, his family and supporters. He finally is forced to recognize his error, but quickly regains his former assurance with the explanation that his fault lay in not being enough of an egghead, or as he expresses it, in not using his brains. brains.

brains.

Under the circumstances, it may be wondered whether the play might not have been more accurately titled "The Bonehead." At any rate, while the other characters' dialog labels the professor a stimulating and attractive fellow, an audience may find him something of a social boor and a theatrical bore.

With Kerl Malden starring in the

an audence may into missione; and autherical bore. With Karl Malden starring in the role, the professor has undentably likable qualities, however. The performance is vigorous, nicely varied and convicing. A more sensible (if without intellectual pretensions) character, whom the audience may be more inclined to root for, and perhaps the one the author really found more interesting, is the shild-wife whose alertness uncovers the protege's secret and who finally revolts against her husband's patronizing blindness and forces him to see the truth. Phyllis Love is excellent in the part.

Lloyd Richards is fine as the hypocritical protege, and there is an effective supporting portrayal by Eduard Franz as an anthropology professor with the realism of a former Communist whose parents were murdered by the Nazis and whose children were killed in American air raids on Germany, Also, Blif McGuire is good as a very human FBI man, Nicholas Pryor is believable as the professor's rebellious older son, and Helen Shields registers as the college president's sympathetic wife.

Hume Cronyn has provided in-genious and deft direction, Richard Sylbert has designed a homey-look-ing interior setting and Ann Hill Johnstone has supplied appropriate costumes.

costumes.

There are two interesting incidental factors about "The Egghead." The obvious one is that the villain is a Negro. In recent years, such a thing has become an almost absolute taboo among people conscious of race relations conditions. However, it has been so skillfully handled in this instance as to be a rather subtle argument for racial equality. At (Continued on page 84)

He's pulled together a highly competent cast, spent considerable on Gus Schnedder's good-looking set and has received a sharp, fast-paced directing job from Harry Eller'se. But all this might have been lost without Noonan, who achieves credibility in a role made for muggling. Fortunate result is that the Fields-DeVries wit comes through virtually unimpaired.

William Bishop is a slick, pleasant cad, though he manages to louse up a few lines, and the very attractive Nancy Hadley injects just enough coyness in ker role as Noonan's wife to take the edge off her determined seriousness. Narda Onyx shifts from frigidity to excessive passion for Noonan splen-

London Correspondent On Legit P.A.s' Brushoff

New York. Editor, Variety:

As one of the foreign correspondents, who had to buy his seats for New York's version of "My Fair Lady" I read with special interest the report in VARIETY that the London version is already an assured success thanks to "advance publicity from New York" etc. And as one of the writers who has helped to furnish some of the welldeserved publicity, I wondered whether a VARIETY report would have any impact on those press agents here who still say they could not care less what British newspapers say about Broadway productions.

There are many honorable exceptions to this rule. Plenty of people in the New York theatre realize that apart from any cultural con-siderations and the interest that British actors, actresses, play-wrights and directors have in seewrights and directors have in secing their American achievements
reported at home, it can be financially valuable for word of a success on one side of the Atlantic to
be relayed to people on the other
side. But there are plenty of exceptions, as I discovered for the ceptions, as I discovered for the ninth time the other day when I thought "West Side Story" would make an interesting story for Lon-don. "We are not taking care of the foreign press on, this one," the press agent told me.

Buenos Aires Legit Does Well

Buenos Aires, Oct. 8.

Business has been good but spotty in B.A. legit season this year. The cheesecake and vulgar, salacious comedies and comedians had the highest grosses as usual, but the recovery of civil liberites after the Dictatorship has spilled into a return in some measure of fare characteristic 20 years ago. There is legit now something for every taste, despite a theatre shortage.

An influx of tourists from Brazil, Uruguay, Chile and local provinces recently gave a fillip to the box-office, while the Inter-American Economic Conference also helped, counteracting the effects of an "Asiatic" influenza epidemic, which cut, down audiences, 2nd im many cases caused suspension of performances when principals were also hit by the scourge.

One comedian faked the flu, as drastic action to force his producer to be punctual on salary for almost a week, during which performances were cancelled, this comic was in public enjoyment of his favorite Italian dishes at a prominent restaurant. The "treatment" restored the impressario's weak memory, and though relations are strained, the partnership has continued.

the tour.

The post-Broadway angle stems from Kroll & Conoway having preceded the recently-closed tour with a flop Broadway production of the "Follies" last season. The financial loss on the road ven ure has not been disclosed, but the original intention of the producers was to finance the project at \$360,000, with provision for 10% overcall.

A sizeable portion of this coin was supposed to go towards paying off the deficit on the prior Broadway offering. It's figured, however, the loss on the touring production, which began hiking sept. 12 in Toronto, was substantial during its four-and-a-half weeks on the road. Kaye Ballard, Paul Gilbert and Micki Marlo, who were top-featured in the road production, are now slated to head the cast of Kroll and Conoway's next production, a musical titled "Hat in Hand."

Atlantic-Little Brown is publishing an anthology of Atlantic authors on Oct. 28 to celebrate the mag's 100th year. Mag editor Edward Weeks and managing editor Emily Flint selected the works of 128 scribes from the time it began in 1857 until the present.
The tome is called "Jubilee: 100 Years of The Atlantic."

Dismiss Contempt Charges
Contempt of court proceedings
brought recently against John Fox,
r-publisher of the defunct Boston
Post, were dismissed in Boston
Federal Court by Judge Wyzanski.
Ebasco Services Inc., New York firm
of consulting engineers, had asked
in a petition filed two weeks ago
that Fox be held in contempt for
failure to pay a judgment obtained
against him last November. The
firm said Fox paid \$6,734 of the
\$12,759 judgment but had failed to
pay the balance.
Ebasco Services' attorneys Walter Powers Jr. and W. Langdon
Powers said that Fox paid the
balance of \$6,025 following the filing of the contempt petition.

'Peyton' Socke In Paperback
With its 50e paperback edition of Grace Metalious' "Peyton Place" only on the market for three weeks, Dell Books claims the tome is the "fastest selling paperback ever' published." First printing was 2,000,000 copies before publication and on Sept. 24, the publication date, a second printing of 1,000,000 copies was ordered.

Dell also points out that this is the first time in the history of publishing that a paperback version was released when the hardcover edition was still a bestseller. Paperback's debut on Sept. 24, incidentally, coincided with the first anniversary of the book's original publication by Julian Messner. Jerry Wald's 20th-Fox film version is also due soon.

SCULLY'S SCRAPBOOK

+++++++++++ By Frank Scully ++++++

London, Oct. 15.

"Thought you were dead," said Swaff, the Fleet Street mortician.

"Haven't checked last week's oblis," I said. "But after climbing three flights of stairs to see you, it may be too late now."

"You know, Will Rogers came up to see me once, got as far as the VARIETY floor below and called up, 'I'm a cowboy, not a mountain climber!' Then he turned around and went down again. Can't understand these people. I climb them three times a day and I'm '76," said the Welsh rarebit.

"What people? I climbed 14 flights of stairs in London today and normally one step over a threshold is par for Palm Springers. What happened to the gal who slapped your face? Did you ask her up too?" Milage On One Step

"Oh, Lillian Foster, to, that was at the Savoy Grill. She was over here in another show some time later as an understudy for the lead. Louis Calhern confided to me that she wasn't very good. But it was my exclusive. I said it first."
"Calhern's dead," I contributed.
"Yes, I know. The three best performers in my time were Chaliapin, Shaw and Lloyd George—all dead."
I added Hannen Swaffer and Jimmy Walker, but Swaff didn't hear. He's as deaf as Beethoven now. You have to shout in his left ear. But he keeps on writing.
"When your boy was over here sk or seven years ago he came to see me. I thought he wanted to tell me you were dead, so I praised you to the skies. Nice boy."

Sharing Shavian Trivia

He brought over a large portrait of Shaw, which old George Barnum has autographed to the Hamlet of Trafalgar Square. I praised it. After all, I was a guest.

"I have the only sktech of Shaw that wasn't a caricature," I said. "Ivan Opfer drew it." He didn't hear.
"All the Variery guys are dead too."

He seemed to think I was a spiritualist manifestation. But I let it ride."

"Not all," I said. "Clem is still holding down the fort and I went

"No, Tilley, Tully's dead. Died years ago in Hollywood. A victim
of the same horrible disease that carried off Gene O'Neill. But Tilley
is England's greatest authority on china. The crockery, not the country. Experts phone him from everywhere before buying collector's
items. He's over 70 now, white-haired but going great. He's written three
books on chinaware. One coming out soon will sell for \$15."

"Tully was quite good."

I'm talking about Tilley. You must remember him. He wro'e for

"Why did you quit the Labour Party?" I countered.

It wasn't a smart counterpunch because he got up and hunted out an offset, a full page of Swaffer Says. "Left the Labour Party in de-fence of all newspaper reformers," ran the headline.

Infra Dig To Attract Readers?

Intra Dig To Autract Readers?

It wasn't about guys who are bent on reforming newspapers, a noble experiment in itself, but about Fleet Streeters who write mild exposes and then get banned by politicians for their sensationalism; in this case "sick and helpless people to attract readers."

I hadn't half read it when he asked, "What are you doing over here?"

"I've been over about a knighthood,"

"Tve been over about a knighthood."
"Knighthood? Are you British now?"
"By the Pope," I said.
"Oh, the Pope," he echoed. "Did you know they call me the Pope of Fleet Street?"
"Tm the only columnist ever knighted by the Vatican. Who appointed you?" I asked.

He called for some more documents to support his honors. One was a program of a Variety Club luncheon in celebration of his 50 years in Fleet Street. It was more full of freak photogs than a Jerry Lewis brochure. In fact he loaded me with so much Swaff stuff my bargage was four pounds overweight when we headed the next day for Dublin. "Who do you write for now?"

If it was a secret to him after all these years, why play it any other way. So I said, "Confidentially, Variety."

"Confidentiall" he shouted. "Variety!" I shouted back. I'm pretty good at hellowing muself. I looked at the old warrior. His hair is quite straggly now but strands of it drape around his neck as of old. He's heavier, too, than he used to be. He still smokes cigarets while talking, never taking a butt out of his mouth until it's scorching his lips. But the ashes do not make as much a mess as they used to, because he wears gray tweedy suits now and then instead of the old blue serges which were a cleaner's delight. delight.

we thought it was time to go. it was raining and cold. We told him we had to pack to catch an early plane for Dublin in the morning, "They know me well in Dublin," he said. "The first thing I do on reaching a town is to call up the editor and have a chat. They all know me. I just came from Norway."

"I know," I said. "We spent five weeks there. I wrote a lot about Norway. But not from talking to editors. That's like taking in each other's washing."

Tiens! Crown Property!

Tiens! Crown Property!

Tiens! Crown Property!

We started down the three flights of stairs. The limestone of the originals has long been replaced in their centers by patches. Some match. I had heard that the house once belonged to a mistress of William IV but it seems she was his morganatic wife and it's all Crown property by now. The Variery office was closed.

Swaff called down, "How old are you?"

Why should I tell him? He couldn't hear anyway. So it will have to remain a secret between me and my social security number.

Though my version of "Conrad in Quest of His Youth" had led mostly to gravestones, the ones who had escaped death by bombs or starvation seemed to live to an astonishingly old age in Europe. At the 89th birthday party of the grandmother to the Scully Circus and their trained fleas from heaven I totalled up the years represented by 15 gais at the party. It exceeded 1,200 years! There's a secret here which has eluded even the makers of atomic energy because most of them conk out with bum tickers as early as do those in less scientific fields of activity.

How Do They Shrive?

Climatically Europe's a killer but even newspapermen and critics seem to survive it almost as well as politicians. Their anti-pneumonia vaccine seems to be hard liquor, but a lot of them have gone up to 90 without this preventive. So that isn't the answer.

It may be the tempo that's the secret. They certainly do everything at a slower pace than we do and in most countries even burglars will not rob a bank between 12 and 3. In Rome you can make that 4.

It ranges from a simple assemblage of vaude acts supplied by an agent on a moment's notice with scripts "starring" an electrical appliance or, with minor revisions, a vitamin pill or insurance policy, to a mail order circus, to a complete original show complete with advertising, catering and exploitation facilities.

Don Neer, executive secretary of

Don Neer, executive secretary of the National Industrial Recreation Assn., offers \$1,000,000,000 as a conservative estimate for the cost conservative estimate for the cost of live shows put on by industry to sell its products to the public, to entertain or stimulate sales staffs, to buy the goodwill of employees or for other purposes. The overall budget, he agrees with the tradesters, can only be picked out of a hat.

These practices, firmly establish These practices, firmly establish-ed in the midwest and growing rapidly in the east are just start-ing on the Coast. In his own line, Neer points out that one plant may hire talent for retirement shows, sports events, family nights, pic-nics and a dozen other things and spend thousands annually.

Equity Is on the Swag

Actors Equity's newly formed industrial show department just reported a record 100 persons working industrials from its Chicago of ing industrials from its Chicago office, although most Equity contract
shows are still booked from New
York. The department's midwest
chief, Carl Stohn, notes that the
next auto show originates from
Chicago, not New York, and more
such developments are likely. Business nationally has increased by
50% in the two-year history of his
department. Performers like the
work, which involves Equity's
highest minimums and working
conditions, better than in theatres.
No actors work solely in industrial

No actors work solely in industrial production, in contrast to numerous vaude people under American Guild of Variety Artists' contracts who spend the better part of the year on club dates.

Stohn notes that Chicago offers the world's best stageshow facilities (including the most empty theatres) and is the center of the closely related fair circuits. All major hotels here have facilities for theatrical production or are acquiring them fast. The Eighth Street Theatre was recently purchased by the adjoining Conrad Hilton Hotel for the announced purpose of presenting stageshows for industry. The theatre, formerly the point of origin for the WLS National Barn Dance, brought in additional rentals 120 days of the year mostly in industrial accounts.

Jam Handy Setup

Jam Handy Setup

"Glamorizing a product with
'entertainment' is the aim of any
industrial production," states Harold Dash, Chi sales manager of
the Jam Handy Organization. This
outfit exemplifies the packaging involved even in big custom-made
shows. "Our organization is the
most completely self-contained of
any production outfit. We do everything from arranging the catering
at the show to distributing the films
of it. All the personnel except the at the show to distributing the hims of it. All the personnel except the performers belong to the company." In a field where not a single writer was involved 20 years ago, companies like this maintain a staff of them devoted chiefly to this kind of production.

The cost, says Dash, runs from \$2,000 to \$250,000 per program, the same as a telecast except for the expense of broadcast technicians. Jam Handy production is children Detablic chiefly in Detroit

chiefly in Detroit.

Packaging facilities allow for more economy. Wilding Studios, one of the larger industrial producers in the midwest, puts together shows ranging from \$10,000 to \$1,500,000 with most in the six figures like the '57 Ford show which toured 39 cities with 675 personnel, with set: and special choreo and song material. A recent Standard Oil Co. show with 71 ton romes and 16 original songs: more economy. Wilding Studios, one of the larger industrial producers in the midwest, puts benefit by such schemes. tress, Takeoffs on musical comedies, for instance, lend themselves to this kind of treatment, and if you can't sell a script to one manufacturer you can always make it to order for his competition.

Starring a Vitamin Pill

Today industry buys talent ranging from the traveling arena shows to sales meeting entertainment on down to Christmas party Santia Clauses. Prepackaging means economy and efficiency. It ranges from producers.

Hilly Rose, head of sales and creative director at Kling Studios, which has large film-making facilities, says films cover things that live shows can't but their function is becoming more a supplement to live shows.

Shooting the Angles

Shooting the Angles

Prepackaging is hardly an undercover operation for middle and small-sized talent handlers who boast that they can offer more for less money that way. New ideas in that line have been sprouting on the Chicago scene. The position of the medium-size operator is stated by Marv Himmel of the David O'Malley agency: "Industrial accounts are everyone's business, but everyone's got his own special angles on it. New York still has the scenery and new talent, the writers and anyone connected with song and dance more than here. The \$2,000,000 escrow needed for large industrial shows isn't floating around many offices here regardless of what anyone claims. Most of the shows booked from here are in the five and six-figure category. In an office like mine it's enough to keep three writers busy."

Paramount Attractions opened a new division recently "Showman.

Paramount Attractions opened a new division recently, "Showman-ship for Business" featuring prod-uct dramatization. Prexy Art Gold-smith claimed \$250,000 worth of orders after addressing 600 reps of savings-and-loan associations. Goldsmith hired Johnny McGee for "industrial dramatization" and says he can pull 1,000 ready-made scripts out of his files.

Interchangeable Scripts

Interchangeable Scripts

Carry the prepackaging process further and the agents as well as hookers get in on it. Harry Breyn advertises his prewritten scripts. "Why not? All my act's know where they fit in with the others and the bands know my routines by heart. That way we can avoid expensive rehearsals, offer a better product cheaper and everyone benefits. I have complete original musical comedies in which I only have to change the name of the product for each club date."

Talent selling by mail has been

each club date."

Talent selling by mail has been Al Dvorin's setup for the last 11 years. When not running Col. Parker's Presley tours on the side, Dvorin occupies himself in a one room Sears-Roebuck setup. Of his 100,000-name mailing list, about 90% is in the industrial field. The rest are clubs, schools, of dessand such. Mimeograph is a lot cheaper and less time-consuming than phonecalls if you can state what you have to sell, he says.

Dvorin's packages include "International Circus Revue," available during the circus off-season,

ternational Circus Revue," available during the circus off-season, hypnotists and mentalists with special material for sales meetings, acts for which other vaude outlets are scarce. Department stores or car lots call for clowns or puppet shows to buck up a sagging sale. Business is up 50% over last year, he says, on everything from acts to complete productions.

Tin Pan Alley publishers, many of whom were rooting for the demise of rock 'n' roll, are still looking for the formula to break into this phase of the business. They are finding the rock 'n' roll hits still reaking on small labels with unknown artists with which they have little or no contact.

From many aspects, rock 'n' roll tunes are attractive as business propositions. While ballads usually take months to break into the top 10, tite r 'n' r tunes zoom to the top in a matter of weeks. London, Oct. 22.

The Royal Commonwealth Ball held for Queen Elizabeth and Prince Philip in New York last night (Mon.) was seen on television today throughout Britain just as the royal party was returning to London from its 10-day Canadian and U. S. visit.

CBS-TV, which telecast a 45-minute pickup of the ball, made a hot kinescope of the program the same night and flew it to London, shortly before the royal party itself took off for England. Kinescope arrived today shortly ahead of the Queen and was telecast by BBC-TV during the day.

Talent prowling in Europe has been on the upbeat considerably in the past few months. Eddie Elkort, head of the international department of General Artists Corp., has just returned from a three-weeker on the Continent, and Larry Kanaga, president of the firm, has planed out there. In addition, Lew Wasserman, president of Music Corp. of America, is also in Europe lining up future deals. Ed Sullivan returned last week from nearly two weeks abroad.

The increased activity by the agencies' upper echelons comes as a result of the need to service some of the more lucrative accounts. The commissions that could be made on the acts would, in themselves, be negligible and probably not worthy of the time of the top agency officers. However, the need for new performers is pressing in the servicing of various video shows and some of the top cafes as well. Gen. David Sarnoff, it's understood, has passed the word along that he'd like to see more live two shows returning to NBC. Since the RCA board chairman has an entable record of setting the fashion in trends and patterns, whether it's electronics, stations or programming, the "go live" championing may have an important hearing on the future status of film in the scheme of network tv programming, notably where NBC is concerned.

Gen. Sernoff's predelictions

Gen. Sarnoff's predelictions toward live programming are, of course, no secret to the trade, (Only as recently as the Sid Caesar course, no secret to the trade, course, no secret to the trade, conly as recently as the Sid Caesar negotiations, he expressed himself as personally in favor of a continued NBC stake in the comic's future career in tv and voiced disappointment that ABC had grabbed him.) As far as Sarnoff is concerned, a network is a network, and can only be perpetuated through a justifiable use of cable facilities via live programming. But there are other factors tied to the future economics of the medium and expansion in electronics that figure prominently in the "live it up" stance of the General. For one thing, any continued upbeating of film as the basic programming staple would be a serious blow to Gen. Sarnoff's ambitions for a universal acceptance of color tv. Since RCA is practically alone in carrying the tinorch, it would necessarily follow that the NBC subsid would evolve a programming pattern that would (Continued on page 66)

'WAIT FOR IT ON TELEVISION'

Italians to Produce—In Hollywood TRADE COMBATS

While American-based producers are traveling the world over with their film projects, a couple of Italian picture-makers have a deal set to work in Hollywood. Carlo Ponti and Marcello Girosi, in partnership, are set to make two films in association with Paramount at the company's Coast lot. Both are to star Sophia Loren, Ponti's wife, and are to roll in 1958.

Properties, as yet unset, must be agreed to by Par as well as the producer combo under the profit-sharing arrangement. It's understood that Par will provide the financing and, of course, will take distribution rights along with the profits split.

Under consideration for filming are "Blaze of the Sun," French novel by Jean Hougron; "Bahia," Brazilian novel by Jorge Amado; Chekhov's "The Three Sisters" and an original screenplay by Cy Howard.

United Artists Borrows Production Capital From Three Theatre Chains

In a new twist in intra-trade affairs, a trio of top circuits are providing a film company with production capital. Deal is set for United Artists to borrow \$5,500,000 from RKO Theatres, Loew's Theatres and United Paramount.

Long negotiated for by UA board chairman Robert S. Benjamin; the money is to be used in pursuing the company's expanded film-making program. Key angle is that while UA is in good financial shape, tightened money conditions around the country have meant a ceiling on credits from banking sources.

It was anticipation of such a situation that Benjamin first approached the theatremen for financing last year. The plan as then blueprinted was to set exhib borrowing in addition to a public stock issue as a means of broadening the UA financial base.

UA stock went on the market this year, first on an over-the-counter basis and now on the New York Stock Exchange.

Transaction, while obviously bespeaking confidence in the distributor-financier's operation, also represents another move on the part of exhibition to assure an adequate product supply. Loans provide no preemptive rights to any UA pictures, but simply mean for the exhibs that more pictures (Continued on page 22)

Columbia Backs **Producers With** \$30-Mil Advances

JSU-Mil Advalues

In the period of one year, Columbra's advances to outside producers shot up to \$30,760,000. This is the amount Col had riding on indie film-makers as of the end of its 1957 fiscal year (June 29) and represents an-increase of nearly 100% over the \$15,403,500 so outstanding the year previous.

Such advances are recoverable for the most part from Col's distribution revenues.

The \$30-Mil-plus figure shows the increased emphasis, which Col (and the major studios in general) are placing on tieups with indie inventories, including pictures released less amortization, those completed and not yet in release, those in process, and other related investments, amounted to a total of \$43,327,562.

Breaking this down, it means that Col has nearly 75% of its overall production investment staked on the indies, and slightly over 25% on its own studio projects.

Col provides the "outsiders" with the financing and shares profits on various formula arrangements as well as taking distribution rights.

FALSE RUMORS

The film industry has quietly launched a campaign to dispel a rumor that is reportedly sweeping the nation that the screen his now scheduled for theatre presentation will soon be released for free television viewing. No one seems to know just how the financially dangerous misconception started, but reports have been coming in from all parts of the country that potential patrons are taking the view of "why should I pay to see this picture? I'll soon see it for nothing on tv."

Although it is hard to trace how

Although it is hard to trace how the false rumor started, it's believ-ed that part of the misunderstand-ing has resulted from news stories about negotiations with the Guilds for arrangements to release to tv films made after 1948.

about negotiations with the Guilds for arrangements to release to the films inade after 1948.

Another factor possibly responsible for the rumors, it's thought, may be the fact that a few new films have been made available for the experimental "cable theatre" in Bartlesville, Oklahoma. In commenting on the Bartlesville situation, the industry is taking the position that this is still a mere experiment involving less than 300 private homes and that extension of the idea may be years away due to excessive costs.

Taking a leading role in the campaign to wippout the rumor of the early availability of current product on home tw screens is Ernie Emerling, Loew's Theatres pub-ad chief. Emerling has prepared a special story for distribution for film editors and critics throughout the country. In the story, which Emerling hopes the local newspapers will publish, the Loew's pub-ad topper notes that "the smart television boys aren't doing anything for prevent the misleading rumors." According to Emerling, they announce "the best from Warner Bros.," etc. "but what they really mean," Emerling notes, "but do not say is the best of old, old films—not any of the new ones."

Annual meeting of Allied Artists in Hollywood Nov. 18 may well develop into a stockholders' sounding board on why the company dropped 1,783,910 on operations through the fiscal year ended June 29, 1957, despite a climb of gross income to \$18,138,000. Prexy Steve Broidy, apparently sensing a profities year, himself voluntarily revised his employment pact whereby he passed up the sales commission he was entitled to. as entitled to.

Revision meant a \$56,034 cut in Broldy's aggregate pay in the last fiscal year from \$108,034 to \$52,000. In fact, every other officer earning over \$30,000 also has taken cuts in varying amounts according to the company's proxy statement. George D. Broldy's explanation for declining profits in his annual report names "a further reduction in theatre attendance" as the bogeyman. This reduction, he pointed out, "was greater in medium priced pictures (which constituted our principal product) than the industry's experience in other type pictures." He added that "corrective steps" have been taken in light of the "unfavorable market conditions."

ter's cracks about the plight of independent film-makers have drawn fire from Max E. Youngstein, United Artists v.p. As reported in United Artists v.p. As reported in United Artists v.p. As reported in Vannery last week, Hunter values the backing of a major studio because the indie, on his own, is called upon to sell his pictures after he makes them.

Youngstein, riled by the implication; istated:
"To put it mildly, Mr. Hunter is talking through his hat about a subject he apparently knows nothing about. He is inferring that independent producers sell their own pictures, by themselves. The truth of the matter is that an independent producer has the right to utilize his own staff, hut automatically receives the plus values of the entire United Artists adversising, publicity and exploitation department.

"It is the combination of the manpower of the producer, plus the distributor, which has produced the results that now are a matter of record for the past six and a half years. As a matter of fact, the benefits of haying a producer have his own people follow a picture through from the very inception of the idea, to the end of its release, plus the United Artists department, is a pattern now being followed to some extent, by almost every company in the business.

"All Mr. Hunter had to do to check, was to speak to Mr. Dave Lipton of his own company, who is certainly one of the best informed men in the business."

See-It-on-TV-Soon: A 22% Loss

Notice of the "erroneous" belief that pictures would shortly be shown on tw was taken by the Allied Theatre Owners of Illinois. The Allied unit calls attention to a survey recently made by a leading farm of business analysts" which indicated that 22.5% of the lost admissions, in July were contributed by those who said that they decided to wait to see a picture when it comes on tv.

According to many theatremen, the public is beginning to believe that all theatre entertainment will eventually be on tv. Television, it's charged, is educating the public to think so. In addition, it's noted, that the public identifys motion pictures with Hollywood and not the local theatre. "Isn't it logical for the public to assume—since no one has advised otherwise—that Hollywood is now in the living room and not down the street?" it's asked.

Allied of Illinois is thinking of asking its members to stress in tuture advertising that "this or that picture will not be shown on television for so many years." The exhibitor unit, of course, notes that if theatremen could obtain assurance from the film companies that their current product would not be released to two from five to 10 years it "would be a potent selling point in allaying the faise intression which the public harbors in believing that every motion picture will ultimately be seen free on tw in the very near, future."

As part of his campaign to convince the public that they're seeing vintage films on home television, Emerling has been successful in inducing a number of newspapers to include the year of release of pictures they list as scheduled for. it vishowing on a particular night. He believes that the listing of the year represents a service to the newspaper's readers.

Warwick Shrinks Overhead & Sked. Per Columbia

London, Oct. 22.
Warwick Films, independent company aligned with Columbia and headed by A. R. (Cubby) Broccoli and Irving Allen, is underway with a retrenchment program, including a switch from continuous production to operation on a picture-to-picture basis. Most members of the company's permanent staff are to be pinkslipped as of December.

Warwick will retain its Audley Square headquarters but is disposing of the Soho Square building acquired last year from Republic.

Allen stated foday (Tues.) the moves were influenced by the industry trends of rising overhead and diminishing attendance. More to the point, there was pressure brought by Columbia to cut costs. After completion of its current production, "No Time to Die," on location in Triploli, Warwick will fulfill its seven-picture contract with Columbia on an average of one per year. Next, "Man Inside," has been postponed from November to April. Film, to star Jack Palance and Anita Ekberg, is budgeted at \$1,500,000

Allen claimed the retrenchment is in anticipation of a continuing boxoffice decline and not because of past losses. Discussing recent pictures, he said "Zarak," starring Victor Mature, Michael Wilding and Miss Ekberg, is making a healthy profit but admitted that "Fire Down Below," with Rita Hayworth is in the red.

"Fire" was brought in at a negative cost of \$2,300,000 and probably will gross \$750,000 short of the amount needed to break even. The break-even point is is said to be \$5,500,000.

RKO SHATTERS SPAIN EMBARGO

Warners Listens, Sets \$2,500,000 | MPEA SEEN HURT | RKO Lays a Spanish Omelette As Price for Madrid Sellout

Madrid, Oct. 22.

Another aspect of the continuing film distribution tug-of-war between U.S. and Spanish companies was revealed here as recent local negotiations to purchase Warner Bros. Hispano operations lock, stock and barrel, failed to materialize. Intermediary was Jack Lamont, overseas sales rep for U.S. independent producers. Aware that U.S. distribs in Spain have been red-inking their ledgers during the past two years of Motion Picture Export Assn. suspension of film shipments, Lamont sounded out the cases Americanas. None were willing to sell, but Warners was at least willing to listen.

Impression created was that the MPEA line in Madrid had been breached and it would only be a matter of time before others closed shop or disposed of their Spanish holdings.

Intermediary Lamont arranged

Intermediary Lamont arranged for several distinct local groups to meet with Warner's Continental topper. These groups found the Warner Bros. doing more listening than talking. They were also surprised that the company had no detailed inventories to show, a customary procedure in this type of parley.

Warner Bros. finally placed a \$2,500,000 sale price on its Spain properties, to include the company's blocked peseta (\$800,000), branch offices in principal cities and exhibitor contracts throughout the country. Spaniards found asking price out of reach but Warner Bros. stood firm and negotiations collapsed.

One participant in the fruitless meeting came away with the impression that Warner Bros. did not at any time manifest a fundamental desire to consummate a sale. Most interested party was perhaps Lamont himself.

Kids in School, Or Fad Over-Done. Horror Is Off

Minneapolis, Oct. 22.

Youngsters have been one of the bulwarks of patronage for horror pictures which had been doing so well here the past summer, but now the kids are back in school and not attending the showhouses so often. Perhaps, that's reason spine chillers apparently have lost their local boxoffice potency. Or, exhibitors figure, maybe it's because the public here has been fed up on too many of them.

At any rate, the loop RKO Or pheum and Gopher theatres last week found the b.o. going rough with such fare. This was despite the fact that the Orpheum's newspaper ads and screen trailer promised that Warner's "Black Scorpion" would set a new high record in scares. In opposition the Gopher had "Amaring Colossal Man" and "Cat Girl," a twin bill. Loop and uptown theatres are now on a science fiction kick in trying to cash in on the publicity attendant upon the launching of the Russian satellite. Most of them, at the present outset, apparently are giving a good b.o. account of themselves, although with a few exceptions they're reissues or returnees.

However, exhibitors here believe that the flood of science fiction pictures will soon quickly sate the public for such films and the hor

Chicago Awaits Aid of Industry On Film Fest

Chicago, Oct. 22.
Although confirmation of Chicago's film festival plans is still awaited here from Motion Picture Export Assn. of America and the International Federation of Film Festivals in Europe, a divergence of exhibitor opinion on running the festival faces the mayor's planning committee. Art house exhibitors go along with the city's plans for an emphasis on cultural aspects of judging and a heavy preponderance of foreign judges to flavor it Tru-international. Other exhibitors see the festival as a means of stimulating interest in Hollywood's most commercial product and in the film business generally.

Elmer Balaban, head of H&E Balaban Corp, which books three major art houses here, reminds theatre owners petitioning the mayor for elimination of the city's three percent tax on theatres that they should show their good will by getting behind the project. Typical of the foreign film exhibitors he notes that publicity stunts and baily no longer are trusted by the public, and if Hollywood is really worried about making money with quality films the approval-of an international board of respected judges would carry more weight in a festival held in this country. Cameramen Union Seeks Forced Arbitration On Burt Lancaster 'Apache'

Burt Lancaster Apache'

Los Angeles, Oct. 22.

Superior Court has been asked to order arbitration in the fouryear-old dispute over Stanley Corter' dismissal as cameraman on Burt Lancaster's "Apache," released by United Artists in 1954. Suit was brought by LATSE Photographers Local 659, acting for Cortez.

Action contends Cortez was hired in 1953 as director of photography of the film, then known as "Broncho Apache." Five weeks later, his contract was canceled, the defendants claiming he was hired on a week-to-week "at will" basis. Union says that the defendants, including Lionel Productions, Norma Productions, Hecht - HillLancaster and Susan Productions, Norma Productions, Hecht - HillLancaster and Susan Productions, have refused to abide by standard pact provisions calling for arbitration of disputes of this nature.

Union also wants to collect \$6,000 it says is still owed Cortez in addition to the \$4,000 paid to him before he was taken off the picture.

Madrid, Oct. 22.

The Spanish film industry is in a turmoid of speculation following the sale of RKO interests in Spain to Jose Garcia Ramos and his brother, Luis. Ramos Brothers own 27 cinema houses here, one of the biggest hardtop circuits in Spain which includes four Madrid showcasers. Jose Garcia Ramos has been with RKO for more than 20 years, 13 of which as RKO manager in the key Madrid territory. Deal was consummated last week, but price was not disclosed and the RKO blocked peseta account was not involved.

Ramos told Variety that among RKO assets taken over, the brothers fall heir to 18 RKO pictures, eight of which will be released during the 1937-58 season. Up for immediate programming under the new Radio Films S. A. banner are "Jet Pilot," "The Conquerer," "Bundle of Joy," "Bold and Brave," "Beyond a Reasonable Doubt," "Run of Arrow," "Son of Sinbad" and "While City Sleeps." There is a feeling in trade circles that the other 10 RKO films will either be sold outright or percentage-released to local distribs to increase substantially the supply of U. S. films in Spain. RKO Spain has been reported in financial difficulties lately although two weeks ago RKO European topper Charles Rosemarin said the local company was solvent for many years ahead.

Figures in MPEA Battle

However, Enrique Agullar, Universal manager and chairman of the

said the RKO sale will not weaken
U. S. bargaining power. But opponents of the MPEA will try to
prove by it that the Eric Johnston

SIMPP Chief Sees Victory
Jack Lamont, overseas sales rep
for the Society of Independent
Producers (SIMPP) and closely
identified with local distribs seeking to prevent re-establishment of
MPEA positions in Spain, said:
"This RKO deal cuts the legs from
under Aguilar after the Barcelona
distrib chief had made appreciable
progress toward an MPEA-Spain
settlement."

Lamont added that Badio Films

progress toward an MPĒA-Spain settlement."

Lamont added that Radio Films would now naturally take its place with other powerful independent Spanish distribs determined to unhinge U. S. companies in Spain from favored share of U. S. film allotments. Other observers see the sale as a simple economic cause and effect. RKO, in selling out, has cut loose from its obligation to uphold the MPEA embargo and has stopped the flow of red ink for costly overhead during a standstill period. Ceding product to the Ramos Brothers on percentage distrib terms, will again ring the bell for the RKO cash register. RKO, it is pointed out, is merely adopting the Hispano distrib pattern profitably employed by another MPEA adherent, United Artists, in its dealings with C. B. Films.

prospects are strong for eventual acceptance.

Terms pitched by the French include a hike in the membership dues of the Centre National du Cinematografie, providing the French with an additional \$100,000 to \$200,000 a year, and a arrangement under which part of the French licenses will be allocated to the distributors by the French themselves.

French pact issue was discussed in Gotham Monday (21) at a board meet of the Motion Picture Export Assn., presided over by prexy Eric Johnston. Latter also delivered a report on the global situation facing the industry. Subject of the reported RKO sellout of its Spanish organization was among the topics discussed.

There'll be another meeting, this one of the company presidents, today (Wed.) to 0.0, the world situation. France may or may not come up at the powwow.

The companies are, on the whole, opposed to any arrangement that would allow the French to allocate permits. It reasoned that, unlike the Japanese, whose government allocated permits some seasons ago, the French would handle the divyying up of the licenses on an industry rather than a governmental level. This the Americans don't like as a matter of principle, and also because they fear that a very bad precedent is set.

Member companies of the Motion Picture Export Assn. are doing a burn over the independent attitude adopted by RKO in Spain where, it now appears certain, the company has sold out to its local manager along with a commitment to supply him with at least eight pictures.

At the MPEA board meet in Gotham Monday (21), RKO was represented by Robert Hawkinson, who could only say that he had no detailed information. He told the meet that the contracts "are not yet signed."

meet that the contracts "are not yet signed."

Several of the other companies felt strongly that (1) RKO, still an MPEA member, had no right to take such action in Spain, where MPEA has maintained an import embargo for the past two years, and (2) RKO should have been repped at the Monday meet by some top brass, able and willing to tell the other outfits what the score was in Spain.

RKO action in Spain, if finally confirmed, is of serious embarassment to MPEA in that it appears to crack the Association's "commor front." Even United Artists, after fulfilling its commitment in Spain, joined the embargo some months back.

months back.

At the Monday meet, Eric Johnston alluded to the Spanish situation, stressing the absolute need for the companies to maintain unity in their foreign dealings. It's stressed that RKO's defection would not be permitted to split the MPEA ranks and would not result in everyone now scrambling for the best obtainable deal. "That's just what the Spaniards would like us to do," was one comment. MPEA board—the prexies, this

us to do," was one comment.

MPEA board—the prexies, this time—meets today to take up the situation created by the RKO defection and to discuss what might be done about it. As the companies see it, RKO is bound by such common agreements as exist in Spain. Punitive action is, of course, out of the question, but Johnston still intends to explore avenues of action, possibly looking to prevent such defection in the future.

Loew Struggle Echo in Divvy Data for Sept.

Washington, Oct .22.

Washington, Oct. 22.
Film industry dividends in September fell sharply below the comparable figure of a year earlier. The decline is attributed entirely to the struggle for control of Loew's which has prevented the board from voting a stockholders' melon. However, with the fight ended, it is expected that the dividend will now be paid.
Industrywide, the September dividend, aggregated \$2,900,000, compared with \$3,842,000 in September, 1956. The September total also sent the 9-months' figure for this year below that of a year ago. For the first three quarters of 1957, the dividend payments totaled \$20,977,000; in 1956 it was \$21,603,000.

The September dividends:—Leew's, which paid \$1,286,000 last year paid nothing this year; Roxy Theatre, which paid \$6,000 last year, paid none this year; United Artists, which paid nothing last year, paid \$350,000 in September, 1957.

The following companies paid dientical dividends in September

The following companies paid identical dividends in September of both years:—Allied Artists, \$21,000; Consolidated Amusements, \$55,000; Paramount Pictures, \$1,094,000; 20th-Fox, \$1,058,000; Universal, \$314,000; United Artists Theatres, \$8,000.

For more than a generation, the late Hendrik Willem Von Loon's monumental "Story of Mankind" has been a runner-up to the Bible as a steady standard. Now, it has been brought to the screen in a name-dropping production that provides a kaleidoscope of history from early Pleistocene man to today's Plutonium man. In the process, however, producer-director Irwin Allen seemed unable to decide whether to do a faithful history of man's development into a thinking being, a debate on whether man's good outweighs his evil, or a compilation of historical sagas with some humor dragged in for relief.

or a companion of the with some humor dragged in for relief.

The possible box-office merit of the third alternative apparently won out and Allen assembled a cast of "name" performers for added impact. None, unfortunately, has real marquee value and the resultant billing problem—in which 25 names appear successively on the screen to accompanying fanfare—encompasses a 55-second span even before the title is seen.

Forgetting the effect upon the star system of billing such players as George E. Stone, Franklin Pangborn and others above the title, the device succeeds only in getting the film off to a slow start from which it never recovers. Overall prospects seem pale since "The Story of Mankind" back universal appeal and the select audience that might seek it out as intelligent, adult fare will be antagonized by the handling.

As a peg on which to hang the panorama, screenplay by Allen and Charles Bennett convokes the High Tribunal of Outer Space" upon news that man has discovered the Super-H bomb 60 years too soon. the bomb, at least for the time being.

Allen's nebulous conception of the property is sharply reflected in the Allen-Bennett screenplay which is ponderous and dull. There is an occasional burst of humor but, as in the case of the purchase-of-Manhattan sequence with Groucho Marx as Peter Minuit, the dialog is entirely out of keeping with the remainder of the script. Producer-director also faitered in his casting and handling of players, resulting in many uneven or stock performances. Best of the portrayals is Agnes Moorehead's handling of the role of Queen Elizabeth and Cedric Hardwicke turns in a good performance as the High Judge. Ronald Colman, as always, is a dignified personification of the Spirit of Man and Vincent Price is the sophisticated, sneering, emboriment of Old Scratch. Most of the other top-billed performers have little to do, but Peter Lorre brings some conviction to the role of Ncro. Dennis Hopper is moodily appropriate as Napoleon and Virginia Mayo looks the part of Cleopatra. Hedy Lamarr is miscast as Joan (ves, of Arc) in one of the few other key parts, some of the "stars" having been given roles in which they are on and off the screen so rapidly as to go unrecognized.

The old oater cliches are turned inside out for this purported "adult" western, but the "new" cliches in the Norman Retchin script the also produced and laid on in a heavyhanded and haphazard manner. Results don't promise better than program bookings, since star names of Rory Calhoun, Gloria Grahame, Lloyd Bridges and Joanne Gilbert aren't potent enough to overcome the shoddy scripting and hit-and-miss production.

scripting and hit-and-miss production.

In this story, the cavalry, Instead of being an upstanding, derring-do body of clean-cut Americans, is a drunken detachment led by a cowardly, corrupt captain, broadly played by Lloyd Bridges. The Indians are uniformly brave and honorable. In the romantic triangle among hero Calhoun, white widow Gloria Grahame and Indian girl Miss Gilbert, Miss Grahame portrays a man-crazy tramp and the Indian belle is a sweet, heroic young thing.

Tale revolves enforced move of the proud Cheyenne nation from their ancestral hunting grounds to an Oklahoma reservation. Bridges, in charge of the move, is inept as well as brutally stupid. Calhoun, town marshal and a former Indian scout, wants to see justice done, but is unsuccessful.

scout, wants to see justice done, but is unsuccessful.

Discovery of gold and intolerance of townspeople inflames matters. Treacherous murders by whites, and raids by Indians in self defence, led by Vince Edwards, thicken the plot. Finally, Calhoun renounces Miss Grahame, kills the villainous Bridges and keeps Miss Gilbert behind after the Cheyennes are driven off to the reservation.

Story idea isn't bad, but it needed better treatment than it got from Retchin, Bernard Girard's loose direction, which permits a wide variety of thesping styles, isn't much help, Calhoun and Miss Gilbert come off best, while others can't be assessed too harshly for their readings of improbable lines.

The title, a hint of what the picture is about, and Jerry Lewis as star, communicate the message about, this new Hal B. Wallis production. It's the old army game, done over. But it's fun. invariantive explorations. Relying on the type of zanyism with which Lewis is readily identified. Fun for those who go for it.

Importantly, "Sad Sack" is fast in delivering its broad material. The mayhem, as when soldier boy Lewis becomes involved with native heavies in Morocco, including Peter Lorre doing a takeoff on himself, is suggestive of the wild yesteryears of the Keystone Kops.

Lewis already has proved him-

himself, is suggestive of the wild yesteryears of the Keystone Kops.

Lewis already has proved himself a boxoffice commodify sans ex-podner Dean Martin. He'll do well with this outing, too, considering the number of his partisans and the fact that they're not likely to be disappointed.

Story has the comic as a mnemonic whiz kid but with two left feet, making him apt subject matter for a psychiatrist. Playing the part of the Army head specialist is Phyllis Kirk, making for a nifty visual plus. She undertakes to solve her problem soldier with the assistance of his squadron leader, David Wayne, who, along with his comrade, Joe Mantell, takes Lewis in tow.

This, together with lightly-played romance between Miss Kirk and Wayne, represents the story from which springs the shenanings.

and Wayne, represents the story, from which springs the shenanigans.

Edmund Beloin and Nate Monaster fashioned a series of outlandishly humorous bits and situations in their screenplay and director George Marshall has provided the all important pace in his staging.

Lewis is, well, Lewis. Being trapped in the WAC barracks, returning the busses of a French general and eluding the sinister Moroccan figures—these add up to his cup of tea. He's at home with this type of nonsense and makes the most of it.

Producer Hall Wallis surrounded the comic with good workers for this type of an entry. Miss Kirk is a cute trick as the sychilatrist. Wayne is consistently effective as the corporal with the major migraine in Lewis. The Lorre caricature strains a bit but nonetheless provides a few laughs. Mantell and Gene Evans, latter as a rough Army sergeant, come through in the proper groove.

All in all, nothing revolutionary, but reliable. Wallis has laid it out with adequate care—meaning, the backgrounds, sets and costumes are fitting and all technical credits bespeak professionalism. Walter Scharf's musical backing is a good component although the title song, based on the one listening, figures as a so-so item, okay for the picture, but short of substantial on its own.

Rene Clair returns to the lower class suburbs and milieu used for his best prewar pix. However, he has come up with a light tale which wavers between comedy and drama, making a slight, fragile pic. It is primarily for arty houses in the U.S., and it will need plenty of selling. But it has offbeat qualities for bally.

and in trying to stop him kills the gangster.

The film's mixture of styles rarely allows for the achieving the balance of irony and comedy. Its story loopholes are not quite covered by the treatment.

ered by the treatment.

Brasseur gives an astute portrait of the drifter. Georges Brassens, a noted ballader here, is too unsure of his lines to do much as the troubadour. However, he is okay when he sings. Dany Carrel is a pert flirt but Henri Vidal does not infuse the gangster with enough redeeming qualities. Technical credits are fine. Clair has given this a careful finish but remains a pic that does not quite come off.

Set in Australia of a 100 years ago, Robbery Under Arms' is a wellmade, straightforward drama which should click okay in British houses. As is so often the case, its American impact will depend entirely on whether its stars are sufficient magnets to attract pairons outside the British domain. The picture is part of the Rank Organization's current policy of spotlighting the Commonwealth. Its main problem is whether it does not follow a bit too soon after "The Shiralee," which also starred Peter Finch and the wide, open Aussie spaces.

The story, based on a Victorian As is so often the case, its Ameri-

which also spen Aussie spaces.

The story, based on a Victorian novel, has Finch as Captain Starlight, a virile, likeable rogue who runs a gang of bushrangers whose activities include cattle-rustling and bank holdups. In search of adventure, Ronald Lewis and David McCallum join the gang which includes their father. When the two attempt to break away and lead honest lives they find that they've lost their chance. The film ends with the gang being wiped out in air exciting gun fight with the police. There are undertones of romance but, mainly, the pic relies on action.

i lice. 'There are undertones of romance but, mainly, the pic relies on action.

Jack Lee's direction splendidly captures the Australian atmosphere. He indulges in no frills. He has a story to tell and he tells it simply. Lee is admirably supported by lenser Harry Waxman, mainly as the sereen with sweeping camera work, suggesting the vastness of the Australian canvas and the color is first-class. The scene in which 1,000 head of cattle are herded across a river is astutely contrived.

In the star role, Peter Finch has a comparatively small role but he plays it with a swagger which is highly effective. Good opportunities are given to the brothers, Lewis and McCallum. The latter, in the more subtle part, enhances his rising reputation. There is also a fine study by Laurence Naismith as the boys' father, unrepentantly caught up in the Starlight gang.

The distaff side plays second fiddle to the men in this action meller, but Maureen Swanson, in an undeveloped role as a fiery, possessive young woman who sets her amorous sights on Lewis, has her first real opportunity since "A Town Called Alice," and grabs it zestfully. Jill Ireland also makes her mark as the girl McCallum woos and wins.

But the acting is less important than the situations. With fist-

Whole basis of the industry's now-Kaput Golden Jubilee was challenged in Hollywood by Mrs. Hobart Bosworth, widow of the silent screen star. Fiftieth anniversary of the first feature film production on the Coast, she declared, actually won't occur until 1959. Prior to 1909, Mrs. Bosworth said, film companies came to Southern California only for locationing. The first 1,000-foot feature made here was "The Sultan's Power," which was shot in a Chinese laundry at Eighth and Olive Streets by the Selig Company, Bosworth, who starred, was at the victim who had to live here, so he embarked on a one-man campaign to bring the then-fiedgling industry to the Coast. The Selig Company finally established the first film studio there in 1909 in what was then Edendale, near downtown Los Angeles. Present industry celebration, she added, actually marks the 50th anniversary of the Hollywood shooting of "Count of Monte Cristo," parts of which were lensed on location. lensed on location.

A position, such as enjoyed by U, in the recent pattern of the motion picture business. That Universal has been able to accomplish this total of completed films is perhaps due to U's insistence on making pictures by itself and not relying on the contributions of outside producers. U is the only major company that has refused to make deals with indies and continues with the pattern of filmmaking that has long been traditional in the film biz. U believes that its system, which gives it complete control of story selection and production schedules, allows for better-pre-planning and efficiency. Under its method of operation, there is no need to wait for an indie producer to assemble his package before he can launch production.

age before he can launch production.

With 33 pictures in the can, U's sales force can actually "sell" a whole year's product at one time. Although the consent decrees and prevents U from actually signing contracts, it does not stop its salesmen and bally force from touting its completed films long before they are actually set for release. With so many finished films available, Charles Feldman, U's v.p., is able to plan and finalize his release slate long in advance. Pictures suitable for the teenage and young trade can be scheduled for the school vacation periods. Smilarly other pictures with varied appeal can be scheduled for dates considered most advantageous. U's product availability also gives exhibitors an advance indication of what pictures they will receive at a specified time of the year. The company's release slate was finalized last week at a series of N. Y. meetings of the company's sales executives.

It's easy today to build a new star, maintains producer Jerry Wald. If it isn't being done, he adds, it's the studios' own fault.

Wald, in Gotham last week for confabs with 20th-Fox execs on his upcoming "Peyton Place," took his text from Variety's page one lead a couple of weeks ago, which pointed to the lack of new stars.

pointed to the lack of new stars. "The trouble is, you can't just stamp out stars on a printing press," held Wald. "We have to guard these new personalities, wrap them in cotton-wool. The new stars must be made inaccessible and elusive again. That's what made the big stars of yesterday. I think Garbo had the right formula."

I think Garbo had the right formula."

Producer said the studios had to run interference for their new players. "There's nothing worse than over-exposure, and without proper preparations, whether it's in interviews, or on tv, or anywhere," he observed. "I was furious when I heard that Suzy Parker was allowed to go on television in a play. ("Death of Manolete"). She wasn't ready for it."

Miss Parker, model turned actress, is in Wald's "Kiss Them for Me" opposite Cary Grant. Wald said the roughcut of the picture, shown recently at the Roxy Theatre, should never have been presented at a public preview. He said there was no proper dubbing in the film, so that Miss Parker's voice and overall performance created embarrassment. Since then, Miss Parker has redubbed the picture herself and it's been further edited. Wald put to rest rumors that Deborah Kerr had been used to dub in the Parker lines.

Wald, holding that today's communication facilities made it easy

to dub in the Parker lines.
Wald, holding that today's communication facilities made it easy to "build" new stars, said the studios generally failed to chart creative and progressive campaigns for the careers of their new faces. "These young people need a continuous exposure in pictures, but in different parts to avoid their becoming typed," he held. "It's no use having a star in one picture, get a lot of attention, and then do nothing with that personality again for a year." for a year.

Wald said it was a serious mis-take to allow screen players to make p.a.s. at a lot of tv shows. He felt that the whole "deglamar-ization" process in Hollywood had been a big mistake.

been a big mistake.

Wald said he expected "Peyton Place," which runs three hours, to be given a semi-roadshow treatment by 20th, i.e. prerelease and advanced prices. He's currently working on "The Long, Hot Summer," "The Sound and the Fury," "Jean Christophe," "The Jean Harlowe Story," "Diamond in the Rough" and a film on Scott Fitzgerald.

French Musical Legits Still Lag

Paris, Oct. 15.

It is the fear of risk and the truckling to mediocrity that have kept the Gallic legit musical not only behind the times but lowlevel in conception and production. That's the opinion of legit musical property have There's the statements. experts here. They say attempts to follow in the new ways staked out by American musicals are re-sisted here on the assumption that there is no public for them. Ap-parently there would be if chances were taken:

The oldhat operetta still holds forth with such items as "The Mer-ry Widow" and "Vienna Waltze" now the main musical fare. Some others which try to add a sort of storyline, like "La Belle Arabelle" and "Mon P'tit Pote," also kowtow to numbers and dances that usually have nothing to do with the story

have nothing to do with the story.

But it's felt that when the owners of these theatres finally let down the barriers, it might lead to a renaissance in the musical theatre and lead into a greater public for Yank musical pix too. The public, which goes to see the musicals here, probably feels that the films also have the same type of approach and stay away. Only Yank tuner to hit the big first-run take list here this year is "The King and I" (20th), and a company rep said so many songs were cut that the pic resembled "Anna and the and I" (20th), and a company ac-said so many songs were cut that the plc resembled "Anna and the King of Slam" (20th), the pre-war version of the same story done without music.

Final Stages in Berlin

The Berlin States in Sering

The Berlin shooting of Universal's Erich Maria Remarque filmitation, "A Time to Love and a Time to Die" (There's a Time to Love"), which started here in late August, is now in its final stages. Majority of the east, including American actors Don DeFore, Keenan Wynn and Lisa Pulver (last-named has femme lead in this), thave already left for other commitments.

Consisting of both Americans and Germans, the crew is now ready to move to Grafenwoehr, a maneuvring-ground for U.S. troops in Bavaria, for a week of exterior shooting.

Holland Strains For Pix Industry

Amsterdam, Oct. 15.
Cameras are grinding in Holland and hopes are high that at last one will be able to establish a feature film industry here, with the aid of the government. Ready for release is "Kleren Maken De Man" (Cloths Make The Man). But the preem of this ple may be postponed for some time until the public forgets the flop of "The Flying Dutchman" this summer. "Cloths" was made as a German-Dutch re-ovenduction and this summer. Cloths was made as a German-Dutch co-production and scripted and directed by German Georg Jacoby.

Most ambitious program of film production companies is Standaard Film, till now only distributing Italian pix in Holland. One of its films is "Jenny," German-Dutch coproduction, with a Dutch director, Willy van Hemert, and mostly Dutch actors in both versions. It is a remake of the pre-war German film called, "Eight Girls In A Boat." Italian director Alberto Latuada arrived here for prelim dis-Boat." Flu Sloughs All French Show Biz: 7 Big Budget Film Productions Delayed

Paim Frouncions Delayed.

Paris, Oct. 22.
All facets of show biz have their troubles here—fluctuating boxoffice, rising production costs, etc., but the main difficulty now has come from another source and is causing grief in lost time, when time is money. It stems from the Asiatic flu. Seven big budgeted pix have been held up by the virus. Maria Schell is out of "Une View While Yves Montard is bedded while "Premier Mai" limps along without him.

VOGEL'S VEXATIOUS VICTORY

Briskin: Combustion or Conspiracy?

[LOEW ATTORNEY MAY CHALLENGE HIS ELECTION]

Loew's attorneys are giving careful study to the manner in which Samuel J. Briskin was elected to the board of directors of the company at last week's special meeting before deciding on what course to take in challenging the legality of his election. There is a strong possibility that Loew's legalites may advise the management to refuse to seat Briskin at the initial board meeting and leave the burden of proving the legality in the courts to Briskin and his supporters. There is a possibility, too, that Briskin's eligibility may be held up pending an investigation by the Securities & Exchange Commission which may have had an observer present at the special meeting. At the special session Loew's prexy Joseph R. Vogel declared that there was a chance that Briskin may never take his seat "once our lawyers get finished with him."

with him."

Questions being raised by Loew's attorneys are: Was Briskin spontaneously elected by people who showed up with their own proxies and were persuaded to vote for Briskin during discussions on the floor? Or were arrangements secretly made before the meeting by various groups to support Briskin?

If it can be proved that the latter was the case, Loew's attorneys may present the argument that the proxies were solicited illegally. It's believed that before such a prior solicitation can be made, notice must be given to the SEC via the filing of a 14-B form.

cussion of past events.

The prez said he doesn't enjoy a fight, but found it necessary to engage in battle with Joseph Temlinson so as to "keep the company together." He added he wasn't concerned about his own position, indeed would have no trouble in landing another job elsewhere in the industry, although perhaps at less money.

less money.

Highly gratifying to Vogel, he commented, was the fact that 20,000 individual pro-management proxies were collected, representing an unusually high number, or four-fifths of the total. While the Tomilison forces had sufficient stock support to elect Samuel J. Briskin to the board via the cumulative voting system, the individual proxies relatively were few.

Chief were full the Logwin per-

ual proxies relatively were few.

Vogel was due on the Coast this week for discussions with studio chief Benjamis Thau and, reportedly, to formalize a ficek of independent production déals. These have been long projected with finalization unset pending the outcome of last week's conclave of stockholders.

stockholders.

It's also reported that Vogel hopes to have the first meeting of the new board, including Briskin, within a matter of days. As for Briskin, Vogel told the Thursday night session he'll go along with the producer, to see what he has to offer and to accept anything that's constructive. He noted, though, that the matter of proxy revocations "is in the hands of the lawyers." This could lead to Briskin's removal.

Bristin's removal.

It's understood Vogel intends to ask the board to declare a cash dividend to cover the final quarter of the 1957 fiscel year. Unless this is done it would mark the first time the company failed to shell out to stockholders on the regularly-scheduled basis since 1927.

Although Loew's President Joseph R. Vogel won, a major—but not complete — victory at last week's special stockholders meeting which gave him a 13 to 6 majority on the enlarged board of directors, there appears to be no doubt in industry and financial circles that the harassed chief executive faces another proxy battle at the company's annual meeting in February. Joseph Tomlinson, the Canadian industrialist who challenged Vogel's management, has declared that the fight will be renewed.

renewed. That the right will be renewed.

Even if Tomlinson and his associate, Stanley Meyer, decide to throw in the towel, which is regarded as unlikely, there is a possibility that Vogel may face a serious threat from the Wall Street banking firms of Lehman Bros. and Lazard Freres, which control some 150,000 shares, second to Tomlinson, who owns 180,000 shares. Their support of Samuel J. Briskin, which resulted in his election to the board, is regarded as a tipoff that this bloc, under the direction of Edwin L. Weisi, senior partner in the law firm of Simpson, Thatcher & Bartiett and attorney for Lehman and Lazard, will prod for reorganization.

for reorganization.

Interier of partiets and stronger for Lehman and Lazard, will prod for reorganization.

There is no evidence at present of ties between the Tomiinson faction and the Wall St. group, but each segment might welcome the support of the other if adyantegeous. They combined to muster sufficient votes at last week's meeting to put over Briskin.

No Rest fer Vegel

Vogel faces a hectic period in the four months that precede the annual meeting in February. It's expected that Tomiingon and Meyer will continue, "banging away" with their charges of mismanagement and incompetence. It's also expected that Lehman and Lazard, with Briskin now on the board and Weisl as the behind the scenes eminence grise, will make efforts to present its own program aimed at "rejuvenating" Loew's.

Will the Lehman and Lazard proposition raily other financial groups in support? According to Wall St. sources, Loew's requires the type of hypo that only Wall St. is capable of providing.

At any rate, it's asserted that Vogel still faces a tremendous challenge and he must move fast in accomplishing an impressive and thereugh houseleaning of the remainsfer of the old guard branded with the mark of Nicholas M. Schenek and Charles C. Moskowitz.

Speculators Hover

Another threat faced by Vogel is the chance that speculators may regard Leev's as ripe for plucking. With Loev's tock downgrade and likely to decline more if the company passes its dividend, large investors could press in at an attractive price. If the divvy is passed, as has been hinted, there a possibility that the stock may drop to 12. drop to 12.

Burma's U Tin U **Visiting States**

The biggest film producer in Burms is dubbing an English sound-track into one of his pictures, preparing English sub-titles for a second and is in the midst of negotiating with Agia to shoot Burma's first color film.

U Tin U, attending the Interna-tional Industrial Development Conference here, reported his A-1 Films Ltd., has eight to 10 films in various stages of preparation right now and is turning out pic-tures at the rate of one a month.

He's particularly interested in the color film, which would be shot by German cameramen and use Shirley Yamaguchi as a leading lady.

U reported A-1, situated at Ran-goon, has been in business since 1927, currently is budgeting films at around \$60,000 apiece. His av-erage profit per film, he said, runs 15%.

He said Burma has some 300 theatres, claimed the Burmese film industry "was ahead of India" hefore World War II and has regained top position in Southeast

Asia today.

U is keen on "Yadanabon," the picture getting an English sound-track, said he's aiming for playdates at American art houses. He recalled that a number of U. S. films have had Burmese locales—specifically named Gregory Peck's "The Purple Plain"—and suggested that "any American producer who wish to come to Burms to shoot pictures would get 100 per cent cooperation from us... it could he a big dollar saving."

In addition to his ownership of the private film company, U has extensive Burnese mining interests.

The public is balking at one form of block booking—the idea of a full month's program of pictures on home-toll circuit television at a flat fee of \$9.50. This is the conclusion of observers of the Bartlesville, Okla., run of wired service which got underway in September as a free trial and which went on the paid-for basis this month,

Of the town's 8,000 homes equipped with tv receivers, only have accepted Video Independent Theatres' cahled transmission of Hollywood pictures (many of which have been reissues) and an additional 200 have placed orders for installations. Reportedly about 30 families discontinued the service after the free trial period.

tinued the service after the free trial period.

According to non-Video Theatres interests who've been clocking the public reaction in the southwest town, two key factors have proved the major deterrents to the immediate success of toll tv, namely:

(1) Home viewers want a free-dom of choice. This is not provided in Bartlesville, where, presently, the wired-in set owner is given the full program of 13 new films on one channel and 18 relisates on another, with the price remaining the same regardless of the number taken.

(2.) The price is not right in that it's (a) fixed and (b) too high.

high.

Actually the two factors over-

high.

Actually the two factors overlap. A good segment of residents who have been consulted on the matter said they would prefer to select a limited number of productions each month and pay accordingly, and considerably less thank the flat \$9.50 per month which is now being charged.

A meaningful number of others said they'd be willing to go along with the flat monthly fee if it were lower, perhaps about half of the current rate. There was more than usual significance here in that Bartlesville is a "rich" town and if the local people say they can't afford \$9.50 it's a cinch this amount of monthly layout (after the milk bill) will be considered excessive by the consumers elsewhere around the country.

As previously reported, Henry Griffing and other Video Theatres exces taid they were operating at the start on a trial-&-error basis and will be prepared to make adjustments as deemed necessary, including an anticipated lowering of the monthly charge or vis installation of a metered system by which the public would pay only for what is seen.

General decline of the stock market, including the drop in amusement shares, may have the effect of neutralizing the situation at Loew's Inc., according to Wall Street observers.

With Loew's stock now hovering around 12, Joseph Tomlinson, the chief opponent of the Loew's management, has seen the value of his 180,000 shares drop about \$1,20,000. Tomlinson is said to have purchased his holdings at about \$19, representing a loss of \$7 per share.

Loew's prexy Joseph R. Vogel, who owns 23,000 shares which he obtained at an option price of about \$16, is also seeing the value of his shares decreasing sharply.

Stellings' Points: Summer a Fiasco, **Toll to Be Banned**

Ashville, N. C., Oct. 22.

Ernest G. Stellings, president of Theatre Owners of America, described the summer months as a "fiasco," because so-called hig pictures did not produce as expected. Perhaps this experience, Stellings said, will convince distribution, not to bunch their top pictures during the same period each year. The TOA topper is convinced that the dearth of good pictures during March, April and May "drove many people away from the theatres in tremendous numbers, many of whom did not return during the so-called lush summer season."

Stellings made his comments Ernest G. Stellings, president of

HOW TO BOOK IN STARVED MARKET

The buying and booking of pictures in a starved market will be the subject of an address by Irving Dollinger at the opening session of Allied S åces Assn.'s annual convention which gets underway Monday (28) at the Concord Hotel at kiamesha Lake, N.Y. Dollinger, chairman of Allied's Emergency Defense Committee, is expected to hit hard on clearances, a subject that has become a particular irritant in relations between exhibition and distribution. It has been charged by the alleged shortage of prints and the increase of so-called special engagements.

The second day's session will be devoted to a discussion of cable tv, the status of 'Allied's relations with the Council of Motion Picture Organizations, and a report on advertising, exploitation and business building ideas. Prior to the formal afternoon meeting on Tuesday (29), Allied members will gather at film-clinics, long an established custom at Allied conventions. At these closed sessions, separated into small, medium and large theatre problems, Alliedites get a chance to air their, sim problems and individual deals with the film companies. Reports of the film clinics are later made on the convention floor and resolutions are passed and actions taken to help solve the issues presented at the clinics. The final day's meeting, in addition to hearing various reports, will also consist of an open forum at which exhibs get a chance to bring up matters of general interest.

Event is getting strong support not only from the German industry, which has provided the Museum with the pick of the new product, but also from the Motion Picture Export Assn., which is chipping in financially. MPEA prexy Eric Johnston will be guest of honor and one of the two main speakers at a Museum dinner tonight. Dr. Heinz L. Krekeler, the West German Ambassador, also is skedded to speak. His address is expected to touch on German-American film relations.

West Germany today is one of

West Germany today is one of the few unrestricted markets in Europe for American pix. It has a screen quota, but it is lower than even the British quota and German films actually get more playing time in German theatres than the quota prescribes. Almost alone among the European industries, Germany's producers are not sub-sidized by the government, and there appears little likelihood that they will be.

there appears into intermood that they will be.

Curtain raiser, at the Museum of Modern Art, will be "Hauptmann von Koepenick." Sked calls for a dinner, screening and a reception, all at the Museum.

Other films picked so far, all of them as yet unreleased in the U.S., include "Himmel Ohne Sterne." 'Griff Nach den Sternen" and "Bekentisse des Hochstaplers Krull." Another new German picture, "Die Letzten Werden die Ersten Sein," also is a possibility. First week will be followed by a retrospective film cycle, showing the growth of the German film from its beginning to 1957.

According to Munio Podhorzer, the Export-Union representative in the States, this is the first time that a foreign industry has made available new and unrelessed pix for such an event. German film week is the first such German manifestation in the U. S. since the war and takes on special significance in view of two factors: (1) The German market for the American films, today one of the most vital in Europe. (2) The lack of success of the German films in the U. S. to date where they have played mostly only the

The lack of success of the German films in the U. S. to date where they have played mostly only the language houses.

In view of this, MPEA has expressed to the Museum and to the Germans its eagerness to cooperate wherever possible, either financially or otherwise. Suggestion had been made to have MPEA sponsor the reception on Oct. 23. However, the Museum holds that this is its prerogative. So MPEA came across with money.

Presence of the Ambassador and of Johnston is seen bringing the opener into the double focus of "art" and commerce, with the Museum definitely pitching for the highbrow level and the Export-Union more interested in using the Film Week to draw attention to the commercial calibre of the German pix.

Todd's Taffy Pull: Rasputnik Over Sputnik

[Chiseling Waiters Star at Madison Sq. Garden]

Madison Square's chiselling waiters, selling food and drink which had been donated, set the tone and the pace of the anarchy that raged last Thursday (17) at Madison-Square Garden when Mike Todd, in the name of show-manship, held his nationally and internationally hally-hoosd and reported "little party." Granting whatever is owed to the Barnumesque aspects of the occasion and the staggering audacity of inviting "18,000 guests" to celebrate one year's run of "Around The World in 80 Days" and the prospective casting and shooting of another film, "Don Quixote;" his little captious criticism still has to register in the first paragraph: the buildup was colossal, but the party was human nature with its shirttails flapping. shirttails flapping.

shirttails flapping.

A promotion which was built on the deadheading of nearly everything had about as much dignity as a frat house panty raid on a sorority house at the first stirring of spring. After all the promoting the merchandise and the touted prizes were either boldly hijacked, Chicago style, or broken open and pileteed, waterfront style. There was no raffling of the prizes, as pledged. This was just one of the many fiascos behind the facade of the big ballyhoo. It was later announced that lucky stub-holders would read the winning numbers in today's (Wed.) dailles, Super Todd was vieing with Sputnik British royalty

would read the winning numbers in today's (Wed.) daffles.

Sure, Todd was vieing with Sputnik, British royalty and the rumble in the Syrian-Turkish belt. And maybe this was an international trailer for his upcoming (and unmade) "Don Quixote" topping any "penetration" campaign in the history of the picture business.

The fact that the chiseling waiters were quickly in business for themselves, peddling that domestic Renault champagne, which was supposedly for-free, at \$2, \$3, \$5 and up to \$10, for a magnum, is a kind of cheap hustle which Todd couldn't—or anyhow, didn't—control.

Up For Grabs

The fact that the performers, animal act participants, musicians, folk dance groups, et.al, who were on the main arens, had first grabs at "gifts," not to mention the "free food," was also not thought out by the Todd staff. Not only were fine balcony and galleryites literally isolated from the VIP's downstairs (doors lead only the streets) but the latter, even if in Row A, could only lean over for a hotdog or coffee—if lucky. One valiant was throwing hot dogs through the air. The beer was almost non-existent as the parched performers, nussicians, photographers, sundry CBS-TV, Madison Square Garden and Todd staffers, who were in the wrestling reach, helped themselves first.

There was no entry provided from the ringside (side arena) loges and seats onto the Garden floor itself, and the staff cops, who must have been recruited from the Dannemora set, (1) refused exit onto the floor, in case one wanted to get near the free beer, coffee and hot dogs; and (2), they were the most outspoken, rude set of moujiks as the deluxe location invitees exited.

JIKS as the deluxe location invitees exited.

The staffers had their own complaints. Not all were on the fake. Garden guards told the city cops on the outside "This is the last of this kind of a madhouse we want," "Who needs this?" "I hope we never have anything more like this," etc.

'Take It Easy' Right Slant

Paradoxically, many who came to relax with a fun-party attitude had fun. Those who came to criticize found plenty that was badly organized. For instance: There were no TV monitors available for the in-Garden bunch to know what was being telecast.

Celebrities were embarrassingly few, fearing just what

Celebrities were embarrassingly few, fearing just what happened.

The official proceedings, emcee George Jessel notwithstanding, were very unamusing.
CBS-TVS "Playhouse 90" sponsored the telecast, a \$110,000 tab. Todd's expenses were quoted at \$283,000. The wisecracks are many, most succinct being, "Todd got a \$1,000,000 worth of publicity and made 18,000 enemies," Don't take that too much to heart. Many of the got a \$1,000,000 worth of publicity and made 18,000 enemies," Don't take that too much to heart. Many of the 18,000 "chums" had an abandoned good time of it—having checked any illusions that they would be sumptuously fed or wined. There was a carnival spirit, a menagerie and other circus props.

All, of course, resented the chiseling wine-dispensers and the Garden ushers who, seeing the folding money changing hands for the grape decided they'd get in on swindle and began selling the souvenir programs at buckacopy with most people refusing to get-it-up. Petty stuff is always the most invidious.

Women In A Peeve

Women In A Peeve carried with the showman, should have known about those things, He also forgot the fundamental—hell hath no fury like a woman scorned. They were scorned and scornful. Haying been told to dress-up-to-the-nines (there was even a billet-doux from Liz and Mike that the men should black-tie-it and the gals should eschew boutfants), there was no opportunity to display the couture. You sat like at a prizefight or hockey-game. The majority not in the choice locations were seething at the lack of vantage-point. (For the at-homers' reflex, see this issue's TV Review).

As for the "groceries," the manner of dispensing the dublous "free" grub was beyond alibi. Since tip-money smooths the wheels of good service—Todd should not have overlooked giving the husters a personal pep-talk

Mail in Your Stub for Todd Gift

The party's over, but the gifts are still in a warehouse, waiting to be distributed.

That was the status early this week, as Mike Todd drew plans to have Price, Waterhouse or some other reputable" firm supervise a drawing for the prizes. Intention is to have the winning numbers published in The N.Y. Times today (Wed.) or tomorrow.

There were 18,000 people at Todd's Madison Square Garden bash last week, and he has 18,000 prizes. They were supposed to have been handed out at the party, but no one ever got around to doing it.

Now, a winner has to mall in his ticket stub to get his prize. All of the "gifts" were contributed to Todd by various manufacturers in the hope of free publicity. Some didn't get it. Todd has offered to buy any of the prizes if a manufacturer felt he hadn't been given a run for his money.

So, as the free bonbon wagon rolled by, they threw the candies into the front-rowers. That was not so bad. Then some idiot on the hot-dog wagon started throwing the franks-and-buns. Not even Lew Burdette could "control" pitch a dog within a roll. Gowns were stained.

As for the poor white trash in the upper perches—many expressed themselves that they wished they had 'stood in bed.' About the only thing the hot-dog dolt failed to do was to put mustard on 'em before he started pitching. Let's be grateful.

Sir Cedric Hardwicke, iKnighted as an artist) on his precariously perched howdah almost became the first indoor elephant trampling casualty this side of the Sabu country, as he hung on openly scared stiff, and with a corps of photogs and staffers literally racing beside the pachyderm to break Hardwicke's pratfall in case. He just

pachyderm to break Hardwicke's pratfall in case. He just made the exit.

Commentators Walter Cronkite, Bill Leonard and Jim McKay were defeated by the in-studio film cut-ins. The multiple sponsors were Bristol-Myers, Kimberly-Clark, American Gas Assoc., Mariboro cigarets and All-State Insurance, with result that the sundry "promoted" loot—from food to gifts—got the TV brushoff.

Minnesota Senator Hubert H. Humphrey got a curious middle spot which sounded more like a political "ex-

Great Day For The Niteries

Afterwards the guests, in dismay, went on the town. The niteries, pubs and clubs could wish for a get-dressed-up shindig like Todd's almost any time—when people are in their finery they don't want to go home. They tumbled into the plusheries like each was the only oasis in town.

But Todd's terrific Trendex on tv and the plenitude of free press space may have made it worth while from his viewpoint. Oh yes, Mrs. Todd (Elizabeth Taylor) was only

viewpoint. Oh yes, Mrs. Todd (Elizabeth Taylor) was only seen when she once entered the arena to cut the Empire State-size birthday cake. Most of Liz and Mike's 18,000 "chums" were left waiting for a silce. One Broadway wag who knows Todd's resourcefulness from 'way back observed, "In another climate Mike would have had admiration for some of the sharpshooters and the chiseling swindlers with the hot programs and pedding the 'free' grape, but certainly not when he's the host."

"Also, knowing Todd, I'll bet there will be a few thou-sand very choice words spilled by the showman against the Garden, the operation, the chiseling waiters, ushers "I' everybody!"

No Elsa Maxwell

The extraordinarly savage press pannings, from newspaper people and disk jockeys alke, most of them junketed, at the host's expense from distant points, including billeting at the new Hotel Manhattan (nee the Lincoln) on 44th St. and 8th Ave., has created a turnaround attitude among some. "After all," is a summation of opinion, "they didn't have to come. It's pretty tough to police a mammoth Garden with 18,000 cuffo guests and maybe 10% as many more concerned with the entertainment, catering, ushering, regulating traffic, etc.

"It's one thing for an Elsa Maxwell (who, incidentally, was one of-the personalities picked up for a Bill Leonard-CBS interview during the proceedings) to 'run a party' for a VIP group of socialities; it's another headache when it's such a mass-production undertaking."

Add to the captiousness: would the unfortunate telecast have ill boxoffice effect on Todd's picture, "Around The World?"

The Publicity Hangover

Except for a few trinkets looted from the trucks on the floor by some scavengers, none of the "fabulous prizes" advance-ballied by Mike Todd were actually distributed at his "little private party" last week at Madison Square Garden, N.Y. Even the 10,000 cigars that were to be banded out were not. Todd, immediately after the tv.

show, announced that the lucky numbers would be published in newspaper ads. Later it was revealed that the numbers would appear in Todd's ads in today's (Wed.)

numbers would appear in Todd's ads in today's (Wed.) papers.
Todd has supposedly set up a shipping office to send out gifts to the winning numbers. "Liz who is honest." Todd said, would pick the numbers. Although Todd has stated that each and every guest present at the Garden would receive a gift, most ticket-holders have just about given up hope of receiving anything.

Several of the daily newspapers were viciously rough on Todd. The N.Y. Herald Tribune commented editorially on Saturday (19), comparing Todd's shindig with the ancient Roman circuses for the masses and Marie Antoinette's crack to the hungry French, "Let them eat cake."

Pointing out that the U.S. "faces enough troubles at the present time; of which the Communist propaganda machine has taken full advantage to advance its course throughout the world," the Trib "can well imagine how the Soviets will present a picture to the rest of the world of New York fiddling while the country burns." The Trib, in concluding its observation on Todd's party, says: "In the days of the fabulous banquets which preceded the fall of the Roman' Empire, the participants used to gorge themselves, retire to a specially named room and empty their stomachs so that they could return to stuff them-themselves anew.

"Bread Crumbs & Circus'

The N.Y. Daily News. in a tongue-in-cheek account.

Bread Crumbs & Circus'

The N.Y. Daily News, in a tongue-in-cheek account, said Todd "gave the public bread crumbs and a circus..." Other adverse comments were registered by the N.Y. Post's Earl Wilson and Murray Kempton.

Krishna Menon, the usually voluable chief Indian delegate to the United Nations, and a close critic of American folkways, sat impassively throughout the Garden proceedings as if observing some strange aspects of American mores and culture.

Difficulties in obtaining champagne without a payoff to the waiters caused one guest to remark: "This is the most expensive free party I've ever attended."

Very few of the capacity turnout downstairs showed up without black tie, including the newsmen, who apparently heeded Mike and Liz's edict.

George Jessel, who served as m.c., characterized the party most aptly when he said early in the evening: "Such an evening will not happen again. Nobody could stand it."

Home Town Slams Todd

By LES REES

Mineapolis, Oct. 22.

Mike Todd's Madison Square Garden party landed important and lengthy Minneapolis Morning Tribute front page coverage with art which, of course, dlon't hurt "Around the World in \$0 Days" at the Academy here.

Front page story in-question, which carried into one of the back pages, was by the sheet's columnist Will Jones and detailed the advance preparations for the party under Todd's own supervision. Jones was one of the Twin Cities', 22 shindig guests chosen by Ted Mann, Academy owner, and traveling in a chartered plane to and from New York at Todd's expense, of course.

On another Morning Tribune page the same day there was another lengthy by-line story by the newspaper's staff writer Barbara Flanagan, telling about the appearance of the Minneapolis Aquatennial queen at the affair and appraising it.

and appraising it.

and appraising it.

Miss Flanagan was anything but complimentary. In her opinion, the party was pretty much a bust. "Most of the invited guests went away from the party as bewildered as when they arrived," according to her.

"Anybody expecting caviar and peacock wings went home hungry from the party," wrote Miss Flanagan in part after relating some of the bobbles and bugs in the proceedings. "There was beer and hot dogs and pizza and pickles and other good old everyday-type American fare.

"Said one guest on departing, Well, it was big. And it was also dull I'm still trying to figure out what it was all about."

"A New York cab driver pronounced Todd's party a 'dud.' Tve been hauling people out of that place all night,' he said. 'From what I hear 'em say. you could have a better time watching television."

Inasmuch as Todd is a native Minneapolitan and it all was for free anyway Miss Flanagan's story and the Tribune for carrying it are provoking some adverse comment in local film circles.

WCCO-TV carried the telecast of the party here. For opposition on video it had "Green Pastures" 'KSTP-TV), the, "Real McCoys," the Pat Boone Show and "O.S.S." (WTCN-TV) and the movie oldie "Scarlet Spear" (KMGM-TV).

Inside Stuff—Pictures

It's with a single sentence that Ellis Arnall, president of the Society of Independent Motion Picture Producets, wraps up the current situation which sees exhibitors angling to move into production and the producing-distributing companies taking opposition stands. Says Arnall: "Everyone is motivated by self-interest."

Chief exec of the indie film-makers group related this week he attended the recent meeting with the Dept. of Justice at which National Theatres sought the right to engage in production. Opinions of others also were invited by the D. of J. relating to possible modification of restrictive antitrust decrees which bar theatre acquisitions by the top film companies, excepting Paramount and RKO, and production by the top circuits, excepting United Paramount and RKO Theatres.

As Arnall puts it, the exhibs favored modification, while the film outfits expressed themselves as favoring the status quo. D. of J., thinks Arnall, while wanting everyone to have the opportunity to be heard, already has made its determination of what recommendations are to be submitted to the Federal Court anent a rewrite of the decrees.

Early promise of conversion to roadshow policy by downtown Chicago houses has almost evaporated. Not only are exhibitors by and large against it, but distributors show signs of doubt also. Columbia, which was earlier refused the Balabam & Katz Chicago Theatre to roadshow "Bridge Over River Kwai," made apparent overtures to the 600 seat Loop Theatre for an after New Year date, but negotiations for the Chicago or another large B&K house are underway again with Columbia insistence on roadshowing less rigid. It is reported that Columbia, rather than, the Loop Theatre, rejected the idea of roadshowing "Kwai" in the fall through of the final negotiations. The soft summer season felt by "10 Commandments" on a hard ticket basis at the McVickers and the fact that any Saturday night tickets for "Raintree County," which replaces it tomorrow (Wed.), were still available over the weekend has apparently dampened the ambitions of other distributors also.

National Legion of Decency this week confirmed that "Pal Joey" has been given a "B" rating and noted that the classification is "predicated upon a revised version of the film." As previously reported. Columbia, distributor of "Joey." agreed to certain minor cuts as a means of escaping a "C" (condemned) rap. Production was given the "Morally Objectionable in Part for All", handle because of what the Legion feels to be "suggestive costuming, dialogue and situations."

Producer Stanley Rubin is following other film-makers on the "diversification" kick. His next likely will be a documentary based on an atomic radiation tragedy in Houston, Texas. His last was "Girl Most Likely," a musical, and this was preceded by "Behind the High Wall," prison theme; "The Rawhide Years," a western, and "Francis Joins the Navy," a comedy.

The Walt Disney Organization in London will publish Mickey Mouse Weekly, a full color comic, through its own publishing department from next year. Since 1936, when it was launched, the comic has been published under license and supervision from the Disney Organization through Willban Publications Ltd., a company in which Odhams Press holds a substantial amount of stock.

Despite such speculation as to what may happen between now and February, there is no doubt that Vogel gained an important victory at last week's special session. A total of 21,000 out of 25,000 Loew's shareholders voted in person or by proxy at the meeting. Out of the 21,600 who voted, 20,000 supported Vogel in his effort to enlarge the board and in electing nine pro-management direcpro-management direc-

A major share of the credit for Vogel's victory belongs to special counsel Louis Nizer who succeeded in winning seven different court decisions, with three important rulings coming on the same day. Prior to last week's meeting, Nizer appeared in different courts in N. Y., Delaware and Washington to present arguments to stop the Tomlinson faction from preventing the holding of the meeting.

Hollywood: Upon arrival ad-pub chief Bob Taplinger stated no further personnel cuts are in prospect, east or west. Here-after Warners will bring task forces to the service of each release, as needed.

The firing of 40 Warner Bros. homeoffice pub-ad staffers, including the company's 32-man art department, has developed into a serious cause celebre among Gotham film publicists. Fearful that the Warner action, if unchallenged, may spread to other companies, the Screen Publicists Guild, which represents staffers at WB, 20th-Fox, United Artists, Universal, Columbia and Metro, is rallying its membership in a determined drive to rescind the WB decision and, at the same time to prevent similar moves from occuring at other companies.

In addition to midweek rallies in front of the WB building and a series- of afternoon and evening strategy conferences, the Guild called an unprecedented Saturday (19) meeting of its entire membership. Dallas, Oct. 22.

An apparently successful demonstration was conducted here at the Kaufman Pike Drive-In Theatre of the new Car Audio invention for ozoners invented by Dalton P. Clark, a local projectionist. Clark's invention is a device which enables the drive-in patron to hear the sound from theatre amplifiers over his car radio speaker. The car battery is not used. The system is an electrical setup with one end plugged into the car and the other into a connection at the ozoner. It purportedly does away with speakers at drive-ins, according to Clark Loss. Damage to speakers has been a great expense to ozoners everywhere. Clark estimated the cost at \$3 each for the attachment.

Western, I imagine it's the surest thing for success you can get."

Asked if he thought Westerns were becoming too plot heavy, Wayne replied: "The ones I'm in aren't and I don't care what the others are doing."

About the shortage of new Western stars in recent years, Wayne said, "I think that the field for developing Western stars has been limited over the past 10 years. The singing cowboy with fancy pants, white hat and guitar became important enough to force those kind of fellows into the field of smaller pictures. For so long, "there hasn't been a straight acting Western star."

Obviously pleased with the impact the Western is making on ty, Wayne, however, indicated he intends to keep plenty of distance between himself and that medium. "I think that any established star who goes into tw as an actor becomes diminutive through that medium," he declared. "You look at a little screen where production costs \$1,000 a minute instead of \$10,000 a rinute, and it ends up hurting you at the boxoffice. But by the same token, tele has helped a lot of actors and it hasn't hurt character actors."

to tices. The union also maintains that it has the right to arbitrate the question of the transfer of work to an outside ogranization. Warner management has indicated that the advertising and art work would be transferred to an ad agency or art service.

The SPG is also playing up the moral and human issues involved, since many staffers with more than 25 years service with the company have been plakslipped. Although the union has not revealed the functions of the committees appointed, it's believed that among the duties on the various groups it will be to appeal to indie producers affiliated with WB, exhibitors, and of other labor organizations. William (Goetz, whose "Sayonara" will be released by WB, has already been notified that there is a possibility that his picture may be singled out by laborites if a satisfactory arrangement is not made with WB.

There's no secret that if WB fails to rescind some of the firings, the union strategy is to "go after" WB pix. With the expected help of the

In many respects, this pic runs off like an unadorned filmization of one of Freed's typical stage shows, For the predominant part of its running time, it consists of a scries of rock 'n' roll vocalists and combos doing their routines against a simple backdrop and to the Swooning tumult of canned applause. Unless one is hep to the nuances of rock 'n' roll, as most kids seem to be nowadays, the music may sound slightly monotonous mod more than slightly cacaphonous.

The string of rock 'n' roll turns is pieced together by a script that's as primitive as the music. The plot revolves around some newspaper columnist's charge that rock 'n' roll generates juvenile delinquency and Freed's attempt to prove that the rocking 'n' rolling kids are the salt of the earth. The yarn is a too obvious hat-rack for the musical numbers and the pic might be more palatable as a straight revue.

Freed, in the title role, does little but shout into microphones, either on a theatre stage or in a radio studio. Teddy Randazzo, as the male crooner who romances the secretary of the newspaper columnist, projects excellently as a singer, but his thesping is severely limited by a "dese, dems and dose" diction. Lois O'Brien, as the secretary, has little to do while Al Fisher and Lou Marks, as a pair of comic songpluggers, are ludicrous without being funny. darling, this should-loom okay in U.S.

With top young German actress Romy Schneider about to be introduced to Stateside audiences with the Disney release of her last year's biggest grossing film "Sissy," this film, which co-etars her with "the Janes Dean of Germany," Horst Buchholz, could do real business in America once the leads become introduced there. Buchholz may win a U. S. pic pact.

This tender tragic love story, based on the novel "Montpi," concerns the two leads mainly. She's a seamstress in a dress shop, who pretends to be a wealthy girl in order to avoid the throught of a life of bleak powerty. But she falls in love with the penniless young Hungarian artist whom she calls "Montpi," With constant jeadousies and misunderstandings, mostly propelled via her lies to conceal her true identity, they quarrel on the eve of their wedding. in a taxi and sne, pursuing on toot, runs into the street, is struck by, a passing car and dies.

A double plot is the parallel love story interspersed concerning a couple of jaded sophisticates, whose paths cross with the young lovers, but without either couple being aware of the existence of the other. Sexy Mara Lane plays the about-to-be divorced playgirl, and Boy Gobert is her bored lover. They seek reality and meaning in their empty lives and never note the impoverished lovers finding it in the background. A "typical Parisian commentary" by a "typical Parisian sitting on a park bench and philosophizing about the significance of a few moments in life opens and closes the picture. Speaker is versatile director Helmut Kautner.

Plus factors in the film are the very realistic settings of the poor artists' quarter of Paris, and the accomplished acting of the two leads, who turn the little love story into a touching one. Miss Schneider, like most leading German actresses, offers more the sweetness of a little sister than of sex appeal. Buchhalz has a brooding sensitive quality that is a tremendous draw for the femmes.

In Agfacolor, this pic offers much more imagination than the usual German productions. Haze.

Tale revolves around a mysterious meteorite which falls near a remote California community. When it comes in contact with water, the meteorite material swells to huge proportions, and turns humans to stone in the process.

Scientists Grant Williams and Trevor Bardette uncover this after several deaths. By this time, it's started to rain and the community, not to mention the entire country eventually, are threatened with total destruction. However, by frantic experimentation and a lucky guess, Willams comes up with the answer, the marching rocks can be stopped by common sait.

NEW CATHOLIC 'PRE-CENSORSHIP' STAND; 'TELEVISION MORE VITAL THAN SCREEN'

"If you leave censorship out, there will be chaos in the moral world, and then all sorts of conflict in the economic and spiritual worlds." So the Rev. Gerald H. Kirwin, editor of The Evangelist, of the Albany Diocese, declared in a significant address tipping off the Catholic hierarchy's current thinking at Siena College, Loudon-ville, Friday night (18).

thinking at Shear College, Loudoniville, Friday night (18).

His 45-minute talk, with exhaustive philosophical, theological, metaphysical and sociological analysis of censorship as viewed by Roman Catholics, affects motion pictures, television, radio and the legitimate stage. It was followed by a question-answer period. During the latter, Father Kirwin predicted that "irresponsible elements" (viz. foes of gensorship) what he called the crucially-important medium of television will raise the same cry" that has often been sounded by "forces in the motion picture industry." This is: "Precensorship is being proposed." He admit ted that it was. Scoffing at the idea no action

"Pre-censorship is an absolute necessity to the preservation of decent moral standards," Father Kirwin asserted, at the conclusion of the quiz period.

He stated that the Catholic Bishops of the United States are "contemplating a statement that will be issued at their fall (November) meeting in Washington."

On the point of opponents that censorship is a curtailment of basic human freedom, the priest said, "We can't deny it." This is "the charge most frequently thrown at us; the Church is trying to restrict and curtain basic human freedom." He added: "However, there is no such thing as absolute freedom in the world today. Maybe there is an abstract idea of absolute freedom, but in the concrete, every form of free do m, every facet of freedom is restricted. It has to be."

New Censorship Regulations in Italy

Can't Show Under-16 Kids Trailers for Films They Are Prohibited From Viewing

Rome, Oct. 15.
Full text of the proposed new censorship law for films and legit has now been revealed, and an early reading has convinced some Yank observers here that as it now stands it contains few if any of the hidden dangers that were feured when the legislative move was first revealed. On the contrary, should the law pass as is, it appears less restrictive than the current dated (1923) legislation covering morality, etc., a remnant of fascist days.

Importantly for the general Yank picture (as to which censorship pedtape here was often used as an excuse for holding up release (or legit script), rather than the unspecified and elastic previous setup. Time limit set for an appeal following a negative decision is 30 days, also, while the government would be held to a 10-day maximum time lapse in issuing the final permit or seal of approval. Felt that this speeding up of the redtape process will help releasing slates all along the line in this country and avoid off-damaging delays.

Further switch is the addition to the censorship boards, made up as previously of government film people, of three private citizens tispecified as family fathers or mothers) and of a psychologist, all to serve for a period of two years. As previously, board decides whether or not an age limit or over or under 16 years will be set on each pic, but this decision would now also apply to trailers of pix forbidden to minors. In other

Marital Bedfellowship Mention Taboo, Widmark Peppers NBC's Epidermis

A film clip, designed to promote the film "Time Limit," was scissored by NBC-TV before it was presented on the Dave Garroway show on Monday (21). The clip was shown in conjunction with the live appearance on the Garroway program of Richard Widmark, pro-ducer and star of the film.

ducer and star of the film.

According to Widmark, who issued a blast at network censorship, he was unaware that the clip had been altered. Otherwise, he maintained, he would not have appeared on the show as scheduled. The footage was delivered to the Garroway show on Friday (18) and it's stated by a spokesman for Widmark, that neither the producer nor his public relations representatives were notified that the network planned to bluepencil the clip.

"Censoring 'Time Limit' on tv because of 'good taste' is ridiculous," Widmark stated. "It's hard to accept the network's point of view when the air channels are busy claiming that a happy marriage really depends on a special deodorant or a favorite toothpaste. Now they are horrified at a suggestion that married people do or don't sleep together. It's time the networks grew up."

"Time Limit," an indie production being released by United Artists, has not encountered any previous censorship problems. It has a Production Code seal and is said to have the approval of Army officials. The tv sequence was edited to remove what a network official said was "offensive to American taste."

Global Complexity Of Copyright Is **Made Apparent**

Washington, Oct. 22.
International protection of the so-called "neighboring rights" went a step further past week. The Intergovernmental Copyright Committee voted a recommendation that the Secretariat of UNESCO appoint a committee of experts for further study of the "practical, economic and social" aspects of the problem. Since "neighboring rights" concern topyright protection of performers, recorders, and broadcasters, they are of greater direct concern to American show biz than any other item on the week-long agenda of the committee.

week-long agenda of the committee.

International protection for the
so-called "neighboring rights" has
progressed a step closer to reality.

The Intergovernmental Copyright Committee, which recently
met here, has recommended that
the Secretariat of UNESCO appoint a committee of experts for
a further study of "the practical,
economic and social aspects" of
the problem. "Neighboring rights"
is the term applied to rights which
would protect performers, recorders and broadcasters. They do not
enjoy full protection now but are
regarded as "neighboring" or
rights which are protected. Thus,
the matter is of great concern to
American show biz, and was
watched with great interest at the
recent Intergovernmental Copyright Committee meeting.

Although the multi-language dissussion here did nanoint some of

recent Intergovernmental Copyright Committee meeting.

Although the multi-language discussion here did pinpoint some of the complexities of the problem of such world-wide protection, there was actually no chance of any definitive action, since the entire question had already been placed at the level of the individual government. Documents, endorsed by the International Labor Organization, UNESCO, and the Berne Copyright Union, have already been circularized amongst 90 nations. The hope was expressed that at least a majority of these will have sent replies before the inter-government committee meets again next June. Until then no action can be put on a diplomatic level, which means that no treaty can be formulated.

level, which means that no treaty can be formulated.

A number of the 11 participating countries expressed special concern with the neighboring rights issue. Japan, with a thriving record industry, and a lively interest in U. S. music and performers, has a special stake in the question, as evidenced by the presence, as observers, of its five-man Copyright Council. Brazil, a country with a growing music business, and India, with its vast film production, joined the U. S., England and France in expressing interest in the subject.

One of the more unusual items on the agenda was a discussion of the problem of the protection of stage designs, which was brought up at the request of the Australian delegate. Chairman Arthur Fisher, of U. S. Patent Office, pointed out that stage sets are protected by U. S. copyright law if presented in the form of works of art. In addition, the Universal Pictures, pointed out, that since it is very unusual for the same sets to be used twice, except in such standards as westerns, there is no legal problem of direct interest to, the film industry.

Industry observers covering conventions included reps for MPAA, AFM, recording companies, and ASCAP.

1959 Cinerama Scarcity-of-Material Shadow Cast in Stanley's Plea

Washington, Oct. 22.

A strong suggestion that Cinerama may become only a "sometime thing" is contained in a request by Stanley Warner to turn the Capitol, Cincinnati, into an all-picture house. Theatre was acquired in 1954, with court permission, as an outlet exclusively for Cinerama product. The lease expires April 29, 1959 and the circuit wants to use the theatre both for Cinerama and regular product, commencing with 1959 when an extension of the lease become operative.

If this should be approved, it

lease become operative.

If this should be approved, it would open the door for Stanley to seek similar permission in other towns where it operates houses exclusively for Cinerama. Indication is that SW is finding difficulty in lining up suitable material for the Cinerama screen.

In addition to seeking a change of purpose for the Capitol, Stanley Warner notified the Justice Department it also wants to acquire and operate a theatre. in Punssu-

partment it also wants to acquire and operate a theatre in Punxsu-tawney, Pa. It wants to run the 961-seat Jefferson there. Under the Warner consent decree, Stanley was compelled to divest itself of one compelled to divest itself of one of its two theatres in Punsutawney. Instead, the divorced circuit leased both to an independent operator. The cerator has falled to make a go of them and is tossing them both back into the lap of landlord, Since there are no other theatres in that town (one drive-in outside) SW seeks permission to operate the Jefferson and to lease the second house to anyone who wants it. Since the antitrust decree required the circuit to divest only one of the two theatres, it appears one of the two theatres, it appears unlikely that Justice Dept. will op-pose this request.

MASTERPIECE PRODS. SUES ON REISSUING

Masterpiece Productions, reissue outfit, has filed a \$750,000 suit in N. Y. Supreme Court against Western Television Corp. charging breach of contract. In addition to monetary damages, suit seeks to enjoin Western Television from interfering with Masterpiece's right to license a group of films to theatres and television.

According to the complaint,

to license a group of films to theatres and television.
According to the complaint, Masterpiece charges that under a January, 1956, agreement it was granted sole and exclusive rights to distribute 25 pictures in the U. S. and Canada subject to certain restrictions. However, it was charged that Western Television breached the contract by granting prior to January, 1956, various other contracts with licencees and the stations for the exhibition of these films. In addition, the complaint alleges that Western Television made a deal with AAP Inc. causing a conflict in the licensing of the pictures. Western Television, the complaint continues, deliberately interfered with Masterpiece's rights by "falsely publishing that the plaintiff was not the owner of the rights and urged exhibitors and tv stations not to deal with the plaintiff."

Among pictures involved in suit are "I Married a Witch," "52d Street," "The Long Voyage Home," "Silver Queen," "Eternally Yours" and "Winter Carnival."

'80 DAYS' SMASH ON \$3.60 BERLIN PREEM

Berlin, Oct. 22.

The 965-seat Capitol gala-preemed "Around World in -80 Days" (UA) on the night of Oct. 18. Local first-performance had many unusual trimmings. Preem ducats ranged from 5 to 15 ducats ranged from 5 to 15 D-Marks (\$1.20 to \$3.60), with pro-ceeds going to a welfare fund for needy local filmites. A large con-tingent of German screen person-altiles, each greeted by spotlights, attended the event.

HEAR GOOD' LIGHT 5G. BALTO: 'JOKER' 9G, 2D

Baltinor, Oct. 22.

Footbal weather is putting a scrimp in the take here currently, with a batch of double bills and holdovers not doing much to help. "No Down Payment" at Century looms fair while "Rising of the Moon" at the Little is ditto. "Hear Me Good" and "Mister Rock and Roll" at the New are rated dull and "Devil's Halipin" and "Short Cut to Hell" combo is blah at the Stanley. Everything is combining to give main stem another slow session. The lack of solid new product, excitement created by visit of Queen Elizabeth and repeated warnings to "keep out of crowds" because of fin have virtually knocked the bottom from mainstem biz. There are only two newcomers in mid-town. And neither the dualer, "James Dean Story" and "Black Scorpion," daydating at Ambassador and Met nor "Rockabilly Baby" at Loews Columbia, are luring patrons. Roslow reminded that New York was 10% of the national market and that, with a top grade attraction, a producer could gross \$150,000 to \$160,000 per week for two to four weeks. He added: "If a movie has to gross \$5,000,000 to \$6,000,000, then the New York market has to provide at least 10% or \$500,000 to \$600,000 in revenue. And pay-tv will not provide it, not week-in and week-out." He mentioned the possibility of routing a film to pay-tv after its run at the Hall.

"It is my educated estimate... that the showing of films of the calibre of a Radio City Music Hall attraction will not be a pay tv reality within the next two or three years. And it may never come to pass. Not unless Hollywood finds a way to produce these top notch movies at much less money," the Pulse director opined.

Argentine Government Knows One Solution For Its Films: T-A-X

Buenos Aires, Oct. 15. Buenos Aires, Oct. 15.

Contrary to all predictions of possible repeal, the Argentine treasury has insisted on enforcing the 200,000 peso release tax on foreign films, under Decree 8,718 in August making it applicable from Oct. 1, and yesterday issued a Decree 11,861, regulating enforcement.

ment.

This is the tax which was announced just coincident with the arrival here.of American Motion Picture Export Assn's Eric Johnston, and proceeds of which are to be used for school building here. It aroused a fury of opposition, particularly from European distributors, who felt it affected them most nearly, and also from other interests.

Robert Corkery the MPDEA's

Robert Corkery, the MPPEA's Latin-American troubleshooter, has been here for weeks, arguing against the tax in relation to American distributors, for whom there are two important aspects. The first are two important aspects. The first was outlined in a note submitted by the United States Embassy in Argentina to the Argentine Foreign Office when the tax was first mooted, unequivocally stating that according to the United States Government's interpretation, the tax is not applicable to American films, owing to the existence of a reciprocal trade agreement between the Argentine and United States governments.

In general that trade agreement.

States governments.

In general that trade agreement provides for reciprocal free trade between the respective countries. The U.S. Embassy's note pointed out strongly that there is complete freedom for exhibition of Argentine films in the U.S. of America; whether Argentine producers succeed in selling their films in America is beside the point, they have absolute freedom to do so. (By contrast there is much restrictive legislation against American films islation against American films in Argentina, to which United States interests have at no time offered any objection.)

Consequently, the American dis-tributors' stand is that they do not consider the tax applicable to their pictures, nor does their Govern-

pictures, nor does their Government.

Corkery has stressed that the American interests realize the Argentine Government's difficult position in relation to the crisis in the local film industry—which is at a virtual standstill—and they have tried to be as cooperative as possible in helping the Argentine government open up avenues of distribution for Argentine material in the U.S. They anticipate hopefully that these efforts will result in a reasonable understanding of heir position in regard to the tax now imposed.

After the talks he has had in the highest Government echolons in

After the talks he has had in the highest Government echelons in recent weeks, Corkery is confident that he can rely on the responsible ministers' promises that in view of the representations made by the United States Embassy in Buenos Aires to the Argentine Foreign Office, the tax has been suspended insofar as relates to American pictures while negotiations continue recent weeks, Corkery is confided with that he can rely on the responsible ministers' promises that in view of the representations made by the United States Embassy in Bueno Shires to the Argentine Foreign Office, the tax has been suspended insofar as relates to American pictures, while negotiations continue, both through the Embassy and through Corkery. There is also an assurance given directly and personally by the Finance Minister to Corkery that there will be no retractive application of the tax at the end of such negotiations. Although neither the U.S. Government nor the Motion Picture Producers' Export Assn. feel that such

a tax can be applicable on American material, because of the commercial agreement, they are prepared to be as cooperative as possible in comprehension of the Argentine film industry's plight.

The decree imposing the tax specifically stipulated that first performance of films originating from foreign countries with which Argentina had reciprocity agreements would be exempt from this tax, so legally there should be no need for further negotiations.

tax, so legally there should be no need for further negoliations.

Under the regulation of the tax issued yesterday, it will be up to foreign producers, their agencies, branches, representatives, distributors and/or whoever represents their pictures, to pay the tax to the Tax Dept. on a scale of: 100,000 pesso for flat-screen black and white pictures; 150,000 pesso for flat-screen black and white dimensional material; and 200,000 pesso for dimensional tinters. Under Clause 3 co-productions made with part Argentine capital and talent are specifically exempt, while Clause 5 specifies suspension of the tax for films originating in countries which have agreements on reciprocity, or are negotiating such agreements.

agreements.

Material which was despatched through Customs before October 1, 1957, if released before September 30, 1957 inclusive, will pay the tax with a 50% acquittance to submitted before November 1, 1957 with proof of Customs despatch

There's no use denying that the Treasury's determination to go shead on this tax has greatly disappointed film interests, apart from taking them by surprise as there has been no reply to European distributors' protects, for the other objections put forward by the trade. This is attributed to pressure brought by the same old local production interests which have already done so much harm to the local Film industry. These cannot resign themselves to relying on their own mentits to progress and prosper, but expect State paternalism to do the task for them. They won't realize that it's not possible to perpetuate a non-essential industry by a system of subsidies.

What they don't seem to realize There's no use denying that the

What they don't seem to realize what they don't seem to realize is that taxation on foreign films will reduce importation, and in Peron's time it was demonstrated that less pictures mean longer runs and just the same income for the importers, while removing the spur of competition from the local in-

dustry.

thought.

European distributors will be meeting on Monday (October 9) to discuss the tax as it affects them, particularly in relation to those countries which have trade treaties with Argentina.

Japanese Films' Growing Export

Washington, Oct. 22.

Last year saw a record high of \$1,260,000 worth of Japanese motion pictures exported, according to its Ministry of International Trade and Industry. Japanese films are sold on a flat cash basis, not a percentage of boxoffice. Data was released by the Japanese Embassy here. For the first time six months of this year, exports totaled \$563,618. Explains the Japanese Embassy:

"The large demand for Japanese films in Okinawa could be expected in view of the fact that the Okinawans are Japanese; the sizeable exports to Brazil can be attributed to the large number of Japanese residing there. UPBEAT IN NBC NEWS MILL

ABC-TV's First Big 'Adult' Hit

It took six years to bear fruition, but ABCTV this season apparently has its first big hit in "adult programming" with the premiere of the Friday night Frank Sinatra Show. Not that the network hasn't had successess of varying degrees in the past, but the "Disneylands," the "Wyatt Earps" and the "Cheyennes" have been geared more to juve audience appeal.

In Sinatra ABC not only has its first big hit for all brackets but may emerge from the current semester's sweepstakes with the first major personality show.

Dating back to '51 when ABC and its then prexy Bob Kintner, initially asserted itself as the third network, ABC has tried time and again to create an "adult" hit companable to a "Lucy," a "\$64,000 Question" a Petry Como or an Ed Sullivah, which any network needs in establishing itself. It shot out in all the different areas—situation comedy, (Danny Thomas, Paul Hartman, Ray Bolger, Ozzie & Harriet'; in drama (Eigin Hour, Celanese Theatre, Pulitzer Pzize, Playhouse, et al.), but never attained more than moderate successes in the adult area.

It's a virtual certainty that Sinatra will be keeping company with Trendex and Nielsen's Top Five, if last Friday's runaway rating is any indication.

NBC Prez Comes to Defense of New Season's Entries In Letter to Eds

NBC prez Bob Sarnoff entered a vigorous defense of the new season's television programming with the argument that viewing habits don't necessarily coincide with the views of the tv critics. In fact, he said, viewing is up so far this year. "I do feel the time has come to challenge a position taken by some of the 'dud' season critics—a position which is being uncritically accepted by various observers of the tv scene." he wrote last week in his periodic letter to out-of-town editors.

RCA Color Video Tape Ready For Sale in Late '58

RCA has developed a color video tape recorder which it will put into manufacture and sale by the end of 1958. It is already making prototype machines which it expects to deliver early next year. The color tape recorder, which RCA execs described as "a major engineering achievement," was demonstrated Monday (21) in New York to the press, via a closed-circuit telecast from Camden, N. The long-neglected NBC correspondent staff is coming in for some major attention now, not only via the year-end hoopla, which encompasses as many tv and radio non-news appearances as can be squeezed in, but as much publicity mileage as can be provided, but also as a source for more ideas and material in the special programming sphere.

more ideas and material in the special programming sphere.

The upbeat in drive and enthusiasm stems from the realization by the news department that it's no longer a stepchild. In the past, the news operation has been limited, budget-wise, prestige-wise, project-wise. But when NBC exec v.p. Bob Kintner decided to split off news as an independent operation under director Bill McAndrew, he lit a fire under the department. Such small victories as getting NBC representation on the "Meet-the Press" panel were major morale builders.

Now, with a freer budget hand, with the promise of more time for news and greater preemptive rights, and with the intangible but key promise of national buildups for top news personalities, Kintner and McAndrew have created a heads-up, bustling news-digging operation the like of which hasn't been seen around 30 Rockefeller Plaza in several years.

Max Factor, L&M Strike Sour Notes **On Vocal Sprees**

The new is season doesn't seem to have enhanced the programming prospects of either Max Factor or Liggett & Myers, In each case they're alerted to the "trouble ahead" signals, Oddly enough, the five shows in which they have a bigtime stake are all in the singing category.
In the case of Max Factor, there's

oligime stake are all in the singing category.

In the case of Max Factor, there's \$4,500,000 annual billings represented in its sponsorship of the Polly Bergen and the Guy Mitchell shows. Miss Bergen's alternate week Saturday night show on NBC-TV has, falled to generate any Trendex enthusiasm, while the Guy Mitchell show on ABC-TV last week settled for an almost catastrophic 7.0 rating.

The Liggett & Myers-Chesterfield situation is perhaps more pertinent to the trade, since this is the eiggle company that staked its claim in singers way back in the days of radio and initiated the Perty Como 15-minute show pattern. Under Larry Bruff's direction, both as Chesterfield and agency man, the eiggle company's record with singers hasn't been matched. Yet this season—when singers are a dime a dozen in the medium—Bruff's encountering some toughlick. True, in Frank Shatra he's probably got one of the top showcases of the season, but the indifferent results thus far on the Eddie Fisher Tuesday night show and the unhappy track record of "Club Oasis" (which dropped from a 30 to a 15 Trendex in the course of one week) is causing the client and agency some anxious moments.

on at least a dozen mid-season cancellations on the three television networks, it's becoming an increasing matter of concern at the webs and agencies as to where those replacement shows are going to come from.

to come from.
Having won their battle for 13-week cancellation privileges on filmed shows, the agencies are now faced with the barren fact that there's no film replacement market. The timing of the 13-week cycle is such that it's physically impossible to get a film series rolling and ready from the time the agencies cancel a show the first week in December to the time the program goes off the air in January.

ary.

One film producer put it this way last week: "If a network wants my show as a January replacement, he'd have to give me a contract to-morrow. Otherwise I couldn't bring it in." This specific instance covered a case where the pilot was aiready filmed; but still, with two weeks of contract closings, another couple of weeks of reading at least a couple of shooting scripts, studio rental, set design and construction, etc., the producer would still have a hard time bringing in the show under the January wire.

In fact, some troubled agencies have alsome troubled agencies have already made approaches to live packagers to see what's around and available—"just in case." In a statement welcoming the FCC's order, Zenith topper E. F. McDonald Jr., said that "we have on file numerous applications from tv stations and operators in different markets, and must first determine where to begin and with what stations."

on the question of wired toll tv versus use of broadcasting facilities, for subscription television, McDonald held that wired toll poses a danger of non-toll tv service to non-city areas. He maintained that wired tv is much more costly and less efficient than broadcast facilities, and can serve only highly populated urban areas. Two-thirds of the American public lives in the country or in cities and villages of less than 50,000 population, he continued.

McDonald's position on wired-ty, incidentally, is challenged by the operators of the current Bartles-ville, Okla., experiment, the experiment geared to serve smaller communities.

If initial operations show that subscription tv is something the public wants, there will be no need for wire systems, the Zenith topper added, concluding that tv stations will offer both free programming and the stations will offer both free programming and subscription fare.

Oh Say Can't You See

Federal Communications Commission it's reported, has asked a radio network to stop using The National Anthem as its identification jingle. After using an easily-recognized phrase from "The Star Spangled Banner" for a week as the musical bridge between programs, the American Broadcasting Network withdrew it and shortly after substituted a jingle built around "My Country Tis of Thee."

FCC is said to have received some 7,000 letters from listeners. Many irate objections were voiced about the association of a commercial enterprise with the Anthem. Other letters it's reported, contained comments on ABN's "bad taste" in attempting to build a jingle around the song.

Chimes carried the tune, which the network was using in an effort to establish identification. The chime arrangement was done by the team of Austen Croom-Johnson and Eric Siday, who were recently hired to prepare several jingles for the network. Johnson said the other day, after removal of the jingle from the air, that the network chose it and later "Tis of Thee" from several submitted by the pair of cleffers.

A network spokesman said that he was aware of only six complaints received by ABN and that the jingle was removed to his knowledge because it was only an "experiment" by the network. ABN, of late operating under a new program policy, simultaneously incepted a new program signature, built about the words: (This is Amenique, 1).

Ackerman Warns **Networks Gotta** Reevaluate Shows

Hollywood, Oct. 22.
With a strong competitive situation shaping up for the future, "there's got to be major reevaluation by the networks—and sponsors on advertising campaigns, feels Harry Ackerman, producer of "Leave It to Beaver" and "Bachelor Father" telepix series.
General feeling among indie vidfilm producers is that the nets aren't promoting outside program packages as strongly as they might, comments Ackerman. His observation carries greater weight because he's former Coast programming topper of CBS-TV.
"The nets and sponsors generally don't follow through with advertising and promotion, after the show opens," he, states. And in plugging the debut, there's much duplication among nets, sponsors and producers, so that much effort is wasted, he feels.

As result, "They (the nets) are risking a sizeable loss of audience, and sometimes they risk the loss of an entire eventing."

Newest of the major rating battles promises to center about the Sunday night 9 to 10 p.m. period, which until this season was easily dominated by CBS' "GE Theatre". "Hitchcock Presents" tandem. With Dinah Shore in for NBC most of the way yia the new 9 to 10 "Chevy Show," it now looks like a ding-donger.

Opening battle (with Miss Shore facing hubby George Montgomery in a GE western in the first half), found CBS on too by a slim and tenuous margin. GE scored a 25.2 Trehdex vs. 25.0 for Dinah while Hitchcock rated a 26.4 to Dinah's 24.4. The ABC opposition, "This Restless Sphere," with England's Prince Philip narrating, averaged out to a 2.8 for the hour.

By and large, the major singing personalities dominated the roost, with Frank Sinatra, in his opening one-hour special Friday night on ABC giving that web its biggest adult-show rating in years, a standout 29.1. "MS Squad" and "Thin Man" on NBC got 12.8 and 13.7 respectively, while CBS' "Mr. Adams & Eve" and "Schlitz Playhouse" rated 12.2 and 13.3

On Saturday, Perry Como continued his bigtime draw, pulling down a 29.4 in the first half-hour, against 16.3 for "Perry Mason," and 2.7 for ABC's country music show, and in the second half climbing to 36.6 vs. 8.6 for "Dick & the Duchess" and 2.4 for the ABC country music.

Mike Todd's Madison Square Garden bash in the "Playhouse 90" spot Thursday gave CBS its highest rating for the "Playhouse" period in two years, a 34.5 against NBC's 12.9 for the Hallmark "Green Pastures." ABC scored a 15.0 and 15.7 for "OSS" and "Navy Log" in the 9:30 and 10 p.m. periods.

Earlier that evening, ABC showed lots of trength, primarily from its "Zoorro" leadin at 8, which registered a 21.4. Though behind Groucho Marx's 26.1, it cut CBS and "Harbourmaster," down to an 8.5, and CBS felt the damage through all of "Climax," which was topped by all its competition. At 8:30, "Dragnet" hit 21.4, ABC's "Real McCoya" climbed to 17.7 and "Climax" reached only 15.3. And at 9, ABC's Pat Boone climbed to 21.4. "People's Choice" hit 18.0 and "Clima

BESETTING TV

Matters are such these days that Madison Ave. is formulating the idea that it is definitely time to stop shouting about the high cost of programming and do something about it. There is a feeling that unless producers and networks hold forth to their bankrollers some prospect of cutting away a substantial share of tv network program costs, the webs may be headed for trouble. Real trouble. If it were programming costs

headed for trouble. Real trouble. If it were programming costs alone that were bothering agencies, observers feel that little would happen to change the picture. But three other factors are unavoidably evident to make this a decidedly anxious season for networks. The three points only heap more trouble on the ones brought by the recent Barrow report.

1.) The closer competition expected from ABC is cutting down the per-program audience shares for all three webs.

2.) Something just being realized is that the pace of set sales to new to families has slowed down to new tr families has slowed down considerably as the coverage fac-tor passes the 80% mark of all homes in the U. S. Sets are ex-pected to increase eventually to at least as much as radio (98% of all least as much as radio (98% or all homes) but the increases are going to take several years, while rising network costs are moving ahead at panic button pace.

3.) Manufacturing profits are off

3.) Manufacturing profits are off from previous years and this caution alone has in the past been great enough to make most network bankrollers seek to split charges on their heavy-expenditure network stanzas. General result of co-sponsorships and multi-sponsorships has been to lessen the overall impact of the tw selling message.

overall impact of the tv selling message.

It's All Interrelated

This interrelation of events has intensified the focus of web underwriters on their only tangible yardstick for media buying—the cost-per-1,000 audience returns. It has also taken the appeal for many advertisers out of the once hig pitch that tv offers the selling impact of "sight plus sound," particularly since multiple sponsorships have already taken their toll of that allegedly highly intangible impact.

In four years, the price of programming on networks has risen In four years, the price of programming on networks has risen far. In the past year, with the prospect of a strong ABC looming on the horizon, it has gone up especially far so that each network could proffer strong competitive programming. Yet, it's that very competition which some insist will shortly drive program costs down. For instance, the Loretta Young show once cost its sponsor \$35,000 net per stanza; it is now at \$47,500, with occasional additional sums thrown in on the quiet to buy an extra hot star or story. NBC May Cancel Next Hope Show If Timex Ankles

Nov. 7 telecast because of a hassle arising from the comedian's guest appearance last Friday night (18) on the premiere of ABC's Frank Sinatra show.

Sinatra show.

Timex, Hope's sponsor, notified NBC immediately after his appearance that it was cancelling the remainder of its con'ract. That includes the Nov. 7 show, which is budgeted at \$300,000 for time and talent, full sponsorship of another show and half-sponsorship of three more Hope starzas. Timex blew up when rival Bulova Watch Co., which sponsors part of the Sinatra show got a commercial and an editorial plug within the Sinatra show after it was allegedly promised to move the Bulova blurb to the closing of the program.

number to the closing of the program.

NBC and Timex were meeting all day yesterday (Tues,) in an effort to resolve the hassle. Contractually, NBC probably could hold Timex to its sponosrship, but as a matter of practice the network has always tried to release sponsors when it felt their reasons for wanting out are legitimate. Un il last week, Timex was committed for full sponosrship of all six Hope shows (one has already been aired), but asked for relief and NBC brought in Johnson Outboard Motors as a cosponsor for three shows. As of the moment, NBC feels that if Timex doesn't stay with, the show and ano her sponsor can't be found quickly, it will cancel the Nov. 7 show completely rather than sustain all or part of it.

it.

When NBC okayed Hope's appearance on the Sinatra show, it apparently overlooked the fact that Bulova is pencilled in as a minor sponsor (Chesterfield has the major share). When shortly before showtime the web did real-

On the Bowl game front, CBS now has the Aluminum Bowl on Dec. 21 from Little Rock (site of the game may be moved because of the racial trouble), the Gator Bowl from Jacksonville Dec. 28 and the two New Year's entries, its long-running Orange Bowl from Miami and the just-acquired Cotton Bowl from Dallas. CBS will pick up the Orange Bowl at 1:20 p.m. and has arranged to have the Cotton Bowl starting time to be push dback to 2:30 CST (3:30 eastern time), which means that the web will carry the full Orange Bowl and move into the Cotton Bowl and move leto the Cotton Bowl and move leto the Second quarter.

Lipton's Tea Buys TV 'Californians'

Lipton's Tea has made its first NBC-TV buy in several years via the purchase of alternate weeks on "The Californians," starting in January. Deal was set last week via Young & Rubicam. Tea company has been a longtime CBS-TV advertiser, via the Arthur Godfrey "Talent Scouts" entry. "Californians" will be shared by Singer, which initially bought into the Lou Edelman package on an alternate-week basis but expanded to every week with the understanding that it would cut back as soon as NBC picked up a cosponsor for the Tuesday at 10 entry.

Marie Torre Show Cause Order Next Week in Contempt Citation

Miss Torre, called as a witness in the action against CBS because of statements in her column about Miss Garland, attributed to a "CBS executive," refused to reveal the identity of the executive, claiming reportorial privilege. Judge Ryan, while sympathetic to her position, informed her that the law requires her to answer at the risk of being cited for criminal contempt. He warned that he would be forced to sentence her to 30 days imprisonment unless she complies, prisonment unless she complies, but indicated he would release her in the custody of her attorneys pending appeal of the contempt

Show cause order was issued after a formal request for the order was filed by Miss Garland's attorney, Lionel S. Popkin. He said that in order to prove his cause of action against CBS, it was necessary to prove that the executive in question actually said what was attributed to him by Miss Torre and that the socalled executive is in fact an employee of CBS. Because of this, Popkin declared, it is mandatory that Miss Torre reveal the source of the statements. Statements in question were Show cause order was issued

While the journalism fraternity welcomed a test case of the contempt statutes, there was some doubt in the trade that the specific issues were ideal for such a test. Some newsmen pointed out that the source protected had not been quoted on a matter of fact, as is ordinarily the case, but in an opinon which at least is construable as libelous. While agreeing that as a matter of principle an acquittal is vital, some newsmen wished the circumstances weren't so damaging to the cause of reportorial privilege as in the case at hand.

ABC Profits Still Behind Last Year

ABC division of American Broad casting-Paramount Theatres is still running behind last year in profits. but the latest earnings report from the parent company indicates that the difference in results has "steadily narrowed in each quarter." An estimated net operating profit for The-PT was reported at \$1,333,000 c 30 cents a share in the third cuarter, a decline over the same period in 1956, when \$1,484,000 at 134 cents a share were earned. First nine months of the year sheed the estimated profits off by over \$1,500,000 from the same 1956 three-quarter returns. AFTRA to Todd: Fork Up 30G Bond

Before American Federation of Television & Radio Artists would permit Mike Todd to televise his bash at Madison Square Garden last Thursday (17), the film producer was compelled to place a \$30,000 bond with the union to insure payment to the various actors who appeared on the 90-minute "Playhouse 90" version on CBS-TV. The \$30,000 bond was used to cover payments to 160 extras in the parade, 28 horsemen and women, and a group of incidental performers such as clowns. Also included in that bracket were emcee George Jessel and the performers in the film clips used on the otherwise live show. In the latter instance, AFTRA said that its Code provides minimum AFTRA payments for thesps who do film clips in a basically live show. Union said further that initially some of the film performers were not paid, others were paid less than its minimum.

Saturday's (19) guest was ex-Punch editor Malcolm Müggeridge, who's also been a severe critic of the English monarchy, and wMAI-TV took the position that such an interview would be offensive in light of Queen Elizabeth's current visit. Fred Houwink, head of the station, said that "in view of the fact that Malcolm Muggeridge, outspoken critic of the British royal family, has been amounced-as the guest on the Mike Wallace program this Saturday night, WMAL-TV will not telecast this program. Queen Elizabeth and Prince Philip are now our most welcome guests, and although Mr. Muggeridge hay not be overly critical on this program or may retract some of his previous statements, we consider it in questionable taste to telecast any program that might cast a shadow over the visit of Her Most Gracious Majesty to the nation's capital."

"Maybe next year, I shall return," he said.

The bishop said he has been appearing on tv for some years and on radio for 25 years, "but this is not my work." He said: "This is not my work." He said: "This is not my vocation. It is well for me to retire. I shall leave the lights of television in order to live in a more intimate union with God." He thanked ABC web, which he said made him a "handsome offer" to return. There will probably be kinescopes available to tv auds, he said, "but I will not return this year. "Bishop Sheen, who flew in to Hiub and appeared on WNAC-TV's new live Frank Luther Show, before his talk on the same station, said: "One has many duties and must choose the most important." His life, he said, is dedicated to the poor of the world.

"So I will be a beggar, a man with a tin cup for the poor of the world." he declared. His WNAC-TV talk was on "The Glory of a Beggar."

New York Versus Out-Of-Town TV Critics

The following breakdowns are indicative of the more favorable attitude of out-of-town critics in contrast to the hardboiled appraisals of their New York brethren. The same 12 shows (all new to CBS this season, including one spec, "Crescendo") were sampled for the reflection of the N. Y. vs. hinterland viewpoints, with results remarkably divergent.

points, with results remarkably divergent.

Of 64 reviews sampled in Boston, Cleveland, Chicago, Washington, St. Louis, Philadelphia and Pittsburgh, only 15 rendered a "poor" verdict for the 12 shows, in contrast to 28 "fairs," 18 "goods" and three "excellents." On the other hand, of the 55 N. Y. reviews sampled, there were only five "good" testimonials, with an overwhelming listing of 39 "poors" 11 "fairs." Nothing topped "good" in N. Y.

(In the absence of remarks on the charts, the shows were either not seen in that particular town or have not been reviewed as yet.)

WCBS-TV Still Grabbin' Up Feature Packages

Already fortified with a backlog of some 1,350 feature films, WCBSor some 1,550 reature nims, WCB5-TV, the CB5 flagship in New York, last week picked up still two more packages. Why Is a TV Critic? Sifted Pro and Con On NBC's 'Open Mind'

The art—or tack of it—of tele-vision criticism came in for a thorough and sometimes surprisingly frank going-over on Richard D. Heffner's "The Open Mind" Sunday (20) on WRCA-TV, N.Y. A panel comprising Talent Associates partner David Susskind, scripter Rod Serling and critic (The Reporter) Marya Mannes dug incisively into the good and bad

of the medium's working critics.

Though not always unanimous
in their viewpoints, the trio found some areas of agreement—principally that there are few critics suited with the background and talent for their work; that television criticism, despite the medium's one-shot nature, should attempt to

one-shot nature, should attempt to be analytical and thereby helpful to the producer for future productions; that too many critics tend simply to brush off a production with a phrase or catchword instead of attempting to give the "why" of the faults.

But there was plenty of disagreement as well, with Scriling and Miss Mannes lined up against Suskind on the matter of "intention" in a television production. Susskind maintained that the producer's intention isn't important in a review, that "how well the show was done" is the sole yardstick for criticism. Scriling and Miss Mannes argued that the critic should take into consideration the intention and measure how far short of the intent the actual production fell. Scriling used as his argument the fact that the writer is so "hamstrung" by the nature of the medium that his actual intent must be taken into consideration, at which point Suskind launched a defense of commercial television and struck out at the "whining" of those critics and others within the trade who prefact etheir criticism with the fundamental complaint that all commercial twis bad.

The most virulent of the critics was Susskind, who complained that the logic of making "ship news reporters, obituary writers and police reporters" into critics excapes him, and that there are fewerities who have the talent, good taste, intelligence and judgment to be good at their profession. He singled out the New York Times' Jack Gould for criticism, stating he considered Gould a "journalist, not a critic." One possible explanation for the evaluation was Gould's severe panning of Susskind's production of "Honocchio," which was repeated in his Sunday column the morning of the "Open Mind" show.

Miss Mannes felt that one element in television criticism of the overall impact of the medium in changing ecople's lives. She emphasized that while there is plenty of criticism on the single-show level, nobody has dug in on the fact that television has a 16-houraday impact on the public and has attempted to evaluate the impact

the merchandising of "Popeye" kiddie equipment, varying from games and guitars to disks and puppets. AAP, the tv film distribution company which handles the old "Popeye" theatrical shorts for television, estimates that it and the stations will split about \$900,000 down the middle by the end of a full year of merchandising.

AAP has been signing on stations as partners in the unique merchandising plan since mid-April. Though it's one of the very few, if not the only, film syndicator to indulge in merchandising. AAP expects that the several products tied to the "Popeye" name will gross between \$6,000,000 and \$7,000,000 in sales by next April. Depending on the type of deal it makes with licensees—the manufacturers of "Popeye" products—AAP and the stations are actually splitting anywhere from 2½ to 10% of gross.

spinting anywhere from 2:2 to 10% of gross.

Accentuating the growing importance of merchandising to the firms was the report several weeks ago that Lou Edelman, network producer of "Wyatt Earp," "Jim Bowie" and "The Californians," was getting very heavy returns for releasing manufacturing rights on the first two of the stanzas. It's held quite possible that his annual earnings will exceed by several thousand dollars those anticipated by AAP.

Distributor explained that though there are over 80 stations using "Popeye" AAP has been interested initially in getting 50% coverage of U.S. tv homes. It said that the 27 stations, which include all the Triangle stations and WPIX, in New York, give the 50%, which is the minimum demand of many of the manufacturers involved.

In all probability, AAP will shortly start recruiting the other stations which air the cartoon show. King Features, the syndicate which owns the cartoon, also shares in the "Popeye" merchandising spoils.

More Group Buying

More Group Buying
The practice of station group buying again is underscored in the Flamingo Telefilm Sales' deal on "Citizen Soldier." Dumont stations WABD, N. Y., and WTTG., Washington, loosely linked with KTLA, L.A., lined up for the series, a situation which has occurred for the threesome quite frequently this season.

Although KTLA and Du-Mont are separate entities, they have the common bond of Paramount Pictures, the company having a stock interest in both. With such a Du-Mont-KTLA buying bond, commanding the two top markets, N. Y. and L. A., with Washington thrown in, the combination can bid against RKO Teleradio, with its five o&o's, and the indie KTTV, L. A., and WPLX, N. Y., link, the latter usually associating itself with a Westinghouse and Store group for added strength.

She slapped a \$1,000,000 suit on parent Paramount TV Productions, and Miss Nesmith over the way Miss Clarke was represented in the breaks during the showing of "Frankenstein," in which she costarred with Boris Karloff.

Complaint, filed through attorney Barry Scholer, alleges that throughout the showing, Miss Nesmith identified herself as Miss Clarke and "impersonated me as an aged, demented, has-been actress, presumably poverty-stricken, slovenly attired, and arthritic of body." Further, when she called the station after the telecast to protest, she was told they thought she was dead, she stated privately. Invasion of privacy, impersonation and damage to Miss Clarke's reputation is charged in the suit, which sets forth that at no time during the telecast did Miss Nesmith identify herself as such, but continually referred to herself as Mae Clarke.

In another private comment, Miss Clarke noted she was flooded with offers of financial assistance, and asked, "What's the matter with people? Do they think all actresses drop dead when they reach 47? I've been working in tw all along."

Suit asks \$500,000 in general damages and another \$500,000 in juntive damages. It was filed in Superior Court here.

'Popeye' as Dept. Store Lure

"Popeye" has invited local television sponsorship in Omaha by a large department store. Department stores, with few exceptions, have been notoriously anti-video; Television Bureau of Advertising is still exerting a great deal of effort for the industry at-large to get department stores to buy.

Philips, in Omaha where KMTV plays "Popeye" in color, first became interested in video as the result of the reportedly heavy sales it was making in merchandise tied up with the "Popeye" name and pushed on television. Recently Philips, a department store, bought a special Sunday tint showing of the cartoon show on KMTV, presumably on the theory that, if the program could push product so well through a special 20-second pitch, three-minutes of pald time could multipy all sales severalfold. Incidentally, Omaha is the only city that carries "Popeye" in multichrome. AAP, the program distributor, said that the sale of RCA color receivers rose 300% in one month since the show went on.

HOUR PIX: SYNDICATION POSER

Way Back to Hoover

In late 1925, David Pincus, prexy of Caravel, made the first industrial film with a plot in the history of motion pictures. Extolling the virtues of the Hoover Vacuum Cleaner, it was also one of the first feature length industrials. In a Variety column, "Right Off the Desk," dated Oct. 28, 1925, Nellie Revell wrote the following about this new wonder:

"If the cinema art is to be commercialized, I would prefer to have it done as my friend, Frank Gould, erstwhile editor of the Metropolitan Magazine, does, it. Some days ago He invited me over to the Caravel Pictures Studio for the purpose of seeing a preview of a film soon to be released. Arriving, I found several picture reviewers. They proceeded to run off the picture, entitled "So This Is Eden," and soon the critics and I found ourselves engrossed in the troubles of a young married couple. The drama had a good plot and excellent direction and when the crisis arrived we began to wonder how on earth the thing would be brought to a happy ending. We found out. The husband solved all his wife's problems by presenting her with a Hoover vacuum cleaner (free advertisement). Not until then did it dawn on us that while the picture had not been intended as a comedy, the joke was on us, for it was an advertising film. And we enjoyed the joke. With advances like this, advertising is rapidly earning the right to be called the Fifth Estate."

Regardless of Whose Rating You Read, Chi Is a Late Nite TV Town

Chicago, Oct. 22.

Two stations are scrambling through rating statistics, each to prove it has latenight television supremacy in Chi, and for one hour of the night it boils down purely to a matter of "which rating service do you believe?" What can be firmly concluded from the research, however, is that the Windy City has a growing latenight video audience and that to all appearances the advent of feature films in the wee hours is responsible for it.

The late features became a local

sponsible for it.

The late features became a local trend last December when both WBBM_TV and WBKB began slotting Hollywood oldies across the board, just as WGN-TV had been doing for some time. (WRBQ has, of course, remained out of the latenight film picture, except on weekends, because of NBC-TV's "Tonight!")

A month after the stations went to celluloid, sets in use jumped 36% over the same month a year previous. January ARB showed an average of 34 sets in use from 11-pm, to midnight, against an average of 25 for Fanuary, 1956. Every month so far this year the sets have outstripped the year previous, and overall the gain this year (Jan.-Sept.) is approximately 199%. In the hour preceding midnight, sets in use today average 29.4 against 22.7 a year ago, and undoubtedly this will increase still further when the fall-winter tally is in.

UNLIKELY SEGS

The residual values of one-hour telefilm shows, once they complete their network ride and are put into syndication, raise a lot of questions, with a good pile of dough riding on the answers.

That syndication will have to

ome up with some solutions in the not too distant future is cer-For there has been an upbeat this current season in the number of one-hour filmed net shows, the addition of "Maverick," "Wagon Train" and "Suspicion" to the "Cheyenne" and "20th-Fox Hour" roster. Inevitably, like the "20th-Fox Hour," the others will be pitched as first-run off network programming, but unlike others in

programming, but unlike others in that category they'll have that 60-minute tag.

With few exceptions, most syndicators at this stage feel that the hour shows will be programmed in syndication in the daytime hours and late evening "fringe" periods, slotting which dilutes the possible residual revenues. Prime syndication time periods in the areas of 6:30 and 10:30 bring the biggest coin for programming. With the clearance problem tight- in that area, it's patently much harder to clear a 60-minute show as opposed to one-half the time.

The possibility also is raised

The possibility also is raised that these hour lengthers might be used as features by stations, slotted with other cinematics cut to a 60-minute length. But again many syndicators say the price of the 60-minute telefilms on the whole will be less than the price fetched for comparable first-run feature product. Many a "Cheyaenne" and "Suspicion" episode does not compare favorably in production values, story content, and star value to a feature, accounting for their projected lower prices.

NTA: Film Network has a plan

for their projected lower prices.

NTA Film Network has a plan for "20th-Fox Hour" which, if successful, could open the way for, tother 60-minute telefilms. It's aiming to program the reruns in the afternoons, bucking "Matinee The-atre" on NBC, on, its film net, pitching the rerun series for national sponsorship. If a bluechipper takes the ride and the cost-perthousand works out advantageously, the outlook for other hour filmed shows would be better, for a sponsor sale virtually always brings more dough than a station deal.

deal.

Incidentally, a few of those hour filmed programs, those initially made by the motion picture companies, have run into some trouble. NTA was lucky with the "20th-Fox Hour," which like the others referred to utilized the program also as a trailer for the studio's upcoming feature attractions. There was a lot of footage not utilized in the particular programs which now are being reinserted in place of the trailers. Warner Bros." Casablanca" and "King's Row," which had 12 minutes devoted to studio plurgs, was not so fortunate. wnich had 12 minutes devoted to studio plugs, was not so fortunate. WB's filmed stories now run from 45 to 46 minutes in length and pose that extra problem of being-the only ones of their kind in those lengths.

TPA Moving Into 'Mood' Stripping

Taking its cue from other successful stripping operations, Television Programs of America is seeking a new dimension for stripping, that of "mood" programming, in its "daventure, story Hour."

Themed by adventure, similar to the motif of Kellogg's ABC-TV telefilm strip which has made a fine Trendex showing, TPA's rerus skeins consist of "Ramar of the Jungle," 52 episodes; "Count of Monte Cristo," 39 segments, and ditto the number of episodes for "Hawkeye, and the Last of the Mohicans." The 130 episodes, all in the outdoor action, adventure slot, offer a greater variety in that category than a single series, no matter how many episodes.

Kellogg on its 5 to 5:30 p.m. Monday through Friday strip on ABC-TV, consisting mainly of rerun product, including "Sir Lancelot" and "The Buccaneers," has time segment, with a 7.4. VARIETY - ARB City-By-City Syndicated Film Chart

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Bureau on a monthly basis. Cities will be rotated each week, with the 10 toprated film shows listed in each case, and their competition shown opposite. All ratings are furnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets-in-use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quix; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national sponsor from whom the film is aired.

It's always good to see quality, taste and imagination return to the programming sphere of television, and it's especially true this season. "Omnibus" has always possessed these qualities, but this year they no doubt will be emphasized, which is all to the good in light of packager Bob Saudek's first outling as an independent sans the Ford-Foundation backing for the show. The first entrepresental year is always the toughest in se ambitious a project as "Omnibus," so that if nothing else the mundamenss of the current season may serve to the current season may serve to highlight the notalways-appreci-ated standards of "Omnibus" and thereby periodicate "

ated standards of "Omnibus" and thereby perpetuate it for some years to come.

For his opening effort, Saudek chose the Dink/Stover stories of Owen Johnson, published in the early 1900's in McClure's as a combination of popular fiction and social satire. In an adaptation bouglass, "Damn Yankees") Wallop, "Omnibus" turned the stories into a 90-minute three-acter with music titled "Stover at Yale."

Decision was to play if straight-

mto a 30-minute three-acter with music titled "Stover at Yale."
Decision was to play it straight-faced, so that the occasional viewer coming into the show midway might have done an "are they kidding?" double-take. But this course of action was a wise one—there wasn't enough satire in the subject to take up more than on act, and had this been pushed for 90 minutes the play would have proved diresome and wearing. As it was, director Richard Dunlap had his excellent cast do the first act much more broadly than the others, to establish the tongue-in-cheek approach, and once the audience got the point, there was no need to push the satire further.

Having set those terms, Dunlap

proach, and once the audience goi
the point, there was no need to
push the satire further.

Having set those terms, Dunlap2e 'Co. proceeded to turn out a
thoroughly enjoyable period piece
that should have brought pleasurable memories of boyhood reading
to most viewers. The old-fashioned
story of the all-American boy with
a social conscience, set in the
plushly sentimental background of
turn-of-the-century Yale, with a
Mr. Arbuthnot-on-campus dialog
treatment, was a totally entertain
ing effort that didn't strain to be
anything more than it was.

Saudek, drama consultant Walter
Kerr and director Dunlap turned
out a thoroughly alke production
job on the show, particularly in
the casting depastment. Bradford
Dillman was a perfect Stover,
warm and friendly, sometimes confused, always naive bet throughout
maintaining that sense of puzzled
decency that carried the story.
Wynn Pearce, as the traditional
working-his-way-through maverick,
Jim Costigan as the campus reformer (against secret societies),
Rory Harrity as the snob, Isabelle
Patterson and Bob Manders as
other students all delivered fine
and upright performances.

other students all delivered ane and upright performances.

John Butler's period choreography was delightful, and the college music was perfectly orchestrated (by Phillip Lang) and executed in the old rah-tan style. Overall production was flawless in every department. Sandek & Co succeeded facilely in what they set out to do, producing a fight and colorful entertainment.

You can't win. Patrice Munsel is in the position of having to top her preem, which was a beaut—probably the best bow-wow among the avalanche of varieties this season. It was such a simple thing. Miss Munsel, who is wak as a singer, sang. Since she has delicious gams, she showed 'em. Because she knowsher way around a light touch, she engaged in the right amount of comedy capers—not too much, just enough. Miss Munsel also has taste in personal wardrobe, being bedecked in the snazziest long and short jobs seen setside in many a moon, pre- and post-Sputnik.

Perhaps the excellence of Miss Munsel's, opener stems from the fact that she's not a stranger to the interies, and that this one was in part an adaptation from her Lat Vegas stint. Whatever the reason—and the big reason is, natch, the Metopera chantoosey herseli—it was a superlative 'longterm' debut for the slim, attractive diva who can also dig the pop-boogie-rhythm-bluesy beat without seeming to step down from her high coloratura tower. She's been at the pop stuff before, as a fairly busy guestar, but never in such an extended stint under which she could really go to town with a tune and a bit of banter, not to meritical a little hoofing (she's a pretty good singer for a stepper'.

Eddie Albert was an ideal choice for Miss Munsel's kicker-offer. He's

singer for a stepper.

Eddie Albert was an ideal choice for Miss Munsel's kicker-offer. He's hypoed many a show, and did the Munsel starter no harm both on the exchange of banter, a "Getting to Know You" duet with the head woman, and in his recitative "John Henry" solo. There also was strong support by the Martins, a singing foursome backing the star as regulars.

Miss Munsel's magnum opus was as a quick-change artist in which she switched costumes on-screen while on a medley of songs done in various styles and tongues for a tour de force in variety shows.

a tour de force in variety shows. This is one show in which the production auspices squared with the reputation thereof; from Clark Jones, producer-director (ex. "Hit Parade," etc.), chief writer Larry Gelbert (ex. Sid Caesar), batonist Charles Sanford (top teleshows) and not least, Robert Schuler, the star's husband who via their M & S Productions are the packagers. Everything fell into place. In-

Productions are the packagers.

Everything fell into place, including inventive screen credits in the form of telegrams, some very witty. It is hard to pinpoint where Miss Munsel excelled, but mere examples, where the stints were full-blown, were "Scarlet Ribbona" and "Happiness Is Just A Thing Called Joe." She can pipe with the best of the popsters, when it comes to that; just add the operatic business, her charm (and many etceiras), and it's a Munsel menu to brighten any home.

(Young & Rubicam)

ABC-TV rejected the original pilot film done for "Tombstone Territory," and then negotiated itself into the position of close control over program content. While the network may thus have gotten the kind of program it wanted, it did not also manage to get a good show. At best "Territory" is undistinguished. At worst it is a pal-lid copy of "Gunsmoke," on CBS-

TY.

Pat Conway, as the sheriff of Tombstone, Ariz., in the early 1880's, is as good an actor as "Gunsmoke's" James Arness, but he did not have comparable plot material. Idea of him drafting a gangleader to help collect taxes from other gunmen might have made for satire, but since that was not the intent of the producers, it was only ludicrous.

A prize-winning play when first presented on Broadway some 27 years ago, "The Green Pastures" was given a solid to production as the new season's getaway for the "Hallmark-Hall of Fame" series.

As played by the all-Negro cast.
Marc Connelly's work, based Roark
Bradford's sketches, had considerable charm and probably would
have wide appeal for the kiddies
if presented at an earlier hour. would kiddies

have wide appeal for the kiddles if presented at an earlier hour.

The play, however, was not without severe limitations. Any work about Negroes that's 27 years old is bound to appear dated in some respects and "Green Pastures" does not escape the ravage, of time. The play's naive viewpoint, purportedly stemming from the reveries of a small Negro child at a Sunday school session, is not in gear with the times. There is something cloying in the play's depiction of the Negro as a simple folk, either devoutly religious or thoroughly sinful, with the men sambling and knifing each other a small Negro child's view circa 1957 and Little Rock.

An excellent group of performers, however, and a clever mounting gave the 90-minute session many entertaining and some touching moments. William Warfield was the dominating figure in the 90-minute stanza, playing the mansized De Lawd with both power and humor in this rewrite of the. Bible.

Bible. Highlight of the stanza was the sequence with Eddie (Rochester) Anderson as Nosh, a backwoods preacher who sets about building his boat at the instruction of De Lawd. Another good sequence independent of the standard of the sequence in the standard of the sequence in the sequenc preaches this boat at the instruction of De Lawd. Another good sequence involved Fred O'Neal, as Moses, and Richard Ward, as Pharaoh, while the Babylonian episode was effectively framed in a lowdown nitery

tively framed in a lowdown nitery setting.

Most of the fantasy's humor derived from the humanization of God and his winged legions in heaven, including some cleaning-women angels, all portrayed with the required down-to-earth style by a large roster of actors. Estelle Hemlsey, as the Sunday school teacher whose stories set off the children's imaginative train, also hit the mark accurately.

Each of the dramatic sequences was set off by ensemble vocalizing of familiar spirituals. The music contributed importantly to generating that religious autlook necessary to enjoying the play. Herm.

(Reach, McClinton & Co.) "The Twentieth Century," the Prudential-sponsored series out of the CBS News and Public Affairs shop, premiered Sunday night (20 with a full hour presentation devoted to the life & times of Sir Winston Churchill. It was a slick crisp, effective and sometimes dramatic compilation of clips designed to show the role played by the great statesman-soldier-writer in shaping Britain's destiny through five reigning monarchs. As such documentations go, it had the stamp of high professionalism about it (unmarred, incidentally, by any commercial intrusions on the part of the sponsor).

the part of the sponsor). Since the aim of the new series is to present a broad, pictorial canvas of our times, in terms of both personalities and events, any evaluation must of necessity derive from the finesse with which the Burton Benjamin Isaac Kleinerman production team sift their twice-told library material and reassemble it in terms of continuity and dramatic values. In the case of the Churchill story, from the Boer War through the two World Wars to his present retirement, it was practically all story, from the Boer war through the two World Wars to his present retirement, it was practically all acquired footage, much of it familiar, some of it not previously seen. There were no innovations in the approach, no new concepts evolved. Just a straightforward, swiftfly-paced historical recap (perhaps too swift to achieve any real understanding of the man or the full measure of his greatness), all collated with a sure touch of the scissors and enhanced by John Davenport's continuity, Walter Cronkite's off-screen narration (with considerable supplementary narrating by Churchill himself) and a fairly effective musical score by George Antheli.

and a fairly effective musical score by George Antheil.

A capsulization of a Churchill lifetime into an hour's framework is a thankless assignment, at best, and much has to give. In this instance what gave was an inescapable feeling that this was less the promise of penetrating, incisive study of a man than a recap of the historic and multiplying events that surrounded him. True, the Davenport - Benjamin continuity and narration always returned to Churchill as the pivotal personality, but as a pictorial and visual presentation a genuine sense of Churchill identification was not always present. Sometimes he was like a man outside looking in, even though each and every milestone in modern history was framed within the Churchill orbit.

More than half the program was devoted to the period since the rise of Hitler, offering little new either in point of view or stock footage. But the earlier documentation had some revealing and interesting shots of the Boer War, of Londom at the turn of the century, of anarchism in action, of early-vintaged sea battles when Churchill was First Lord of the Admiralty, of Lenin and the rise of Bolthevist Lorin and the rise of Bolthevist and the bleak years of the depression backgrounding the forlorn figure of Churchill. before he was restored to Parliament.

As a bleached blonde, she never looked more attractive and the crisp way more attractive and the crisp way she tossed her lines about was al-most as sparkling as her appear-ance. Morris' brisk direction accented Morris' brisk direction accented the lighter moments of his script. Physical backgrounds were adequate. In case anyone has forgotten the show is owned by Lewislor Productions in which Miss Young is partnered with her husband, Tom Lewis. It's costing ABC-TV an arm and a leg for Frank Sinatra's weekly services (so much. in fact. that neither NBC nor CBS would touch him at those prices but last Friday night's premiere presentation, despite obvious faults. suggested that the rewards could be manifold. If, as seems likely, Sinatra takes Friday night out of its "ioneliest night of the week" to status with a Top 10 Nielsem payoff, the network's "go for broke" policy could nonetheless invite an enhancement of its stature. Any way you reckon it, Sinatra's bound to come out on top.

Not that Friday's full-hour opener (show Settles down as a regular 30-minute film entry this Friday) was in any sense a "dream" show-case. It was far from that. But, with Sinatra working practically through the whole hour either in solo or teaming with guests Bob Hope, Peggy Lee or Kim Novak, the air was charged with enough of that Fs electricity to establish his program as one of the brighter weekly events of the season.

Comparisons with the Sinatra-Bing Crosby teamup for the Edsel CBS showcase the previous week are inevitable, and there's no disputing that Sinatra's own show lacked much of the spark and freweling quality of the authorish can be a subject to minimize the structure of the season.

But this is not to minimize the attractive and entertaining moments of Friday's show. Sinatra's "Lonesome Road" and "I Get a Kick Out of You" opening two-some, his midway "Lady Is a Tramp" and gagged-up "Falling Leaves" number with Hope at the leaf-drenched plano, and more notably his "All the Way" and "Be-witched, Bothered and Bewildered" finale were all framed in the Sinatra ple releases. The seventh annual "Celebrity Parade For Gerebral Palsy" clocked 19 hours on WOR-TV last weekend (Sat., 10:30 p.m. to Sun., 5:30 p.m.) for a \$440,000 rackup in pledges.

As in the years before, Dennis James held down the anchor man spot as top pitchman and emcee. It's a long and arduous assignment and James rates a long bow from the CP bunch. Jane Pickens, too, deserves a special kudos for her work. She's a veteran CP pitch-woman and she works at it with a sincerity that's hard to beat.

And as before, show business came to the aid of the CP fund. There was an endless parade of celebs who came on to perform and/or answer phones. When they came on to work it wasn't with "it's just another benefit" assignment. They worked like they were being paid for it.

VARIETY - ARB City-By-City Syndicated Film Chart

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Burcan on a monthly basis. Cities will be rotated each week, with the 10 toprated film shows listed in each case, and their competition shown opposite. All ratings are furnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets-in-use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quix; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national sponsor from whom the film is aired.

It's always good to see quality, taste and imagination return to the programming sphere of television, and it's especially true this season. "Omnibus" has always possessed these qualities, but this year they no doubt will be emphasized, which is all to the good in light of packager Bob Saudek's first enting as an independent sans the Ford-Foundation backing-for the show. The first entrepresential year is-always the toughest in so ambitious a project as. "Omnibus," so that it nothing else the mundaneness of the current season may serve to nothing else the mundameness of the current season may serve to highlight the noticity asy-appreci-ated standards of "Omnibus" and thereby perpetuate it for some years to come.

music titled "Stover at Yale."
Decision was to play it straightaced, so that the occasional viewer-coming into the show midway might have done an "are they kidding?" double-take. But this course of action was a wise one—there wasn't enough satire in the subject to take up more than one act, and had this been pushed for 90 minutes the play would have proved diresome and wearing. As it was, director Richard Dunlap had his excellent cast do the first act much more broadly than the others, to establish the tongue-in-cheek approach, and once the audience got the point, there was no need to push the satire further.

here was no need to push the satire further.

Having set those terms, Dunlap & Co. proceeded to turn out a thoroughly enjoyable period piece that should have brought pleasurable memories of boyhood reading to most viewers. The old-fashioned story of the all-American boy with a social conscience, set in the pushly sentimental background of turn-of-the-century Yale, with a Mr. Arhuthnot-on-campus dialog treatment, was a totally entertaing effort that didn't strain to be anything more than it was.

ing effort that didn't strain to be anything more than it was.

Saudek, drama consultant Walter Kerr and director Dunlap turned out a thoroughly alick production job on the show, particularly in the casting depastment. Bradford Dillman was a perfect Stover, warm and friendly, sometimes confused, always naive but throughout maintaining that sense of puzzled decency that carried the story. Wynn Pearce, as the traditional working-his-way-through maverick, Jim Costigan as the campus reformer (against secret societies), Rory Harrity as the snob, Isabelle Hoopes as the love interest and Jim Congdon, Larry Bagman, Ted Patterson and Bob Manders as other students all delivered fine and upright performances.

John Butler's period choreography was delightful, and the college music was perfectly orchestrated (by Phillip Lang) and executed in the old rah-rah style. Overall production was flawless in every department. Saudek & Co. succeeded facilely in what they set out to do, producing a tight and colorful entertainment.

You can't win. Patrice Munsel is in the position of having to top her in the position of having to top her preem which was a beaut—probably the best bow-wow among the avalanche of varieties this season. It was such a simple thing. Miss Munsel, who is wak as a singer, sang. Since she has delicious gams, she showed em. Because she knews her way around a light touch, she engaged in the right amount of comedy capers—not too much, just enough. Miss Munsel also has taste in personal wardrobe, being bedecked in the snazziest long and short jobs seen setside in many a moon, pre- and post-Sputnik.

short jobs seen setside in many amoon, pre- and post-Sputnik.

Perhaps the excellence of Miss Munsel's opener stems from the fact that she's not a stranger to the interies, and that this one was in part an adaptation from her Las' Vegas stint. Whatever the reason — and the big reason is, natch, the Metopera chantoosey herself—it was a superlative "iongterm" debut for the slim, attractive diva who can also dig the pop-boogic-rhythm-bluesy beat without seeming to step down from her high coforatura tower. She's been at the pop suff before, as a fairly busy guestar, but never in such an extended stint under which she could really go to fown with a time and a bit of banter, not to meritica a little hoofing (she's a pretty good singer for a stepper'.

Eddie Albert was an ideal choice for Miss Munsel's kicker-offer. He's hypoed many a show, and did the Munsel starter no harm both on the exchange of banter, a "Getting to Know You" duet with the head woman; and in his recitative "John Henry" solo. There also was strong support by the Martins, a singing foursome backing the star as regulars.

foursome backing the star as regulars.

Miss Munsel's magnum opus was as a quick-change artist in which she switched costumes on-screen while on a medley of songs done in various styles and tongues for a tour de force in variety shows.

This is one show in which the production auspices squared with the reputation thereof; from Clark Jones, producer-director (ex."Hit Parade," etc.), chief writer Larry Gelbert (ex.Sid Caesar), batonist Charles Sanford (top teleshows), and not least, Robert Schuler, the star's husband who via their M & S Productions are the packagers.

Productions are the packagers.

Everything fell into place, including inventive screen credits in the form of telegrams, some very witty. It's hard to pinpoint where Miss Munsel excelled, but mere examples, where the stints were full-blown, were "Scarlet Ribbons" and "Happiness Is Just A Thing Called Joe." She can pipe with the best of the popsters, when it comes to that; just add the operatic business, her charm (and many etceiras), and it's a Munsel menu to brighten any home.

A prize-winning play when first presented on Broadway some 27 years ago, "The Green Pastures" was given a solid to production as the new season's getaway for the "Hallmark-Hall of Fame" series.

As played by the all-Negro cast, Marc Gonnelly's work, based Roark Bradford's sketches, had considerable charm and probably would have wide appeal for the kiddies if presented at an earlier hour.

if presented at an earlier hour.

The play, however, was not without severe limitations. Any work about Negroes that's 27 years old is bound to appear dated in some respects and "Green Pastures" does not escape the ravages of time. The play's naive viewpoint, purportedly stemming from the reveries of a small Negro child at a Sunday school session, is not in gear with the times. There is something cloying in the play's depiction of the Negro as a simple folk, either devotily religious or thoroughly sinful, with the men gambling and knifing each other over women. This could not be a small Negro child's yiew circa 1957 and Little Rock.

An excellent group of performers, however, and a clever mounting gave the 90-minute session many entertaining and some touching moments. William Warfield was the dominating figure in the 90-minute stanza, playing the manized De Lawd with both power and humor in this rewrite of the Bible.

Highlight of the stanza was the equence with Eddie (Rochester) Anderson as Noah, a backwoods preacher who sets about building his boat at the instruction of De Lawd. Another good sequence involved Fred O'Neal, as Moses, and Richard Ward, as Pharaoh, while the Babylonian episode was effectively framed in a lowdown nitery setting.

Most of the fantasy's humor derived from the humanization of God and his winged legions in heaven, including some cleaning-women angels, all pottraved with the required down-te-earth style by a large roster of actors. Estelle Hemisey, as the Sunday school teacher whose stories set off the thelideren's imaginative train, also hit the mark accurately.

Each of the dramatic sequences was set off by busemble vocalizing of familiar spirituals. The music contributed importantly te generation that religious autlook necessary to enjoying the play.

"The Twentieth Century," the Prudential-sponsored series out of the CBS News and Public Affairs shop, premiered Sunday night (20) with a full hour presentation devoted to the life & times of Sir Winston Churchill. It was a slick crisp, effective and sometimes dramatic compilation of clips de signed to show the role played by the great statesman-soldier-writer in shaping Britain's destiny through five reigning monarchs. As such documentations go, it had the stamp of high professionalism about it (unmarred, incidentally, by any commercial intrusions on the part of the sponsor).

about it (unmarred, incidentally, by any commercial intrusions on the part of the sponsor).

Since the aim of the new series is to present a broad, pictorial canvas of our times, in terms of both personalities and events, any evaluation must of necessity derive from the finesse with which the Burton Benjamin-Isaac Kleinerman production team sift their twice-told library material and reassemble it in terms of continuity and dramatic values. In the case of the Churchill story, from the Boer War through the two World Wars to his present retirement, it was practically all acquired footage, much of it familiar, some of it not previously seen. There were no innovations in the approach, no new concepts evolved. Just a straightforward, swiftly-paced historical recap (perhaps too swift to achieve any real understanding of the man or the full measure of his greatness, all collated with a sure touch of the scissors and enhanced by John Davenport's continuity, Walter Cronkite's off-screen narration (with considerable supplementary narrating by Churchill himself and a fairly effective musical score by George Antheil.

A capsulization of a Churchill lifetime into an hour's framework is a thankless assignment, at best, and much has to give. In this instance what gave was an inescapable feeling that this was less the pro m ised penetrating, incisive study of a man than a, recap of the historic and multiplying events that surrounded him. True, the Davenport Benjamin continuity and narration always returned to Churchill identification was not always present. Sometimes he was like a man outside looking in, even though each and every milestone in modern history was framed within the Chernhill orbit.

It's costing ABC-TV an arm and a leg for Frank Sinatra's weekly services to much, in fact, that neither NBC nor CBS would touch him at those prices) but last Friday night's premiere presentation, despite obvious faults. Suggested that the rewards could be manifold. If, as seems likely, Sinatra takes Friday night out of its 'lone-liest night of the week' tv status with a Top 10 Nielsen payoff, the network's "go for broke" policy could nonetheless invite an enhancement of its stature. Any way you reckon it, Sinatra's bound to come out on top.

Not that Friday's full-hour opener (show settles down as a regular 30-minute film entry this Friday) was in any sense a "dream" show-case. It was far from that. But, with Sinatra working practically through the whole hour either in solo or teaming with guests Bob Hope, Peggy Lee or Kim Novak, the air was charged with enough of that FS electricity to establish his program as one of the brighter weekly events of the season.

Comparisons with the Sinatra Bing Crosby teamup for the Edsel CBS showcase the previous week are inevitable, and there's no disputing that Sinatra's own show lacked much of the spark and free-wheeling quality of the automaker's presentation. (Those Edsel romps, after all, come few and far between in a hurry-up medium.)

But this is not to minimize the attractive and entertaining moments of Friday's show. Sinatra's "Lonesome Road" and "I Get a Kick Out of You" opening two-some, his midway "Lady Is a Tramp" and gagged-up "Falling Leaves" number with Hope at the leaf-drenched plano, and more notably his "All the Way" and "Be-witched, Bothered and Bewildered" finale were all framed in the Sinatra manner and style and, as such, enormous plusses. Whitman took up three tentors

aw a hypoterine without the meedle.

Whitman took up three topics, on the premiere. First was an examination of legal insanity, with attorney Maurice Edelbaum and psychiatrist Dr. Theodore S. Weiss of Bellevue giving their views of courtroom psychiatry, sum total of which is that the 1843 McNaughton lule governing the legal definition is archaic and should be replaced. But Whitman, apparently not satisfied with having made his point via the experts, delivered a shouting, sledge-hammer type indictinent of the system which left the viewer wondering what all the passion was about.

Second was an interview with

viewer wondering what all the passion was about.

Second was an interview with Zel deCyr, the actress whe does many of the voice-over sounds and voices on tv commercials. As a piece of fulf, it was ekay, with Whitman at his most natural even if most superficial. Finally, "The Deep North," a segment dealing with the experience of William Delago, a white man whe was "hounded" out of Coplague, Long Island, because he was mistaken for a Negro. Delage detailed his experience this landlord received threatening calls), and James L. Harvey, head of a civic organization, invited him to return, with Delago giving his refusal on the show. Whitman, in asking Harvey about his and the town's reaction to the incident, surprisingly failed to ask whether their attitude would be the same if Delago really were a Negro.

a Negro.

Apart from the heavy emotional style with which Whitman makes his points, his on-camera approach leaves much to be desired. He shouts questions at his guests, goes into panegyrics over his stories and otherwise hams and hokes it up with overstatement and overdramatization. If Whitman can get some of the restraint and depth he demonstrates in his writing into his television work, he might have the beginnings of a worthwhile show.

A pile of books, two stools and a
personality were the only props
used in this program. Charles
Laughton made full use of them all
during his 46-minute sole spot for
Granada-TV. Informality was the
keynote of this show, when the
actor provided the most unique
entertainmente yet screened on
British commercial tv, and it
proved a great success.

Opening with a few comic verses
to set the atmosphere, Laughton
soon got into his stride to read
from Thomas Wolfe, Shakespeare,
the Bible and Abraham Lincoln. It
made for solid entertainment, with
good shots of the actor's ever
changing facial expressions and
tempo of delivery. But if was essentially Laughton throughout.
Changes of voice and expression
did not hide his individuality, and
because of this some of the characterizations were a little lost beneath his powerful personality,
which more than made up for this
fault. His most moving interlude
came with the performance of the
"Gettysburg Address," when he
prefaced the reading by saying;
"Some of these words are more
poignant today than ever before
because of certain circumstances—
so listen to them." He brought out
the meaning of each sentence with
sincerity and moving conviction.

CAMPBELL SOUP
ARC-TV (film)

Almost day in and day out since the beginning of the new video season, western after western has hit the airwaves, and, by now, it isn't the easiest job distinguishing one from another. "Colt 45." preeming Friday (18) for ABC-TV, was another vestern and while it was not perfect, the latest half-hour telefilm from the cow country. It was not perfect, the latest half-hour telefilm from the cow country those opera hero, some of whom are pretty fair actors. He is too, maybe better than most, but it wasn't he so much as a well executed plot and simple, lucid direction that made this Campbell-sponsored show a winner.

Conception of the lead, called Christopher Colt, was less than in-spired. Colt, played by Preston, was army undercover agent disguised as a gun salesman. But since he acted more like a gun salesman—assuming that gunsalesmen are quite human—than a tricky secret policeman, he came off clearly as a susceptible, genuine human being. Plotting was somewhat loose and at moments cryptic but an overall tenor of excitement was conveyed. Lead received topnotch support from Andrew Duggan as a gun-slinging builty, and pretty Erin O'Brien as the missionary girl who reaction to violence gave cause for some of the things done—or left undone—by the protagonist.

Scripting by Allen E. Sleans was weakened by some cliches, the Hollywood version of humer among desperate, hapless men, and some characterizations which didn't ring the bell. Also, the knots and links in the episodic adventure was not securely tied.

But overall, the action-packed sea saga retained interest and portrayed the courage of some dauntless men. If those values are deligered in broad strokes and register, as they did on the preem, the series has more to boast about than a lot of new entries.

Production values were excellent, the camerawork capturing the salt and sea. Episode dealt with the tramming of Kennedy's PT boat high a Jap ship; the long trial and hardship on sea and on one of the listands before they were rescued with the help of some friendly natives.

Mike Todd Party
Mike Todd threw a "party" for

"Playhouse 90" spot with the going-on. Both party and show were flops.

No question that the advance buildup and the promise of a lunge star lineup gave the show a big rating. No question, either, that a lot of viewers must have felt badly let down when it was all over, for rarely has Todd produced anything less calculated to keep his public happy.

What CBS' "Around the World in 90 Minutes" added up to was an interminable, frequently clumsy plug for Mike Todd; a show without a show that added up to onling more than a listless parade around the tanbark. This had been billed as something special, and in the light of Todd's achievement with "80 Days," it seems the more incredible that it turned out something less than ordinary.

There was confusion everywhere. The cameras wandered endlessly between breaks in the "marching." Anchor man Walter Cronkite, looking acutely uncomfortable, had trouble keeping contact with his roving colleagues, Jim McKay and Bill Leonard. Commercials and station breaks cut into interviews that had barely gotten started. If there were celebrities in the Garden, they were well hidden from the CBS men, who finally had to content themselves with such "personalities" as Hedda Hopper and Elsa Maxwell.

Elizabeth Taylor, looking beautiful, was picked up a couple of times, but once she was interviewed outside camera range and the other time she was busy climbing up the stairs to the top of the cake. It was a prime demonstration that tv, with all its technical marvels, isn't a spontaneous medium. It just isn't enough to shove the cameras into the Garden and let 'em go. CBS and Todd equally share the blame for putting this one over on the audience. It was at best a huge plug for one Mike Todd, and at worst a crashing bore. Art Cohn produced and wrote the show, with little evidence of either activity, Garry. Moore introed the filmed portions, which had Todd gagging it up and "dramatizing" the story of how "80 Days" came to be. Sequences with Frank Sinatra and Maurice Chevalier were promised, but never came on.

Show had its humorous moments, such as when Sir Cedric Hardwicke almost sagged off his elephant (after a few moments this looked more dangerous than funny) and when the black-tied attendants tried to catch up with a runaway dog. Apart from that runaway dog. Apart from that there were 240 dancers who didn't dance, a sad-faced Fernandel who did nothing more than lead his horse around the arena (plug for "Don Quixote"), Sen. Hubert Humphrey of Minnesota suddenly calling for international understanding, George Jessel calling Todd "The American Sputnik" (no laughs there), cowboys and Indians putting on a brief chase act, Broadway Asiatics presenting themselves as Indians, Burmese, etc., Keystone Kops, plumed knights, strolling players and a couple of jeep loads with-food.

Outlook

Television again proved its firstrate potential as a journalistic medium last week (20) when 'Outlook' over NBC-tv presented 'The
Anatomy of a Layoff.' Show, produced by Reuven Frank, came up
with a sharp, concise picture of
what was happening on Long Island as a result of cutbacks in defense spending and the subsequent
layoff of thousands of workers at
the Republic Aviation and other
aircraft manufacturing plants.

Study, with Bill Hill and Piers
Anderfon doing the interviewing,
concentrated on the Farmingdale
area and proved, in depth, how
deeply this regional depression has
already affected the life and economy of the community. It was, in
some ways, a heartbreaking picture
that emerged, of people desperately trying to get jobs while living
on credit; of efforts to relocate; of
a warning that workers would desert defense industries to avoid
similar experiences in the future.

Credit producer Frank with doing a calm, reasoned "depth" job in his probe of the situation. He wasn't peddling any message, though his cameras spoke eloquently. The material he and his reporters got was extremely well put together and presented by Chet Huntley. There was no hysteria in this show, but those who watched it must have come away with a deep feeling of uneasiness and strong sympathy for those whose, world has suddenly been shaken and who now live on the edge of what is supposed to be a "boom" economy.

"Anatomy" wisely didn't attempt to cover the national pictures, though it was made quite clear that the Republic Aviation cuthacks and its effects on people and on sub-contractors was being duplicated all over the country. Its most valuable lesson was the folly of an entire region being geared to a single industry. It was too bad that Republic didn't allow Frank and his men to come in and discuss the layoffs from management's side. That was a part of the picture that was missing.

Sunday Night at the
London Paliadium
The program on Sunday (13) was just about the best of the current series, a neatly balanced bill headed by Hollywood's husband-and-wife teamy Larry Parks and Betty Garrett. Their's was an amiable song-and-dance act in which they kidded gently and sang "That's the One I Love" "Up a Lazy River" (starting at strict tempo and whooping it up to rock 'n' roll) and finally "Side by Side."

Previously. Laton, Graham & Chadel, a trio of zany knockabout comies, ballerina Markova and singer Edmund Hockridge, with songs ranging from "Luck Be A Lady to Me" to grand opera, had provided excellent confrast. Val Parmell's policy is to present a new emeee every four weeks. In this bill Bob Monkhouse took over and though some of his gags fell desperately flat his easy presence kept the program pleasantly tied together and his first attempt at the "Beat the Clock" spot was a success.

Dinah Shore, who gave up her longstanding click quarter-hour series for Chevrolet for a stab at the hour-long format, was victimized on her opening show of the new season Sunday night (24) by a weak script and an even weaker selection of music. While the old quarter-hour shows needed little more than songs and some inventive settings, the 60-minute layout presents formidable problems that Miss Shore's production staff solved in her occasional hour-long "specials" over the past couple of years. But the light touch was generally missing in her getaway effort this year.

Hunter and Jones, who must take the responsibility for their vocalistics, were not given any outside help by the script either. There was supposed to be a running gag about their not being able to make a move without studio approval, but it came off as stickily cute. The writers were too obviously pressing.

A couple of video pros, Nanette Fabray and Danny Thomas, contributed some entertaining routines, but they too took a rather long time warming up in their introductory repartee "with Miss Shore. After starting to roll, Thomas registered with some funny stories and in a hokey song-and-dances bit with Miss Shores and the two Hollywood players. At the windup, there was a goodnatured plug for Thomas' CBS-TV show via a shot of the latter network's trademarked "eye" on the comic's back.

Miss Fabray performed energetically in her "Papa, Won't You Dance With Me" routine with support from a male ballet troupe. She also had a good number with Miss Shore in a spoof on current ladies' fashions. On her own, Miss Shore was, as usual, a highly ingratiating hostess and songstress, particularly when she delivered fine old standgrab like "These Foolish Things" and "Fill Never Foolish Things" and "Fill Never Foolish Things" and "Fill Never Say 'Never Again."

Liz & Consort a TV Smash

By FRED HIFT

Queen Elizabeth II and Prince Philip wound up their official 10-day visit to the U.S. and Canada Monday night (21) by attending the "Royal Commonwealth Ball" at the Seventh Regiment Armory in Manhattan, and CBS cameras were there to cover. It was a pleasant and relaxed occasion, and it afforded viewers a unique and excellent chance to study the Queen and her consort at very close and intimate range.

During her entire visit, the tv cameras never had a more perfect During her entire visit, the tv cameras never had a more perfect view of the Queen and she, in turn, never looked better or more at ease. For almost all of the show's 45 minutes; the cameras had the Queen in virtual closeup, chatting with people, moving around the room and reviewing the various formations drawn up in the armory. She looked tired, but actually she stayed a lot longer than her schedule called for, and this gave CBS its unique opportunity to study her at very close range.

Visually, the Queen makes an excellent tv subject. She cuts a handsome figure, her bearing is full of royal dignity and her clothing has the kind of distinction that commands attention. At the Commonwealth Ball, she was dressed in a stuming gown and, a brilliant tiara sparkled on her head.

But, seeing her on a number of occasions on tv, one also must conclude that she is an extraordinarily shy and reticent person who flinds it difficult to be herself on official or ceremonial occasions. The Queen is very pretty when she smiles, but the fact is that she appears to be serious most of the time. It's difficult to figure out whether she considers this to be part of the proper royal demeanor, or whether she's just serious by nature.

This was never more apparent than during her address when

Just serious by nature.

This was never more apparent than during her address when opening the Canadian Parliament, or for that matter during the televised arrival at the airports in Ottawa and Washington. The cameras of the Canadian Broadcasting Co. were expertly handled inside Parliament to expose every nuance on the Queen's countenance. She never deigned to smile, and consequently the occasion was stiff, formal and cold.

There was an improvement on

nal and cold.

There was an improvement on her arrival in Washington where she was greeted at the airport by President. Eisenhower. In fact, it appears that the Queen loosened up quite a lot during her U.S. stay, judging by her tv appearances. The climax came at the Commonwealth Ball when she finally-dropped a good deal of her reserve during her conversations.

The occasion also gave viewers

conversations.

The occasion also gave viewers a good idea of the royal "team" in action. During the presentation of various personalities, it was Philip who took the lead in the chit-chat that was required. It was his wide grin that was reflected in the Queen's smile and that heiped people over the moment of uneastimes. The sidelong glances with which the Queen occasionally favored her husband were nice, human touches, revealing the woman underneath the official, and at times forbidding, figure of the Queen.

Washington, when she said she'd heard about the large press corps in the capital, and now she knew what they were taking about. The trouble is that tv is primarily an onlooker. None of the events involving the Queen were set up for the medium, and the result at times was tedium. What is more deadly on tv than a long and painful speech that says little? Curiously enough the news fraternity was probably more guilty of this than any others and the Washington Press Club pow had its embarrassing overtones.

Again, in New York Monday

ton Press Club pow had its embarrassing overtones.

Agaln, in New York Monday noon, at the Waldorf-Astoria luncheon, television was present mostly "for the record." There were endless stage waits and the playing of the national anthems by Meyer Davis' band was pathetic and inept.

WOR-TV got a windfall when Pegeen (and Ed) Fitzgerald, who had been invited privately, not as press reps, to the Waldorf-Astoria for the official luncheon hosted by the City of New York, cut her video camera to the post-mealtime session when the Queen gave her formal address. Protocol forfended the tv camera focusing on the dals, while eating, but the 2 p.m. Channel 9 slot by The Fitzgeralds coincided by chance, with the visiting ruler's thankyou address. Mrs. Fitzgerald picked it up from the grand ballroom of the Waldorf, cut back to husband Ed in the WOR-TV studio when necessary. The station permitted their usual 2-2:30 time allotment to run 15 minutes over.

2.30 time allotment to run 15 minutes over.

Considering the importance of tv. and the basic purpose of the Queen's visit, it might have been well for her to appear on a show designed specifically to intro her to the American public, both as a Queen and as a wife and mother. The tv medium reveals many things about people, even Queens, by simply looking them in the face. This certainly was true of the current visit. The impression needed supplementation via the human factors.

whitman took up three topics, on the premiere. First was an examination of legal insanity, with attorney Maurice Edelbaum and psychiatrist Dr. Theodore S. Weiss of Bellevue giving their views on courtroom psychiatry, sum total of which is that the 1843 MeNaughton rule governing the legal definition is archaic and should be replaced. But Whitman, apparently not satisfied with having made his point via the experts, delivered a shouting, sledge-hammer type indictivent of the system which left the viewer wondering what all the passion was about.

ment of the system which left the passion was about.

Second was an interview with Zel deCyr, the actress who does many of the voice-over sounds and voices on tv commercials. As a piece of fluff, it was exay, with whitman at his most natural even if most superficial. Finally, "The Deep North," a segment dealing with the experience of William Delago, a white man who was "hounded" out of Copiague, Long Island, because he was mistaken for a Negro. Delage detailed his experience (his landlord received threatening calls), and James L. Harvey, head of a civic organization, invited him to return, with Delago giving his refusal on the show. Whitman, in asking Harvey about his and the town's reaction to the incident, surprisingly failed to ask whether their attitude would be the same if Delago really were a Negro.

Apart from the heavy emotional style with which Whitman makes his points, his on-camera approach leaves much to be desired. He shouts questions at his guests, goes into panegyrics over his stories and otherwise hams and hokes it up with overstatement and overdramatization. If Whitman can get some of the restraint and depth he demonstrates in his writing into his television work, he might have the beginnings of a worthwhile show.

On this one he was faced with a dilemma. He was called on to save the life of a French traitor who collaborated with the Nazis. Patriot Stassino was confronted with the problem of whether to be loyal to France or to be true to his Hippocratic Oath. In the end he compromised. He used his surgeon's art to remove the bullet from the traitor's body and then immediately fired another one into his heart, thus satisfying both of his values.

his values.

Paul Stassino gave a thoughtful and virile performance as the surgeon, but that excellent actress, Katherine Kath, was largely wasted in a neurotic and gloomy role. Christine Finn, Veronica Turleigh, John Arnatt and Peter Illing filled minor roles with distinction. Stephen Clarkson's production was far too pedestrian for such a heavy subject, but the operation sequence was handled with considerable suspense and authenticity. Rich.

This is a chatty informal midday show, a daily chore for local artists and a fillip for midday advertising on the new indie network in Scotland. It has recovered from a low opening standard and is steadily mellowing into interesting programming, using guest acts once a week and occasional fashion displays. While comedy is frequently weak, the show makes capital out of this by getting yocks at expense of the chief comedy man, Latry Marshall, building him as a performer who constantly makes errors. errors.

errors.

Friendly atmosphere is built casually, with Marshall, singer Brian Douglas, announcer Jimmy Nairn and blonde thrush Sheila Matthews all gabbing and taking the mickey out of one another. In between this inconsequential patter Douglas sings with a good set of pipes, Miss Matthews chirps sweetly, and Nairn does the emceeing in a boyish style. Musical backing is by the Tommy Maxwell Quartet, a workmanlike local group.

Russ Conway was at the twories. Miss Squires used gimmlek of appearing in garb of cusrent fashionstyle "The Sack," and brought yocks with her comments on madness of femmes to follow fashion like slaves. An audience interview bit, before second batch at commercials, was awkwardly handled by comedian Larry Marshall.

The never ending source of

Carroll Levis Show" back to commercial tv for a further series. the past, it has proved a popular program, which set a fairly consistent standard. Judging by the first of the skein, it will continue in that vein.

Levis, a genial emcee with a mellow, smooth flowing line of patter, ties the acts together nicely, but the show loses some of its impact through being telerecorded, which makes for some loss of spontaneity. Acts aired were a young crooner, a 15-year-old trumpet playing girl, a male musical impressionist, a straight songstress, and a 21-strong girl's choir. The Jerry Allen Quartet filled in the musical spots pleasantly. Bary.

Almost day in and day out since the beginning of the new video season, western after western has hit the airwaves, and, by now. it isn't the easiest job distinguishing one from another. "Colt 45." preeming Friday (18) for ABC-TV, was another western and while it was not perfect, the latest half-hour telefilm from the cow country left its kinfolk way behind. Wayde Preston is another young, lanky tv hoss opera hero, some of whom are pretty fair actors. He is too, maybe better than most, but it wasn'the so much as a well executed plot and simple, lucid direction than the complete show a winner.
Conception of the lead, called Christopher Colt, was less than inspired. Colt, played by Preston, was army undercover agent disguised as a gun salesman. But since he acted more like a gun salesman —assuming that gunsalesmen are, quite human—than a tricky secret policeman, he came off clearly as a succeptible, genuine human being. Plotting, was somewhat loose and at moments crypic but an overall tenor of excitement was coaveyed. Lead received topnotch support from Andrew Duggan as a gun-slinging, bully, and pretty Erin O Brien as the missionary girl who reaction to violence gave cause for some of the things done—or left undone—by the protagonist.

Mike Todd threw a "party" for

No question that the advance buildup and the promise of a huge star lineup gave the show a big rating. No question, either, that a lot of viewers must have felt badly let down when it was all over, for rarely has Todd produced anything less calculated to keep his public banny.

less calculated to keep his public happy.
What CBS' "Around the World in 90 Minutes" added up to was an interminable, frequently clumsy plug for Mike Todd; a show without a show that added up to nothing more than a listless parade around the tanbark. This had been billed as something special, and in the light of Todd's achievement with "80 Days," it seems the more incredible that it turned out something less than ordinary.

There was confusion everywhere.

There was confusion everywhere. The cameras wandered endlessly between breaks in the "marching." Anchor man Walter Cronkite, looking acutely uncomfortable, had trouble keeping contact with his roving colleagues, Jim McKay and Bill Leonard. Commercials and station breaks cut into interviews that had barely gotten started. If there were celebrities in the Garden, they were well hidden from the CBS men, who finally had to content themselves with such "personalities" as Hedda Hopper and Elsa Maxwell.

Elizabeth Taylor, looking beautiful, was picked up a couple of times, but once she was interviewed outside camera range and the other time she was visusly climbing up the stairs to the top of the cake. Tony Curtis started to get on twice, each time was interrupted by a commercial. Ginger Rogers made it for a brief appearance.

Cronkite, apparently supplied with a fact sheet, dutifully repeated the same facts over and over again. It was a prime demonstration that ty, with all its technical marvels, isn't a spontaneous medium. It just isn't enough to shove the cameras into the Garden and let 'em go. CBS and Todd equally share the blame for putting this one over on the audience. It was at best a huge plug for one Mike Todd, and at worst a crashing bore.

Art Cohn produced and wrote the show, with little evidence of either activity, Garry Moore introed, the filmed portions, which had Todd gagging it up and "dramatizing" the Story of how "80 Days" came to be. Sequences with Frank Sinatra and Maurice Chevalier were promised, but never came on.

Its most valuable lesson was the folly of an entire region being geared to a single industry. It was too bad that Republic didn't allow Frank and his men to come in and discuss the layoffs from management's side. That was a part of the picture that was missing.

Dinah Shore, who gave up her longstanding click quarter-hour series for Chevrolet for a stab at the hour-long format, was victim-ized on her opening show of the new season Sunday night (24) by a weak script and an even weake selection of music. While the old quarter-hour shows needed little more than songs and some inven-tive settings, the 60-minute layout presents formidable problems that Miss Shore's production staff solved in her occasional hour-long 'specials' over the past couple of years. But the light touch was generally missing in her getaway effort this year.

The preem was badly troubled by a couple of Hollywood glamor boys, Tab Hunter and Dean Jones. Both of these film players have achieved some success as singers on disks, but their vocalistics are not meant for display on tv. Designed for rather severe limitations, their song material was of the most monotonous varie-

limitations, their song material was of the most monotonous variety in the rock 'n' roll idiom.

Ditties like "Don't Tell A Soul," and "Send For Me" (which got a reprise yet) may be okay for the juves in the juke joints, but they are not calculated to add class to a video show, even when a songstress of Miss Shore's calibre delivers them.

Hunter and Jones, who must take the responsibility for their vocalistics, were not given any outside help by the script either. There was supposed to be a running gag about their not being able to make a move without studio approval, but it came off as stickily cute, The writers were too obviously pressing.

A couple of video pros, Nanette Fabray and Danhy Thomas, contributed some entertaining routnes, but they too took a rather long time warming up in their inroductory repartee with Miss Shore. After starting to roll, Thomas registered with some funny stories and in a hokey song-and-dances bit with Miss Shore and the two Hollywood players. At the windup, there was a goodnatured plug for Thomas' CBS-TV show via a shot of the latter network's trademarked "eye" on the comic's back.

Miss Fabray performed energetically in her "Papa, Won't You Dance With Me" routine with support from a male ballet troupe, She also had a good number with Miss Shore in a spoof on current ladies' fashions. Miss Shearer made amends later in the show by dancing. "The Charleston," which is featured in the play, with John Horner.

Queen Elizabeth II and Prince Philip wound up their official 10-day visit to the U.S. and Canada Monday night (21) by attending the "Royal Commonwealth Ball" at Seventh Regiment Armory in Manhattan, and CBS cameras were there to cover. It was a pleasant and relaxed occasion, and it afforded viewers a unique and excellent chance to study the Queen and her consort at very close and intimate range.

During her entire visit, the tv

cameras never had a more perfect view of the Queen and she, in turn, never looked better or more at ease. For almost all of the show's 45 minutes; the cameras had the Queen in virtual closeup, chatting with people, moving around the room and reviewing the various formations drawn up in the armory. She looked tired, but actually she stayed a lot longer than her schedule called for, and this gave CBS its unique opportunity to study her at very close range. Visually, the Queen makes an cameras never had a more perfect

Visually, the Queen makes an excellent to subject. She cuts a handsome figure, her bearing is full of royal dignity and her clothing has the kind of distinction that commands attention. At the Commonwealth Ball, she was dressed in a stunning gown and a brilliant tiara sparkled on her head.

But, seeing her on a number of

But, seeing her on a number of occasions on tv, one also must conclude that she is an extraordinar, shy and reticent person who finds it difficult to be herself on official or ceremonial occasions. The Queen or ceremonia occasions. The Queen is very pretty when she smiles, but the fact is that she appears to be serious most of the time. It's difficult to figure out whether she considers this to be part of the proper royal demeanor, or whether she's just serious by nature.

just serious by nature.

This was never more apparent than during her address when opening the Canadian Parliament, or for that matter during the televised arrival at the airports in Ottawa and Washington. The cameras of the Canadian Broadcasting. Co. were expertly handled inside Parliament to expose every nuance on the Queen's countenance. She never deigned to smile, and consequently the occasion was stiff, formal and cold.

There was an improvement on

mal and cold.

There was an improvement on her arrival in Washington where she was greefed at the airport by President. Eisenhower. In fact, it appears that the Queen loosened up quite a lot during her U.S. stay, judging by her tv appearances. The climax came at the Commonwealth and the commonwealth and the commonwealth and the commonwealth are stayl when she firelly depend a second to the commonwealth and the commonwealth and the commonwealth and the commonwealth are seen that the commonwealth are s Ball when she finally dropped a good deal of her reserve during her conversations.

conversations.

The occasion also gave viewers a good idea of the royal "team" in action. During the presentation of various personalities, it was Philip who took the lead in the chit-chat that was required. It was his wide grin that was reflected in the Queen's smile and that helped people over the moment of uneasiness. The sidelong glances with which the Queen occasionally favored her husband were nice, human touches, revealing the woman underneath the official, and at times forbidding, figure of the Queen.

woman underneath the official, and at times forbidding, figure of the Queen.

Commentary side of the show was ably handled by Walter Crondite, who kept volcing surprise at the Queen's disregard for the split-second schedule she'd maintained to that time. But the royal couple were going to the airport from here, and apparently they didn't care about being late. Working with Cronkite was Alexander. Kendrick of CBS-London, who filled in with a little color. Plan had been to give a rundown on the Queen's U.S. visit, but this was dropped in favor of the "live" show.

On the whole, considering the difficulties under which they labor on such occasions, the tw newsmen did a good job on the Queen's visit. There were a lot of speeches, and—unfortunately—the Queen isn't the orator type. Her voice, rather high pitched, is flat and she tends to read her message. She definitely gives the impression of one who hates to speak in public. Apart from that, her speech writers seem to be determined to give her material that is as dull as they can possibly make it. Rarely does a spark of real feeling enter into her public utterings.

Once in a while, there was a humorous touch. For instance, at the Steve Alles

Washington, when she said she'd heard about the large press corps in the capital, and now she knew what they were talking about. The trouble is that tw is primarily an onlooker. None of the events involving the Queen were set up for the medium, and the result at times was tedium. What is more deadly on tw than a long and painful speech that says little? Curiously enough, the news fraternity was probably more guilty of this than any others and the Washington Press Club pow had its embarrassing overloses.

Again, in 'New York Monday

ton Press Club pow had its embarrassing overtones.

Again, in 'New York Monday noon, at the Waldorf-Astoria luncheon, television was present mostly "for the record." There were endless stage waits and the playing of the national anthems by Meyer Davis' band was pathetic and inept.

WOR-TV got a windfall when Pegeen (and Ed) Fitzgerald, who had been invited privately, not as press reps, to the Waldorf-Astoria for the official luncheon hosted by the City of New York, cut her video camera to the post-mealtime session when the Queen gave her formal address. Protocol forfended the ty camera focusing on the dais, while eating, but the 2 p.m. Channel 9 slot by The Fitzgeralds coincided by chance, with the visiting ruler's thankyou address. Mrs. Fitzgerald picked it up from the grand ballroom of the Waldorf, cut back to husband Ed in the WOR-TV studio when necessary. The station permitted their usual 2-2.30 time allotment to run 15 minutes over.

2:30 time allotment to run 15 minutes over.

Considering the importance of tv. and the basic purpose of the Queen's visit, it might have been well for her to appear on a show designed specifically to intro her to the American public, both as a Queen and as a wife and mother. The tv medium reveals many things about people, even Queens, by simply looking them in the face. This certainly was true of the current visit. The impression needed supplementation via the human factors.

He explained the "sharing table" and called New England Home for Little Wanderers telling the director that the array of foodstuffs, donated, is for them. Each week a different org is so honored. Luther signed the show off with "Oh What a Beautiful Morning" accompanying himself on the 88. He pitches for Ovaltine, Venus and rodeo.

It would seem that this show is misnamed unless Luther gets more singing and 88'ing to do, besides pitching commercials and showing cartoons and film clips. Even the moppets didn't seem entertained. Luther, whose moppet music is w. k. certainly should have more impact as a performer than as an anitaler and WNAC - TV rates kudos for beginning live tv shows in Beantown.

VARIETT's weekly chart, based on ratings furnished by American Research Bureau's latest reports, on feature films and their competition covers 120 cities. Each week, the 10 top-rated features in a particular city will be rotated.

Factors which would assist distributors, agencies, stations and advertisers in determining the effectiveness of a feature show in a specific market have been included in this Variety chart. Listed below is such pertinent information regarding teatures as their stars, release year, original production company and the present distributor, included wherever possible along with the title. Attention should be paid to such factors as the time and day, the high and low ratings for the measured

feature period and share of sudience, since these factors reflect the effectiveness of the feature, and audience composition, i.e. a late show at 11:18 p.m. would hardly have any children viewers, but its share of audience may reflect dominance in that time period. In the cities where stations sell their feature programming on a multi-stripped basis utilizing the same theatrical throughout the week, a total rating for the total number of showings for the week is given/the total rating not taking into account the duplicated homes factor. Barring unscheduled switches in titles, the listed features for the particularly rated theatrical filmed show are as accurate as could be ascer tained from a multiplicity of station and other data.

In keeping with the widely-accepted need for diviersification.
Caravel is aiming at all phases of film work—from public relations and sales training films to teleblurb advertising, all of which it already does. It's also possible that Pincus will make room for program production by outsiders. This facet depends to a great extent on the favors the New York Film Producers Assn., to which Caravel belongs, can extract from the city government in alleviating film production problems.

Continued from page 33 ARB study, WNBQ is claiming ratings superiority for "Tonight" here over WBBM-TV's "Late Show." But WBBM-TV is citing the September Nielsen four-week survey to show it has dominance survey to show it has dominance in the hour. ARB's Monday-Friday average for the Jack Paar vehicle here is 4.4 against 2.5 for the CBS station's film. In cost per thousand, WNBQ has computed its advantage here as \$1.93 against \$4.70 for WBBM-TV. Nielsen, on the other hand, favors WBBM-TV with a 6.8 five day average against WNBQ's 3.9. It's a wider discrepancy, than normally occurs between one rating survey and another.

Having subscribed to Nielsen's after-midnight special analysis, WBBM-TV is now particularly impressed with its ratings for the "Late Late Show," which in several instances are higher than a number of daytime shows. The post midnight to signoff films have a weeknight Nielsen average of 5.0 and a 10.6 Saturday average. Cost per thousand on the station

and a 10.6 Saturday average.

Cost per thousand on the station after midnight (Class D time) averages around 80c, making it a better buy than many daytime periods. Station has alerted its sales force to this statistic. At present, the wee hours from 12:30 to 2 a.m. on WBBM-TV are about half sold, all in national spots.

To Be a Station Rep Today You Gotta Be All Things to All People

No longer can the radio and tv station rep wait for the phone to ring, pick up a pencil and take an order for the station he represents, for the business in the last

ring, pick up a pencil and take an order for the station he represents, for the business in the last couple of years has become highly competitive and requires all the services that the rep can afford.

Station reps who haven't adapted to the present times are running in the red or seeking a merger to keep up with the Blairs' and the Kazz'.

In this age of Sputnik, the rep's role has changed and the latest in marketing and merchandising is required by even the smallest stations. Advertisers want to know when the people are glued to their sets, what they favor, and per market who is buying what. This sawakening on the part of the sponsor has forced the reppery trade to hire analysts who have the answers to the \$64,000 question.

Katz agency has taken on a research staff which is the envy of other reps and Peters, Griffin & Woodward has shelled out over \$175,000 for machines using the principles of Univac. Under their automation process, requests for availabilities on both spot radio and ty is processed, schedules cleared, offered and sold and confirmed within hours or even minutes.

Another rep device which has

firmed within hours or even minutes.

Another rep device which has gone by the way of the trolley cars is their method of presentation. Until quite recently the reps could content themselves with chasing a timebuyer around and telling him what's open on their stations' list. If the present day seller is to compete with his trade brothers he'd better have an in with the agency's planning board and he'll need a sound presentation to back it up. The reps have to gear themselves to agency thinking and it has to be done months in advance.

Reps have the additional burden of providing stations with programming advice and must be willing to take on the added load of promoting a station.

to take on the added load of promoting a station.

Even the smallest of the reps have taken on good will men to cultivate the agencies and to spread the word to the trade press.

Within the trade itself the pirating practices of the reps in taking

stations from one another has forced the rep to tell his client why he is paying 1% more . . . the answer of course is additional services.

Best Television Humor of 1957 contains skits from the "Steve Allen Show"; "The Jerry Lewis Show"; "The Goldbergs" and others.

Ian Ballantine, prez of Ballantine Books, stated that he "believed that a large share of the audience both watch tv and read. If we prove right, we will have made a two-way street in the tv book market, in addition to establishing beyond a doubt the existance of a vast reading tv audience."

It's official now that WGN will broadcast Chicago Cubs baseball

It's official now that WGN will broadcast Chicago Cubs baseball games next year, as anticipated in Vardery a month ago. P. K. Wrigley, chewing gum magnate who owns the National League team, has bought back the 1985 radio rights from WIND so that WGN may start a year ahead of its original contract. Earlier this year, the Chicago Tribune station signed a five-year pact with Wrigley to air the games from 1959-1963. WIND, which did the Cubs' play-hy-play for more than a decade, now reverts to a straight music-news format.

Vet broadcaster Ted Husing, who has been out of circulation for two years or so, residing on the Coast, made his first New York social appearance with The Skeeters, sportsment's organization of which he is the president, at a Garden State Racetrack powerow last week. Considerably improved, but still using a cane, Husing was accompanied east by his medico. Dr. Raymond Spritzler, son-in-law of columnist Louis Sobol, who has been attending him in Hollywood. Both return to the Coast next week.

Husing was slated for a CBS sportscast comeback but, because of his still weak vision, he is foregoing it until in better physical shape.

There's an evident attempt in
this series to carry a story line
through the jungle while beasties
are being gunned to death and
carried off by native porters. The
pilot, shown Tuesday (15) night,
was hoth jerky and unconvincing
and the editing largely at fault. It
may smooth out in the ensuing
chapters and if the packagers can
make it work it's at least a fresh
departure in originality.
"White Hunter" title derives
from one J. A. Hunter, reputed to
be the deadest shot in all Africa.
Assuming his role is Rhodes Reason, a fine specimen of a man with
good acting ability. As guide for
a couple on a safari, he has his

hands full keeping the beasts at bay and keeping the errant wife from making passes at the white males. Says she of her weakling husband, "as long as he keeps his pipe lit his virtue is safe."

To rig up a little excitement, rhinos charge, lions prowl and natives dance. When a cat makes a leap for the jezebel of the jungle a sure shot by Reason saves her life. A stray bullet hits her husband, who's too drunk to get out of the way. Films were shot in East Africa but some of the beasts acted like they were rented from the compound at Thousand Oaks. Aside from Reason's well-intentioned acting there was little to commend the cast. Compton-Bennett, who has many picture credits, shares the direction with Gerald Thomas and didn't scare up much interest. Donn Mullally tented the script with careless hand.

DECOY
With Beverly Garland, Jo Ann Linville, Arch Johnson, Bruce Gordon, Betty Garde, Anna Minot Producer: Everett Rosenthal Director: Donald Medford Writer; Stephen Gardner Distributor: Official Films 30 Mins.; Mon., 5 pm.
BRYLCREEM KTTV, L.A., (syndication)
Filmed in N. Y., "Pecoy" is about a Manhattin gal cop and her weekly tv adventures: Official Films is handling distribution of the syndi-

handling distribution of the syndicated series which will probably do allright sales-wise. But quali-ty-wise it leaves much to be desired, if the first stanza is any criterion. Stephen Gardner's contrived tale

Stephen Gardner's contrived tale is about the femme sleuth assigned to find the killer of a seaman. Suspect is a gal, and the policewoman moves into the same rooming house, makes friends with her. Eventually, it develops the suspect is a neurotic who actually killed the guy. But long before that, it drags through the holes in the script, listless and lacklustre. One ladly-done scene has the sleuth staring so long at a light fixture where she's hidden a gun, the neuron of turns and finds it. Another

time, when the femme cop is told not to open her door because now they know the other gal's the murderess, she opens it at the first knock, and sure 'nuf, it is the femme heavy.

Production quality is also way below average, lighting and camera work both sub-par. Beverly Garland acquits herself as best she can in the lead, but must have better scripts than this to inject plausibility into the series. Jo Ann Linville is adequate as the heavy; Arch Johnson and Bruce Gorion are okay in support. Donald Medford's direction is so-so. Brylcreem sponsors in L. A., but show isn't apt to draw much rating here, where it's slotted against Danny Thomas (CBS) and Guy Mitchel (ABC).

Nevertheless, the report is bound to have its repercussions on legislators if and when the Issue is raised when Congress reconvenes in January. The rigid conditions imposed on the conduct of subscription operations will doubtless provide ammunition to answer attacks by those who want to prohibit the service. One passage in the report referring to the need to determine whether subscription would offer "stimulating competition" with the existing system will likely be utilized by tv's critics.

Another passage should go far

Another passage should go far to assure opponents of subscription that the Commission does not in-tend to stand idly by and let the tend to stand idly by and let the pay system run rampant. In this eloquent passage (Parsgraph 62 of the report), the Commission declares: "Our decision respecting trial operations has been reached only after the most careful consideration of all arguments made by parties who foresee dangers of monopolistic control of subscription television. We recognize fully the crucial importance of these questions. But it is one thing for the crucial importance of these questions. But it is one thing for opponents to assert that the service would be adverse to the public interest because of monopolistic potentials they perceive in a new, untried service. It is quite another for the Commission to decide that we should not permit even its trial ... because it is possible to foresee circumstances under which monopoly could ... because it is possible to foresee circumstances under which

Neither are we persuaded that
such a result is inevitable, nor do
we think that if monopolistic

Ground Rules for Feevee

ELIGIBILITY: Any tv station, UHF or VHF, or applicant for a construction permit in markets with four or more services.

LIMITS ON SYSTEMS USED: Each acceptable subscription system will be limited to three markets.

NON-EXCLUSIVITY: No station may contract to serve as the exclusive subscription to outlet in its market. The Commission will require information from applicants to assure that (1) more than one station may use any individual system; (2) more than one system may operate in an area; and (3) any station may operate under more than one system.

under more than one system.

PROGRAM RESPONSIBILITY: Stations must be free, in arrangements with franchise holders, to reject any programs they consider unsuitable. The licensee will also be remained to schedule programs for transmission "in such manner as he deems desirable in the discharge of his public service responsibility as the licensee of a tv broadcast station."

The Commission will examine closely all operating agreements in which the station is a party to determine whether the licensee retains "full freedom" to reject any programs.

CHARGES TO SUBSCRIBERS: Stations must retain the right of ultimate decision in determining program charges in the event of inability to agree with the franchise holder on the appropriate amount. This right must be provided for in agreements with program suppliers. Charges and terms of conditions of service must be applied uniformly to all subscribers "within reasonable classifications"

PROGRAM HOURS: Stations may carry subscription programs at any hour of the day and for any number of hours provided they broadcast a minimum of 28 hours a week of free programs.

SURVEILLANCE: Stations authorized to broadcast subscription

SOLVELLIZARUS; Stations authorized to broadcast subscription programs will be required to report to the Commission regularly and whenever requested on all aspects of the operation, including contracts with subscribers, arrangements for installing and maintaining encoding and decoding equipment, fixing and collecting of charges, distribution of the proceeds, and obtaining of programs.

charges, distribution of the proceeds, and ebtaining of programs.

PENALTIES: Authorizations for subscription operations will be suspended if systems used cause excessive electrical interference, suspension to continue until compliance with technical requirements. Authorization may be revoked "if in the judgement of the Commission such action is required in the public interest." Licensees issued orders of revocation will be afforded opportunity to show cause why such action should not be taken.

RENEWAL OF AUTHORIZATIONS: Whether subscription will be extended or put on a permanent basis after the three-year trial period will be decided on the basis of the information gained from actual operations. When "sufficient, meaningful data" are available; the Commission will hold public hearings to determine the future of the service.

The big question now is whether Congress will for more than make a few gesting toward stopping subscription. Some sources familiar with legislative operations doubt that an left the anti-subscription bills will even get to hearing before the anti-operate Committees. With ungent international problems facing the nation, accentuated by Sputnik, there's reason to believe that Congres will have too many other things to worry about than pay tv.

Impression by several reporters present was that the tape pictures seemed darker than the original color as seen on the air over the weekend, and that there was a tendency for ghosts to form in some pictures. But Smith pointed out that the tape will record the picture at whatever brightness and contrast levels the engineers set, and that accounted for the darkness of the tape. As for the ghosts, he said it was not in the original tape and it was probably caused by the transmission from Camden. Only other flaw in an otherwise impressive reproductive process were the occasional white dots and linear flashes which plague the Ampex b-w picture too, these being due to imperfections

In the case of Fast, it was to make the point that Fast, prior to his break with Communism, de liberately shut off all intellectual material that might prove heretical or disturbing to his belief—he never read George Orwell's "1984," for example, until his break. In some interviews, the approach is more straightlaced and news-slanted; Agronsky expects to ask Pearson his views on world peace, of course, and in his recent interview in Havana with President Batista, the discussion centered on the Rebellion there. Overall, however, Agronsky helieves there's a major undeveloped television area in the interview of ideas. He approaches each subject differently, never knows what tack he'll take until he talked with the subject prior to broadcast. But he sees in every major figure some kind of story that should be told—in King, for example, he's struck by what he describes as the Negro integration leader's Christ-like and Ghandilike techniques, and he wants to concentrate on this aspect (King's personality). With Abe Burrows, he sought (not too successfully).

In most cases, Agronsky states, the hard-to-gets have okayed appearances on the show after having seen it on the air or having viewed kinescopes. They appreciate two things, Agronsky states, fair treatment and the opportunity to give their views, controversial or not, in intelligent fashion.

The novelty of commercial tv can no longer be blamed for the viewing preference. After two years of operation it has become an accepted source of home entertainment, as is the BBC. The trouble stems from poor program planning. The BBC has not been serving up what the public wants.

This is horse out by the Nielsen

This is borne out by the Nielsen This is borne out by the Nielsen network ratings over the past 18 months. During the whole of that period, BBC-TV programs made the Top 10 on only 13 occasions. All but one of these shows made the grade between July 1 and Sept. 9, '56. This year the sole program to get a mention in the network ratings was the Football Association Cup Final, none of the major sporting events of the year. The BBC rears over \$42,000,000

sporting events of the year.

The BBC reaps over \$42,000,000 a year in compulsory license fees. During the year 1955-56 around \$20,000,000 of this was spent on ty, but only \$4,735,000 of it went on programs. The state web did launch an offensive in a bid to win back dwindling audiences. It lined a series of new shows in its fall schedule, which, it was thought, could compete favorably with the commercial offerings. But it hasn't paid off. The viewers are still drifting away.

Strike-Bound Cincy Station Loses National Client in Bond Exiting

Bond Stores ankled WCKY, Cincy radio indie, at the height of strike against the station by American Federation of Television & Radio Artists. The Bond walkout is the first by a national advertiser since the strike began.

Federation approached Bond and several other bankrollers in New several other bankrouers in New York for support in the strike that has been going on since WCKY replaced several an-nouncers who walked out after vot-ing for a union shop, according to AFTRA.

once again, is up. This survey shows there is 5% more nighttime viewing this fall than there was a year ago." Sarnoff also referred to a personal interview survey with 1,235 heads of households last April and May by the Psychological Research Corp.,, which found that three out of four questioned said they were watching as much or more tv than a year earlier, and eight out of 10 thought program-ming was as good or better than a year earlier.

a year earlier.

Sarnoff warned that "opponents of free television" have seized on complaints of a "dud" season and "twisted it to their own purposes." He referred to a Life mag piece in which he said the "author's authority for claiming people were tiring of present television fare was VARIERY'S headline. Promises of unspecified 'better' programming by pay-tv promoters were linked to the alleged apathy of today's audience—an apathy induced by 'endless commercials and dreary programs.' This is the seed of the dud being sown. programs.' This dud being sown.

dud being sown.

Sarnoff said that he wasn't satisfied with every new NBC show. "Some of NBC's new shows this fall, even though they drew healthy audiences, have been disappointing to me. The need for improvement in production and writing and casting was in several cases, quickly apparent. The program department did not have to wait for any critical appraisal to suggest appropriate changes after certain premieres, but the airings in print of the show short/comings probably goaded everyone concerned into swifter action.

He suggested that every review

swifter action.

He suggested that every reviewer should "look at a first show and then a fifth show and then a tenth show before delivering a final evendict. I think every series, film or live, can be improved during the course of a season. That's the job we're busy on now."

Replacements

Continued from page 27 cancellation and actual replacement time.

Sole exceptions in the film area are the cases where the film producer has 13 half-hours in the can. About the only time this happens today is when the producer is filming in Canada or England and has the show sold in one or both, with anywhere from a \$5,000 to \$11,000 writeoff on each episode. In these writeoff on each episode. In these cases, the producer is usually holding off on any kind of U. S. deal and is ready to hop in with a midseason sale. Two such examples are Screen Gems' "Ivanhoe," filming in England, and Television Programs of America's "Tughoat Annie," before the cameras in Toronto.

Toronto.

The agencies have actually brought the problem on themselves. Having been stuck with firm 26-week deals last season and been stung with clinkers, they established a safeguard this year by insisting on 13-week cancellation privileges. But in the case of the 26-week dogs, they knew well in advance of cancellation-notice time that they'd have to replace the shows, so there was time to get production rolling. Now, they're shows, so there was time to get production rolling. Now, they're back on the horns of that "you-can't-hurry-film" dilemma.

"West Side Story" (Columbia), with the cast of the current Broadway hit, impresses as a standout dramatic work in this disk version. Leonard Bernstein's intense, officeat music, with lyrics by Stephen Sondheim, has a powerful impact that gives this package a weight and a durability that goes beyond the general run of pop confections. "Maria." sung by Larry Kert; "One Hand, One Heart" and "Tonight," done by Kert and Carol Lawrence, the show's stars, are standout ballads. "America," done by several vocalists, is a biting musical comment while "Cool" is a sparkling syncopated piece, as are "The Dance At the Gym," and "The Rumble," a dramatic musical comment while "Cool" is a sparkling syncopated piece, as are "The Rumble," a dramatic musical vignette of a Street gang fight. "I Feel Pretty" is a charming entry sung by Miss Lawrence and others. A long ballet sequence to the number, "Somewhere," featuring a vocal by Heri Grist, is another highlight, leading into the "Gee, Officer Krupke" number with wit and strong language. The "A Boy Like That" and "I Have A Love" medley, sung by Miss Lawrence and Chita Rivera, is a gripping, mordant piece that caps the score. Overall, it's another standout production put on wax under the supervision of Goddard Lieberson.

The Richard Rodgers-Lorenz (Larry) Hart score for the "Pal Joey" legit musical, now converted into a Columbia Pictures production, is another Capitol soundtrack smash. Not only does the Rodgers & Hart score contain about a dozen great songs, but Frank Sinatra is around to sing his share with that superlative swinging beat that has made him a consistent album seller. Sinatra handles "I Didn't Know What Time It Was," "There's A Small Hotel," "I Could Write A Small Hotel," "I Could Write A Book," "The Lady is A Tramp" and "Bewitched." The femme contingent of the cast perform excellently on a songalog including "My Funny Valentine." "That Terrific Rainbow," and "Zip," the latter a clever stripper's number done by Rita Hayworth. Billy Nalle: "Swingin' Pipe Organ" (RCA Victor) is a nifty demonstration of the swinging capabilities of a theatre pipe organ. Backed by drummer Ray Mosca, Billy Nalle gives the organ a big band beat and instrumental coloration in a solid collection of standards, including "Who," "Song of India" "I'll Never Smile Again," Marie" and "Billy's Boogie," the latter an unusual rocking display on the organ.

"The Best of Irving Garner" (Verve) is a spoof on Erroll Garner that could well open new vistas for disk packaging. Next one in the same series could be "The Best of Irving Sinatra," etc. In this set, a pianist, whose square handle might well be Irving Garner, plays a fiock of standards, some straight and some in uneven tempo, but without any clear attempt to parody Erroll Garner's style. Block, Kapralik, Levine Set in Col Sales Posts

In a reorganization of its sales staff setup, Columbia Records has brought in Gene Block for the newly created post of product manager, single records, and David Kapralik for the new position of sales communications manager. Dick Levine also has been tapped by Col as sales training manager.

Block, son of deejay Martin Block, received his disk biz train-ing in radio exploitation and sales promotion. As communications manager, Kapralik will issue a weekly field communication for Col's sales managers and salesmen. He'll also edit Col's weekly sales publication, Insight, the diskery's communication link with its field force.

Block and Levine will report to Hal Cook, veepee in charge of sales, and Kapralik to Bill Gallag-her, field sales manager.

The indies are continuing to give the major record companies a hard run for their money, Working with a loose bookkeeping and "write-off" system and unencumbered by a fixed overhead, the indie diskeries are continuing to knock off the majors in key hit-making areas.

It's all a matter of "wheeling and dealing," a game in which the indies are making their bigtime rivals look like pigeons. Working with hustling freelance distributors, the indies have been able to pile up a long line of regional hits with quite a number eventually falling into the national sweepstakes.

Modus operandi for the indies has been to get the disk moving in one key area at any cost or give-away. They figure that once the word gets around that their disk is "breaking hig" in Cleveland, Deroit, Pitsburgh, etc., the rest of the country will follow suit. It's on this local level that indies have been outclassing the majors. The distributors working for the indies an move faster and more freely than those in the majors' network, and they're manipulating with a (Continued on page 57)

Europe as Last Stand for Concert Touring by Big Bands: Harry James

Frankfurt, Oct. 15. Opining that "Europe is the last place where a big band can still get a lot of good concert dates, Harry James is whirlwinding through on his first Continental tour. And he's packed over 50 concerts in 20 cities in France, Belgium, Switzerland, Germany and Italy into a month's tour—finding time for television shows, a short appearance in a German film, constant contacts with local

Capitol records executives, and press and film interviews as well. "It's almost impossible for a big band to get concert dates in the States now," James comments.

"Here in Europe, you can still find an enthusiastic audience for jazz concerts, and it's like a whole new untapped market for American bands."

At Berlin last week, for instance, James' band broke all house records for American entertainment since World War II. Playing two consecutive days at the glant Sport Palast, the James outfit sold more than 8,000 seats at a single show

"Trouble with bringing a big band over here is the cost for the booker," added James. Man who booked the James tour is Hans Schlote of Frankfurt—who had to hand out an advance \$30,000 for air transport for the 15-man orchestra.

"I'm told Stan Kenton and I have been the only large bands invited to Germany since the war, without sponsorship by either the State Dept, or the U. S. Army. Investment is just too large for the European agents to bring a big group over. group over.

group over.

"But the response proves this pays off. I'm getting the same money that I would earn for American engagements. I'd like to make a European tour once a year, and can advise other American artists to do the same. The European concert audience is much more interested and serious in its more interested and serious in its music appreciation than the Americans are to day—people in States have been given too much entertainment for too long, for free.

"I don't think a big-name artist can play in Europe more than once a year, though. He shouldn't over-expose himself any more here than he does in the States."

On his first European tour, too, James had tremendous qualms about European bookings and the uncertainties of schedule.

"But the efficiency here is unbe-vable," he commented. "Every-(Continued on page 61)

Inside Stuff—Music

Rock 'n' roll enthusiasm may be beneficial to music, in the opinion of Boris Goldovsky, planist and mc for "Opera News of the Air," ABC. radio program. Appearing before the Des Moines Women's Club he said, "You might even argue that rock 'n' roll paves the way for good things. It may be that if young people get excited about this kind of thing later on they will get excited about something else—and just so long as they get excited about something that is important."

Goldovsky believes there well may be just as much interest in quality music as in rock 'n' roll but that the people who are interested in quality don't make so much noise about it. He said, "You have no idea how many things are going on that are good in music, but these things receive little national publicity. In music we are living in very exciting times."

BMI 'Goes to Press'

Broadcast Music, Inc., which has been under heavy attack from ASCAP songwriters and Congressmen for the past couple of years, is striking back via its public relations campaign directed by Walter Ross, who was hired early this year for that purpose. Ross has mailed a memorandum to newspaper and magazine editors, writers, columnists and freelance writers giving the background of the BMI-ASCAP dispute from its standpoint.

The memorandum charges that the 33 ASCAP songsmiths who are suing BMI and the broadcasters for an alleged conspiracy against non-BMI tunes "have launched a widespread publicity campaign against BMI and broadcasters consisting of prejudicall statements by prominent performing artists (themselves ASCAP members), of charges before Congressional Committees and of the involvement of certain uninformed organizations. The object of this publicity is seemingly to creat a climate of public opinion in which it will be impossible to select an unbiased jury, thus prejudging the forthcooming trial."

The BMI memorandum was designed, Ross states, to "put past and future developments in the music controversy in perspective and to furnish some basic frame of reference within which future news developments, seemingly isolated, can be assessed."

phrey Lyttelton and Johnny Dank-worth bands who also were playing for nothing more than the cause.

Midway through the session, Hampton stopped the music to read a cable conveying best wishes and congratulations. It was signed "Louis 'Satchmo' Armstrong."

"Louis 'Satchmo' Armstrong."
Earlier in the day, Hampton, whose plane was kept circling around London Airport for almost four hours because of thick fog, told a press conference held in the Chapter House of St. Paul's Catheral: "There are some things more important than money. Freedom is one of them. If my music can help to bring it to people now denied its blessing, then I am prepared to fly anywhere to assist such a cause. Color discrimination is a disease. It has got to be cured."

For two-and-a-half hours, Hamp-

For two-and-a-half hours, Hampton and the bands, along with songstress Cleo Laine, gave out with music that whipped the audience who didn't quite manage to fill the 3,000-seater, into roars of appreciation. The program listed a large number of tunes from which the repertoire would be chosen, but Hampton quickly changed that.

There were contract.

There were only a few standard numbers played throughout the

whole evening. The rest were just based on ideas thought up on the spot. With only a couple of hours of rehearsals behind them, the bands managed to stick with the ace of the vibraharp, through his intricate variations and key changes. When they did get lost, he was there to steer them back onto the right path.

Around about 2 a.m., when the music was flowing at its hottest, and the show had run 15 minutes overtime. Hamp ton reluctantly stopped the bands, to allow a clericto announce that the concert had to wind. But nobody moved, and

stopped the bands, to allow a cieric to announce that the concert had, to wind. But nobody moved, and the shoults for more got louder. If anyone wanted to put up an extra \$280, they were told, the show could go on for an extra 30 minutes. Hampton immediately led the orchs into another session. A couple of minutes later, the same, but very excited looking cleric, came back onto the platform and broke up the music to announce that the money had been put up. At 2:20 a.m. the concert came to an end. As Hampton had said earlier: "It's going to be the greatest jam session yet. Musicians need all the notes—the white ones and the black ones too." He proved both points.

Dreyfus-Day

Continued from page 35 m

Dreyfus started as a plano player for T. B. Harms, and for many years there was an international music publishing alliance between the T. B. Harms Co. and Francis. Day & Hunter, until Max and his brother Louis Dreyfus separated the Harms companies, formed their own Chappell-Harms outfits. The Francis, Day & Hunter enterprises went their own way also. Present head, Fred Day, is the son of founder Dayid Day, with whom young Dreyfus first became friendly. Some 15 years after Max and Victoria Dreyfus' wedding anniversary he was best man for the Fred Day's marriage in England. Incidentally, Mrs. Day's World War. I work of sewing shirts for service men inspired the international war song, "Sister's Susie Sewing Shirts for the Soldiers." It was a slogan which Day brought into his music pubbery one day, and prompted R. P. Weston and Hermann E. Darewski (music) to whip up this jingle. (In America it was, some-times transmuted into "sov" vice "shirts" and "sailors" vice "soldiers").

Mrs. Day's nephew changed his

rougner in Europe."

In Berlin, many East Germans attehded the concert. "The favorites here are the same as in the States—they aren't behind in musical tastes at all, and like the same up numbers, like Trumpet Blues' and "2 O'Clock Jump," that go over best in Hollywood, Las Vegas or Texas."

Vegas or Texas."

In fact, even the Russians dig jazz, James found out. While his bus, going through Russian-ton-trolled territory to drive to Berlin, was stopped at a Russian checkpoint on the road, four Russian soldiers gathered around and asked for his autograph.

point on the road, four Russian soldiers gathered around and asked for his autograph.

The James management has added a smart plus to the German tour. Other large American groups, like Stan Kenton, Jazz at the Philharmonic, Louis Armstrong, who have played Germany recently, generally do all the announcing in English, even though the audiences consist of 80% Germans and only 20% American soldiers stationed in the area. James, though, hired top German radio and tv personality John Paris to emcee the show, and closes with vocalist Jilla Webb rending "Auf Wiedersehn" in German—good for a tremendous bit of added applayse.

Inside Stuff-Music

Crickets, Paul Anka, the Diamonds, Buddy Knox, Jimmy Bowen and the Rhythm Orchids. Eddie Cochran, the Drifters and Paul Williams

Also in Troy, Ted Bayly will present the Marion MacPartland Trio and the Max Roach Quintet at Music Hall Sunday (27) afternoon in the third of a series of jazz concerts in the 1,250-seater, for more than 60 years the scene of longhair musical events. Admission will be \$2. Woody Herman's band will be the fourth attraction, Nov. 24. Duke Ellington's orch played at the opener; Dave Brubeck's quartet, two weeks later. Brubeck's draw was stronger.

Lee Morris, Boston tunesmithing history teacher who is spending his sabbatical year in tin pan alley, inked with E. B. Marks on exclusive contract. His first song under the arrangement, "Billy, Be Sure," recorded by Shaye Cogan on Roulette, was released two weeks ago and breaking fast in Hub. Morris and the chirp both worked at the shuttered Latin Quarter in the Hub, he, writer of shows for Donn Arden, for whom he wrote "Blue Velvet," and Shaye Cogan as production singer. Morris is writing with Beverly Ross, also signed by Marks, and their new tunes now being recorded include such offbeat items as "The Frankenstein Rock" and "Kangaroo Lover.

Robert W. (Bob) Sexton, who has just resigned as general manager and publicity director for the Syracuse Nationals professional basketball team, sponsored Dave Brubeck dates in Syracuse, Rochester, Watertown and Potsdam, N.Y., last week. He originally planned a fifth in Ithaca, but the auditorium became unavailable. Sexton sublet the engagements from George Wein operator of Storyville in Boston and promoter of the Newport (B.L.) Jazz Festival. Wein booked Brubeck's foursome for 16 dates. Schuyler was one of the heaviest talent splurgers in the history of Florida night club. His highest salary was the \$25,000 paid to Danny Kaye for the first week of his date and \$22,500 for his second week. At one time, the rivalry for names was so intense that he and the late Murray Weinger entered into a pact to operate one cafe between them, the Copa City, then owned by Weinger; and close the Beachcomber. That arrangement lasted for two years and then fell apart. Name wars resumed. He left the nitery field shortly afterward and the Beachcomber operation was taken over by his brother Norman, but it was never the big operation that it was under Ned's regime. Alan Gale & B'lyn T&C Call It a Day After 2 Days; Billy Vine Rushed In

day (14). Business was reportedly brutal.

The sudden end of the engagement came when Gale asked that he be permitted to do one show nightly instead of the two that he had been doing. Massik refused to consider such a proposition and so the agreement to terminate the engagement was reached, according to inside sources. With mutual ending of the pact, there will be no recourse either to the American Guild of Variety Artists or in the courts. Insiders report that there wasn't enough trade for one show on the night after the opening. Prior to the agreement to canel the deal, there had been some discussions with Gale as to the modus operandi of the Gale show. Maksik had asked Gale to cut down on the running time after the first night. Gale consented and eliminated one number of the dance team, and his surrounding

Maksik had asked Gale to cut down on the running time after the first night. Gale consented and eliminated one number of the dance team, and his surrounding acts had done less time as well. However, Gale's personal routines were nearly as long.

On Wednesday, Maksik put on the show with the supporting acts which include the Rover Boys (4), Will Gaines, Arnold Dover and Midge & Bill Haggett. Billy Vine worked three nights but had to report Monday (21) for a stand at the Holiday House, Pittsburgh.

The acts had been under contract to Gale but Maksik is taking over their contract during this period.

Gale's nitery appearances during the past few years have been in clubs which he operated. Thus, he was able to dictate policy, which in his case was always one-a-night, and there were several days off weekly. This was his policy when he operated the Carnival, at the Capitol Hotel, N. Y. (now a YUCA) and the now defunct La Martinique which he converted to the Celebrity Club. Rather than work in a cafe he didn't control in Chicago, Gale Jeased the Great Northern Theatre for a week, and became his own impresario. Maksik, however, has a two-show policy, and at times does three on weekends. The clash in policy, especially since business was slow for the first two nights, made the split almost inevitable.

Hotels, with the same number of singers for whom four inns were competing, suddenly find themselves in a position to choose attractions and at the same time be in a terrifically improved bargaining position. The hotels weren't able to take full advantage of the situation this year, since the Pierre announced the jettisoning of last year's policy at a time when most talent bills had been filled out. Employee Union's Pay-Pact-Punch Picket of AGVA

TICKEL UI AUVA

The Office Employees International Union, Local 153, found a lot of grievances against the American Guild of Variety Artists and threw a picket line around AGVA's offices in New York.

Grievances came to a head against AGVA last week when Jackie Bright, national administrative secretary, ordered members of Local 153 to sign in and out four times daily. Office workers objected on the ground that it was discriminatory against their members, and walked out.

Union members declare that Bright has thus far falled to come through with a \$2 weekly retroactive raise which was to have gone through last March, and he has stalled inking a new contract. Bright maintains that the sign-in and-out order was put into effect to eliminate abuses. However, union members say that the order was directed at them exclusively. Affected in the walkout are 11 members of the union.

Both the Office Employees International Union and AGVA are affiliated with the AFL-CIO.

The Jaycees charged the circus sold tickets at the gate far in excess of seating capacity of 4,300 after being notified that the Jaycees already had sold \$3,300 in advance ticket sales. Reinforcing a large number of city police already on duty at the circus grounds, sheriff's deputies swooped down on the circus boxoffice wagon after the first night performance. On Kazen's instructions, one deputy remained on guard at the only door to the boxoffice until the agreement was reached.

The Jaycees also claimed the circus was not honoring some advance sale tickets but was forcing holders to buy another general admission ticket, plus a reserved seat, and tax tax.

The circus cut its first performance to one hour and staged a second show to accommodate those unable to get in for the first. Many of the patrons were dissatisfied with the one-hour show which had been advertised as a two-and-a-halfhour performance.

Galvis said he was "very disappointed" with the settlement. The Jaycees were to get 10% of general admissions, but were paid only

The Havana niteries have been reported ready to drop quests for names during the tourist season. Their bollef had been that the Norte Americano turista coming to Havana would be more readily interested in well-presented native shows. However, with the excitement engendered by top as well as multiple names, fear is being expressed—that they will be lost unless they get some headliners as well.

The pending talent war in Hawana will also have its effect on the Miami Beach season. Flor'dn operators have been complaining that they will have a lot of difficulty in retaining some of the monied vacationers for long periods, since Havana with its casinos is only one hour or so away. With the impossibility of even sneak gambling in both Dade County, in which Miami Beach is located, and nearby Broward County, which used to have gaming tables, Miami Beach is reconciled to the temporary loss of some of the major spenders. with those of the hotels. The cafe purses are going higher, while there seems to be a diminishing of the hotel talent budgets. The number of names that can bring big business into cafes seems to be dwindling because of the encroachments of video. At the same time, the demand for these few names are going up, and with spots such as Brooklyn's Town & Country springing up with capacities large enough to pay acts as much as \$40,000 per week, as it did Jerry Lewis, the rise in prices of names seems to be on the upbeat.

Another difference is that while the supply of femme singers for hotels seems to be on the upbeat, the supply of cafe names seems to be diminishing. In New York, for example, a femme or two is generally in the sup of leaft or a

In addition, other sources such as disks and video can increase the supply of names for the inns.

. Etoliday on Fer (COLISEUM, FT. WAYNE) Ft. Wayne, Oct. 19. Morris Chalfen presentation directed by George & Ruth Tyson; choreographed and staged by Ches-ter Hale, assisted by Dolores Pallet; ter Hale, zassisted by Dolores Pattet; music, Ben Stabler; costumes Robert Mackintosh. With Murray Galbraith, Dorothy Goos, Jinz Clark, Rudy Richards, Sook & Roman, Frank Sawers, Jean Cheadle, Paul Andre, Tommy Collins, Williams Family, Kai Farrelli, Schaller Bros. (2). At Memorial Coliseum, Ft. Wayne, Oct. 15-20.

With only three major iceshow producers current in the field, "Holiday on Ice" takes on added importance. They have started to play arenas that had to be dropped with the rearrangements of schedules caused by the exit of the "Hollywood Ice Revue" and have graduated to the position where they must be regarded as one of the majors in the field. "Holiday" with this edition.

the majors in the field.

"Holiday," with this edition, takes a different approach than its other two contemporaries in the field. They have stressed action and a youthful accent in its offering, and thus they have a show that's lively, spirited and filled with some engaging numbers. The rapidly gaited proceedings have been directed by George & Ruth Tyson, vets in the iceshow field. Chester Hale, also a longtermer in the trappe productions, has staged and choreographed the proceedings.

ings.

In technical terms, this year's edition of "Holiday on Ice" has been lightly mounted so that movement could be stressed. The costuming for most numbers is designed to provide mobility in picturesque manner. There are two numbers, however, which show a heavy investment of coin. The "Alice in Toyland" number, with Jean Cheadle skating the title role, has a group of plastic animals which move about the ice entertainingly. The finale also has a set of lavish costumes; but most of the garb is designed not to hamper the line's movements.

There are a number of excellent

garb is designed not to namper the line's movements.

There are a number of excellent skaters in the group. Pairing of Jinx Clark and Rudy Richards makes for a graceful tandem that hits a peak in a calypso number. Miss Clark has ample opportunities for display in a wide variety of numbers that indicate an all-around excellence. Richards is similarly a jack of-all-trades on the blades. Another ballerina, Dorothy Goos, also make a favorable impression in two numbers. The major comedy is by Paul Andre, a youthful clown with a tremendous amount of vitality, who already seems a major league talent in this direction. His nautical number done as a solo, and the bricklayer seems a major league talent in this direction. His nautical number done as a solo, and the bricklayer bit with Tommy Collins, are highlights of the show. The adagio bit by vets Sook & Roman, needs some further polisch, but their comedy routine, a burlesque of the ultra-esthetic type of terping, comes off strongly.

Another act of merit is the Wil-

comes off strongly.

Another act of merit is the Willams family in which a four-year old skater, Debbie, works with the finesse of a pro. She's handled excellently in her routines by her parents. The father performs a wide variety of adagio tricks with the youngsters for show-stopping effects.

the youngsters for show-stopping effects.

Murray Galbraith's and Frank Sawer's work in the "Alladin" number also makes for picturesque viewing. The vaude acts are Kai Farrelli, a proficient juggler who can work as well on skates, and the Schaller Bros. (2) who get a lot of comedy out of the trampoline. The music, arranged and conducted by Ben Stabler, is one of the strongpolints of the show.

One of the innovations tried this year is introduction of a curtain which gives the entire proceedings a more theatrical effect. Much is still to be done if they are to continue to work with the drape. For example, the orchestra is frequently obscured. However, it permits more rapid gaiting of the show since subsequent numbers are readied in time to step on the appliance of the preceding act.

"Holday" is mounted more lightly than the bulk of the touring icers, but its entertainment values are heavyweight. Jose.

Katyna Ranieri's American debut in the Hotel Plaza's plush Persian Room is still a question mark as a boffo saloon trush, but there is no gainsaying hercharm and vocal prowess. Next time around she should do even better and may make the grade resoundingly if better tooled to her market.

In an ultra-modern gown, credited to Germana Marucelli (whose influence is more Christian Dior, with that unflattering "boxed look"), the attractive Miss Ranieri needlessly handicaps herself by not putting her best sartorial front forward. What's stylish is not always flattering.

change of pace must come from the language as well as the tunes. Repertoire ranges from a Neapolitan dialect song about the classic jester "Pierrot"; an Italian ballad about "it is never too late to love"; "Accaraezame" (Caress Me), "Arriverderci Roma" (no problem here), "Pulecenella" (song of a clown), "Cachito," a Spanish lullay she introduced in Mexico City and Hawana recently, Cole Porter's "I Love Paris" (only English item), "Le Petit 'Rat" in French this time, about ballerinas, affectionately known as 'rats' in Paris), a ballad in Italian, another about a Neapolitan girl who effects French airs after a first visit to Paris, "Canaglia" (song about a naughty, pretty girl), "Caroli Clo Clo" (gay girl of the 1920s), "Mattinata Florentima" (Morning in-Florence) and "Bueno Notta" (Good Night). All of these are in Italian, and all musical and easy-ou-the-ears. Only thing, in saloons, the customers don't want to go into any enforced Berlitzing-up on their foreign languages, so the chantootsies should make it easier on all concerned.

more more more as a single—and the promise, unfortunately, is almost completely unfulfilled.

Not that she doesn't still display the talent that won her attention, but the material assembled for this initial nitery effort is both weak and unsuitable. Her half-hour stint fails to catch fire and the accent is mistakenly placed on song rather than dance; the vocalizing should be used to complement her dance work rather than relegating the latter to a poor second place. She's best, for example, on a "Bo-jangles" tribute that rates attention, and a closing number to "Let's Face the Music and Dance displays her terp ability in the semi-longhair division to some effect. Latter, however, revised to a tap routine, would make a much better opener and set a pace that would enable her to develop. Song Rainbows' and a pair of poor special material entries, "Il Predict" and "The Bog," fail to meet the calibre of top nitery entertainment. Blame fails largely on the shoulders of her husband Alan Jeffreys and Maxwell Grant, who who the act, and Earl Barton, who staged it.

Mocambo is offering a double-bill with this layout, opening with comedian Peter Wood. He does a fast 20, rifling off some good storles that win guffaws before going into a lengthy bit that carries him through some well done dialects and winding with a takeoff on a beerhall community sing. The show at the Jules Fodell hospice is one that's seemingly loaded with surprises. In Martha Raye, who last exhibited in New York at a nitery roughly about 10 years ago, seems to hit her peak with straight singing rather than comedy, while a youngster named Steve Lawrence registers more strongly than any other new male singer has in a long while at any local nitery.

Miss Raye last appeared in N.Y. for a long run at the Harem, an ill-fated venture run jointily by Low Walters and Nat Harris. But she has retained her name status locally with her video appearances. She is still one of the top lady buffoons, but unfortunately, at times, forgets she's a lady. She'll work as hard as any male comic in drawing out the laughs and, if need be, she'll use male prerogatives in getting them. She's an essentially funny girl with a sharp sense of comedy, and one of the few distaffers in the business who can boff an audience with purely physical gags. However, she lets herself go too far at times, and while the laughs roome heavily, they're obtained at a very heavy price for her.

For an encore, Miss Raye goes into straight singing. Here she reveals a hitherto unprobed artistic facet of her career. She gives her tunes loving treatment showing sensitivity and deep feeling, revealing a side that she has rarely exhibited previously in N.Y. cafe appearances. The audience was moved tremendously by her tunes which included "Funny Valentine" and "World on a String," along with "Taking a Chance on Love." The contrasts in this girl are tremendous. She goes from low comedy to heights of sensitivity in one short evening, and comes off with great impact on the audience.

Lawrence, who has appeared on Steve Allen's "Tonight" and other video efforts, is a singer with style, and a performer with a big potential, More of him under New Acts. Four Barons are also described in that column.

The Copa production with Doug Coudy-routines holds excellently. Elaine Fleming is a strong solo dancer on the productive work, while Cindy Tyson and Sammy D

Wisely, he's dropped the femme kissing routine, because last time many husbands and h.f.'s took a dim view of the demonstration, especially when he left some of his makeup on faces and furs. Bix Belair Orch (11), Stan Sperber Trio; produced and staged by David Bines; \$1 admission.

To introduce their new format, partners Harry Holmok and Jack Suz are currently offering the longest and most varied revue ever presented in this 750-seater. With a show running close to 90 minutes, the Casino's new producer, David Bines, has worked in everything from sock sight acts to lavish spectacles that include a new pony line, four male dancers and a mixed quartet of singers.

Mere length, however, is not enough in this room and the layout needs sharp trimming to get back on a par with some of the other revues seen in this spot. The chirp sessions are too long and the music not interesting enough to hold; and Claire Young, although a gifted hoofer, seems overworked.

Outstanding of the featured performers is the work of the Cathalas who use an amazing collection of ladders and gimmicks to put the acrobatic femme half of team through several smash routines. Act is brief but impact solid. Senor Cortez, playing something that is a cross between a banjo and a mandolin (banjolin?), convinces with exuberance and volume as he works the Spanish items with a work's the Spanish items with a stee suave singer and Dean as the comic, duo click with new twists on some fairly familiar material. Dean's offbeat antics and quick thinking put him a cut above the usual comedian in the team setup. Jack Williams, besides teaming up with the singing quartet, does more chores handly, although sometimes weighted down with verbiage, and both distaffers in group are lookers and strong of voice. Bines has devised several dance sequences that have plenty of visual value and the four male terpsters do much to bolster the production efforts. Newt.

The Four Barons are a versatile singing and musical group who can hit it off well in caries and lounges. They work effectively, especially when accompanying themselves on a wide variety of instruments, with each of them able to handle work in the Local 802 department as well as vocalize.

The lads perhaps attempt too much for an opening spot at the Copacabana. They spread out in too many directions, so that once they start making headway in their songs, they switch to orchestral work. Their cafe act needs some redesigning before they can hit their maximum value. Jose.

more than a blaring voice to be a

even for a hot tune man and he
needs more experience in delivery.
In a medley of songs he patterns
himself after Fats Domino and the
contrast is quite glaring. White

his present styling he won't be

some of the amateurianness in his

Lawrence interlards his offerings

highly rhythmic "Lazy River." It's
a musiclan's trick, but is highly
effective here. His rhythmics are

A singer with much experience on the opera stages of Paris, Miss Tubianz is making her first cife try on this side of the Atlantic in the handsome Ritz Cafe. The switch from the boards to the boites is not too hapy a one at present for this diminutive blonde. Although possessing a voice that is obviously well-trained, the somewhat stitled manner and lack of showmanship necessary in an intimery such as this is evident throughout. Her lack of English, however, is hardly a handicap in this billingual room but the occasional attempt at something other than a Gallic song is a bit too phonetic at the moment and lacks conviction.

Appearance is good and the desire to please is ever apparent. An easier relationship between performer and customer and a revised songalog is needed if this thrush is to work any of the better U. S. cafes which her act indicates.

Judy Garland with Jimmy

Orch: Miss Garland's act staged,
and directed by Robert Alton and
Richard Barston; special lyrics and,
arrangements, Roger Edens; entire arrangements, Roger Edens; entire production: supervised by Sidney

Judy Garland, last seen in London six years ago at the Palladium, has returned in devasting triumph to the dolled-up, 3,000-seater Dominion which, except for a couple of special seasons, has for some years special seasons, has for some years been employed as a picture thea-tre. Aptiv billed as "Miss Show Business," she fills the second half of the bill with a brilliantly staged, irresistible production which lasts nearly an hour and leaves the audinearly an nour and leaves the audi-ence screaming eagerly for more. It is a lusty blend of sentiment and comedy and the ample Miss Gar-land's equally ample talent is fleeked with that special which floods a stage and marks an artist as a show biz "great."

as a show biz "great."
Miss Garland again reveals herself as a performer of terrific versatility. She can hush the customers with a tender ballad or a poplyric of almost banal sentimentality, and immediately set it guffawing with her genius for clowning. Her act scores resoundingly by the informal Garland touches which offset the fact that her routine has been tirelessly, astutely devised and rehearsed.

and rehearsed.

Though it is the sparkling Garland personality that dominates the show, she is by no means out there on her own. The singer is slickly abetted by three things—the skillful baton work of Gordon Jenkins, who inspires the able Bobby Howell orchestra. The witty, polished lyrics and special arrangement.

Jenkins, who inspires the able Bobby Howell orchestra. The witty, pollshed lyrics and special arrangements of Metro's Rogers Edens; the all-male line of 10 dancers-cum-singers (only nine on the first night) who, though ostensibly on view merely to fill in while the star changes her largely unfattering dresses, are agite, virile, witty young men with educated feet who are an entertainment in themselves.

An orchestral medley of Garland evergreens bows in the second segment and then the song-&-dance line remind the audience of how, on her last London appearance, she fell on her backside through sheer nerves. It is a sock opening—and from then on her success is assured. She starts with a specially written number called "it's Lovely To Be Back in London;" which skilfully drags in the names of various London suburbs, and follows this with "I Feel & Song Coming On." From then on songs come on with gay enthuslasm. Eight numbers follow, notably such old favorites as "Me and My Gal," "The Trolley Song," "The Man That Got Away" and "Rock-a-bye Baby."

Ii, "Man That Got Away" Miss

the American way of life is not only acutely funny but has a ring of sardonic truth. He is at his best when he dramatizes an American domestic scene which spotlights comestic scene which spotlights the problem of bringing up junior with the doubtful sid of a strew-ish wife. King insists that his act has no beginning and no end and that he's not so sure about the middle: But the audience is in no doubt. Alan King is a winner who-will be welcome back in U.K. at any time.

will be welcome back in U.K. at any time.

Remainder of bill does not measure up to general stellar standard. Holger & Dolores, U.S. dancers, are accomplished without offering overmuch originality. Nino, the wonder dog, earns big applause as the pooch adroitly balances on various-sized moving balls but also runs into some understandable audience resistance against animal acts. Albert & Les Ward work hard, but unrewardingly, in a comedy routine which involves vocal impressions and use of guitar, washboard and auto horns. Warren, Devine & Sparkes, as openers, are zany acrobats whose act is now over-familiar to average vaude audiences. The Dominion Theatre-orchestra, conducted by Bobby Howell, does a neat job in accompanying the supporting acts.

The Judy Garland season, is lasted for four and one half weeks.

panying the supporting acts.

The Judy Garland season is slated for four and one-half weeks. Unlike most vaude bills in Britain it is playing only once nightly, with two matinees. But since top prices are \$3-higher than even the Palladium has demanded—and, as a live show, it ducks the burden of entertainment tax, the Garland project will certainly coln money as well as being a smash personal her slick aides.

This one-week magical fest strings together a number of slick conjurors and illusionists from all over the world. Each of them would be acceptable individually in a vaude bill. silk scarves, artincial nowers ambirds appearing from walking canes, silding boxes.

Unlike an ordinary vaude show the lucky acts are the ones who get on first. At least, they make their impact and get off before the customers begin to think that they've seen it all before. Milbourne Christopher, one of U.S.'s ace magic men, is an urbane sharacter with a nice line in roper trickery and sleight-of-hand, but there had been bigger and apparently better ropery earlier on. Biggest personal success is scored by Phil Darben (from Oklahoma) and his partner Wendy.

Darben and his vivacious brunet aide do a slick, breezy act which involves tricks by whiplash, lariats and miniature boomerangs, laced together with some dry wit. One of Britain's top sorcerers, Robert Harbin, subbing for flu victim Benson Dulay, came on at short notice. He reveals himself as probably the best technician on the bill. He brings on audience to help his tricks and scores particularly when he "saws in half" an eager young woman from the stalls. But he lacks the personality to match his undoubted magical skill. Esme Levante, daughter of a renowned Australian magical family, is a handsome young woman whose clever tricks are marred by overstudied patter and a fairly ineffective stooge.

Live guests on the show will be Berle, Ernie Kovacs and Jack Webb. Berle will do a 5-minute serious turn on the exhaustive needs of the medium and how they are to be met—where will the new comics come from, for example. He'll work out of NBC's Studio 6B, the studio which was built for him when he was "Mr. Television." Kovacs, who's been under contract to all three webs, will talk about "the big break," in his case the half-hour show he did a year ago on NBC. Webb will discuss the impact of television on the motion picture business and the introduction of film to television.

Still another segment will be de-

Still another segment will be devoted to pickups from MBC affiliates in San Francisco, Detroit, Columbus (O.), Springfield (Mo.) to demonstrate the scope of local television and its position as a prime source of talent which eventually flows into network tv. Show later will return to some of those cities for visits with local tv critics to see whether in their opinion the medium has lived up to its promise.

Producer Herb Sussan, who conceived the show, says it will stress television's enormous impact and immediacy. An opening segment will comprise a pickup of the Marine Corps Anniversary Retreat ceremony from Washington as an example of television's ability to bring events into the livingroom as they are happening. And for a closing, the foreign-tv footage will stress television's greatest potential, according to Sussan—bringing greater understanding among the peoples of the world as different countries are linked together for regular pickups. Hardly to anybody's surprise, the new William Saroyan play at the tiny Bijou, "The Cave Dwellers," turns out to be very Saroyanesque. Partly realistic, and partly not, this is homilectics rendered as histrionics. It improves as it progresses and ends up rather touchingly sentimental in -its determination to find human beings lovable and gruesome poverty more state of mind than anything else. Helping its chances for whatever run k gets on Broadway is the fact that house and production are combined in the Messrs. Carmen Capalbo and Stanley Chase.

The time is the present and the

albo and Stanley Chase.

The time is the present and the setting is the stage of an old theatre about to be razed for a housing project. In tifts theatre there gathers a motley crew of vaguely unhappy people suggesting dereliets of rugged laissez faire days, since none apparently ever heard of a relief check and there is no sense that they exist in an economy of plenty. Saroyan does not attack the environment. He just caricatures it without seemingly intending to.

ing to.

It is the strange mingling of ghastly poverty and sweet-pathetic folk in a frame of reality from which reality is somehow excluded that makes "The Cave Dwellers" hard going, especially in the stark beginning of the first act, played against the actual brick wall of the stage. Saroyan includes a dream sequence in this act but the whole first act has a dream-like farawayness.

first act has a dream-like farawayness.

Capalbo's staging has been detailed both in zeal and imagination and to him belongs much credit for making this odd offering come alive despite its miasmic uncertainties. As with some Saroyan plays of the past there is incidental music provided offstage by piano, trumpet, clarinet and percussion. Composer is Brazillan Bernardo Segall but Capalbo shares the credit on one tune.

Hollywood veteran Wayne Morris, making his Broadway stage debut, shares the star billing with Barry Jones and Eugenie Leontovich. Morris plays a faded, gentle former puglist whose lifelong phobia—'How could I wim without killing my opponent?'—seems to be Saroyan's message for Act I, and for life, second only to his importance of love message. Morris, in a modulated, relaxed and likeable performance, was well received at the premier Saturday evening.

Barry Jones is technically and

Miss Harrison is another from Hollywood making her Broadway debut in the present instance. She, too. does well. Again the critical kudos may belong as much to the director, for the part could be an awful washout, the character being just that.

Saroyan has written his Act I climax in a spirit of mingled dread and religious symbolism. There is a wild beating and moaning at the door to the stage and a desperate struggle of conscience within whether to open the coor. It turns out to be a pregnant woman, her struggle of conscience within cunstances. The best giggles in the piece and survey and s

bear. Shades of Bethlehem, and we don't mean Pennsylvania.

The bear named Gorky is a wonderful job of stage getup and is played with a fine bearishness by Ronald Weyand. His distraught keeper, Gerald Hiken, carries part of the Saroyan message and his wife, who becomes a mother during intermission, babbles in ecstasy upon the joys of suckling her child. There is symbolism, aplenty, in the second act when Wayne Morris steals milk (to feed the mother, silly) and the milkman comes in hot pursuit. He turns out to be a handsome deafmute milkman (John Alderman) and falls in love at immediate sight of Miss Harrison. And that's the plot; other than kindness and love—not least by a tough foreman of wrecking crews, likeably played by Clifton James.

William Pitkin's design is perhaps most successful because it seems so lacking in design, like a building gone to rot. The non-descript costuming sweed together by Ruth Morley's seamstresses is art in patching. Because of the dividing of the action into sements, and because of the dream sequence, the importance of Lee Watson's lighting is to be saluted. If Saroyan ever condescends to write a plotted play in the realistic idiom he may crash through with a smash. But even after 20 years le still hampers his theatricality with his Jack-in-the-Pulpit obsessions. It says a great deal for his writing and for the direction and acting that "The Cave Dwellers' is ultimately rather engrossing. There are moments when it threatens to be boresomely hazy sermonizing.

killing my opponent?"—seems to be Saroyan's message for Act I and for life, second only to his importance of love message. Morris, in a modulated, relaxed and like-able performance, was well received at the premier Saturday evening.

Barry Jones is technically and human persuasive as the old hasbeen clown. Into his mouth, among four or five of the players, Saroyan has put many of his philosophical comments on life and human nature. As is usual with this author, the words are frequently glowing, often affectionate, essentially compassionate of the perverse pride of beggars and misfits. Kindness comes out the winner, though Saroyan is never too explicit in his preachment.

There is a moment when Eugenie Leontovich and Susan Harrison move to the edge of the stage and sit legs dangling over it, when it begins to loom as a civic responsibility for some playwright to dedicate himself to a vehicle for Miss Leontovich. Here is virtuosity in stage presence, timing and sheer flair. It may be that she fluffed one or two lines opening night. That's only a guess. More to the point is her agility when given a track to rum on for a few moments. Miss Leontovich can make the theatre superbly theatrical.

Miss Harrison is another from Hollywood making her Broadway debut in the present instance. She, too, does well. Again the critical kudos may belong as much to the director, for the part could be an awful washout, the character being just that.

Radio is seldom mentioned nowadays as a literary source in America, so one arresting fact about "Under Milk Wood" is its nowadays as a literary source in America, so one arresting fact about "Under Milk Wood" is its having been commissioned by and first performed on the BBC. Here is a special kind of import indeed—literary, offbeat, often distinguished, full of acid and bite, rich in earthy characterization. That such uniqueness in part fights prospective Broadway tenure is perhaps a bit sad. The play is fortunate to be in the Henry Miller, the right fit, and to be reasonably geared as to operating costs. That it could match its London run of six months is not expected.

The radio oxigin (viz., for ear alone) of the work is the measure of its dependence upon word and phrase. Seldom has a stage production demanded closer attention, for to lose the words, because of a movement or cough in the audience, is to lose contact. "Under Milk Wood" is free verse. It is rhetoric. Amidst so much verbalization the staging is almost extraneous visualization.

In his current posthumous vogue the Welsh poet Dylan Thomas is seen to have been language-intoxicated and a bawdy fellow along the way. The foundation here is not plot, not clash, not suspense, not the usual theatrical tricks at all. His vivid play is with words.

Can't Tell The Players In Opera

[EVEN WITH A PROGRAM]

[EVEN WITH A PROGRAM]

Opera reviewers on two of the metropolitan dailies last week misidentified male singers in the N. Y. City Center revival of the Spanish opera, 'La Vida Breve.' Such misidentifications are peculiarly possible with obscure operas or obscure singers and part of the danger is created by management in falling to provide unmistakable labelling, possibly because they are slaves to the original credits, no matter how unsatisfactory.

In the instance of 'La Vida Breve,' an important tenor (Paul Huddleston) was pegged only as 'Worker in the Forge' though there were several other singers there, too. Clearer identification would have been 'The Blacksmith'.

Since opera is still very much "on the make" in the U.S., why not make it as easy as possible for the peasants to feel at home? Tradition is not so sacred that it should perpetuate confusion. At almost any performance of almost any opera members of the audience can be heard conjecturing who's who on the stage.

When grandpa went to the theatre—legit or opera—he found the program credits fairly fulsome in setting forth the interpersonal relationships in the story. It was assumed that people were interested in the story and the characters and the program could help. Nowadays it's considered too uncosmopolitan to explain. If people don't know, let them suffer. Maybe when they don't feel at home, they'll decide to stay at home.

The trouble with professionals frequently is that they decline to condescend. It might help the boxofice, if they did. It couldn't, hurt.

veteran of 12 years of assistant conducting and now general director, did not awake to hate himself in the morning, the fate last autumn of Eric Leinsdorf who tried for a tour de force via a topicalized "Orpheus in the Underworld" and skidded into the worst set of pans ever handed opera on 55th Street.

Simply by avolding all hankypanky and would-be intellectual cabaret values, the Rudel regime was bound to get off the launching platform like it was headed somewhere. That the opening "Turandot" production was, with only trifling reservations, artistically firstrate assured happy notices for Rudel both as an official and as a conductor. To make the Center's joy more joyous there's the brandnew grant from the Ford Foundation thanks to which a spring season is in prospect.

"Turandot" was not quibe complete when its composer died. It is not Puccin's most popular work but shows him rising musically beyond his own earlier idlom. There is an almost Wagner-like concentration on story and score and no prearranged setups for the singers to invite or accept ovations. True to this spirit, Rudel whipped up the orchestra and rode down, Valkyrie fashion, an audience (or claque?) attempt to hold up the proceedings opening night for Giuseppe Gismondo, a tenor of much vocal felicity but some immaturity as an actor, who was making his debut.

The late H. A. Condell's scenery, now eight years old, was spruced up for the revival and the costumes were mostly new. These were satisfactory, Prince Calaf's getup excepted. (Hard to be dashing in that number.) A few little awkwardnesses, as with the banner at the ending and the stage business for Ping, Pang and Pong, do not discount the general competence of Vladimir Rosing's staging of the crowded scenes, given the shallow stage here.

stage here.

Singing was of a sustained excellence. Gismondo earned respect for his voice and Frances Yeend, her blondeness turned brunet for the occasion, reminded the audience that she is deservedly the center's de luxe diva. Adele Addison as the faithful sweetheart who commits suicide wrapped up the first at its ribbons and scored a personal triumph that should enhance her career. Joshua Hecht's Timur perhaps calls for the spotlight of special mention.

Law Vide Breve

To make a showcase for Jose Iturbi's U.S. debut last Thursday night (17) as an opera conductor, Micheal de Falla's 1905 Spanish opera, "La Vida Breve" (The Brief Life) fitted with the Center's function as (1) doer of the seldom done and (b) the town's equivalent of Opera Comique, which doesn't mean this was at all comical. The plot: gypsy madly loves upper-class snob who jilts her, whereupon the gypsy dies at his feet of a broken heart, spoiling his wedding party.

The de Falla score is rich in melody. It could well be popular with Americans if sufficiently exposed. It helps that there are openings for lively Spanish choreography, provided and led in this instance by Carola Goya and Matteo.

The stilted and dated book is a

Matteo.

The stillted and dated book is a drawback, however. It would perhaps be unfair to put too much blame on the staging (Jean Dalrymple's debut in opera) for there's not much to be done for a story with only one conflict incident. The borrowed (from Barcelona Opera) scenetyr of Manuel Muntanola was helpful, the hired costumes were serviceable though not the right fit for the towering cad (Richard Casilly), but the revival (last done 26 years ago at Met) was only moderately successful at the press opening, following a single preview performance.

Preceding was a curtain-raiser ballet of the same composer, "El Amor Brujo" on which there had been a last-minute switch of choreographer. Result was puzzling. Music was exquisite, but the dancers never quite began to dance. Just when it seemed likely there was another exit, One girl's routine was nothing but hand gestures. Typical of haste in production, the dancer called "The Spectre" (Don de Natalle) appeared in chalk-face with his neck showing his own fiesh—lazy-like on the makeup. Paris Dean of Mime at Actors' Studio

Etienne DeCroux Discusses Acting, Dancing And 'Horizontal' Emotion—What's With 'The Method'?

By ROBERT J. LANDRY

New York's much discussed-andsatirized Actors' Studio has imported from Paris the reputed
high priest of the art of mime,
Etienne Decroux. He's given four
lecture-demonstrations to date and
his, presence has given rise to the
buzz in the actor bottes of Broadway that "The Method" is being
expanded. This may be stating it
too broadly, but some sort of an
impact is implicit and some sort

or an experiment is in progress.

Decroux has introduced his concepts of modern mime in many of the chief cities of Europe. It is generally thought that he is in Manhattan because of the furore among students of acting caused by his pupil Marcel Marceau and the knowledge that Jean-Louis Barrault and Alvin Epstein also are pupils.

"The Method" is the popular name for the frame of reference at the Actors Studio. It is a way of life on the American stage. The studio which exists on the energies and largesse of Lee Strasberg, Elia Kazan and Cheryl Crawford (plus some benefits) does not accept enrollments, but extends invitations. It is not a school. rollments, but extends invitations. It is not a school. There are no classes.

The favored analogy is to a laboratory of emotion, with a group of pundits gathered for heavy pondering. This is where Etienne Decroux comes in. He is more than the "dean" of Paris mime; he is also its philosopher.

Speaking only French, Decroux was interviewed by this Variety character through the interpreter services of Dr. Saul Colin of Broadway's Senior Dramatic Workshop, where the visitor is also teaching. (Decroux will later hit some of the universities with dramatic technique curricula — and will be at the Actors' Studio at least four months.)

Decroux is a critic of acting first of all, and at a guess, far tougher than any of the critics now writing for the local public. His comments are larded with Gallie wit. Of dancers he remarks that their art is "vertical" and their interest centered on grace rather than emotion. "The lightness of their

Other attractions set for the Locust include "One Foot in the Door," June Havoc starring. Nov. 6; "The Genius and the Goddess," with Nancy Kelly and Alan Webly, Nov. 18; the Ballet Theatre, Nov. 25; "Damn Yankees," in a two-and-a-balf week return engagement, Dec. 26, and Sheppard Kerman's "Cut of the Axe," Jan. 13.

The First Nighters Club, a group organized for the Shubert managed houses which brings patrons into the sparsely attended early week performances, at \$1 per, doesn't apply any longer at the Locust. Dayls wants no part of the First Nighters and instead has signed up agents to seek group business and theatre parties for his house.

Other Dayls innovations include personal control with the hoveffice.

Other Davis innovations include personal contact with the boxoffice on all ticket inquiries; a new and liberal press policy with first and second night lists as in New York; and show buses (an automotive ver-sion of the show trains) to bring in customers from the upstate towns.

calling on Mayor John B. Hunes to arrange for the use of Loew's State Theatre, 3.500-seat film house, "for such cultural activities as the opera, ballet and musical shows in order that Boston may suffer no loss of cultural advantage or prestige" from the demise of the Boston Opera House. The resolution, filed by Councilor Gabriel F. Piemonte, was based on a proposal present in a column last week by Elliot Norton, drama critic of the Boston Daily Record. The suggestion that the theatre be used as a convention hall and cultural center until the city builds its planned auditorium on the side of the \$100.000.000 Prudential Life Insurance Co. project in the Back Bay.

He conferred with Loew's northeast division manager Charles Kurtzman, who announced, "If the city will rebate the taxes, I think I can arrange to let Boston have the thear without cost."

range to let Boston have the theatre without cost."

It would cost the city about \$50,000 to remodel the theatre to accommodate large musical productions. But, Kurtzman pointed out that on a percentage basis the Royal Balle', which used the theatre for only five days, would have had to pay the city \$30,000 as rent.

Ane Shubert House Left
The Shuberts, who formerly had virtually complete control of the Boston legit situation, are now down to the operation of a single theatre. Sale of the Colonial last week to Scarborough House left the once-dominant firm with only the Shubert Theatre: Only a few years ago they had six legit spots in the Hub.

years ago they had six legit spots in the Hub.

Last season the Majestic was leased as a film theatre and was renamed the Saxon. The Wilbur was dropped and reverted to New England Theatres. It's now operating as an ind'e legiter, with former Shubert local manager Michael J. Kavanagh doing the booking.

The Plymouth was leased earlier this season as a picture house, becoming the Gary. The Opera House was sold and is being demolished. The Copley, long dark, was leased as a filmery. And now the Colonial has been sold, at a reported price of \$1.250,000, or about \$400,000 more than the Shuberts paid for it in 1952.

The Shubert Theatre, still under the Shubert banner, has been the key legit house in Boston for many years. It seats 1,717 and is regarder as the choice location for musical shows.

RIVAL VERSIONS OF ANTIQUE 'SHULAMIT

Tel Aviv, Oct. 9.

The Israeli season has made a curious start with two of its repertory theatres premiering the same old operetta, "Shulamit" by Abraham Goldfadden, founder of the first 19th century Jewish theatre group and first author-composer of operettas in the Yiddish vernacular. Born in Poland 1840, Goldfadden took the Yiddish operetta all round the Eastern-European states but

took the Yiddish operetta all round the Eastern-European states but later emigrated to the United States and died in New York 1908. His rather showy-sentimental but theatrically effective plays with music have been revived in various forms periodically both in Israel and other countries. One of the Israel "Ohel" Theatre's greatest hits in the past decade was the revival of Goldfadden's "The Witch," in a new musical dressing by Jerusalem composer Marc Levry. At the same time, Do-Re-Mi director George Val has commissioned pop-song writers Mohar and Vilensky to compose a brand-new score for his own show-treatment of the same work, and premiere took place only three days after the "Ohel" performance. The Do-Re-Mi version has the great advantage of presenting a star in the name part. She is Shoshana Damari, Israel's most popular songstress in the oriental veln. Miss Damari is starred in a lavish production, complete with ballet. It is too early to say which version will prove most successful from public-favor and boxoffice angle.

Concert Reviews

Victoria De Los Angeles

Victoria De Ios Angeles

Back in the States for concertizing and Met Opera, the Spanish soprano met at Carnegie Hall last Friday (18) the equivalent of a fan club which literally never ceased to explode with thunderclaps at every exit, entrance and pause. The respect and appreciation manifest was, after the vocalist's artistry itself, one of the fairly stunning phenomena of the present generation of musical upper uppers. She's handled by Sol Hurok.

Given imaginative, sensitive and alert support at the piano by Paul Berl, Miss de los Angeles made it cream-smooth throughout a mixed program of German, Italian, Spanish and French songs. Re-stamping upon the New York audience her preeminence, and one of the decreasing number able to fill a hall this size purely solo, the only wish at variance with the programming might be one of two of dramatic Italian arias for change of pace from a certain lyrical sameness in her selections overall. Or is that rewriting a hit?

times metaphysical, sometimes exquisitely sarcastic. It is a kind of a word-game, demanding much of its audience and a questionmark for Broadway partly on that

account.

Action is in a Welsh fishing village, a program note accurately describing the play as "a midnight to midnight eavesdropping." An "Onlooker" serves to narrate and tie together the vignettes which utilize upper and lower cutouts left and right. There is use made, too, of the orchestra pit. When characters gaze out at the audience they are looking to sea.

The ordinata art. When that are ters gaze out at the audience they are looking to sea.

Donald Houston, first-featured in the 12 who get billing, opens cold, immediately commanding close attention to what the poet has to say. As a sheer feat of memory and rhetoric this is impressive, for he must deliver tens of thousands of words, or so it seems. Such an exhibition is rarely viewed on the boards of the local playhouses. An occasional tendency to look at the boards of the local playhouses. An occasional tendency to look at the eigher tendency to look at the collection of the company is something very definitely to remark and part of the highly resourceful production of Douglas Cleverdon, also BBC.

Douglas Cleverdon, also BBC.

The village characters are on the quaint side but they come alive, however, patchquilt the work sometimes is with scenery, lights and tempo to worry about. Thomas is obsessed with men who love harlots, with the rut-bound humans off workaday life in a village. His comments on human character dip to the vulgar but always ring true. He was not a mellow chap and there is none of the bitter-sweet melancholia that marked "Our Town," the play to which every reviewer in Manhattan has made there is none of the bitter-sweet melancholia that marked "Our Town," the play to which every reviewer in Manhattan has made reference. Thomas finds many of his similes in pigsties and swill. He has also some Walt Whitman fondness for weaving the names of things, and the shapes, into the text.

ner has also some want whithing fondness for weaving the names of things, and the shapes, into the text.

A little gem of caricature is the running vignette of the henpecked husband who dreams gorily of poisoning his spouse. Another fine penetration is of two spinsters, one male, one female, who nightly write each other endearing love letters but clearly have not the slightest intention of ever consummating. Much of the poet's blasting of sham centres on people too prissy for living.

Singling out the players for comment is high impossible in justice. As this is a team of talents. The true star is the author. The leading rhetorician has already been ammed. The top-scoring actress, blana Maddox, promiscuous but not ignoble village wench, hits target by her beguiling rendition of an incidental song.

Francis Compton, recently at this house as the stern justice in "Witness For the Prosecution," departs notably from his string of English butlers and stern officials to depict an old sea captain, now blind and awaiting death, who broods on his lusty youth and his harlot sweetheart whose memory he has present Catherine Dolan. There is much to laugh at. The main fault is the absence of a

single unifying point of view. Certainly it is enriching to the season to have such a poet brought to life. Thomas flashes with wordfire, he splashes with word-prank and it is a prod to the imagination. To the director, to stage designer Raymond Sovey, to Kathryn Miller's costuming, to the company and to the stage manager, Bert Gruver, high marks for professionalism. To the producers here, Gilbert Miller and Rogers Stevens, credit for courage.

Those who will like "Under Milk Wood" may like it effusively. The commercially-conditioned prophet must express a qualm that New York ticket prices and free verse may not mix explosively.

Miss Venuta, with "also starring" billing (Joan Blondell exited the role out of town), handles the part of Miss Walker's pony-playing mom in the antiquated manner apparently dictated throughout in the Marc Daniels staging. Although Miss Venuta used to be a belter, neither she nor the other principals have bellringing voices that might otherwise bring the more ambitious song numbers to the fore. Dick Williams, however (in his Broadway debut, and of the silck ex-Kay Thompson & Williams Bros. cafe act), as the musiciannitery owner handles a couple of romantic songs with busky excellence and manages to fill competently such thespic duties as he has.

Alice Pearce and Alan Bunce, as the school principal and police captain, are given few opportunities to display their particular styles of comedy attack, and the other roles are minor or quick-flash. Inside Stuff—Legit

Jason Robards Jr. apparently jumped the gun in telling the N.Y. Times that he'd been invited to appear in two plays at the Stratford (Ont.) Shakespeare Festival next summer. Michael Langham, Bardfest's artistic director, has revealed that he had written Robards, currently featured on Broadway in "Long Day's Journey Into Night," about coming to Stratford, but had not asked him to do any particular role. He said he considered Robards an actor "considerably neglected."

The Times musted Robards as saving he would put Prices But In the Considerably neglected."

The Times quoted Robards as saying he would play Prince Hal in-"Henry IV, Part I" and a role in another play not yet chosen. The play named, however, will be one of three done next summer, though fes-tival heads hadn't planned to announce it until later.

If Robards is signed, he'll be the second U.S.-born actor to appear at Stratford. Ont., in six seasons (next summer is the sixth). First was Irene Worth, whose appearances have mostly been in London, but who is currently playing title role of "Mary Stuart" at the Phoenix Theatre, N.Y.

(Robards' personal pressagents, the firm of Solters, O'Rourke & Sabinson, announced Monday (21) that the actor "has accepted the offer of director Michael Langham to appear in two of the three productions at next summer's Stratford (Ont.) Shakespeare Festival."

Present Boston season remains unaffected by the sale of the Colonial Theatre by the Shuberts to Scarborough House, New York, for \$1,250,000, it was reported there. The 1,500-seat Colonial was opened in 1900 and has been owned by the Shuberts since 1952. Sale of the theatre was confirmed in New York by John Shubert, who said it was the same group which bought the St. James Theatre in New York. Scarborough House is a company formed by an official of the Minnesota Mining & Mig. Co. of St. Paul, Minn.

The Colonial, under lease, is managed by Louis Cline. The theatre was once-overed by reps of the purchasers last week and a report circulated that the new owners plan to bring a road company of "My Fair Lady" in for extended stay.

Name listings are now more conspicuously used as "filler" between ads and there is an apparent reduction in actor biography

What's believed to have been the first stage performance of Harley Granvile-Barker's play. "The Secret Life," was given last Saturday night (19) by a cast of students and faculty members of Williams College, at the Adams Memorial Theatre on the campus at Williamstown, Mass. The late British playwright is believed to have gotten the idea for the work while a resident in Williamstown in 1916. One scene of the play is generally assumed to be the college town and one of the characters is said to have been modeled on a Williams professor of the time. the time.

Three plays in Paris concern either satirically or seriously, the American way of life. All revolve around such obvious American targets as Hollywood, over hygienic aspects, materialism etc. Two are by French authors, Marcel Ayme and Jacques Deval, and one is Clifford Odets, "The Big Knife" (Le Grand Couteau) as adapted by Jean Renoir.

Ronald Mavor, son of the late dramatist James Bridie, is new drama critic of The Scotsman, Edinburgh. By coincidence his first assignment was to review his father's play "Dr. Angelus" at the local Gateway Theatre. He gave it a good notice.

Walter Winchell's column observes, "We have no idea what salary the best critic gets in New York now. When Gilbert Gabriel covered the first nights for the N.Y. Sun he led Variety's Box-Score. His week-ly salary was \$90."

Decroux himself offered no observations on the Actors' Studio. This is Varuery speaking: He seems to be an apostle of "style" and "elegance" and his influence, and his appearance in the U.S. may therefor be one more evidence that "mumbling" and "itching" a la Marion Brando is fading from fashion. the testimonials add up to \$10,000,000 in annual advertising billings.

Elsa Maxwell has done it again with her new "how to" book, in a field where she's the alltime champ in the do-ityourself field—entertaining. Formal title of this Little, Brown publication (\$4.75) is "How to Do It, or The Lively Art of Entertaining." It's a lively book about people in the lively arts, the international set, royalty, et al., and Miss Maxwell is as much at home there as she's currently on Jack Paar's NBC-TY "Tonight" program. Her "RSVP: Elsa Maxwell's Own Story" was a bestseller and this an extension thereof, replete with people, placey personalities; with intimate closeups on the famed and fortunate; and, since the art of good eating is a pereguisite of partying, for once her "name" recipe-givers read like they are really revealing their personal "Sisters (and Hrothers) of the Skillet" routines. What's more, it's real cray cuisine, and the most sated disciples of the fancy grocery circuits will dig some of the off-beat dishes that the sundry politicos, pundits and show biz personalities haye contributed.

cos, pundits and show biz personalities have contributed.

"Be My Guest" by Conrad Hilton (Prentice-Hall; \$4.95) is an ebullient memoir that sounds so much like himself that it's a credit to Elaine St. Johns, who assisted, for capturing Hilton's first-personsingular so authoritatively. The famed hotelier credits John Joseph, his public relations counsellor, with "trapping" him into writing his autobiography, especially in face of two existing biogs on "The Man Who Bought the Waldorf," but it reflects so much personal bounce that it has a special character of its own. The Hilton sags, of course, is one of the 20th success stories in the best Horatio Alger tradition. As Hilton reveals in his preface, with credits to Olive Wakeman.and Ruth Hilman, his executive amanuenses, they must have had those "boxes upon boxes executive amanuenses, they must have had those "boxes upon boxes of material" very well organized, for their boss to wade through, because the 370-page book contains a lot. Not the least is Hilton's predilection for dancing and "no work after six,"

his staunchness for the church, and of course his business acumen.
William Attaway's "Calypso Song Book," gaily illustrated by Bill Charmatz, selected and edited by Lyle Kenyon Engel (McGraw-Hill; \$2.95), is what the title states, an exposition of the recent Caribbean song vogue. The tunes, mostly originals and also including a number of traditional folk songs and titles, are copyrighted by Calypso Music, if intended for public performance.

SCULLY'S SCRAPBOOK

****** By Frank Scully **

One of the drawbacks of airplanes as opposed to luggers is that be-

One of the drawbacks of airplanes as opposed to luggers is that before you can write about faraway places with sweet sounding names, you're home. What's more, everybody knows you're home and you can't go on writing as if you weren't.

One solution is to write the name of the town on the top of the page and fill in the rest later. That way at least you can't be charged with faking the whole column.

Twenty-five years ago I used to do a column for Variety called The European Runaround. I wrote it mostly from Nice, France, but one day Sime said it was a funny thing that while the columns were dated Vienna, Berlin, Paris, Rome, London and so on, they always seemed to be mailed from Nice.

Doned Datelines

day Sime said it was a funny thing that while the columns were dated Vienna, Berlin, Paris, Rome, London and so on, they always seemed to be mailed from Nice.

Doped Datelines

The explanation of this was simple In those days everybody came to the Riviera and while there they were relaxed and talkative, more so than they would have been if I actually had trapped them in the capitals where they operated. Since the stories dealt with the places indicated by the datelines, I cut to the chase and put them there.

Since perjury, however, has become the No. 1 crime in America, even venial sins of this character may get a guy from one to five years, and all the jails are not as comfortable as that Federal Country Club at Danbury, Conn. So I may as well confess that this is not being written in Ireland or even New Hampshire but Little Old New York where Broadway on a Sunday morning is more dirty and disorderly than Minsky's idea of burlesque.

They wash down the pavements but not the sidewalks. Why not wash them down, Bob? Cleanliness may be next to godliness, but not as far as the Sidewalks of New York are concerned. It's a nice schmaltzy song and maybe everybody could sweep to it. The comparison will simply have to be odious but in capitals abroad they wash down the sidewalks as well as the streets.

Well, they do in Oslo, Copenhagen, Rome, Nice and Dublin, Ireland that is, not New Hampshire. I don't know a thing about Dublin, N.H. The capital of Eire was jammed with British scientist, 2,000 of tiem. What they were doing there may not come out for a century. One rumor (mine) was that they were planting Strontium 90 in all the hotels to settle the Irish Question once and for all.

Maxwell Sweeney, our boy in Dublin, who also airs his pearl-shaped tones over the nation's radio, found us a room in a hotel that was half up and half down. It was on Parnell Square, after a picture of the same name I guess, and was staffed wholly by women. Except for Sweeney (who has a Mac in front of his name, which he hides for some reaso

Iris conee on him but he acted as it we were ohering him Strontum 50. We had some, even so, and it was better than they make in San Francisco.

I started throwing names at him. Dalky ... Rathfarnum. These were places where Shaw had once lived. He said he'd take us there.

Joyce Dreary Tower

We drove through drizzle, sunshine, downpours that made even Mr. Sweeney pull up to the roadside and ultimately came upon a beach which had a small round tower. "Where James Joyce once lived," our guide explained. Though it was the first time I had ever been to Ireland, I remembered the place from pictures.

On the way out we drove past St. Patrick's cathedral where Jonathan Swift was once dean. "His desk is still there," he said. "Want to see it?"

"No," I said. "Not till the British give the church back to the Irish." "They wouldn't take it," he said.

We came to a beach resort. "How do you pronounce that?" I asked. It was spelled Dun Laoghaire.

"O'Leary," he said.
"Did you ever see a picture called 'The Hills of Ireland'?" I asked. "Harry Dugan made it. He opened it in Boston in the Fine Arts Theatre, a house that had been sluttered for five years and had three small flights of stairs at the entrance."

"A fine way to test a picture," Sweeney said.

Exhibbers The Heavies Again
"It grossed \$6,000 in its first week. And then he ran into Holy Week. The Irish won't go to a picture, even about Ireland, during Holy Week. It seemed it was cheaper for the people to wait than for Dugan. His beef was that the people he met while producing the picture were of a fairly high level but the characters he met in the field of distribution and most of all in exhibition were unbelievable."

"Not to me," said Mr. Sweeney.

"They'd inform him that everything was taken care of but really nothing was attended to. He had to watch the projection, collect the tickets, and even clean out the restrooms. He said the exhibition end of the biz was the sickest and saddest of all."

"I can well believe it," said Mr. Sweeney. "But that was in America, o

A Peat Fire—That's Home

He said nothing but walked us into the little brick house. There we met his wife and three girls. We also met a glowing peat fire in the fireplace. It was the most welcome sight in all Ireland. And I can add a England, France and Norway and not be committing any perjury.

Soon we were being ushered into the dining room. There was spread the highest tea ever I saw. It was a meal set for kings. And why not? Weren't the Mac Sweeneys and the O'Sculys descended from them? After dinner we returned to the peat fire and kicked the whole world around for an hour or two. We had a grand time. He woudn't hear of our taking a cab home. He drove us through some more rain and there in Parnell Square we said. goodbye to one grand Irishman. Some Geometry For Travelers

The next day we left for Scotland. I had remembered that the square of the hypotenuse is equal to the sum of the square of the other two sides, so it was no longer, if you were a square, to fly from Dublin to glasgow than from London to Glasgow. The only hitch was that we had a 21-hour layover in Glasgow and then had to 'take a bus and ride sight of Glasgow but except for the mist and rain we had a good time, we walked the crowded streets and came upon a picture house called the Cramston. The best seats cost 50c and they had a lift to take you to them.

Wagner feels that the general at-mosphere of theatres—plus bro-ken seats, no ushers and faulty sound and projection — makes theatre-going "unacceptable" to a theatre-going "unacceptable" to a large segment of the public. "Putting great pictures that represent investments of millions of dollars and years of effort in these big theatres that are nothing more than mausoleums is no different than buying a diamond at Tiffany's and having it put in a paper bag," Wanger declared.

Why Not Sidelines?

Wanger said his intention was not to be destructive, but that he saw no reason why these large theatres with their great areas of space "could not be utilized for space "could not be utilized for merchandising purposes." By this, he meant the installation of taste-fully furnished booths or arcades where comestics, records, books and other products could be sold. and other products could be sold.
"If this type of merchandising became successful," he said, "perhaps every picture would not have
to be a blockbuster. Then the industry could afford to take chances
with experimental films."

Wanger also called for greater interest by the Government in the motion picture industry. "We must find a way to get greater recognition from the Government," he declared, "because American films are so important in the international market."

tional market."

The veteran producer deplored the complaints about the lack of suitable film material. "There's plenty around in books and originals," he said. "All the industry needs is the guts to make some of them." He called attention to change in the concept of glamor. "With modern cosmetics, almost any girl can look glamorous," he said. "Therefore, we cannot knock over the public with physical animals alone. We have to give them something more." something more.'

wanger also complained about all the talk about cutting costs and throwing out waste in the picture industry. "It's just a question of semantics," he said. "This business doesn't even have any money for research and it's the one business that needs it most."

Wanger, now associated with Joe Mankiewicz's Figaro Production, came to N.Y. to discuss plans for his next production — "Barbara," his next production — "Barl which will star Susan Hay Film is based on a series of paper stories concerning a femme who participated in a San Fran-cisco murder and was sentenced to the gas chamber.

Met Preems Season With 'Onegin,' Ermine, Vodka, Russe Diplomats

In the present age of inflation, stay-at-home, do-dryourself, democracy and television, Manhattan almost literally has only one truly plush "premiere" each season, namely the opening each fail of the Metropolitan Opera House. At this year's event, last Monday night (28), the hordes of women reporters to mark the ermines and the tiaras and the special guards to protect them, were standard for the occasion, but a novelty was the presence of Russian diplomats come to hear "Eugene Onegin" sung in English.

To indulge in a bit of premature floatagia, this was possibly the fifth-to-last season of the Met at the present dirty-yellow brick edifice smack in the garment district. The house was sold out at \$35 per parquet pew and scalped up to \$90. A lorgnette flung in any direction might hit a duke, count, haronet or an elder statesman in mink-collared overcoat. The boxoffice take for the evening was \$74,777.50.

This figures \$775 under lest fall's premiere. It's explained, despite the sellout, as due to the larger number of tickets deadheaded. Under the Bing regime, each (Continued on page 80) In the present age of inflation,

Shifting of emphasis to Coast originations on television dramas, including the live shows, may have serious repercussions in its effect on legit stage performers. It's considered entirely possible that, out of sheer desperation, a good segment of the Broadway "population" may have no alternative but to join the westward-ho ranks and make Hollywood their major base of operation.

Over the past decade, the legitimate theatre thesp has come to put more and more reliance on tv assignments, notably in the area of live dramatic vehicles, in getting him over the financial hump in what otherwise would be at best, a precarious existence. Even if he were engaged in a Broadway play, that "doubling up" into video dramatics (as previously radio) madeall the difference in keeping pace with high-cost-of-living standards, and even without a Broadway en-

Noting the smash take, importers this week said they fully expected the gross to have its effects on the French in that it bears out the theory of some, i.e., that the really successful imports must be cued more towards sex than art. "We'll probably get a cycle of 'sex' pictures now," was one comment. It's pointed out, at the same time that sexploitational content alone doesn't necessarily make for b.o., to which some not-so-successful entries this past summer can aftest.

There won't be any comedians before long—in any field of entertainment—unless something is done to correct the situation quick. Steve Allen served up that opinion, along with a possible cure, to some 350 broadcasters and ad agency exces last week at a New York luncheon given by Pulse Inc., the research firm.

Allen recommended a "farm system" for comedians whereby networks would provide their owned stations to develop a new breed of funnyman. Speech was based on a bylined article Allen has composed for the December issue of Atlantia Monthly.

Three or four semesters in radio, away from the pressure of ratings, could give young comedians and new comedy scribes an opportunity to get set before being moved into the bigtime tv firing lines, according to Allen.

Allen, in both his partially adlibbed talk for Pulse and in his forthcoming mag article, dissected comedy in all fields, and the outlook he put forth was mighty dim. Comedians who are still in bis despite a downward trend in the demand for their services "are subject to increasingly heavy attack from critics, audiences, rating-services and from the vaguely deformed.

Biggest Potential Yet In Indie Radio's Bid For Negro Audiences

Nearly 18,000,000 Negroes are making Negro-market independent radio the biggest it has ever been in at least 25 urban areas across the country. Income levels of Negro families are reportedly growing rapidly, and the combined factors of population and economic strength led to a special copyright report to over 800 radio stations by Radio Advertising Bureau, which gives some indication of how extensive listening is these days.

The Modern Medicine Man

This is the era of the personality salesman" observes Yaleman "This is the era of the personality salesman" observes Yaleman Lanny Ross who, as is detailed in the story herewith, has been "going steady with radio for 25 years." He speculates, "Imagine Jessica Dragonette doing a commercial today!" But Ross has no illusions about it. In short, he has the realistic concept that, in this latterday era of the electronic medicine showman, the public not only doesn't look askance at the pitch for the sponsor's product but, in fact, fully expects it.

This may be a far cry from the Indian snake-oil and the "magic cure" belts peddled off the backs of trucks by the color-ful, itinerant medicine shows that played the prairie and not-so-ful and circuits in the not-so-distant past. Once again, the more things change etc. But, primarily, in this era of electronic huckstering the performer who recognizes the shifts in the trends is the one who will last. Lanny Ross' staying powers for a quarter-of-a-century, and still a potent force in this "oldfashioned thing called radio," is.a tribute to the "personality salesman" which he so vividily personlifes. which he so vividly personifies.

Scientists, politicians and showmen alike have been commenting here on the axiom, proved anew, that "music unites the hearts and minds of all mankind." This was vidily evidenced during Robert Stolz's "A Night in Vienna" concent when the Assembly Hall, where the Atomic Energy Conference has been meeting, and which is regarded as extra territorial, was converted into a concert hall. The tables at which the delegates have been sitting in grim confabs on fission served same delegates sitting there at night, this time with the ladies in formal attire. Representatives from over 50 nations gave full indication that music, especially the waltz genre, crosses all boundaries and appeals universally.

It was the idea of Dr. Ludwig Gruber, president of the Conference and Austria's ambassador to the U.S., that the delegates to the atomic conference, the diplomatic corps and members of the government be treated to a Stolz night. Lehar, Kalman, Straus are gone. Last week saw the passing of Dr. Ralph Benatsky in a Swiss nursing home. Robert Stolz is the last of the Viennese waltz kings surviving. UNITED ARTISTS TURNS EXHI

LOUIS B. MAYER

Another pioneer is gone. The ranks of the giants of the picture business, the colorful, adventuresome traibblazers of a then infant industry, succumb to the actuarial statistics. In the perspective of time the film industry they forged created an impact never equalled-and that includes television.

You can be the king of the Nielsens but you're a secret in a Sayoy Grill or the Ritz Bar compared to some yesteryear Laurel & Hardy or Leo Carrillo. Such is the magic of cellulold. Such has been the import of America's best known export—Holly-

And it was the L. B. Mayers with their stable of stars which created the global boxoffice impact. No cracks about L. B.'s "arrogance" detracts from his pioneering. His role was unique.

It was in his era, with his "three or four Notre Dame teams of stars, producers and directors" that money was no object because money always brought back bigger dividends. Louis B. Mayer once said to a Varery man, "Don't you know that I call Culver City "the Valley of Metro Retakes' and, if it's not right, I shoot it and re-shoot it, until it's right for the boxoffice?" (This was after a criticism of a Marion Davies picture which had greatly upset W. R. Hearst).

It was Louis B. Mayer whose name was part of the name of the most potent film production and distribution powerhouse in the history of the motion picture business. All of which dwarfs his latterday hurt pride and anger against successor manage-ments. The glory that was Metro-Goldwyn-Mayer under Louis B. Mayer can never be erased from the record.

Mayer Dies 'In Exile' From Films

Once 'King of Hollywood' and a Power In National Politics Succumbs To Leukemia

Louis B. (for Burt) Mayer, symbol of Hollywood In its heyday and one of the founders of Metro-Goldwyn-Mayer, died in Hollywood yesterday (Tues.) of leukemia. He was 72. He had been ill for several months. Death came at the UCLA Medical Center.

Medical Center.

Mayer, immigrant boy whose keen business sense, imagination and eye for talent, helped develop the world's biggest motion picture studio, was perhaps the most important single figure in the industry's growing pains days. He invented and developed the star system, bringing to Metro (and occasionally to personal contract to himself) a roster of boxoffice luminaries whose names still figure importantly in film annals.

He also brought to Metro Irving

He also brought to Metro Irving Thalberg, still regarded as the industry's most creative producer. It was in this skill at developing personalities and executives that Mayer excelled; that and his shrewd talent for negotiation and dealing with people.

Anecdotes of his business dealings are many; they're as famous as tales of how he was able to turn on the charm and tears alternately in order to get what he wanted in a-deal.

Born in Minsk, Russia, he was brought to St. John, New Brunswick, at the age of three, and was in business at eight, lugging a little red wagon loaded with junk behind him. The junk business led him into ship salvage, which forced expansion of his activities to Boston where he saw and became enthraled with flickering images at nickelodeons.

A newspaper ad in 1907 offering a small Haverhill, Mass., theatre for sale launched him on his motion picture career. He bought the rundown house, refurnished it installed an organ, one of the first in theatres. It was a move typical of the subsequent Mayer incentive to try something new in an effort to keep abreast, or even ahead, of changing public tastes in entertainment.

Against all precedent, Mayer flux the deal with the rundowl his new cellultry with the

changing public tastes in entertainment.

Against all precedent, Mayer launched his new activity with the hand-tinted "Passion Play," opening the film on Christmas Day. Success of the show, with Mayer concentrating on clean, salable entertainment, gradually forced a revolution in the motion picture industry, pushing it out of ranks of a freak attraction into its eventual position as one of major industries of the world.

Gradually Mayer added to his theatre holdings, eventually developing a chain of theatres, a move which subsequently forced him into his greatest career as, a

production executive. Dissatisfied with the product he was getting, he began booking leading stage attractions and other adjuncts. He created his own repertory company and finally decided he needed to be in better position to acquire product. So he formed the American Feature Film Co., located in Boston, which served houses in six New England states besides his own. With this affected, he became the biggest film booker in country. Simultaneously, his judgment on films began-to be recognized. His audacious buying of pix was always justified. It became automatic that Mayer could measure to within the small percentage point the final gross of films. Thus, his bid on "Birth cof-a Nation," which his competition considered would be ruinous for him, actually sharply appraised the true worth of the picture and made him a fortune before he was 30.

"Nation" also convinced him the public was ready for seture films.

fortune before he was 30.

"Nation" also convinced him the public was ready for feature films. With a group of showmen he organized Metro Films in 1915. At first, he remained east, keeping only a long distance eye on production. But after two years, dissatisfied both with the quantity and quality of productions, he trekked west, set up Louis B. Mayer Productions, and began a production career that continued actively for almost a quarter of a century until, after a series of disagreements, he walked out of his offices at Metro-Goldwyn-Mayer never to return.

Short and stocky, a man who

offices at Metro-Goldwyn-Mayer never to return.

Short and stocky, a man who never for a minute forgot the power of his position and acted accordingly, Mayer was a bundle of emotion. His temper was invariably uncertain and he rarely bothered controlling it. He was not noted for consideration or concern re the impact of his behavior. Once, in an argument in his office, he ran around his desk and pumched a producer in the nose. His relations with the press weren't improved by the episode of his marriage in 1948, when he "ducked," the reporters. Some extremely unflattering stories were written about him in consequence.

He was positive in his opinions.

Actors Salaries Defended; Worth Them, Sez Goetz

Hollywood, Oct. 29.

"Actors are worth every cent they can get," producer William Goetz declared here in deriding the concurrent contentions that actors' salaries—and the demands of actors' agents—were ruining the rilm business. It can't be ruined, he added, because "it's here to stay."

A high-priced star, he pointed out, adds more to the potential gross of a film than a lack-lustre star and the investment is more than justifed. In the case of his own, "Sayonara," for example, Goetz is paying Marion Brando 10% of the gross. It's cheaper, he figures, than paying an actor with a lesser draw a smaller salary.

Goetz figures that if he is able to return Brando \$1,500,000 to \$2,000,000 under the deal—and he thinks this is a distinct possibility—the film will have grossed that much more money.

Goetz has made a similar per-

The U.S. Air Force's mighty B-52 bomber is the real star of this Warner production, which carries a human story of only middling interest. Visual insight is given for the first time on screen of the world's largest, highest and fastest-flying eight-jet intercontinental Stratofortress. Some of the footage is almost breathtaking in scope as a result of highly effective color photography. With the name of Natalie Wood to attract younger generation and exploitation beamed at more mature auddences, the film at more mature audiences, the film should do okay biz in general mar-ket but would have benefitted con-siderably by tighter editing.

set but would nave benefited considerably by tighter editing.

Heavy focusing of the Irving Wallace screenplay upon a trifiling plotline in building to the real guts of the picture, a trial run of the new B-52 from a California air base to Africa and return, militates against attention subject rates until the winding reels. A story of a feud between father and daughter, as latter insists that parent, a top ground crew chief, leave the struce he's been in for 20 years and a romance between father's commanding officer and the daughter, are dragged in. ter, are dragged in. Interest lies with the B-52 sequences to compensate for cluttered scripting.

In his direction of the Richard Whorf production, Gordon Douglas socks over the exciting elements and generates good suspense as the returning B-52 is threatened with fire disaster. Camera work by William Clothier and aerial photography by Harold E. Wellman lend particular interest. America's air might as displayed by B-52s in flight formation is well and stirringly pictured.

Karl Malden makes the most of his character, torn between love of duty and love of family, but is called upon for some pretty silly antics in attempted comedy sequences which paint him as an anxious father worried over his daughter staying out late on a date with Efrem Zimbalist, Jr.. Zimbalist, in his role as Malden's commanding officer, who pilots the B-52 on its African flight and saferly brings the ship in desp'te free is an interesting newcomer who shows promises. Natalie Wood has little to do but be petulant as the daughter, but Marsha Hunt is warm as a service wife, who understands Malden's problems. Hefty support is afforded by Don Kelly, Nelson Leigh, Stuart Whitman and Michael Emmet in various service roles.

Technical departments are well handled generally. Leonard Rosenman's music score contributes, Leo K Kuter's art direction registers' and Thomas Reilly's editing, while prolonged in story sequences, tightens during final air reels.

Based upon a legend of the Himalayas, this British import has been imaginatively produced to embrace strange elements. Subject bears good exploitation potential and is a suitable entry for the adventure market. Pic will be paok-aged in release with "Ghost Diver" (also reviewed here).

The Authern Baring production

aged in release with "Ghost Diver" talso reviewed here).

The Aubrey Baring production takes its theme from tales brought thack by Himalayan climbing expeditions—which have received wide front-page coverage—of mysterious figures in the upper levels known as "Abominable Snowmen," whose giant footprints reportedly have been seen but never the creatures themselves. In his story and screenlay, in which he draws on Lhamphale of the control of

self. Unfoldment is logical and exciting at times.

Forrest Tucker and Peter Cushing top the cast, former as an American adventurer who heads the party, latter an English hotanist with climbing experience. Both give substance to their roles, with Cushing the sole survivor of the expedition. Arnold Marle competently portrays the head of a Lhamasery possessed of occult powers. Maureen Connell scores as Cushing's wife and Richard Wattis is okay as his assistant. Michael Brill, Wolfe Morris and Robert Brown also lend capable support. Photography bf Arthur Grant is interesting and Bill Lenny's tight editing and Humphrey Searles music score are additional assets.

"How to Murder a Rich Uncle," a provocative title presents dry humor in such a way that it emerges smart adult comedy. Film and subject are a trifle English but should be well received.

should be well received.

Produced and scripted by Hollywood writer John Paxton in England under the Warwick banner, yarn is a departure from the usual Warwick brand of product, which in the past has cleaved to action melodrama. Topic twirls around the efforts of an impoverished British nobleman, Nigel Patrick to away with his wealthy uncle in from Canada, as the only "honerable" way to meet his debts.

Somehow, however, these efforts

able" way to meet his debts.

Somehow, however, these efforts seem to continually backfire, and one by one his family begins to drop off, each, meeting the tragic—and violent—and meant for the uncle, played by Charles Coburn. When the always-forgetful noblemen himself is killed by a Rube Goldberg setup, a shotgun pointing straight at the uncle's bedroom door attached by a thread between trigger and door-handle, Coburn is arrested and tried for murder of his doting family but finally is cleared by an elderly cousin.

Comic aspects of the idea are

his doting family but finally is cleared by an elderly cousin.

Comic aspects of the idea are richly fulfilled, the film also being a spoof on British nobility and their refusal to enter trade even as a last resort. Patrick, who also directs for subtle effect, creates a lasting impression as the stuffy and somewhat ingenious nobleman fully convinced he can get away with his plan of murder. It's his picture, rather than Coburn's, in for a good piece of work but in a more conventional role.

A highly capable cast support, headed by Wendy Hiller as Patrick's absent-minded spouse, one of the victims. Athene Seyler is outstanding as Patrick's mother, another victim; Kenneth Fortescue caricatures the dim-witted son, who takes the uncle's place on Patrick's death calendar; and Katie Johnson is excellent as the elderly spinster responsible for Coburn's acquittal. Patricia Webster, in role of the family, scores brightly and Antony Newley is a good character as her boyfriend, an amateur crimno'ogist.

"The Bolshol Ballet" is, necessarily, a specialized pic and though the pic should be assured of a hearty welcome in arty houses, it would be a bold speculator who would risk it in a broader market. Nevertheless, such is the quality of this standout ballet film that it may well appear even to those to whom ballet is either a mystery or a bore.

whom ballet is either a mystery or a bore.
Paul Czinner has done a service to ballet fans in capturing for the screen the alluring Galina Ulanova, one of the top exponents to terpsichore. She is admirably supported by the Bolshoi Theatre Ballet Co. The film is in two sections. The first half consists of six short baltets while the second half is the longer ballet, "Giselle," with music by A. Adam.

with the invigorating "Dance of the Tartars" from Asafiev's "Fountain of Bakhchiserai." Next comes the Spanish dance from Tschaikowsky's "Swan Lake," followed by an enchanting duet by L. Bogomalova and S. Vlasova called, "Spring Water," by Rachmaninoff. Entire balter company does "Polonaise and Gracovienne" from Glinka's "Ivan Susanin." Ulanova makes, her first appearance in Saint-Saens' "Dying Swan." Madame Ulanova dapces with superb grace and artistry and this dance is a fitting prelude for the films second half which consists entirely of "Giselle."

sists entirely of "Giselle."
There is no doubt that everybody connected with this film has done a great job. The Eastmancolor is magnificent and the colorful costumes and decor are well served by the lensing of F. B. Onions. The entire effect is exhilarating. L. Lavrovsky is responsible for the choreography and the screen version of "Giselle." He has been aided by the shrewd editing of Phillp Hudsmith.

But the film stands or falls by

Hudsmitt.

But the film stands or falls by the dancing of Ulanova, and even those not technically competent to indre of its quality must respond to its grace. The obvious point arises that for those who are not ballet addicts the entertainment will seem much too long. The varied music, played superbly by the Royal Opera House Covent Garden orchestra, conducted maint by Yuri Faier, is a delight to the ear. All in all, "The Bolshoi Ballet" has come off as an artistic achievement even if it does not fare equally well at the boxoffice.

With a fair quota of chases, fisticuffs and gun duels in the footage, "Escape From San Quentin" shapes up as a routine meller for the action market. To insure teenage attention producer Sam Katzman has tossed the top role in this Columbia release to disk artist 70hnny Desmond. He offers an exploitable peg of sorts.

As written by Raymond T. Marcus, the yarn recounts the escape of three cons from a San Quentin prison farm. Ringleader in the break is hardened criminal Richard Devon. despite a beating from Devon.

Before the law closes in for the inevitable recapture, Desmond finds some romantic interest in Merry Anders. She's the younger sister of his wife Peggy Maley who's suing him for divorce. She's also more or less an innocent by-stander in some suspenseful scenes that outline desperate attempts of Devon to arrange a rendezvous with his father who has \$119,000

bevon to arrange a rendezvous with his father who has \$119,000 stashed away.

Fred Sears' direction helps point up the action and suspense, but can't get more than a passable performance out of Desmond who's making his second screen appearance with this stint. Singer appealingly warbles "Lonely Lament," a ballad of his own composition and the film's lone tune. With further experience, handsome vocal'st's thesping may match the quality of his voice.

A pert blonde, Miss Anders capably handles the romantic requirements of her role. As the badistic desperado, Devon turns in a credible characterization with the proper emotional overtones. Okay

Lepnard H. Goldenson, distressed over present-day picture re-leasing patterns, would like schedules so arranged that exhibitors could plan their programming up to a year in advance. In this was, he points out, the quality pictures could be spaced apart among the gimmick and exploitation product. The AB-PT president and v.p. Edward L. Hyman also feel that "orderly" releasing of the expensive productions shouldn't have the distributors taking all the risks. In turn for receiving a big en-try in a dull season, the exhibs should give top terms and choice playing time.

Allied Asking Distribs to Specify 'Clearance' Period (in years) From Theatrical Release to TV Exposure

Kiamesha Lake, Oct, 29.
Allied States Assn. will petition the major film distributors to set a fixed term of years as the minimal time before current theatrical motion pictures will be sold for clevision. Purpose is to beat the growing public impression that current films will "soon" be available for free on home sets. Exhibitors wish to be in a position to advertise a pledge to the contrary.

In advance of the Allied conven-tion itself, its Board voted a com-mittee to wait upon the distribu-tors, find out their thinking and endeavor to seat a "clearance" of years—exact number not specified year's—exact at this time.

President Julius Gordon explained that Allied is not objecting to ultimate disposal of subsidiary rights to video but wants "protection" for theatres which charge substantial admissions.

ALLIED CALLS GOVT. MEDICS

Kiamesha Lake, Oct. 29.
Proposal that Federal government come to aid of nation's film theatres which are "as sick as it is possible to be and still live" was made at opening session of Allied States Assn. convention at Concord States Assn. convention at Concord Hotel here yesterday (Mon.). Prexy Julius Gordon in his keynote address made the dramatic appeal. He urged "Allied, in association with all other film theatre groups, go to Washington "and ask for retroactive accelerated depreciation for past ten years."

past ten years."

Gordon pointed out that for first five years of past decade the vast majority of theatres paid enormous taxes to government from profits "as well as acting as collection agency for hundreds of millions in admission taxes." He stressed that during these profitable years theatres were only allowed normal rate of depreciation against taxes since "government then had every right to believe that depreciation life" of theatres would be a long one.

Such assumption however proved incorrect and exhibitors now have "single purpose buildings with single purposes equipment which is obsolete."

He pointed out that Uncle Sam

He pointed out that Uncle Sam has come to aid of other business with similar difficulties and saw no reason why it would not look on proposal favorably if it is presented properly. Spelling out his plan Gordon said it'd result in this:

(1) It would mean that theatres could apply accelerated depreciation retroactively against taxable profits in previous years and thus be entitled to immediate credit against those taxes paid and collectable now.

against those taxes paid and collectable now.

(2) If as result of this concession, theatres were able to improve or survive until better times government would not be loser for it would use up future depreciation and on future profits taxes would be higher because theatres would have less depreciation to deduct from profits.

(3) It would even benefit film producers for they would again have solvent customers.

(4)—If theatres have no future profits then it is only right "under our tax theories and under our system of government" that theatres had been allowed to charge off investment during their useuable life Speaker cited examples of government concessions to oil, airlines, shipping, lumber and cattle industries. He noted too that many industrial plants have been built in last 15 years with accelerated depreciation allowance based on theory that because they were built (Continued on page 21)

It isn't so that Paramount's acquisition of the Esquire Theatre, Chicago, is "morally at variance" with the industry antitrust decrees aimed at concentration of power and restrictive marketing conditions. As, a matter of fact, states Par western sales manager Sidney Depeau, purchase of the house will serve to open up a territorial book-ing situation in such a manner as to benefit. Entrance of several strong bills is causing local first-run trade to pick up in current round, making it the best in last seven weeks. Prospect is for a good \$243,000, plus another. \$146,700 from three openers in nabes and ozoners.
"Pal Joey" is leading the field with a smash \$38,000 at the Egyptian, opening three days hitting a house record for a regular pic, of \$20,000. "10 Commandments," in first multiple showing here at three houses, looks fine \$38,000.
"Man of 1,000 Faces" with "Forbidden Interlude" is beaming for a mild \$11,000 in three houses but getting a big boost of an additional \$53,000 in three nabes. eight ozoners. "Battle Stripe" and "Armored Attack." reissue combo, is hefty \$19,300 in three first-runs plus another \$65,700 in three nabe houses and seven drive-ins.
"Raintree County" is rated slow \$16,500 in third Warner Beverly round but city's other hard-tix pix are sharp. "My Man Godfrey" leads regular holdovers at the Chinese.

Minneapolis, Oct. 29.

Boxoffice results, for the most part, continue very spotty but some spots shape better. Plenty of transients were in evidence during the weekend when Minnesotan Michigan football game, pulling a 65,500 capacity crowd, diverted attention from cinemas, hurting considerably because regionally televised. Newcomers "Operation Mad Bail" looms nice. "Three Faces of Eve" shapes rousing. "Perri" looks okay. Still very much on the plus side are the holdovers—"Seven Wonders of World." "Around World in 80 Days" and "Joker Is Wild," in 64th, 16th and third stanzas, respectively.

'Raintree' Boffo 21G in Dull Hub

Boston, Oct. 29.

Increase of Asian flu cases is sloughing first-run trade again this week, with some of lowest grosses in weeks. "Three Faces of Eve" is fairly good at the Memorial. "Devil's Hairpin" is only fair at Paramount and Fenway. "Raintree County" on hardticket policy at Astor looks great after smash opening round. "Joker Is Wild" is big in third "Joker Is Wild" is big in third

Astor looks great opening round.

"Joker Is Wild" is big in third round at Memorial... "Seven Wonders" is perking in its 62d week at the Boston as announcements of newcomer being made. "Brothers in Law" is holding strong at the Exeter in its fourth week. "Around World" is steady in its orbit at the Saxon, 30th week, biggest thing in town.

'Raintree' Brisk \$12,000 in L'ville

Louisville, Oct. 29.

Louisville, Oct. 29.
Downtown film houses are getting lots of competition from shows at the Kentucky Fair Grounds and Exposition Center. Tee-off of ice hockey, football, Rollér Derby at the Armory, all are bidding for trade. "Invisible Boy" can hardly be seen boxoffice-wise at Loew's. "Raintree County" in fourth stanza at the Brown is maintaining a good pace. "Land Unknown" looks medium at Rialto. Holdover of "Joker is Wild" at the Kentucky is socko.

Estimates for This Week

A couple of strong entries this season make a sharp contrast with sagging holdovers. Flu scare, however, still argues against top expectations.

ever, still argues against top expectations.

"Raintree County" at the Mc-Vickers is near capacity \$40,000, softened as usual for first week roadshows by initial compilmentary admissions. Heavily publicized "Pal Joey" shapes a mighty \$51,000 at the State-Lake to start. On the arty scene, "Devil's General" should garner a hefty \$4,400 at the Sunf, and "Lover's Net" is nice \$5,000 at the Ziegfeld.

"From Hell It Came" and "Distembodled" looks good \$5,000 at the Grand.

"Unknown Land" "Cyclops" holds for a tidy second. "Online Grands as a poor-to-moderate. "Until They Sall" gained over early first week indications but is only slim is second at the Chicago. Less active is "Three Faces of Eye," suffering at the Oriental through second frame although bolstered by "sneak previews."

Third-weekers are holding well.

second frame although bolstered by "sneak previews."

Third-weekers are holding well. "Armored Aftack" "Battle Stripe" is first action combo in some time to rate three weeks downtown and looks okay at the Garrick. "Perri" at the Loop, also third, is nice. "Joker Is Wild" is best of long-termers, doing solid fifth at the United Artists. A fourth frame arty, "Stella," bucking the trend, is nice at the World.

Veteran roadshows are steady. "Seven Wonders" is nice for 45th at the Palace and "Around World" is sock for 30th round at Todd's Cinestage.

'Taming of Shrew' a Hit

"Taming of Shrew' a Hist
One of the season's biggest legit
hits is a loose adaptation of "The
Taming of the Shrew." Another,
in for a probable fine run, is the
little performed "Pericles, Prince
De Tyr." The former was given
a free adaptation by Jacques Audieberti and is at the Theatre Athenee. The latter is a rigid translation by Leon Ruth at the Theatre
Ambigu.

"Shrew" is the first rep piece of the new company formed by actors Pierre Brasseur and Suzanne Flon, but, since they will not alternate plays and will run things as long plays and will run things as long as they are successful, this one looks easily to do the season. It is bawdy, loud and true to the mood of its original. Brasseur is perfect as the blustering Petrucchio who tames his shrew while Miss Flon is a fine foil as the harridan who turns into a lamb. This is high theatre, well done, and drew fine reviews.

"Pericles" gets expert mounting

drew fine reviews.

"Pericles" gets expert mounting and a big cast makes this exciting. This is heightened by expert technical prowess and acting.

The 40-year-old Louis Verneuil play, "Pour Avoir Adrienne" is an old boulevard play that gets its mothball appearance removed by the deft threesome of Micheline Presile, Jean Poiret and Michel Serrault. Play is not for Broadway rault. Play is not for Broadway but has a run in store here. It is at the Comedie-Caumartin.

French Indie Film Makers Form Co-op

Paris, Oct. 22.

To fight restrictive, mounting film production costs, four indepen-dent filmmakers have banded to-gether to form a co-operative outfit gether to form a co-operative outfit called the Independent Producers' Group. Members are Jacques Bar, Henri Berard, Raymond Borderle and Raymond Forment. All will maintain complete independence though they will pool funds to back each other's pix and share in benefits.

This merger will allow for possibly renting studio space anunally, pacting stars for long periods and buying up enough film stock which the lone producer cannot usually do here. Each producer will confer with others on properties and actual maker will get a certain share with the rest also getting an in on the overall domestic and international take.

Top Dollar Earner, Also Big in British Economy

Edinburgh, Oct. 22.

The International Edinburgh Festival, well supported by Ameri-cans, is not only a top dollar earner but is also a major factor in the cans, is not only a top dollar earner but is also a major factor in the British economy, according to a report by the Scottish Tourist Board. Bulk of overseas visitors come from the U.S., Canada, and the Commonwealth countries. In 1956, they totalled 27,880.

A substantial number would travel on ships and airliners owned and operated by British companies, meaning \$16,728,000 worth of business for these companies. It's estimated that the 37,357 overseas, visitors to the 1956 Festival would have spent some \$3,362,130.

Summarizing what the festival has done for Edinburgh, the report says:

That no other event has done more to bring people to Edinburgh from all parts of the world: That it has resulted in Edinburgh becoming one of the major conference centers in Britain.

Of special show biz interest is the disclosure that all the gains for the International Drama and Music Festival were made "without a costly publicity campaign." The average yearly sum spent on it is \$24,000.

PAKISTAN FILM PROD. HIT BY GOVT. ACTION

Karachi, Oct. 22.
When Pakistan came into existence in 1947, studios that were owned by Hindus, who migrated to India, were declared evacuee properties and were subsequently allotted to different parties. One such studio was recently sealed by the government on the plea of non-payment of rental charge for a number of months. number of months.

This has seriously hit the production side of the industry. Already there is little floor space available and the sealing of this studio has further aggravated the situation. It is, however, expected that the government will decide the issue therether.

shortly.

In face of this blow to the industry, the import of 17 Indian films has been permitted by the government. It is very difficult for Pakistani films to compete with the Indian ones and the release of the new Indian pix is expected to have an adverse effect on the industry.

Scot Unions Fight For Sun. Double Time

For Sun. Double Time
Glasgow, Oct. 22.
Staffs of Scot cinemas are protesting through their trade union against a plan by cinema exhibs to lower the present payment for Sunday work. At present staffs garner a double rate on the Sabbath, with a guaranteed minimum of five hours' employment. Proposed cut would hit over 9,000 workers, including projectionists, usherettes, and cashier in 560 cinemas.
Union leaders estimate that, if double time for Sundays is abolished, it would mean a loss of overtime ranging from \$3.50 for some workers to \$9 a week for chief projectionists.

The biggest row ever between the Cinematograph Exhibitors Assn. and a British studio is brew-ing over the proposed sale by Ealing Films of its pre-1946 back-log to commercial tele. If the deal log to commercial fele. If the deal goes through, there may be countrywide action by theatre owners against the studio company. The Ealing deal embraces between 30 and 106 feature films which the studio is prepared to make available to ABC-TV for a ope-slot screening under a franchise arrangement.

when the news of the deal first leaked just over a fortnight ago, the question was debated as a matter of urgency at the CEA general council meeting. Since then the association's president, George Singleton, supported by other officers, has been having formal talks with Ealing toppers and with Sir Phillp Warter, president of Associated British Picture Corp. parent company of ABG-TV. The initial discussions between the CEA and Ealing executives were suspended last week, because both Major Reginald P. Baker and Sir Michael Balcon were flu victims.

Balcon were flu victims.

From all over the country at exhibitor meetings there is a unanimous reaction against the deal. However, if the studio and the network ignore the exhibitor protests, the theatre men are certain to take action on their own account which would probably culminate with a booking boycott of all Ealing's current output.

Ealing Films, who would receive over \$500,000 if the deal goes through, insists all films involved in the package have exhausted their theatrical lives. The exhibs reject that viewpoint and claim that oldles, which have no theatrical value make attractive tv programs and seriously nique the box office. The CEA standpoint on this sixue dates back to 1952 when the association decided it would decline to trade with any production or distributing company which made its output available for tv.

Goldenson Scorns 'Sheep Minds'

Time to Stop Floundering-Too Many Gimmicks Of Doubtful Realism to Par Circuit Chief

By GENE ARNEEL

Leonard H. Goldenson, president American Broadcasting-Paramount Theatres, deploring intratrade conditions in the picture bus-iness today, flatly stated that "if a position of statemanship can't be taken by the current leaders they ought to get out."

He wants to know: "Are sheep running this business, or leaders?"

Goldenson unleashed his barrage against those in command the covered all segments of the industry but the main focal point of his blast was the film company presidents) within the course of a discussion this week on distribution schedules.

schedules.

The film trade has hung crepe around itself while radio, which not long ago appeared doomed, is having its most prosperous year, said AB-PT chief exec. He attributed the audio medium's success to "einhusiasm and drive—it was not going to be licked."

going to be licked."

Goldenson and Edward L. Hyman, AB-PT vp., placed the blame for much of the trade's ills on the doorstep of the distribs. Latter were rapped for concentrating to releases in only the holiday periods.

ods.

Goldenson flatly stated he will not go along with any industry-wide promotional schemes, as now in work, unless the film companies adopt "orderly release" schedules. The usually placid but now fighting and exec underscored that "you can't fool the public," coupling this with the observation that all the adjustments can be finde.

publicity and bally in the world won't lure the customers unless they're offered a steady diet of pic-ture fare,

Instead, noted Hyman (who has made the matter the subject of a personal crusade for the past several years), the distribs send out note quality pictures than can be absorbed July 4, Labor Day, Christmas and Easter. "You can't get a quart into a pint bottle," he reasons.

Again on the subject of the trade's projected bally gimmicks, Goldenson insists that the only way to draw the public is to provide the talent along with the right kind of merchandising A relatively short time ago the television broadcasting division of AB-PT had on its programming roster Walter Winchell and Ozzie & Harriet in the "name" category. The network's audience was small and the solution obvious: build up the log. This was done.

The two execs pointed to 12 features of unusual boxoffice appeal set for sale around the New York holidays and Hyman said he "can right of the sale around the the sale holidays and Hyman said he "can visualize a tremendous rat race" among the distribs for preferential playing time. If some of this product were marketed presently, or sometime during the Labor Day-Christmas Iull, the advantages would be strong for everyone, they state.

Boston, Oct. 29: Roughly \$40,000,000 for recreation is spent annually in the U.S. it was revealed at the 29th anni Conference on Distribution in Boston at Hotel Statler.

Donald M. Hobart, senior veep and director of research, Curtis Pub. Co., who spoke on the impact of increasing leisure upon modern marketing cited an exhaustive study published by the 20th Cen-tury Fund (Filene) in 1955.

tury Fund (Filene) in 1955.
Fund reported that purely recreational expenditures in America now average nearly \$11,060,000,000 a year. In addition's to his, \$12,000,000,000 is spent on vacation travel; \$8,100,000,000 on liquor; \$5,000,000,000 for sports clothes, candy, chewing gum and solidrinks. Totaling this, the report estimated roughly \$40,000,000,000.

"The new leisure has meant a great upsurge of business in the service industries, and almost every industry directed at the consumer is sharing in the increase," Hobart said.

He noted that people have turned from being producers for the better part of their lives to being active consumers. For all the necessities and luxuries their increased leisure calls for."
He concluded: "The new leisure menaces many of our old fashioned values and threatens some of the old ways of doing business. On the other hand, it offers limitless promise to the manufacturer and the retailer who will take advantage of the rich market it affords."

The SPG feels that the WB reversal is due largely to the immediate campaign launched by the union in seeking support from both within and without the industry. The Gulld sent letters to indie producers associated with WB, warning that their pictures would not get the full advantage of a complete pub-ad campaign and that unionites in general might be lined up against the picture. A majority of Barcelona managers vetoed the Aguilar recommendations. Some were miffed at Aguilar for having secretly initiated talks that led to the favorable Spanish distrib vote. Aguilar flew to Paris and, backed by Universal's European manager, John Spires, succeeded in reversing the Continental thumbsdown report. Noted Spanish legalite and MPEA counsel here, Gregorio Maranon, carried the Agular message to N. Y. with favorable results. But it was only after a loss of three weeks, that the top echelon of the MPEA pyramid finally decided to approve. Then it was to find, according to very reliable sources, that the tide had shifted in Spain to such extent that it was no longer considered judicious to publicize the fact and possibly rick more loss of face.

MPEA circles here say the three-week delay gave local forces opposed to a pact the mobilization time necessary to head off settlement sentiment among local distribs. Distrib exces who had voted favorably in Barcelona were seeing things differently.

Producers who urgently campaigned to bring back MPEA films and consequently import license pesetas to alleviate a serious production fund shortage, were given government assurance that the fund deficit would be met from other sources. To top it all, RKO sold out and simultaneously opened its film vaults to supply the Spanish market. It is still too early to read all the implication of the RKO defection but industry voices here say that, for the time being anyway, it has heavily obscured near future chances of a Spain-MPEA pact, so clearly and brightly visible one month ago.

Divorce Themes Among Most Upsetting

The time approaches for the annual lesson in the A-B-C's of the Roman Catholic Legion of Decency film ratings. The A's represent no controversial question and the C's are usually relatively rare. So attention is typically focused on the number of B's tagged. Churchmen sometimes interpret a rise in B's as a lowering in film "morality" whereas showmen study the Catholic data for clues to the emphases of the Legion.

(VARETY's count is its own, it should be noted. The Legion's own tabulation, not available to this publication, will probably show closer to 420 films were reviewed, including about 80° from abroad. The Legion classifies pictures as to "foreign" or "domestic" by its own system. Discrepancy between the two sets of data as they may be lined up in a couple of weeks is perhaps due to a time overlap on the "Legion" year.—Ed.)

Official Legion figures will be released generally followed the November meeting in Washington of the committee of American bishops which rule the organization. Meanwhile here is the educated guess:

During the 12 months in question, the Legion reviewed a grand total of 394 features, of which 347 were American, 19 British and 28 in various foreign languages. Of these 394, which in itself is the highest figure since 1952, the Legion rated 128 films (32%) in its "il" (Morally Objectionable in Part for All) category. Catholics, in theory, are supposed to shy away from B-rated pix, but in practice it appears to offer no deterrent to Catholic moviegoers and few theatres will nix a picture because it carries a B tag.

"Baby Doll"

The Legion also rated 142 films (36%) as A-1 (okay for general patronage), 113 (29%) A-11 (Morally Unobjectable for Adults) and 11 (30%) C or condemmed. Actually, only one American-made film—Warners' "Baby Doll"—feit the sting of Roman Catholic condemnation. The remaining 10 were all foreign-language imports.

The Legion had its busiest year since 1952 when it reviewed 446 features. In 1955-56, it reviewed only 328 films of which 80—or 24.39%—were B-rated, 98 (29

film, except in the condemned category.

American-Made
For instance, the Legion in 1956-57 reviewed a total of 347 American-made productions. The breakdown was 128 in A-1 (37%), 105 in A-11 (30%), 113 Bs (32%) and one condemned. Last year, 269 domestic features were seen by the Legion reviewers. The number of Bs amounted to 23/05%, A-1 was 32.71%, A-11 43.50% and the single C rating accounted for .37%. In 1955, however, Bs stood

at 33.45% of the whole, the highest figure to that date.

At the foreign end, The 15 B-rated films (out of a

At the foreign end, The 15 B-rated films (out of a total of 47 pix) accounted for 30% and the 10 Cs made up 21% of the ratio. A number of the pictures condemned by the U.S. Legion had been acclaimed by Catholics in Europe.

Just what causes the increase in the B ratio, whether it is due to greater strictness on the part of the Legion or to laxness on the part of the Production Code, is open for argument. It is a fact that the "B" total is actually worse than it looks on paper since a large slice of the year's most important productions ended up with a B tag. Even the Radio City Music Hall ended up playing a B-rated picture Metro's "Les Girls," a practice of which it had stered clear in the past. Rating appeared to have little effect on the boxoffice. Another "B" film played by the Hall was "Pajama Game."

B-For-Basket?

The lack of definition inherent in the B ratings

The lack of definition inherent in the B ratings bothers even some Catholic observers close to the scene. They argue that the category is a "catch-all," taking in films embodying minor objections and those that just escape a C tag. Also, a B rating at times is handed out for reasons that would bother only Catholice. only Catholics.

times is handed out for reasons that would bother only Catholics.

For instance, Bing Crosby's "Man on Fire" got a B as representing "sympathetic treatment and justification of remarriage," among other things. Quite a number of films get B-rated by the Legion because they "reflect the acceptability of divorce" (which, after all, is legal in most of the 48 states). Yet, in one instance, Metro's "Seventh Sin." the Legion rated the film A-II, noting that "the principle of divorce as employed in this film is to be construed in terms of dramatic conflict." Foreign film importers have long complained that the Legion doesn't exhibit such flexibility when it comes to the overseas pix.

At times, a very small change can spell the difference between a B rating and a C. Latter very definitely can hurt a picture, particularly in the hinterlands. "Love in the Afternoon" (Allied Artists) was threatened with a C until the producers agreed to insert a final commentary indicating that the two principals (Audrey Hepburn and Gary Cooper) planned to marry.

Since the Legion evaluates pictures solely on the

Since the Legion evaluates pictures solely on the basis of their moral qualities, i.e. the impact not as entertainment, but as "good" or "evil" on the (Catholic) beholder, it frequently emphasizes the ultimate "lesson" implied in a story and, more than the Code, insists on strict balance and the "proper" Topiculusion.

The Legion in several instances has B-rated films on the grounds that their stories did not represent material that made for proper screen entertainment. On the other hand, it's noted that, in 1956-57, the Legion's objections on the grounds of "excessive brutality" were fewer than during the two preceding years.

Eden' Defeat May Prod Law's Revision

Court of Appeals here on Thurs (24) denied a motion by Charles A. Brind, counsel for the Regents and the State Dept. of Education, to reargue the merits of the film "Garden of Eden." This may clear way for a reappraisal of the State's licensing law.

The subject of law revision has been under study since last spring. when the Appellate Division unanimously ruled the Regents could not, under recent U.S. Supreme Court decisions, bar "Garden of Eden."

Sol A. Rosenblatt, Excelsior Pictures attorney, in a brief replying to one earlier filed by Brind, attacked the circumstances under which the motion to reargue was heard, and the alleged "delaying" reactics of the Regents' counsel and the Broad. Rosenblatt asserted pro-censorites had no real hope of pre-vailing and took the reargument course, only to prevent his client from filling a number of drive-in dates this season.

dates this season.

Brind sought to have the Court of Appeals hear him forally, and also to slate the Regent's appeal on "Lady Chatterly's Lover"—in which the Appellate Division unraimously reversed the Board, after the Court of Appeals' decision on "Garden of Eden"—at the same time. The French-made picture was banned as "immoral," in toto, the Regents declaring that it made adultery an acceptable pattern of behavior. The Regents took their action on the basis of a 1954 behavior. The Regents fook their action on the basis of a 1954 amendment to the licensing law voted by the Legislature—after the U.S. Supreme Court upturned them on "La Ronde."

The appeal in "Lady Chatterly's Lover" probably will be held during the November term. Pending this, issuance of a license, as directed by the Appellate Division, was stonged

rected by the Appellate Division, was stopped.

Hugh M. Flick, exec assistant to James E. Allen, Commissioner of Education, expressed the view that the high court's decision in "Garden of Eden" emphasized "the need for a thorough, far-reaching study of the impact of mass media, if the present statute is not sufficiently clear or definite to allow the legitimate exercising of restraint of material that would have a harmful effect on society, then the possibility of an amendment to the statute should be explored."

Decatur, Ga., Oct. 29.
Georgia Theatre Co. has had enough of controversial 20th-Fox film, "Island in the Sun." JESUIT SCHOLARS O.O. LEGION

A Divorce-Saturated Environment

Catholics absenting themselves from pictures with divorce in their plots don't automatically solve the problem, says a study of the Legion of Decency. Write Jesuit fathers Gerald Kelly and John C. Ford:

"Themes that 'reflect the acceptability of divorce' are merely part of a total picture in our country-today, a picture in which divorce is taken for granted. It is quite right, of course, for the Legion to register its disapproval of it.
"Nevertheless, the mere staying away from such pictures is not going to protect our people from this modern heresy. If U.S. Catholics were to stay away from everything that approves of divorce, they would have to quit reading newspapers, many magazines and so forth—in fact, they would have to do just what St. Paul said we cannot do: go out of this world."

On the other hand, Michener cited the filmization of "Sayonara" by Logan as a case of "a break even point in these matters." He recalled that when Logan was casting about for ideas, the suggestion of adding a kabuki actor to the key characters was made. Michener remembered that he approved this suggestion wholeheartedly. Other suggestion of his were rejected. He noted that even the fact he was asked was a departure from his usual "hands-off" polley.

usual "hands-off" policy.

Speaking of the addition of the kabuki actor character, Michener elaborated, "I approved it in prospect. If I had been writing it in dramatic form I would possibly have come up with it myself. The fact that I write it a certain way in words doesn't make it untouchable. When Logan hits it he's got o exemplify it dramatically. He can't keep taking shots of Mt. Fuji through the mist."

On the other hand, Michener

On the other hand, Michener mentioned the film's changing of the ending of his novel where in the original, the Air Force jet ace the original, the Air force jet ace leaves his Japanese lover to return to the mold set for him, in the picture, he marries the Japanese. Of this switch, Michener said, "I would suspect that in changing the tragic quality of it, you come pretty close to the border line of advantages in leaving adaptations to others."

pretty close to the border line of advantages in Ieaving adaptations to others."

Asked if he gears his writing to a potential film or stage sale, Michener replied, "I can honestly say that I don't. Take for example, the last inquiry I had about a film thy a New York indie). It's a film yersion of a book I've done on Japanese prints. Now a guy who sat down to write for the films would have rocks in his head to do a book on Japanese prints. "I'm strictly an egghead," continued the ex-college history professor. "This is proven by the fact that while all kinds of things argoing on in the world that I could be devoting my time to, I sit in the corner of a hotel room doing a book on Japanese art. It's a hobby and a profound interest of mine."

Michener, who was rescued from a male he was on crashed into the sea off I'wo Jima, lost the results of two years of spare time work in the mishap. The research for much of this he has in carbon form in New York, but manuscripts will have to be rewritten. He intends to hole up in the Imperial Hotel for the next month reworking a book on the Japanese artist Hokusai. After that he will miet his wife in Singapore, staying there for about six

Regarding film adaptations of his writings, Michener mused, "If my agent tells me that on Friday something has been sold to the movies, I'm absolutely certain that on Monday the studio will call me to say there's no story line to it. Looking thin, but very much pleased for the great success of his recent observation of the Hungary blowout, "The Bridge at Andau." Michener considered the scattered field he has covered and stated, "And yet the funny thing is that I have done exactly what I want to do,

"When I did 'South Pacific,'" he recalled, "somebody said a book of short stories could not possibly sell. Of 'Fires of Spring' they said you can't write a book where the central character is weaker than those surrounding him. The publisher didn't want to print 'Return to Paradise' because he said you couldn't mix fact and fiction. And when I did 'Sayonara' and 'The Bridges of Toko-ri,' the editors fought against them. When I did a book on Japanese prints they damn near fainted. I'm now working on a book everybody had advised against. I've had to argue for every book I've done. This is a matter of record. If I had followed everyone's advice and not my own Judgment, I would not have published any one of those books." "When I did 'South Pacific,' " he

Michener revealed that he has several possibilities for ty writing in the works right now, saying. "It's a tremendous medium. But," he added, "I don't know if I could do it."

Evidence of this is expected to be manifest at a big meeting of bishops next month in Washington. It is expected that one intellectual arder, the Society of Jesus, may hereafter have more influence upon Legion standards and strategy and that the Legion will probably stress positive approval rather than be so much ideatified, as in the past, with negative gradings.

A gradual change of attitude with respect to the Legion, and the dawning realization that this controversial adjunct has been functioning in something of a vacuum, has not yet reached some levels of the U. S. hierarchy, though efforts apparently-are being made to influence upperlevel thinking.

Some Catholics who have been viewing the Legion with a critical, or at least semi-critical eye, are not quarrelling with the Legion or its hasic idea per se. In fact, these seem to feel that there is more need for it today than ever before. What they do say is that the Legion may be too rigid in its approach and, partly because of this and partly because it lacks the proper liaison with the public, has lost its early aura of a "crusade," which had the support, or at least the sympathy, of many non-Catholic groups.

Study-Club Device

One move in the direction of "educating" the public is via study-club programs that might even result in "constructive" criticism of the Legion itself. In other words, there seems to be a feeling that the time has come to enlist "mature" Catholic opinion.

Some of this latterday thinking is expressed in a treatise on the Legion by two Jesuit priests, Fathers Gerald Kelly and John C. Ford, in the September issue of Theological Studies. They are two of the foremost Catholic theologians in the U. S. and their moral judgment is respected and will be listened to. Father Kelly is connected with St. Mary's College in Kansas and Father Ford is at Weston College, Mass. That both are Jesuits is itself of some significance.

A good part of the study takes up with a history of the Legion, and here the authors have relied perhaps naively and over-generous

and here the authors have relied perhaps naively and over-generously on the opinions expressed by Martin Quigley, who had a hand in the formation of both the Production Code and the Legion. Latter is represented as the kind of "organized expression of public opinion" that the producers in Hollywood needed to "help them overcome their fear that adherence to the moral standards of the Code would result in financial failure."

Vagueness of 'B'

Noting the difficulties of precisely defining "B"-rated pictures, the authors appear to argue that there can be no such thing as "absolute" obedience to the Legion ratings. They draw the distinction between what a good Catholic "should" do, and what he must do as his obligation under the Faith. They note that an informed Catholic would attend only films rated A-1 and A-11, but add that such matters can be discussed only in terms of general policy and not as absolutes. "We think that even when one is speaking of the better absolutes. "We think that even when one is speaking of the better thing to do, one can hardly rule out all attendance at B or C films," they hold. They add that they are speaking only of cases in which "there is no diocesan precept against attending the films in question."

As for attending "B" pictures,
"there can be good reasons for occasional attendance at such pictures; and the one clear ascetical

Oldtimers seemed genuinely to enjoy the nostalgic get-together. In keeping with the old flourish, Miss Pickford's dramatic appearance down a flight of stairs was partially nullified by Joan Crawford's sweepingly spectacular entrance a few minutes earlier! Miss Crawford, dressed to the hilt, strode into the room, rushed to Maurice Chevaller, kissed him fervently, and was immediately—and thereafter—the focal point of attention. And there were some curious omissions in the film compilation shown to illustrate the work of the winners, some artists—John Ford, James Wong Howe and Norma Shearer among them—not being represented at all. But these were quibble that only insiders might make.

The Rochester public loved the old footage, with Harold Lloyd's building-climbing antics and the charlot race from "Ben-Hur" provoking exceptional response. Projection, this time, was excellent and the print quality of the excepts shown was magnificent.

Stimulating conversation came from the cameramen, who were not monopolized as much as the stars, and therefore had time to talk at more leisure. James Wong Howe and Arthur Edeson led several bull sessions. Cinematographers were gratified that their work was "finally" being recognized on the same level as that of stars and directors.

To a man, they were unanimous in their dislike of CinemaScope, and other widescreen methods. However, they accepted it as a sign of the times. Their chiefand most vehement—gripe was against the current shoddy lab work and even more shoddy theatre projection which, they said, sometimes all but ruined camerawork.

K.C. Slow Albeit 'Ball' Hep \$9,000; 'Faces' Trim 11G, 'Wonders' 11G, 10th

Kansas City, Oct. 29. Product lineup is good currently but biz not responding in kind. It's pleasant at the Midland with "Operation Mad Ball." The three Fox Midwest firstruns, with "Three Fox Midwest firstruns, with "Three Faces of Eve," shape trim. Four Dickinson theatres, with "My Gun Is Quick," is light. Long list of holdovers are comparatively good, best being "Third Key" third week at the Kimo. "Joker Is Wild" looks moderate in second week at the Paramount. "Tammy" is second week at the Roxy is excellent, Rash of flu and changeable weather taking some toll at the boxoffice. Annual American Royal Live Stock and Horse Show closed out Saturday and was some help to reserved seat runs. Coldest weather of season in force over the weekend.

'Joker' Rousing \$14,000, Denver: 'Faces' Fat 11G

Denver, 'Faces' Fat 11G

Denver, Oct. 29.

Denver, Oct. 29.

First-runs are getting back into nearly normal stride currently with three pix set to hold and one going to a moveover. "Three Faces of Eve" is fine at the Centre while "Joker Is Wild" is rated big at Denham. "Perri" shapes good at the Denver. "Faces" and "Joker" will hold as will "Around World in 80 Days" at the Tabor where it is currently in 24th stanza. This makes a record for any film in Denver. "Time Limit" shapes fine at Paramount, too.

Town just can't lick continuing transportation strike, flu and had weather. One alone would be had enough; three are too much. However, there are some bright 'spots. "My Man Godfrey" is rated fancy at the Fulton amazing in view of handicaps. "Three Faces of Eve" also is not doing too badly at Harris while holdover of "Joker Is Wild" is remarkably sturdy in view of the transport walkout. Elsewhere, the doldrums generally prevail even hurting the hard-ticket pix.

Okla. Fee-TV

Washington, Oct. 29.
Sen. William Langer (R-N.D.)
disclosed yesterday (Mon.) that he
is surveying feety sentiment in

He said the "vote" by the people of Bartlesville should provide a good indication of public sentiment toward subscription video and may be "a significant factor" to be conbe "a significant factor" to be con-sidered by the Federal Communi-cations Commission and by Con-gress in voting on several bills to prohibit the service. He added he will introduce a measure in January.

Langer said he selected Bartles-ville for his survey "since that is the only city that has been allowed by the FCC to try out the pay-as-you-see program." He further stat-ed that "it had been reported that the FCC is planning to authorize several other cities to try pay-as-you-see television."

(Whether the Senator was unaware that the Bartlesville experiment operates through a closed circuit system over which the FCC has no jurisdiction could not be determined. Nor was there any explanation of his statement that the FCC plans to authorize the services. planation of his statement that the FCC plans to authorize the service in other cities, which evidently re-ferred to the agency's order, ef-fective March I, permitting a three-year trial run of on-the-air subscription.)

mockingly.

Exhibs, producers and distributors are being asked to help project the new slogan in whatever manner at their disposal, including their advertising, of course, said Lazarus.

He added: 'We must try to remind the public of the plus value in movie going," including entertainment and "psychological uplift." Further: 'We do not pretend that this slogan is sensational; we wanted to avoid anything too extravagant or flamboyant or ultra-clever."

Question: Did the '20th-Fox board nix the proposed Buddy Adler contract calling for him to participate in the revenue of all films released by 20th? . . Spyros' P. Skouras, 20th prexy, just spend some days on the Coast discussing the contract with Adler. According to Gotham sources, Skouras was trying to work out a new deal that sidesteps participation. Adler is said to be insistent. Proposed deal is reminiscent of the one Louis B. Mayer had with Metro, which drew Wall St. criticism.

Glenn Ford has signed a new longterm contract at Metro to take effect when the current pact expires two years from now. Simultaneously, he was set to star in "Imitation General," William Hawks production which will roll early next year. . . Steve Cochran's current sfarring stint in "Quantrill's Raiders" at Allied Artists is part of a three picture deal under which he'll star in two films and direct a third . . Universal has reartivated "Gulliver's Travels" with Jack Sher and Arthur Rosa assigned to screenplay the classic . . . James A. Fitz-Patrick, set a distribution deal with 20th-fox for "Assignment South Pacific," a four-reel feature in CinemaScope and Eastman color . . . votes, the Waii St. firms insist hat they have no connection with Tom-linson and that their support of Briskin is personal to him and merely to assure that the Loew's board has this experienced motion picture man on it.

Let Him In?

There is a possibility that Loew's management majority may not seat Briskin today and the producer, with the support of Lehman and Lazard, may have to go to the courts to secure his seat.

Against this Loew's attorneys, have been pondering the possibility that Briskin may prove as independent as his banker-supporters have claimed he is and not Tounlinson's "Trojan Horse." Voget is linson's "Trojan Horse." Vogef is inclined to skepticism of Briskin's innocence because of Briskin's association with the Tomlinson rump board meeting in N. Y. at which Briskin and the late Louis B. Mayer were "elected" to the board, an election since nullified by the courts.

The insistence of which Lehman and Lazard, with the backing of their attorney Edwin L. Weisl, senior partner in the law firm of Simpson, Thatcher & Bartlett, have Simpson, Thatcher & Bartlett, have been pushing Briskin's candidacy has led many industryites to believe that the Wall Streeters certainly have more in mind for Briskin than a mere directorship. It's felt that he will be pitched for an important executive post in the Loew's echelon—either as studio boss or perhaps as president of the company come the February meeting. meeting

Board meeting today will also tip the new strategy of Tomlinson, who has carried the brunt of the fight against the present Loew's management. Tomlinson is report ed to have declared that the fight would be resumed at the first board meeting.

Making Up His Mind
Reached at his N.Y. headquarters
at the Hotel Sherry Netherland,
Tomlinson gave assurance that he
would attend today's board meeting, but added, "I don't know exactly what I'm going to do." It was
pointed out to him that much of
the criticism against him was based
on the fact that he had offered
no concrete program for betterment of the company. "Company
policies should come from the management," he declared. "If he
(Vogel) has a program, he should (Vogel) has a program, he should come out with it. I'm willing to go along with anything that will bene-fit the company."

Tomlinson denied the reports that he would resume the fight immediately or that he would launch a proxy battle. "At this moment," he said, "I have no plans to start a proxy fight. However, I intend to the late Alan L. Melhado.

Meanwhile, there have been rumblings from Wall Street that Vogel must move fast in improving the company's earning position. Some Wall Streeters feel that ing the company's earning position. Some Wall Streeters feel that Vogel should immediately dismiss a number of holdovers from the so-called old guard and at the same time institute a program of salary cuts among the top echelon executives whom, it's charged, are the highest paid in the industry.

Prior to leaving for the Coast last week (he returned to N. Y. over the weekend), Vogel sent a personal letter to stockholders thanking them for their support at the Oct. 15 meeting. He said he regarded their support as a vote of confidence and as a mandate to go forward with his program which would lead to increased returns for the shareholders.—

Under the new bylaws of the company, which had the board increased to 19, a quorum of 10 is required for a meeting to be legal. It's anticipated that the entire 19-man board will be present at today's meeting which will be held at 2 p.m. in the company's board room on the 11th floor of the Loew's State homeoffice building.

That the "subordination" he nev er escaped in relation to Schenck in Manhattan piqued L.B. was for sure. He was furious when Nick Schenck negotiated a sellout to Schenck negotiated a sellout to William Fox, unbeknownst to Mayer and without cutting Mayer in. The tale is told in some detail in Crowther's book, "The Lion's Share." In that book, incidentally, Mayor is but would be in the control of the contro Share." In that book, incidentally, Mayer is by way of being the heavy. For the taste of the N.Y. Times film critic the personality and talent of Irving Thalberg was more real and more attractive. Mayer apparently got along quite well with the younger Thalberg until toward the end. Undercurrents of environment were comof envy and resentment were com-mon during the heyday of Metro.

Mayer's beginnings were hum-ble enough in New England. Mayer in his heyday strongly be Mayer in his heyday strongly be-lieved in family entertainment, along formula lines. His attitude was, naturally, strengthened by the tremendous success of some of the Metro pix made under his aegis that conformed to the non-complex principles he advocated for film entertainment. This was later a bone of contention between him and Dore Schary who went on the bone of contention between him and Dore Schary who went on the assumption that films occasionally should say-something. Mayer was dead set against the production of "Battle Ground," which was Schary's personal project and which earned the studio a fortune.

As a discoverer of talent, Mayer As a discoverer of talent, Mayer excelled, When he saw Greer Garson in London, he immediately insisted on a meeting and he signed her up. Ditto with Hedy Lamarr. But he lost himself the services of Sir Michael Balcon when, during a visit to London, he took him to task for hiring an "expensive" new player. The girl later turned out to be Vivian Leigh.

When Mayer and Thalberg separated in 1935, Thalberg formed his own company. Their final disagreements were then written off to a clash of egos, though it is a fact that Mayer had trouble getting along with practically everyone who seemed to challenge his autitority. The same happened when Dore Schary joined the studio, Mayer first hailed him, but it didn't take him long to discover that Schary vouldn't be "dominated," and from then on the two men's relationship became increasingly When Mayer and Thalberg sepa Schary wouldn't be "dominated," for creative visualizer at Warner for arbitration and we should new and from then on the two men's Bros., has joined Monroe Green the led or lulled into thinking it relationship became increasingly that Agency, N. In recent years, since his MGM departure, recurrent rumors had him returning to production. He had reactivated L. B. 'Completely Original Screenplay' Victim of Paramount Legalism, Says Author Arnold Schulman

What is an original screenplay?
That's the question that has Arnold Schulman, playwrig's turned screenwriter, puzzled after completing his first assignment for Ital Wallis. According to Schulman, he had labored under the impression that "Wild as the Wind, written especially for Anna Magnani, was solely his contribution, including the original story and screenplay. To his surprise, Schulman added, he noticed at a sneak preview that his screenplay was based on a story attributed to an Italian writer.
Schulman's "how come?" brought forth a lengthy and come?"

Schulman's - "how come?" brought forth a lengthy and combrought forth a lengthy and com-plica ed explanation plus the full support of Wallis who, according to Schulman, feels that the au-thor is entitled to the full credit. However, Paramount, which is re-leasing the picture, has insisted on the additional credit as a legal protection agains; possible claim-ants.

protection agains: possible claimants.

The position of Par's legal department is based on the fact that when Wallis signed Miss Magnani for a picture she stipulated that the only film she would appear in was a remake of "Furia," an Italian picture made some 25 years ago. As a consequence, Wallis acquired the rights to "Furia." The contract provided that one of the original writers would receive partial credit.

Wallis then showed the Italo picture to a number of writers, including Schulman, to see if they could come up with an American adaptation. Several writers made the attempt, but none could present a script that could satisfy Wallis.

Then, according to Schulman, reveral months went by when he

Then, according to Schulman, several months went by when he got the idea for an original that he though! would be just right for Miss Magnard. Through his agent, the William Morris office, the idea was presented to Wallis who accepted it. Schulman was then signed to proceed with the project. However, the original contract cepted it. Schulman was then signed to proceed with the project. However, the original contract called for Schulman to do the adaptation of "Furia." Later, however, Schulman said, Wallis publicly stated that Miss Magnani would not appear in "Furia." but in an original screen story by Schulman to be called "Obsession," later changed to "Wild as the Wind." "From then on," said Schulman, "I worked under the impression that I was doing an original screenplay."

When the final credits were presented to the Screen Writers Guild, Schulman was in Europe and was unaware that he had a collaborator. William Morris ofte failed to protest the credits and, as a result, the Screen Writers Guild okayed "lie credits as submitted by Wallis and Paramount.

Schulman insists that no line Schulman insists that no line of dialog, incident or character is similar to that in "Furia" and claims that Wallis initially submitted the credits to Paramount as an original by him. However, lawyers, according 'o Schulman, recalled Wallis' original contract with Miss Magnani and in order to protect Par insisted that one of the writers of "Furia" be given credit.

Fox for the launching of David O. Selznick's "A Farewell to Arms" could, if successful, serve to cut an entirely new release pattern for future big productions from 20th. Policy is the outgrowth of a feeling of the top sales brass at 20th that some new and effective methods of bringing films to the public must be devised if top attendance is to be attained. Plan calls for "Farewell" to open in eight Los Angeles firstruns dayand-date on Dec. 18, Policy is described by Alex Harrison, 20th sales topper, as. "a modified roadshow plan," with starting times of the film staggered at the various houses at specific times, to give everyone a chance to see it at their convenience.

There definitely will be an intermission. Pic runs long and will be shown four or five times daily. Said Harrison "We wanted to try something different. We wanted to come as close to a hard ticket policy without going actually into hard tickets. We plan to handle this as a dignified, special thing and the great picture that it is."

There appears to be a definite possibility still that "Farewell" will open simultaneously at the Roxy in New York and on the Coast. The homeoffice favors the current set up as likely to teach distribution a valuable lesson. Clear implication is that, if the run is successful in LA, the policy of "opening dayand-date downtown and in outlying firstruns may be adopted elsewhere net only for "Farewell" but also for other important productions.

In recent years, with the migra-tion to the suburbs, sales execs have given considerable thought to have given considerable thought to changes in the distribution pattern, changes that would allow the public to see important pictures, presented in an important way, near their homes and without having to make the trek downtown.

Policy is not entirely new for Los Angeles nor, for that matter, is it wholly new for Selznick who adopted a similar release pattern for his "Duel in the Sun." However, "Duel" wasn't roadshown in any sense of the word.

The next logical picture with which to experiment via a changed release pattern would be 20th's "Peyton Place."

Republic (Rental Lot Now) Film Weeks: Art or Business? Germans N. Y. Test Raises Issue

German Film Week, just winding up at the Museum of Modern Art in N. Y., has raised the question in the trade of just how much such events actually serve as commercial stimulants for the industries

concerned.

Many feel that, while there are certain gains public relations-wise, the proper formula has yet to be discovered that will satisfy the many purposes these film weeks pretend to answer.

The film week at the Museum is being followed by a retrospective showing of German pictures, also some new ones. An international week is planned for San Francisco in December, and the Japanese are staging another series of screenings at the Museum during January. Chicago, too, wants an international "festival" and so do some other U. S. cities.

chicago, too, wants an interna-tional "festival" and so do some other U. S. cities.

Purpose of the New York film weeks, for the most part, is to cre-ate a buyer interest. This certain-ly is true of the Japanese, who came to the Museum early in 1987 and arranged a week of screenings, which was artistically well re-ceived, but a bust commercially. It's true to a lesser degree of the Germans, whose films were picked by the Museum within the frame-work of a German art exhibit, the accent thus being more on artistic than commercial values.

Outside of New York, the film weeks generally come under the heading of "special event," an attempt to drum up interest in imports.

ports.
Strictly from a publicity point-of-view such events as the German Strictly from a publicity point-of-view, such events as the German film week at the Museum last week do serve their purpose. "We think' the week did a lot of good for the German industry," commented Mu-nio Podhorzer, the German Export-Union rep here, last week. deeman industry, "commented Min for Podhorzer, the German Exportution rep here, last week. "It extainly spotlighted the fact that the German industry once again is on the map," he added. "We had all of good reaction."

Facts are these, however: A very limited number of people see the films at any one of these "national weeks; frequently the selection of the pictures shown suffers from the special; selection approach; there can be no newspaper reviews, since the films aren't really being opened, and thus the critics are reluctant to even show up; even if a "sleeper" is greatly acclained, most of the time such film doesn't have a distributor, so that months may pass before it is finally seen in the theatres, its original prest into the shown during a "festivation be shown during sood a very positive reactions, the exhibition stage.

Diplomacy Co-op

One positive aspect is the fact that the Motion Picture Export Assn., for "diplomation" reaons, can be counted on to support bona fide film weeks arranged by local industries in the U. S. MPEA is an industry to the make a speech. Another guest of honor was Helnz Krekeler, the West German Ambassador.

Johnston said he had watched the German industry grow from the west of the make as peach. Another guest of honor was Helnz Krekeler, the West German language houses, now were taking out 2275,000 a year net from the U. S., and he expressed the hope that thits would

arranged along different lines, the suggestion having been made for the Germans to rent a house and let each film run two or three weeks. This, of course, would have an entirely different impact, would give an opportunity for press coverage, etc.

Importers generally favor film fests, though they rarely afford the kind of opportunity for acquisitions that do the parallel events in Europe. Japanese week in N. Y. earlier this year, for instance, had virtually no commercial results,

earlier this year, for instance, had virtually no commercial results, which was blamed largely on the type of film shown. There are some who feel that film weeks throughout the country are of great value in that they make exhibitors conscious of the overseas product at a time when American distribution policy leaves over these in the policy leaves great holes in the skeds in-between holiday seasons.

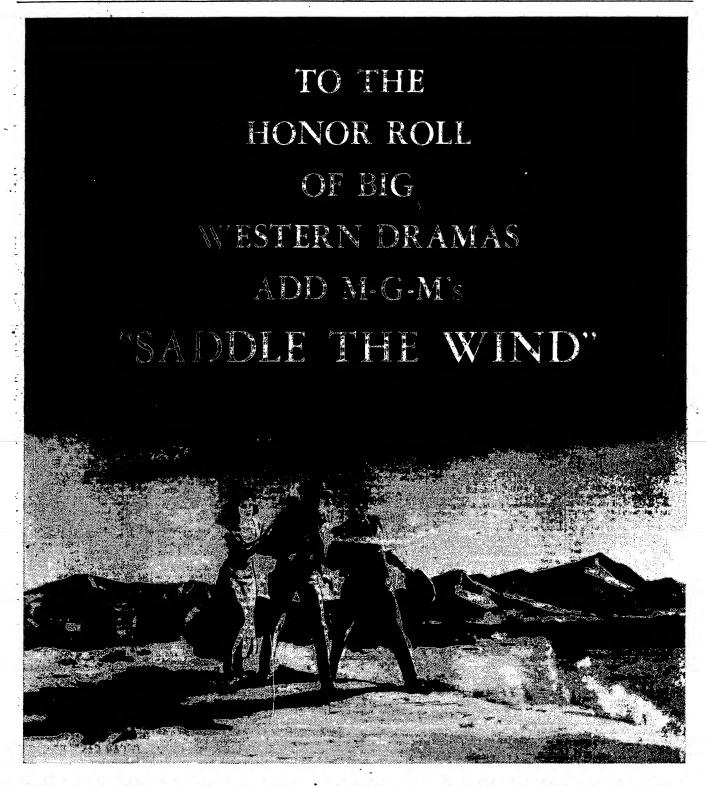

Poland-U.S. Only Likely Film Deal

It now appears possible, if not actually likely, that the only Soviet-orbit country with which the Americans will actually make a film deal will be Poland.

At one time, the Motion Picture Export Assn. was hegotiating with quite a few of the Iron Curtain nations, including East Germany, lungary, Czechosłovakia and Rumania. There is a rdeal in effect with Yugoslavia which is not one of the Red countries under actual Russian domination.

The East Germans and the Hungarians still are screening pix, but the impression is growing that the Soviets have brought pressure to bear on its satellites not to make any purchases.

Only ones who seem determined to go through with a deal are the leads with three days care.

For seven days at the Capitol in Montreal, film grossed \$23,946 at a \$1 top; in Quebec City at the 1,600-seat Capitol drew \$8,067 for a similar period; it broke the house record at Ottawa with a near \$8,000 at the Rideau for six days and doubled the usual weekly gross in St. John, Quebec with \$2,671.

Of special interest to Allied Artists is the acceptance of film (which is in English) by theatres that play nothing but dubbed or original French offerings. In St. Jerome and Thetitord Mines where a film seldom stays more than three days, bookings have been extended and grosses, are averaging better than three times the norm. The Robert and Raymond Hakim lenser with Gloa Lollobrigida and Anthony Quinn is fiolding over at the Premier in Sherbrooke after a hefty opening week of \$4,000 and Shawinigan Falls where it drew a solid \$2,500 for the first week.

A massive float, built at a cost of \$3,000 and pseed during the advance buildup of film, proved such an attraction that it is back on the road covering most of the province,

European Films Not Aiming For American Taste

Hollywood, Oct. 29. Most European producers still are turning out product exclusively are turning out product exclusively for home consumption, Sydney Linden, general manager of the Herbert Rosener Co., reported on his return from a six-week trek to line up product for the company's art houses, the Beverly Canon and the Vagabond. Despite reports heard in States occasionally, there is no concrete indication that Eu-

There are a few Italo-English and Franco-English outfits, he reported, which have been eyeing general distribution in the U. S., but no product has been forthcoming. During his trip, Linden eyed several flims, but closed for only a few although he is negotiating for more. Among the films he purchased was "And God Created Woman," French film in Cinema-Scope and Eastman-Color, starring Brigitte Bardot and Curt Jergens. It will get a day-and-date booking at the two Rosener houses although they usually play different product and it has been some years since both offered the same program.

Jesuits Studying Legion

Fathers Kelly and Ford refuse Fathers Kelly and Ford refuse to define when it becomes a Catholic's absolute duty to be bound by the Legion rulings. "We are convinced that such general rules can hardly be given without defeating their own purpose; all too often they confuse consciences instead of clarifying them," they write. Of the B and C films, "only a relatively small number can be reasonably considered as proxigate occasions of mortal sin for reasonably considered as proxi-mate occasions of mortal sin for the generality of men," they say, and the ecclesiastical prohibition sub gravi "would be rarely veri-fied."

The authors warn that it is well

sub gravi "would be rarely verified."

The authors warn that it is well to be cautious in speaking about mortal sin in movie attendance, though they admit there can be mortal sin involved. But, they go on significantly.

"There are no ecclesiastical laws forbidding attendance at any class of movies," apart from prohibitions issued by individual bishops.

"The statement by Msgr. J. B. Monthin, (Pro-Secretary of State) that the classifications of the national offices must be token as normative is not a law. It would be contrary to all precendents of ecclesiastical juris prudence from the Holy See to make general laws through letters Issued by a secretary of state, even when these letters are sent in the Pope's name."

They go on to explain that the meeting of the bishops doesn't constitute the Legion a law-making body, nor are the bishops as a group a lawmaking body, and they are "vested, with no legislative power." Says the article 'It seems clear. that only rarely in the United States does ecclesiastical law impose an obligation sub gravi of abstaining from any kind of movie."

And they sum up: "A general statement that C films are always statement that C films are always or almost always proximate occasions of mortal sins is too strong. It would be much more in keeping with sound theology to say that they would involve the proximate danger of serious sin for many people, especially young people, and that any more specific statement would require a knowledge of the film itself and of its prospective audience."

While there are obligations de-

of the film itself and of its prospective audience."

While there are obligations deriving from "natural law" in connection with Catholics attending "indecent" films, the authors question whether the taking of the annual Legion pledge in itself adds any new obligation. They conclude that it does not do so "per se," the latter observations being added because "obviously, an individual who wishes to bind himself under pain of sin may do so. But this added obligation is not to be presumed."

Toned Up Hollywood

Jesuit pair say the Legion has

Jesuit pair say the Legion has been instrumental in raising the moral and artistic values of films made in Hollywood, but, they add "much of the good accomplished can be lost by stressing the notion of sin and of degrees of sinfulness," Legion from the start had the qualities of a "crusade" that appealed to Catholics and non-Catholics alike.

alike.

"But in the first years of the Legion's history, years when it was most successful there was no attempt on the part of ethical leaders or theologians to catalogue the pletures according to degrees of sin. We believe that such cataloging can do more harm than good. Stressing the notion of sin not only fails to evoke the spirit of generative among Catholics, but it tends to deaden interest of non-Catholies and even to create hostility," they write.

they write.

They note that the Legion classi frations don't protect Catholics against other dangers, such as actors who lead "immoral" lives be-

against other dangers, such as actors who lead "immoral" lives being held up as idols to youth.

The time is now ripe, they hold, "for a concerted attempt at a more specific kind of education with regard to movies. This kind of educational movement already has been flourishing abroad, while the United States has lagged behind. Cited is an article of Bistrop William A. Scully of Albany, in which he notes that "further afrmative work badly needs to be done." Comment the Jesuits: "The strengthening of the Legion through enlightened Christian opinion is in some respects even more necessary now than before."

make proper judgments concern- They add that the self-enforcement ing films," they add, machinery of the Code "is less efmachinery of the Code "is less effective now than it was in the early years." The Legion, they believe, can be a "more effective listrument than government censorship by law," provided the Legion's method of appraisal is supposed by well-informed public opinion, Catholic and non-Catholic.

The article admits that some

olic and non-Catholic.

The article admits that some dramatic critics have found grounds for real concern in the exclusively, or almost exclusively, moral viewpoint taken by the Legion, though the authors hold that, at least for purposes of discussion, moral and artistic values must be kept apart. They have no problem deciding which way to turn.

"The moralist may have all too eager an eye to the probabilities of moral darger. He is, almost by profession, a specialist in moral pathology. But the articritic, almost insvitably and by the increforce of the accustomed will undergate the dangers, or practically deny the predictability of moral harm from works of art, and be apparently oblivious of the lwounds inflicted on human nature by original sin."

parently oblivious of the wounds inflicted on human nature by original sin."

Jesuits' study of the Legion is a thoroughly affirmative document with some surprising side aspects, such as the above-mentioned analysis of the binding nature of the Legion pledge. Begort naturally, sees the Legion entirely from the Catholic point-gi-tiew Le., it implies that the fallystice and elevation of the film is almost entirely up to morality-conscious Catholics who haved it once already from becoming dempletely indecent. Point is made that pix have improved a great deal-over the early days when the Legion was formed. Nowhere in the dissertation do the Jesuit fathers worry about charges that the Legion, often via indirection, imposes its rules on non-Catholics. Assumption throughout is that what is moral for Catholics must of necessity also be moral for non-Catholics which in turn justifies Catholic activity "at the source." Also, there is no attempt to discuss film action on the diocesan level, such individual actions by Bishops as the imposition of a Catholic boycott on specific theatres that have booked pletures displeasing to Catholics. Only reference is to the bishops dight to take local action and the parishioners' duty to obey under pain of sin.

Overall impression of the analysis of Fathers Kelly and Ford is that they feel the Legion operates

Overall impression of the analysis of Fathers Kelly and Ford is that they feel the Legion operates too much as a body within itself, an operation that requires better understanding and appreciation from both Catholics and non-Catholics alike and a nactivity that should be taken out of a purely mechanical, textbook rut and supplemented with greater intellectual and positive values, leading to an elevation of the art rather than what it is now, a strictly "punitive" club held over the producers' heads.

REACTION TO PICKMAN: OSCAR CAN'T BE THIN'

Negative is the initial reaction to a proposal calling for the posting of Academy Awards nominations at the rate of five every three months for a total of 20 per year, compared with the traditional &ve per year. Recommendation of the increase was made by Jerry Pickman, Paramount adpub v.p., who reasoned that the Oscar spotlight could be widemed to cover a greater amount of product, and the added publicity benefits would accrue accordingly.

While the final decisions are to be made by the board of the Academy of Motion Picture Arts & Sciences, some board sentiment, in the negative, has been made ap-

sciences, some twenty of the negative, has been made apparent.

Feeling is that Oscar would be spread out too thin if 20 candidates were so be placed in the competition, that a picture's billing as an Oscar nominee would come to be about meaningless to the public because of the abundance of films in this category.

It's further noted that exhibitors sometimes fail to distinguish between a nominee and the actual winner, thus misleading the public. The deception would be multiplied four times if 20 nominees were listed.

"The thing that turned me misanthrope was the audience. I've been a member of many kinds of audiences in my time from those that listen to lute and harpsichord recitals to those who work off their sadism at wrestling shows and those who develop jags at jaz concerts. But that Todd audience was about as, low as any I've encountered, a real choice sampling

of objectionable characters. From under what loose boards did Mike Todd lure those rude and rapacious people? The thing that gave the spectacle a grislier touch was the formal garb everyone wore—black ties off-the-shoulder gowns—politically to for the shoulder gowns—politically the state of the shoulder gowns—politically the shoulder gowns

Film exhibitors might try pitching opera as a means of building community stature. Take this from a Dixie manager who says his house has become a "cultural center" through a limited but prominent showcasing of the lofty arts on celluloid.

Hoyt W. Yarbrough Jr., of the Mantanzas Theatre, St. Augustine, Fla., visiting New York, reported the theatre has hit a public relations bonanza, which is readily translatable into commercial dollar terms, in the booking of four briefly-run opera programs a year, on film.

Although conventional films are offered throughout the rest of the year the operatic series has convinced the public that "we in exhibition are no longer to be looked down at; we are now a focal point of cultural attention." commented Yarbrough. He said that segment of the public which by-passes film arenas by way of second nature 'now have come to give us attention throughout the year."

In pressing for the "social" recognition, the St. Augustine operation, which is a part of the Florida

States circuit, places its advertis-ing in the society pages of the lo-cal newspapers.

Trade-wise there are problems. Suitable feature material for spear-earrier film fare for the most part comes from French and Italian part comes from French and Italian distributors whose facilities are limited and clearly can't derive too much revenue from such time-limited bookings. The Mantanzas buys only on a flat-rental basis.

But nonetheless, the policy, now moving into its second year, has been successful. And curiously, the peen successin. And currously, the report on it comes concurrently with producer-director-writer Joseph Mankiewicz's suggestion that exhibitors ought to look to new sources of material instead of relying on conventional picture matter seven days a week, throughout

Barter Big On L.A. TV Stations

Hollywood, Oct. 29.
Barter deals were the first form of trade among mankind, and now, in a highly-complex modern form, are gaining an increasing foothold in the tv industry. Among Hollywood's seven tv stations, at least four admit to participating in the new form of barter, in which stations trade their time for product. Individual deals vary widely.

tions trade their time for product. Individual deals vary widely, hinging on value of the package and bargaining ability of both sides. However, basically, a tv barter deal is a subcontracting arrangement, under which the stations get product, generally an old-feature package or second-run telefilms. In exchange, they give suppliers a certain number of spot announcement availabilities, to sell for whatever the suppliers can get.

'Vidfilms Match Theatricals': Levitt

Robert Levitt, prexy of California National Productions, the NBC telefilm subsid, insists there isn't a jot of difference in the current standards of writing, direction, acting or production of features and telepix. "There is no longer any reason for a double-standard, one for tv films and one for theatricals," he says.

He tipped this minority opinion in a telegram to the trade papers last week, inviting them to screen Cal Nat's new half-hour show, "Boots and Saddles." He said the only difference he could see in the two types of film was the length.

He added that 'values have come a long way in the television film-making industry, that the alleged superiority of theatrical motion pictures over television films is only a state of mind."

Levitt also said that "television film producers too often in the recent past have been playing 'dead dog' at the mere comparitive mention of theatre movie productions. They fold away silently when anyone contrasts the yerds-long projection screen of the theatres with the 21-inch set at home.

It's high time for the television film producers to erase this archaic complex. Today motion pictures for television and theatres are shot on the same size film—35m. Top talent from the Hollywood and New York pools work in both entertainment fields. Even facilities and the technical processes are shared. Let's stop being unreasonably intimidated by screen size and get the critics to look squarely at the results in the can of film. Let their judgment be based on what's on the negative, frame by frame, and all the way."

About actual story content, the limitations created by video advertisers, Levitt didn't say,

Take a case in point: "Robin Hood," out of the Official-Sapphire stable. To date licensed Robin Hood merchandise, in terms of retail sales has accounted for about \$42,000,000. Period covered is about two-and-a-half years, the series now entering its third year on the net. Character Merchandising, Inc., a Philadelphia outfit, is handling all the licensing arrangements.

But the big bonanza is in promotion and exploitation. The \$42,000,000 in retail sales represents \$7,267,048 sold units, or to put it in another way, 37,267,048 impressions. When adults and children bought items ranging from bubble gum to Robin Hood toys, they were made conscious of the series and the stars.

The 37,000,000-odd impressions cover only the licensed items. It's figured that with a character such as Robin Hood in the public domain for every licensed item there are four or five pirated items. The latter though can't make any direct tie-in with the series.

radio through the proper exploilation of the medium's educational elements has been graphically illustrated by CBS Radio. As the result of a campaign aimed at the country's schools furnishing them with study material on the web's nighttime public affairs strip, the network has won over many new young listeners—most of whom don't remember network radio in young listeners—most of whom don't remember network radio in its dominant days— and installed the public affairs programming as "must" listening for students in several schools in connection with their current events courses.

several schools in connection with their current events courses.

As a subsidiary product of the campaign, the network has gathered findings showing that the use of radio as a supplement to newspapers and classroom lectures tends to give the students who listen a broader knowledge and interest in current affairs. A controlled experiment in five high schools using the web's material showed that listeners knew more and learned more than non-listener groups in the same schools. Campaign was created by Charles Steinberg, the web's publicity and audience promotion chief, shortly after he moved over to the web from Warner Bros. last winter. Steinberg, a Ph. Meanwhile, Steinberg arranged for controlled experiments in four high schools in the New York area. Groups from the same classes were formed, one of which was assigned to listen to the programs for two weeks, the other told not to listen. At the end of the two-week period, the teachers, using the discussion guide, developed classroom forums on the topics at hand. In each of the schools, the results were the same—listening tended to broaden the students horizons of interests and they tended to be better students.

Sales, Earnings Of RCA & Subsids Up

Sales of RCA and its subsidiaries for the first nine months of 1957 rose by 5% to a record \$853.667,000, while net earnings for the nine-months period also rose, from \$27,893,000 a year ago to \$22,320,000 for the '57 period.

Earnings per share for the '57 period amounted to \$1.87, as compared with \$1.82 for the first nine months of 1956. Partially responsible for the new levels were record third-quarter sales of \$288, 677,000, compared with \$286,036,000 in the '56 quarter, and earnings per share of 52e for the quarter as against 50c in the same quarter of last year.

ABC Tells Stations To Peddle 'Wife' Locally

ABC-TV has temporarily given up the hope of selling the afternoon strip "Do You Trust Your Wife?" to a national sponsor. Though there has been unconfirmed talk about Colgate-Palmolive stepping in for a hefty chunk of the daily half-hour live program, the network on Monday (28) turned "Wife" over to network affiliated stations to sell locally.

Beversal of the norgam to the

affiliated stations to sell locally.

Reversal of the program to the stations took place under what ABC calls a "participating" deal. It is a misnomer, since it gives affiliates the opportunity to sell segs in the strip without having to participate in profits with the network. While web is providing the quizzer gratis, it has reserved the right to recapture the show for its own use on two-weeks notice.

ABC-TV IRONING OUT **GUY MITCHELL KINKS**

GUY MITCHELL KINKS

ABC-TV is ironing out the kinks in its live programming. As the inital step, program veep James Aubrey spent a great deal of his time on the Coast last week overseeing the revision of the Guy Mitchell Monday night musical, cutting out almost entirely the comedic routines and restricting guest appearances to performing artists. In the first two weeks of the half-hour stanza, sponsored by Max Factor, network apparently made room for guest stints developed for appearance value only. Web, it is understood, has decided that singer Mitchell is not also a comedian, hence has decided to eliminate the standup routining he has been doing. Program has had weak ratings to date, but has picked up since the preem. Despite the rating showing, Max Factor, incidentally, has a bullish attitude toward the show's potential. Same goes for Factor's sponsorship of the Polly Bergen stanza on NBC-TV.

Baer's Upped MBS Status in Revamp Of News Operation

Norman Baer, Mutual's news production head in N. Y., formerly with the Associated Press and International News Service, has been named director of news and special events for the net. In addition, Baer will supervise Mutual's sports and public affairs broadcasting activities.

Baer's appointment follows the promotion of Robert F. Hurleigh to v.p. in charge of the Washington operations. Newscaster-commentator Hurleigh had been director of news and special events since last March when Mutual established its news headquarters in the capital.

But now the net is returning its

capital.

But now the net is returning its news headquarters to New York again because as Prexy Paul Roberts puts it "the tremendously increased overseas news activity now occurring."

Baer was tv-radio director of the Lewin, Williams & Saylor ad agency before joining Mutual a month ago and prior to that was radio-tv consultant to the Fairfax and Hilton & Riggio agencies.

In anticipation of building up the New York news headquarters, now totally divided from WOR's news operation in N. Y., Baer has hired Martin Plissner, former NBC newsman, as an editor and plans to name additional members of his staff shortly.

newsman, as an editor and plans to name additional members of his staff shortly.

Baer anticipates no changes in Mutual's current Washington operations. Hurleigh is an on-the-air v.p. and is producer-moderator of "Reporters' Roundup" series. John Gertz handles public affairs activities in Washington for MBS and is the net's liaison with the White House. He now will report to Baer.

Baer cooperated with Hurleigh in the realignment of Mutual's overseas newsmen that saw changes in London, Paris, Rome, Tokyo and Central American offices. David R. George, former Brooklyn (N.Y.) Daily Eagle editor, is now headquartered in Mexico City for Mutual, with responsibility for the entire Central American zone. Louise Cox, formerly with the Fort Worth Star-Telegram, now represents MBS in Tokyo. Richard Kaplan, former, Dayton News and NBC newsman in Europe, is now stationed in London. Raymond E. FCC Okays Pitt AM Buy by ABC

Washington, Oct. 29.
American Broadcasting Network now holds interests in six standard radio stations, with approval by the Federal Communications Commission last week of its purchase for \$700,000 of KQV in Pittsburgh. Network also owns and operates WABC in New York, KABC in Los Angeles, KGO in San Francisco, WXYZ in Detroit and holds a 50% interest in WLS in Chicago. Limit on radio station interests under FCC rules is seven.

In a dissenting statement, he said that "a sound application of the Commission's multiple ownership rules, its expressed policy looking toward preventing undue concentration of control of broadcast facilities and the recent recommendation of the Network Study Staff concerning network ownership of stations all require that a full inquiry be had on the very factors set forth in . . . the rules before a finding is made that the proposed transfer would serve the public interest."

Chicago, Oct. 29.

NBC prez Robert Sarnoff last week was challenged by Zenith Radio Corp. to a public debate on subscription television. In a wire sent to Sarnoff last Friday (25), Zenith's public relations director Ted Leitzell offered to pay half of the costs if Sarnoff chose to hold the debate on NBC-TV.

Laitzell gooted saveral catche.

Leitzell quoted several statements from the text of RCA's patent application citing the necessity for toll-tv, both from economic and programming aspects, and said these RCA "actions and statements are ample evidence that NBC are ample evidence that NBC would very much favor subscription to if it could be owned and/or controlled by RCA and therefore not interfere with the near monopoly of two broadcasting and revenue that MBC presently enjoys."

Those TV Credit Sheets

Omission of credits on tv shows, never out of business to begin with, is back on the grind, this time with an interesting point brought up in view of the fact that the "complainer" is involved only to the extent of a word in behalf of a colleague. Variety review last week of the "Patrice Munsel Show" was a favorable one all the way, so much so that it brought this letter from Larry Gelbart: "Appreciated the extra kind words about the Patrice Munsel premiere. However, in listing the writing credits you omitted the name of Sheldon Keller. Credit is a writer's bread and butter and I'm afraid Sheldon had to go to bed hungry."

Production data on the show was lined up from the credit sheet furnished by ABC-TV. This listed Gelbart as "chief writer" but with no other scripters indicated. (Incidentally, Gelbart's name was misspelled by the network in the credit sheet.) Many credit sheets, by all networks, are lax when it comes to complete data, and a reviewer usually finds it difficult to fill in the gaps by picking credits off the rapid "crawl" at end of shows.

Can a Candidate **Use TV Stand-In?** Stirs N.Y. Hassle

A spokesman for Robert K. Christenberry, Republican candidate for mayor of New York, didn't believe WABC-TV had any right when it refused to permit a Christenberry spokesman'to make a 15-minute speech on the Gotham station last week. Station contradicted Arnold Cohan, the candidate's radio & tv adviser, by saying, in effect, that the Christenberry people did not keep faith with the contract made for the purchase of 15 minutes of airtime. Shortly before an 11:45 a.m. telecast Thursday (24), WABC-TV program chief Al Hollander refused to let Robert Blaikie, insugent Democrats and chairman of "Democrats for Christenberry," make the speech. Hollander later explained that the Christenberry advertising agency, Dowd, Redfield and Johnstone, had led the station to believe that the speaker for the paid-for telecast would be Christenberry himself.

Hollander said that at virtually

Hollander said that at virtually the last minute he found out that Blaikie was the intended speaker. He said the station knows the limitations of its responsibility when a candidate speaks for himself on a commercial program, but interpreted the appearance of a speaker for the candidate as leaving the station open to greater liability under FCC regulations. And, in the time allowed before the show, he said, there was not time to check Blaikie's talk.

Cohan maintained that WABC-TV "never asked us, nor did we specify who the speaker would be, they merely anticipated Mr. Christenberry, though we never intended him."

WABC-TV noted that there was still a possibility of the Christen-bery o'ganization buying time on the station. Time was previously bought for Mayor Robert F. Wagner, the incumbent Democratic rival, and for New Jersey candi-dates for public office in the up-coming election. The cancelled show was to be Christenberry's first on the station.

And where before "Big Payoff" topped "Matinee" at 3 only to have Crosby fall under at 3:30, now "Payoff" and "Verdict" in tandem are topping the full hour of 'Matinee' with ease. "Verdict," the simulated court-room series, stepped into the CBS picture at a point where Crosby was getting a mere 27.6% share of audience (Nielsen August 11 report) via a 5.5 average audience rating. This compared with a 38.1% share for "Matinee," via a 7.2 rating.

In its first week, "Verdict" jumped the rating to a 6.7 and the share to 34.8%, while "Matinee" dropped to a 6.2 rating and 35.9% share. And in the latest Nielsen, the September 11 report, "Verdict" pulled down a 7.4 rating and a 54.4% share vs. a 5.6 for "Matinee" and a 34.4% share. HOW TO BE A 'STAR': PLAY TV

Marlboro's King-Size Burn

Marlboro cigarets is doing a slow burn over the way Garry Moore plugged his own Winston brand while helping emcee the telecast of the Mike Todd Madison Sq. Garden party on Oct. 17 on "Playhouse 90," which Marlboro sponsors. Cigaret firm sent a wire of protest to CBS-TV prexy Merle Jones demanding an explanation.

Seems that Moore (whom Winston sponsors on his "T've Got a Secret") was booked directly by Todd to share the key anchor color commentary duties with Walter Cronkite on the Garden pickup (with Todd, incidentally, reciprocating by appearing as a guest on "Secret"-the night before). On-camera, Moore pulled out a pack of Winstons, which got a close-up exposure on the show, and several times laced his commentary with plays on the Winston as slogan, "tastes good, like a cigaret should."

Although Marlboro, as an alternate-week half-hour sponsor of "Playhouse 90." wasn't one of the sponsors on the Todd party telecast, it did receive its usual alternate-week cross-plug commercial on the show. Program was blocked so that Moore wasn't around about the time of the Marlboro blurb, but this precaution was obviated by Moore's antics. Marlboro's agency. Leo Burnett, fired off a wire of protest immediately to Jones, and while CBS didn't have a kinne handy, it set up a screening couple of days later for a Burnett-rep of the Coast video tape recording of the show. Marlboro hasn't made any specific demands other than for an explanation, so apparently, the matter won't go any further than that.

DIME-A-DOZEN

Televison, swollen with billings has also been having a dipsy-doodle ball when it comes to the top-billing technique. Many a "who he?" nowadays is either in a starring or "also starring" costarring slot on a medium where authentic top talent rides cheek-by-jowl with the joeblow varlety. And in a sphere that can boast dozens of such authentic marquee luminaries in a single week, the devious way by which an alsoran gets into the "also starring" bracket are something for the trade to ponder.

TV can be killing the goose that laid the etcetera when the millions of looker-inners are confronted with a "new look" in billing that tends to insult their intelligence. In an industry where "every viewer is a critic," it does not set well with setsiders who've become more and more hep on what's what in convinced the little of the property and the property and the property of the has also been having a dipsy-doodle

give up a dollar or two in salary, in a swap for a fatter ballyhoo on the homescreen—they take the credit and let some of the cash go. On the other side of the picture is the strange attitude of the show's high command which for a mere farthing is willing to compromise the prestige of its roster by emblazoning stars-without-a-name across the tw screen.

Particularly with the drama entries, film and live, there's a tendency to go overboard on the bill-board, to the detriment of the program. One gimmick that's being played to the hilt is 'special guest star,' usually a name of sorts but not necessarily in a fat role, and hence the qualifying "special" line. As to the word guest, it's peculiarly inapplicable in straight plays or, for that matter, in drama presentations with changing-cast structure and has more of a relationship with variety shows. (In a dramatic show, every player is in reality a "guest" where the series is in the anthological class.)

It's of some significance, too, that the overloaded credits when it comes to the actors will rarely show up in the newspaper ads where a reader can coldly calculate the dimensions of an actor's status according to his (the reader's) knowledge of such matters as gleaned through constant televiewership. The face might be familiar, but he just doesn't "catch" the name, meaning the surname.

A Broadway legit producer, in contrast, will rarely give up his prerogative of "credit where credit is due," as worked out in the contract under the more disciplined conditions prevailing on the main stem. In general, only the topline stars and featured players will get the nod both in the printed program and in the daily ads. Mend Fences On TV Vocal Shows; **New Producers**

Riew Producers

First casualties of the new season showed up last week, but not in the form of program cancellations. Instead, the networks and agencies stepped in to wield the axe on the production end of live musical shows in a hurry-up effort to mend fences before the sponsors themselves begin to flash the heave-ho signs altogether.

In three separate instances, one on each of the networks, the axe flew last week. At CBS-TY, Lee Cooley was replaced as producer of "The Big Record" in favor of Jack Philbin, who'll get a production assist from Kay Thompson. At NBC, via. McCann-Erickson, Gregg Garrison was ousted as producer-director of "Club Oasis." And on ABC, Frank Satenstein was replaced by Dick Feldman as director of the Pat Boone show. Earlier in the season, Bill Colleran, who started as producer-director of the Polly Bergen show, was relieved of his producer-chores while continuing as director and Mel Brocks brought in to produce. With "Record" showing no signs of improvement on a qualitative basis and with the ratings slipping week-by-week, CBS took Cooley off the show and will assign him to other staff producer duties, Philbin, the former exce producer on the Jackie Gleason show, taken over, and Miss Thompson is being brought in as a production ensultant. Television Followup Comment

Tonight

Jack Paar is NBC-TV's new late-hour "Golden Boy." Since taking over the troublesome "Tonight" assignment a few months ago, Paar has lifted this one-hour and 45minute, cross-the-board, nerve-testing segment into a solid commercial entry. In face of the Hollycial entry. In face of the Holly-wood feature pic competition on some of the other channels and an uncertain start that earned some critical raps, Paar has beefed up "Tonight's" ratings and, coinciden-tally, has been impressing the time-buyers. As of last week, the show has picked up nine participating sponsors.

sponsors.

Like Steve Allen, who clicked in the same spot before moving over to Sunday nights, Paar has come up with the right formula to catch the night-bird dialers. He's heading a stanza that freely steers in all direction chatter, music, comedy, personality spotlights, zamy sight bits, etc.

Although Parattal

bersonanty spottings, zany sagar-bits, etc.

Although Paar had been pressing somewhat too hard when he opened in this slot last July, he now is a relaxed, confident performer with an excellent sense of timing, an original wit and an appealing per-sonality. He works with a light comic touch and an air of bemused puzzlement that effectively regis-ters whether he's taking some ver-bal hammer blows from a guest like Elsa Maxwell or whether he's hoking up a demonstration of a collapsible Japanese-made bicycle.

like Elsa Maxwell or whether he's hoking up a demonstration of a collapsible Japanese-made bicycle. Paar is the unmistakable boss of this show; he clearly defines its quality and determines its pace. But he is also savvy to the fact that it's impossible for him to carry the ball alone over this back-breaking time schedule. Far from hoging stage center, Paar is handing off as much as possible to others regulars and guests.

Last week, "Tonight" was consistently go od and sometimes standout. With Paar for the week was Jonathan Winters, a topnotch nitery comedian who was given free rein. Winters' ad libs and impressions of "Frankenstein" and a German submarine commander provided real kicks. Paar joined neatly in with Winters in some of the routines but gave the latter his due role as a comedy single. Paar, incidentally, noted that 'iewer reaction to Winters' appearance on the show was exceptional.

Paar also has established a smooth working relationship with the regulars on his show, Dodie Goodman and Jose Melis. Miss Goodman, a daffy-type blonde who makes sharp observations in a naive way, is an excellent comedy foil for Paar's wit. Melis, a crackerjack jenish who is also given an occasional gag spot, impresses as a natural deadpan comic who might be given more to do in this department.

Guests also "drop in" on this show to furnish some unrehearsed

The issue, involving Maria Callas' failure to turn up for the San Francisco Opera opening, was relatively obscure but Miss Maxwell's sounding off, without warning, obviously is a plus for th's show. Yiewers get to expect this sort of thing. And they get it. The following might, Juliet Howell, who wrote a scries of books on offbeat letters, sprung this beaut before Parar could do anything about it: "Dear Congressman: I am a virgin voter. Could you teach me how to do it the first time?" Rather rough every if the kiddies are asleep. Parar in the first time?" Rather rough every if the kiddies are asleep. Parar in the first time?" Frank Sinatra Show
Frank Sinatra should be more careful. On his opening hour-long musical jamboree, he got caught in a mesh of tired comedics, and in his followup session, a switch to half-hour straight film play, he floundered in hokey dramatics.

It was a road company Runyon-esque yarn whipped up by Hal Goodman and Larry Klein. Titled "That Hogan Man," It onnermed itself with a tough talking but soft hearted cabbie sams wife and in charge of two French orphans. Plot on the part of the kiddles and neighbors is to get the bachelor married. It works when he mistakes a school-teacher for a floozie with whom he had been blind-dated.

Sinatra handled his role in an effortless and smooth style but his two Gallic wards, Reba Waters and Johnny Crawford were too sticky for credibility. Others in the cast, Jesse White, as a policeman-neighbor, Susan, Cummings as the teacher and Peggy Maley as the blonde date had little to do.

Aside from watching Sinatra glide through the yarn, it had little to offer in dialog or plot twists. The Sinatra club rates more than a hack job.

The Sinatra club rates more than a hack job.

Original Amateur Hour
The globetrotting 'Original Amateur Hour' brought back a batch of simonpures from Austria for display on the Sunday (27) session over NBC-TV. It seems that from the previous Ted Mack exhibits, tyros throughout the world are virtually the same, with only a few exceptions, which seems to make the best entertainment. The arts and crafts indigenous to the country of origin seem to be the only turns that make the worldwide hegira worthwhile.

The Austrian anschluss started off in a manner that suggested the gemulich of that country. A pair of Alpine herren, with accordion and a contraption known as a devil's fiddle, sang and yodeled, in a manner suggestive of that land. Then followed an autoworker on homemade marionettes, made anexcellent impression with his fiddler, but came down to ordinary levels with his rock 'n' roller. A Lutheran pastor dressed in a coachman's coat also brought a whiff of freshness with dis rendition of "Fiacrelled."

However, the rest of the cast might have been picked anywhere. Except for the singers, who turned Italian operatic arias into German songs, the distinctiveness of the Austrian imports ceased.

What Ted Mack and his cohorts did succeed in kicking up is the delightful novelties that provided the backbone of the old vaude days are still alive, and being nurtured in the offbeat places of the world. This kind of act made the Amateur Hour great, and not the frequent imitations of what is readily available in virtually any community.

Playhouse 90

AThey Hanged My Saintly Billy," the bestseller by poet-historian Robert Graves about the mid-19th century English rascal, Dr. William Palmer, is a tough undertaking for adaptation to any medium. How do you adapt a narrative—pure and simple, however fascinating—into the framework of a dramatic form? David Shaw tried, and succeeded to some extent, with "The Mystery of 13" on "Playhouse 90" last week.

The 'Beat' Generation

Young America on the hoof is seen any afternoon over three Gotham channels—Ted Steele via WOR-TV, Dick Clark's 'American Bandstand' via ABC-TV, and Herb Sheldon on DuMont—and it's rewarding to observe that dansapation is perhaps as good as warding to observe that dansa-pation is perhaps as good as antidote to juvenile delinquen-cy as anything extant. For one thing, no matter the attitude about rock 'n' roll, there's no gainsaying the basic appeal of 'the beat' for the kids' hoof-ology, and as the high school set compete in exhibition dansants, with nominal prizes, gags and gimmicks to punctu-ate the proceedings, it's also, fundamentally, good television. There's something about watch-ing people being themselves, There's something about watching people being themselves,
whether adolescents or mature, that is intriguing tvlooking.

in turn tough and deft.

Robert Mullgan's direction only suffered from the problems inherent in the script; the narrative was tough to pull along, and there was tough to pull along, and there was sometimes confusion as to motivation and even action. But his direction of the cast was brilliant, and the level of the performances overcame the lags. If "The Mystery of 13" wasn't up to par as a dramatic entity, it certainly was an acting tour de force and an adventure in offbeat adult programming.

Lux Show—Rosemary Clooney
Now a month old, Rosemary
Clooney's "Lux Show" is settling
down as a quality showcase for the
singer's talents. At least on Thursday's (24) half-hour NBC-TV origination from the Coast in color she
was a smooth, affable femcee and
deftily exchanged banter with
guestar Ken Murray. Her extraordinary vocal assets probably are

taken for granted and these were demonstrated anew via some five numbers.

It's a friendly, intimate session that Miss Clooney presides over. Then, too, there's a homey touch here and there as she confided that hubby Jose Ferrer often likes to reflect upon things in general—in contrast she's the "sentimental" type who loves the change of seasons (none in California). Naturally, all this led up to a breezy vocal of "Early Autumn," complete with a prop tree.

Shakespeare, believe it or not, was the peg for Murray to hang his funmaking. Angle here called for him to "abandon" comedy to turn dramatic actor. Of course, this was developed to the maximum what with Murray donning a fright wig to do the balcony scene from "Romeo and Juliet." Even bandleader Frank De Vol got into the act. All rather far-fetched, but neverthess it had its amusing moments.

Otherwise, Miss Clooney dished by such tunes as "Come on a My House" and The Modernaires clicked nicely with "Up Above My Head." Latter number was distinguished by some special lensing effects in which only the faces and hands of the singers were visible against a black background. Miss Clooney displayed ample assurance on this outing and appears well on her way toward becoming an established ty personality.

The tale, adapted from a story by Lee McGiffin, was on the weak side, studded with some soggy sentimentality. But it proved to be a neat vehicle for Laughton. He mugged to the little league Hoot Owls arguing with the umpire; he spoke with autority on Churchill's "finest hour" address; he grimaced when is proper bowler hat was replaced by a stetson. It was fun watching Laughton go through his "Ruggles of Red Gap" paces in this half hour.

Ed Sullivan Show

For a special tribute to ASCAP Sunday (27), Ed Sullivan stacked his vaude deck deeper with talent than usual; and while it's not a valid ecuation that so many more acts will give you so much more show, the numerical value did compensate in a way for an absence of topdrawer names. The necessity to get 'em on quick and get 'em off quicker had its advantages in holding each turn to his Sunday punch and in preventing the weaker ones from causing a sag. Sullivan handled the rush act smoothly enough and even had time at tailend to namedrop from the audience.

ence.

It apparently was presumed that even the Kansas City milkman knew about ASCAP because at no point was it ever identified by more than its nickname, nor in fact did Sullivan explain why the Society was being saluted that night. Didn't really matter, though, because after a while everyone got the idea that it was show biz in capital letters.

atter a wine everyone got the idea that it was show biz in capital letters.

Biggest name on the roster, Maurice Chevalier, didn't make the advertisements and had only a walk-on at the beginning to receive an award from fellow preformers. Otherwise the talent and songs rocked back and forth from something old to something new, from straight pops to light classics, with a sprinkling of comedy between.

Titular topliner was vet comic Frank Fay, who appeared three times, once at the outset for a moment, again for a middly funny monolog that surprised the audience by ending abruptly, and finally for a comedy song that surprised the crowd for not ending sooner than it did. Joe Howard, now 83, contributed to the nostalgia with a sprightly cane and tophat routine, and Blossom Seeley (working without spouse, Benny Fields, who was at home with Asian fin) likewise harkened back to oldtime vaude with an effusive rendering of "Somebody Loves Me."

Look Here, Mr. Skelton!

Considering the high cost of television, in a day and age when a brace of alternate sponsors are maddled with a \$5,000,000 to \$6,000,000 time-talent seasonal budget for a half-hour entry, the antics of Red Skelton on his CBS - TV show last week were inexcusable. It was not only in bad taste, with its offensive material, but suggested a sloppiness and carelessness that, in this latter day period of tv's exactitude and finesse, could hardly be condoned.

latter day period of tv's exactitude and finesse, could hardly be condoned.

At a time when television is virtually devoid of comics, with Skelton, Jack Benny and George Gobel just about the sum total on any frequent exposure, such evidences of ineptitude and shoddiness as characterized by last week's program will hardly invite any "bring'em back" overtures.

Sherwood Schwartz, as head writer, should know better, having toiled these many years in the radio-tv vineyards on a high professional level. His script was designed to kid the current sponsor rougue for westerns. As comedy material, it served its purpose in reverse, probably spiraling audience demand for the oaters.

The manner in which Skelton and guestar Cesar Romero fiuffed their lines or at the stightest provocation went into laughing iggs, that bewildered the viewer was a throwback to a way-back-when era in tv. And Skelton's on-the-air genuffecting to CBS board chairman Bill Paley, program chieftain Hub Robinson and tv network president Merle Jones (the latter coming off as though Skelton wasn't quite sure about Jones' identification) was perhaps as puzzling to the viewer as it was totally unnecessary for the show.

If the National Film Board of Canada can maintain the standard set by the opener (27) of its new "Perspective" series on the Cana dian Broadcasting Corp. video web, Canadian viewers are in for a standout season. "Perspective," standout season. "Perspective," filmed-for tv by NFB, preemed its second season with "Aye Follow Your Own," a tale of a young Scotcouple planning to enigrate to Canada. Yarn was handled superbly in documentary form with sufficient dramatic bite to keep eyes on the parlor screen throughout. Unfortunate lack is naming of cast which, to a man, presented sharp, crisp characterizations. Such solid work deserves screen recognition. Charles Israel. one of Canada's

work deserves screen recognition.

Charles Israel, one of Canada's best video and screen writers, wrote a slick script giving the characters all opportunity to authenticity. Players were evidently native Scots and had just the right accents and expressions. Veteran NFB producer David Bairstow and director Julian Biggs, longtime NFB director now freelancing, paid harp attention to tugs at heart-strings and the persistent indecision of the young couple, necessary to this stint. Show was evidently filmed in Scotland. There were few if any sets, with strong use of authentic (because they existed) land-capes and interiors and lighting that retained the documentary quality.

Story took a piercing look at the

quality.

Story took a piercing look at the thoughts of the principals and how they were swayed by the opinions, sought or come upon, of older people, anoops, young business people, Canadian immigration officials, natural-born upsetters, others. The story never did get them on the ship to Canada but left the young husband, whose wee wifey was waitin', ready to start packing.

"Perspective" is bound to be a video highlight this season, with kudos going jointly to CBC and NFB.

A few weeks ago, WNBQ re-

treated from head on news-weather competition with WBBM-TV by shifting its inveterate "Four Star Final" a half hour later and augmenting it with a five-minute commentary on world news by Clifton and Frayn Utley. The addition strengthens the lineup considerably but creates a new problem in dividing the half hour one extra way. And basically this is what's

way. And basically this is what's wrong with the new layout—it's overcrowded, and exerything is spieled apace in an obvious race with the clock. Not only does this fluster the delivery of the performers, it also transmits their anxiety to the viewer.

Len O'Connor, a crack newsman but not a very spirited reader of news, has taken the 10-minute teened spot that was once Morgan Beatty's. From his constant glancing downward and his lack of vocal infection he makes it apparent that he's reading from sheets on his desk, and this is distracting. He can perhaps get better eye-to-eye contact with his audience from prompter cards placed beside the camera. Best part of his seg (and it's outstanding, in fact, as local television goes) is his newsfilm interviewing, which never fails to be incisive.

He's followed by Clint Youle and

He's followed by Clint Youle and He's followed by Clint Youle and the weather prognostication, a five minute segment which can be pared shorter without being hurt. The Utleys come on at 10:45, Clifton one day and Frayn the next, with a brief essay on an aspect of the international picture. This feature can give the strip a substantial ratings boost if the male Utley can regain the popularity he had before a stroke sidelined him several years ago. Both have fine camera presence and a lot of editorial ken but would probably have greater impact in a more relaxed setting.

made it world famous. To see these musicians in action, completely absorbed in their performance, was a treat.

The Budapest played four selections—Hugo Wolf's "Italian Serenade"; the "Andantino" from the Debussy G Minor Quartet; the scherzo from the Cesar Franck Quartet in D Major, and the complete Beethoven Quartet Opus. 59, No. 2, one of the Rasumovsky quartets. Norman' Dello Joio, the American composer, introed each selection, simply and without wearing out his welcome. His remarks were well phrased, informative and to the point.

The Beethoven Quartet Obviously was the highpoint of the presentation. It received a magnificent, lively rendition from the Budapest Quartet, playing with fire and emotion. The gentle second movement was magnificently executed, and the lively fourth movement rought out the unusually spirited quality of the music. This is not one of the best-known of the Beethoven chamber music works, but in the hands of the Budapest, its full beauty emerged.

The question does arise whether, on a program-such as this, designed for listeners who obviously already have an appreciation for chamber music, it is wise to present "bits and pieces," such as excepts from works rather than the whole works themselves. The reasoning, perhaps, was that the program should encompass a wide variety of music, an aim that certainly was achieved.

There is, perhaps, some significance in the fact that, even as CBS Radio carried the N. Y. Philharmonic, WCBS is New York had the Budapest Quartet on the air. Perhaps ty, finally, is recognizing its responsibility to some "minority" sectors of the wide audience. In any case, the META-WCBS presentation, with the station do-nating time and facilities, must have brought much Joy and satisfaction to the many who look for good music on a chilly Sunday afternoon.

"Valor in blowing the whistle on some of the "entertainment" would have been the better part of discretion in this instance where the program's auspices seemed to be downgrading the intelligence quotient of the public. It's dollars to donuts that Mr. & Mrs. John Q. Public would have taken this subject straighter than Capra and his professors-advisers were obviously willing to concede they would. They are not the first—in an out of show bir—to figure the public wrong, but surely the world's voracious reading appetite for spurnikal-large should have persuaded them that the public-at-large have become attuned to taking their science with not too much water added.

David Susskind and his Talent Associates, the packagers, mounted the play lavishly and with exactitude (but unfortunately a lot of the detail suffered in its monochrome production, for here was one show that literally cried out for tint enhancements).

Paying proper respects to the well-heeled du Pont sponsorship auspices, nothing was spared in the way of casting, with such names as Christopher Plummer, Rosemary Harris (by courtesy of the Old Vic Co.), Sir Cedric Hardwicke, Hurd Hatfield and John Carradine, among others, running interference—and running it well—for Rex Thompson as the Prince and Johnny Washbrook as the Pauper. All told there was a cast of 60 and individually each contributed his all to the whole. Notably, however, it was Plummer as the hero-to-the rescue who captured the very essence of the knight in shining armor. It was inspirational casting. Rex Thompson as the prince-turned-pauper and Johnny Washbrook as the pauper in king's robes played it as though for real, yet for the most part it came out with just the right believability. Both turned in sterling performances and only intermittently was Washbrook's pauper on the stilled, awkward side—a circumstance inspired more by the role itself than any inadequacy in his thesping talents. Overall the spirit of the Twain twins set well with them.

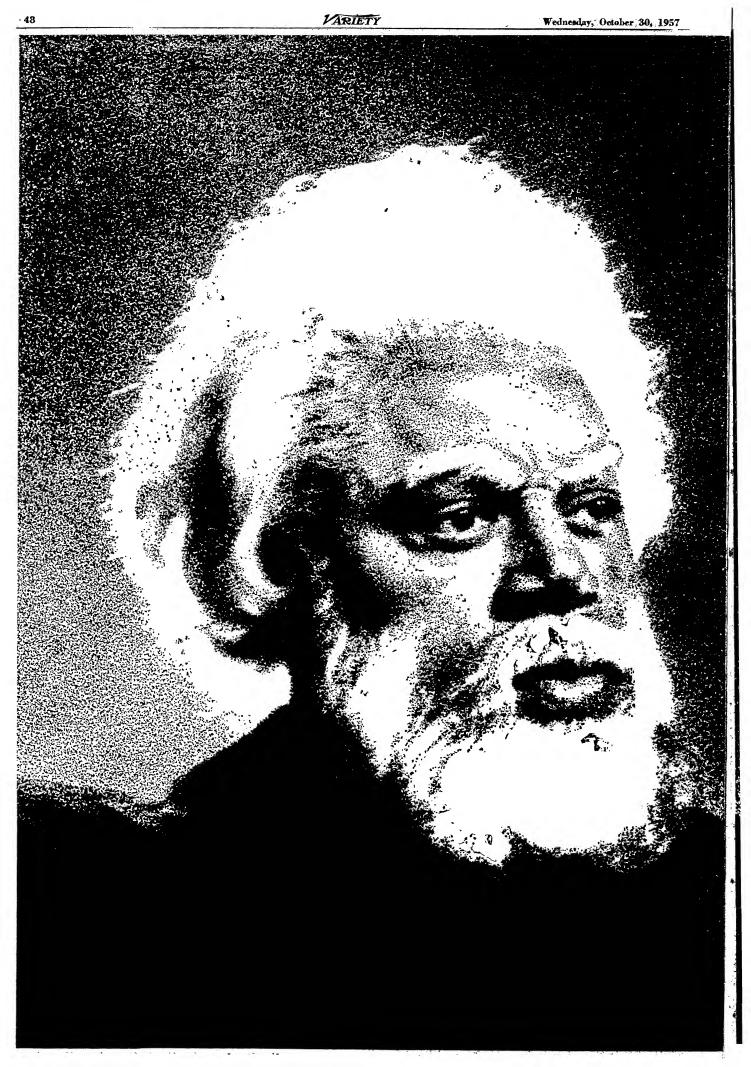

Production-wise, it for the spectacular, with one scene set in a palace courtyard, another a street brawl and a third the throne room for the coronation. Regrettably, semetimes the effect produced was a cluttered one, with a dozen people bunched together in front of the camera, thus dissipating the grandiose intent. But this was minor compared with the abundant assets.

VARIETY - ARB City-By-City Syndicated Film Chart

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Bureau on a monthly basis. Cities will be rotated each week, with the 10 top-rated film shows listed in each case, and their competition shown opposite. All ratings are furnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets in use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quiz; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national sponsor from whom the film is aired.

RAP TV'S 'FORTUNE TELLERS'

Int'l TV Circuit for Amateurs

Lou Goldberg, producer of "Original Amateur Hour" on NHC-TV, returned from Europe last week after setting in motion initial plans for an international round-robin showcasing of amateur per-formers. Initial fruits of the venture were on display last Sunday (27) when the Ted Mack-emceed stanza was highlighted by a group of performers brought over by Goldberg from Austria. This will be followed within the next few weeks by a troupe of Yugoslav performers.

be followed within the next few weeks by a troupe of Yugoslav performers.

The Goldberg-inspired international ty circuit will encompass in its orbit a U.S.-Britain-Mexico shuttling of tyres. Three-time winners of the Mex City ty version of "Original Amateur Hour" will not only be brought to N.Y. for appearances on the NBC segment, but it's planned to showcase them on the British commercial ty airlanes. Similarly with the three-time U.S. winners, who, after participating in the Madison Square Garden Catholic Charities benefit in January, an annual Amateur Hour event, will also be flown to London for an appearance on the British commercial channels.

Hugh Green, who is Ted Mack's alter ego on the British ITV setup and associated with Val Parnell's "Sunday Night at the London Paladium," is currently in this country negotiating for an annual exchange of "the best of the U.S. tyros" and plans sending "the best in Britain" to this country. Goldberg is initiating overtures to bring Farnell to N.Y. for the Madison Square Garden display.

Geldberg also brought over Dr. Heinrich Kraus, Viennese impresario, who is expediting the talent exchange for the Continent.

STICK NECKS OUT

A full head of steam is being brewed up by the networks, independent producers and directors, and even top-level agency execs against fortune telling tv critics who preview shows in advance and tell their millions of syndicated readers to either view particular shows or to read a good book on a given night.

a given night.

The cry of the tv industry is that they are being sacrificed to the woives even before their shows are aired. Millions of dollars not to say anything about man hours, sweat and tears, they lament, are tossed down the drain by tv critics who preview shows and then discourage listeners from viewing them after he panning them as he them either by panning them or by leaving them out of their recommendations of the evening's view

ing.

This is no longer a babes-inarms matter with syndicated previews hitting almost one half of
the tv homes. As Nick Kenny of
the New York Mirror expressed it;
"editors throughout the country see
that it's going over big in other
rival papers and therefore they
have their own tv staff preview
fare or they purchase a syndicated
preview." Kenny however feels
that readers for the most part will
make up their own minds.
Kenny's feeling though, isn't re-

that readers for the most part will make up their own minds.

Kenny's feeling though, isn't reflected by the majority of the tv industry who feel the pain. TV wheelers and dealers readily point out the dangers in the system. Many times a show is either panned or 'left out of a syndicated column merely on the basis of a previous showing. Or a previewer in some cases will not be given a cript by the network and therefore the critic has nothing to go on. CBS does not faste scripts to any of the previewers and if a script isn't dug up from a reluctant agency the network shows aren't reviewed or if they are done, it's from a handout, which lists nothing more than one or two sentences on the plot of the story.

ABC and NBC issue advance scripts to the previewers but wait over the fact that there are someover the fact that there are some-times three or four scripts before a show is finalized to say nothing of changes in the final script of major characters or scene shuf-fling before a show goes on. On live shows one exec stated that changes are made at dress re-hearsal usually held the day the fare is scheduled and by that time previewers have already got-ten their columns in print or over the wire.

Kleiner Often 'Sururised'

Kleiner Often 'Surprised'

Most of the tv critics are honest enough to admit being caught short on occasions. Dick Kleiner, who does a syndicated review for the NEA, stated that, with script changes, he has predicted a poor show only to be surprised and vice versa. Kleiner, who has his column syndicated in some 850 pers, contends that he tries to single out shows which the ordinary (Continued on page 64)

than the directors who took care of the dramatic content.

A RTDG source said this week that his union will demand the right for its directors at NBC to give direct orders to lensemen right up to the time of dress rehearsal on all the network shows. And on those that go on unrehearsed, RTDG wants the right for members to gab directly with cameramen during airtime. He added that these instances are covered in both the RTDG and NABET contracts and he described the pertinent clauses in both pacts as "basically the same." He said further, before z meeting of the RTDG council meeting Monday (28) night during which the matter was to be discussed, that his guild intended only to exercise a "dormant privilege."

NABET said earlier that it had

NABET said earlier that it had NARET said earlier that it had not been notified of RTDG's intention either by RTDG or the network. There is a belief that NABET will resist RTDG's edict to NBC, since the part about given RADG members the power to speak to cameramen during unrehearsed shows would obviate the need to a great degree for NABET's technical directors.

Warwick & Legler Sez Schick Pilfered an Ad Idea From Ex-Agency

The long standing Madison Avenue tradition of being gun-shy in law suits involving client-agency relations went by the hoards this past week when the Warwick & Legier agency obtained a temporary injunction against Schick Inc., for using an advertising idea presented to Schick when that firm was in the Warwick & Legier stable.

This is the first time that

This is the first time that a suit of this nature has been brought before the Courts, agencies never before having considered kiess or gimmicks to be their own property. The Schick company while being handled by the agency was approached with the promotion idea of rubbing a piece of cotton against the side of the face after being shaved by an electric razor as opposed to the conventional razor.

The simmick presented by the

posed to the conventional razor.

The simmick presented by the agency, it's claimed, was spurned by the firm at that time but since moving the bir. to Benton & Bowles, has used the idea in a short commercial on "Dragnet" which incidentally deals with people copping goods belonging to others.

Razor firm contends that the 15% commission paid on the agency's billings covered the idea and that the agency had offered the lit to a competitor before the termination date of their relationable. ship.
Warwick & Legier feels that the

use of the promotion stunt was sur-rendered when the agency placed its business elsewhere

500 NBC MATINEE THEATER PERFORMANCES...

JUST FOR HER!

She's seeing the 500th performance, live in color, on October 31 - the occasion of NBC Matinee Theater's 2nd Anniversary. For two years on Matinee she's seen hour-long live dramas by Shaw, Thurber, Marquand, Tennessee Williams, Rod Serling, Gore Vidal. She's seen stars like Wendy Hiller, Sir Cedric Hardwicke. Roddy McDowell, Sarah Churchill, Maureen O'Sullivan - and dozens more, all introduced by host John Conte.

What she may not know as she watches NBC Matinee Theater (3-4 p.m., EST, Monday through Friday) is that every day more than three million others are watching, too. They're predominantly housewives, like herself, enjoying daytime television's most distinguished program achievement.

In pioneering its new concept of live programming on a scale never before attempted, NBC Matinee Theater and its executive producer, Albert McCleery, have won the plaudits of the industry and critics alike. The series has won twelve major awards-including an "Emmy," a Sylvania and two Fame Awards-for being the best daytime show in television.

Leading national advertisers recognize NBC Matinee Theater's high standing among audiences and critics. Current sponsors are: Procter and Gamble, Chesebrough-Ponds, Corn Products Refining, Breck, Kraft Foods, Whirlpool Corporation, Minnesota Mining, and Bissell. You, too, can be stage-center in daytime television's most exciting dramatic achievement!

VARIETT'S weekly chart, based on ratings furnished by American Research Bureau's latest reports, on feature films and their competition covers 120 cities. Each week, the 10 top-rated features in a particular city will be rotated.

Factors which would assist distributors, agencies, stations and advertisers in determining the effectiveness of a feature show in a specific market have been included in this Variety chart. Listed below is such pertinent information regarding features as their stars, release year, original production company and the present distributor, included wherever possible along with the title. Attention should be paid to such factors as the time and day, the high and low ratings for the measured

jeature period and share of audience, since these factors reflect the effectiveness of the feature, and audience composition, i.e. a late show at 11:15 p.m. would hardly have any children viewers, but its share of audience may reflect dominance in that time period. In the cities where stations sell their feature programming on a multi-stripped basis utilizing the same theatrical throughout the week, a total rating for the total number of showings for the week is given, the total rating not taking into account the duplicated homes factor. Barring unscheduled switches in titles, the listed features for the particularly rated theatrical filmed show are as accurate as could be ascertained from a multiplicity of station and other data.

THE NUMBER ONE

Number One? Yes, indeed! Last Saturday and Sunday afternoons, in 13 major American cities, the NTA Film Network achieved a 46.5 share of audience...as compared with a 53.5 share for all other TV networks and stations combined (Trendex).

TV NETWORK

TV Network? Decidedly! It's an organized line-up of 63 TV stations, reaching 83.8% of America's television homes.

IN AMERICA

In Los Angeles — #1 in time period...with 17.5 rating and 54.6 share (ARB) on KTTV. Higher than all other six stations in the market combined.

In Chicago - #I in time period... with 11.5 rating and 47.1 share (ARB) on WBKB. More than double the average rating of the other three stations in the market.

In New York — #1 in time period ...with 10.4 rating and 31.5 share (ARB)...on WPIX. Over twice the rating of the next best rated network affiliate.

A WEEK SAT and SUN AFTERNOON

The dates (Oct. 19 & 20) may well be a milestone in American telecasting, since at that time, the NTA Film Network broke the sight barrier with a national (13-City) Trendex rating of 14.2 vs. 16.3 for all other TV networks and stations combined!

... THE NT A STWORK

America's dynamic new TV network

NTA Film Network showed the first of four Shirley Temple attractions, sponsored by the Ideal Toy Corporation, the Toni Company, with Smith

Bros., Inc. joining up shortly. Partial sponsorship of three other programs in this series is still open...if advertisers and their agencies act quickly.

'Assembly-Line' Product Making TV Sterile, Susskind Laments

never been "so inane and inept' and downright dull as it is this season, in the opinion of veteran producer David Susskind. The networks ought to open their shows with an announcer saying, "And now we bring you, dead from Hollywood, on film ...," Susskind

In their attempts to play it safe, the networks, sponsors and agencies have "destroyed the dynamic, progressive creative programming that makes television an exciting medium and promises its greatest potential. Unless they wake up to the fact that in the long run, the "trite and cheap imitations" they program will eventually lose them their audience, the damage they create may take years to remedy Susskind observes.

The producer and partner in Talent Associates admits he's "on a ent Associates admits he's "on a crusade" to restore live programming to the east. But he's "shocked, disgusted and revolted" at the kind of "claptrap" that's being dished out to the viewer. "I used to watch television all evening; I felt it was part of my job to see what other writers and producers were doing. Now I simply can't do it; I turn the set on at 7:30 or 8 and by 9 or 9:30 I can't take any more of it."

Susskind associates television's

take any more of it."

Susskind associates television's sills with the trend to Hollywood and warns that if New York is left to become an "intellectual Sahara," the consequences will be dire for the medium. Hollywood's not concerned with creativity or show business, he says, but only with 'how to make the fast buck." The producers and stars are so concerned with the monetary aspect of their package that they forget about its creative facets.
"You go out to the Coast and

about its creative facets.

"You go out to the Coast and all you hear is, 'We got to get 156 shows into the tin, and then we've got to get them out into rerelease as soon as we can.' But you never hear them say anything about the script or the show itself. They're after the quick buck, and if that's what they want, they ought to invest in an oil well. That's not creativity and that's not show business."

reauvity and that's not show business."

Trend To Coast a 'Fallaey'
Susskind warns that the trend to the Coast in search of star names is a fallacy. "There aren't 12 or 15 genuine actors in the picture business. The rest of them are publicity myths, freaks who couldn't do a 2n-search way spot let alone a 90-minute show. And what makes sponsors think that stars alone is any guarantee of audience? Look at the motion picture boxoffice today; the public won't buy stars if there isn't a good story to go along with it. It's too sophisticated to buy stars alone anymore. So what makes the networks and sponsors think that if stars aren't drawing in the theatres that they are going to draw in ty?"
Happly, Susskind states, so me sponsors have begun to realize the

stars aren't drawing in the theatres that they are going to draw in ty?"
Happily, Susskind states, s o me sponsors have begun to realize the inadequacies of film. "They've got 12 films in the can by the time they go on the air, and suddenly they realize the show is awful. They can't redo the films—the sponsor isn't going to pay for it, neither is the agency or the network and certainly not the packager. There's no opportunity for everyone to sit down and look over the show and start making changes. When we started 'Mr. Peepers,' we didn't have Marion Lorne in the cast, or Mr. Weatherby. In the course of several weeks we developed them into major characters we had created couldn't do the job."

Live television provides the opportunity for hard, creative work which can't be done with film. "We've already done nine separate cript drafts on 'The Prince and the Pauper.' In Hollywood, they've got to get that film in the can in two and a half days, so good or bad, they shoot it and yell 'wrap it up.' There's nothing creative or exciting in that, so no wonder the shows are so bad."

Tipoff to the quality of Hollywood's television product, says

Tipoff to the quality of Holly-wood's television product, says

Sussmith, is the fact that the really creative movie people, like John Ford, John Huston, George Seaton, are doing television. The people turning out the television product are either hasbeens or never-weres, rejects or retreads."

It's a sad day, Susskind says, when New York's "great reservoir of creative talent—the great actors and writers"—is being wasted in favor of "assembly-line" product which is making the medium sterile

WMCA's 'New World' **Getting Brush From** TV-Happy Scripters

Last locally-produced dramatic show on New York English-language radio is having a tough time. The 13-year-old "New World A-Coming," which began a new season on WMCA last night (Tues.) has found itself hard put to find writers willing to accept assignments for indie radio and to de liver on deadline.

The 30-minute once-weekly program, on since 1944, has been considered a prestige showcase for performers and writers. By local economic standards, it cost WMCA plenty to do the stanza. Outlet pays all the going rates on radio talent for the public service show.

For the first time, the station is really feeling the blte. on scripts. It seems to have become a practice of late for scribes to start on their "New World" stories and suddenly put them aside for a tv story nibble.

Even members of the American Federation of Television & Radio Artists, who are described as "always glad to work" on the institutional radio show, have started holding off confirmation of an appearance until the last minute. Apparently, they wait out any last-minute tv shots, which pay considerably more. Lead of the kickoff show, Norman Rose, wasn't set until Thursday last and the balance of the cast didn't confirm until Monday. In all, there were eightparts producer Howard Phillips had to fill, and everyone made it clear to him that they would have to cancel out if a tv show came along. Even members of the American

Chicago, Oct. 29.

WGN aired a special 15-minute program of award-winning radio blurbs last Saturday (26), using eight national spots that have been named the most effective anouncements of 1957. Showcased were the commercials of Beech-Nut Gum, Budweiser, Dodge, Ford, Mariboro, Pepsodent, Texaco and Winston, all of which have had schedules on the station this year. The show was unsponsored.

Robt. Sarnoff's **Happy Footnote** For Radio Affils

The one-big-happy-family atmos phere that pervaded the NBC Radio affiliates meeting in New York in September was continued last week in a meeting of the affiliates' executive committee, which vas promised new station compensation increased and which was advised of substantial hikes in ratings, bill-ings and compensation during Sep-tember.

Ings and compensation during September.

NBC prexy Bob Sarnoff told the group that September billings were up 70% over September of 1956, that aggregate station compensation was up 200% (300% for stations carrying the full NBC commercial lineup), that sponsored hours are up 40% and that ratings, as reflected in the new Nielsens, have shows farmatic share of audience gains.

Share of audience picture, as delivered by Joe Culligan, v.p. in charge of radio, showed a 37% share increase in the 10 am. to noon period, a 40% share impt for the 2 to 3 p.m. period, formerly locally programmed, and a "continued lead" in nighttime share.

Sarnoff told the exec group that compensation would be increased in two steps, the first effective on tot 1 test the second next April 1

compensation would be increased in two steps, the first effective on Oct. I past, the second next April I. Compensation increases are in line with the new compensation formula adopted by the affiliates, which took effect Oct. I. Compensation plans were endorsed by George Harvey, chairman of the affiliate group, on behalf of the committee.

Herb Brodkin's 2 New Series on CBS Griddle, Duff, Felton to Coast

With Gordon Duff and Norman Felton tapped for the Coast-originating production chores on "Studio One," Herb Brodkin has already begun development in New York on two new series, "Front Ofice," a half-hour filmed series on big business starring Ralph Bellamy, and a still untitled live hour drama.

Pilot on "Office," which is Brodkin's first half-hour filmed effort
and his first half-hour show since
he did "ABC Abhum" back in 1952,

in New York. Brodkin is working
on assigning a writer to the series,

during the spring for fall airing.
As for the hour drama series, the

'Music to Brush Your Teeth By'

Wednesday, October 30, 1957

San Francisco, Oct. 29.

American radio music is "music to brush your teeth by," according to the music program director of Kol Israel, the Israeli broadcasting system.

Shabtai Petrushka, currently touring the U.S., has a lew opinion of U.S. musical programming, though he tries hard to be courteous. When prodded, however, Petrushka says:

"In my opinion, the sponsors are the ones who determine what is programmed on American radio."

He doesn't think this is beneficial to radio.

He scoffs at most of the programming on AM stations as "cheap music," feels there are "only a few good FM stations" in the U.S., Kol Israel's 90 hours of weekly programming, says Petrushka, include only about 20% pops—"most consists of pieces with Latin-American rhythms and good, genuine American jazz in the Count Basie-Duke Ellington-Woody Herman vein."

The other 80% of the time is devoted to longhair music and the playing of new works by contemporary Israeli composers.

playing of new works by contemporary Israeli composers.

Petrushka says Israel's tv blueprints have already been drawn up and have a 1960 deadline. He explains:

"The cost is high and I am afraid we will have to go commercial."

stars went through but only a few survived. This is the day of the "personality salesman," and Ross had a tough inner battle before he could accept the fact. "Imagine Jessica Dragonette doing commercials today," he says, "and that will give you an idea of my feelings when I realized the changes that were taking place in the business. But I love radio, I've got a great affinity for the microphone and for the people I reach, and I made the adjustment."

Ross feels he hasn't suffered any Hoss feels he hasn't surrered any from his modern-day role as a salesman-performer. "Sometimes I think it's made me realize that I'm a better all-round person because of it. I remember nearly four years ago when I came to WCBS (N. X.) ago when I came to WCBS (N. Y.) to talk about the show I'm doing now. I sat down with Sam Slate, the program manager (now general manager) and for four hours we didn't mention show business or advertising or my background. We just talked about me, and I guess Sam was sizing me up as a person rather than just as a singer. Well, the show has been going along for all that time now, and I think it's a source of satisfaction to me that I rate as a person with my listeners.

Public Expects The Pitch

"Actually, today's audiences ex-pect the performer to sell. I re-member when I first started and I had only 15 commercials a week had only 15 commercials a week—
I've got 60 now—and a cabdriver
asked me how the sponsors were

mend one of them."

Radio wasn't always that way, of course, and Ross likes equally to hark back to the days when, as one of the country's top singers, he carved out a permanent niche for himself in show biz annals. Or to the earlier days when radio was finding itself as an advertising and entertainment medium. He remembers when he was doing the Hellman's show, and at the same time was studying voice on Park Avenue.

An advertising executive whose

man's snow, and at the same time was studying voice on Park Avenue. An advertising executive whose hobby was singing heard him and brought him to Marion Harper Sr., father of the present McCann-Erickson prexy and advertising manager for Maxwell House Coffee. Harper was impressed with his voice, wanted to use him for the "Show Boat" cast, but stopped short when he discovered Ross was a Yale man. Harper, he recalls, hemmed and hawed and Ross was ready to give it up as a bad deal, since the ad fraternity was making a big thing about the grassroots approach. Finally, Harper said, "Well, young man, Yale is fine, but have you ever been out west?" Ross had the day won, for he told Harper he'd been born in Seattle, "and you can't get much further west than that without getting your toes wet, sir."

[Pix, Niteries, War, TV, More Radio]

Pix, Niteries, War, TV, More Radio

In October of 1932, Ross found himself among the regulars on "Show Boat," and a nationwide star of the first magnitude. Then came more radio, pictures, night clubs, the war, television, more radio and still more radio. There

riod through which all radio's great was Packard's "Mardi Gras" show, stars went through but only a few survived. This is the day of the "Franco" - American program, the "Camel Carayan" and then three "Camel Carayan" and then three "Camel Caravan" and then three years of wartime service as a major on General Douglas MacArthur's staff. In between, in the latter '30s, there were pictures, "Melody in Spring" and "College Rhythm" for Paramount and "The Lady Objects" for Columbia

for Columbia.

But why always back to radio? Why didn't Ross, with a major reputation and a fine boxoffice potential, stay in Hollywood. "Well," he says, I guess I was in a little bit of a hurry then. I made three pictures, but I wanted to work with my voice, and I didn't get much opportunity out there. I realize today that I would have eventually made it big if I had stuck around for a few more years and kept my nose clean. But when the first radio offer came, I grabbed it, and I've never really been sorry."

After the war, came television,

never really been sorry."

After the war, came television, but before video had its major impact, Ross was going full-steam again on AM with a show for Ivory Soap. In 1947, when Procter & Gamble notified CBS and Ross that they were rebudgeting their advertising for television and that the Ivory show was cancelled, a lot of people, including Ross, saw what looked like the handwriting on the wall.

A TV Pioneer Also

Ross had done a closed-circuit test show on television back in 1937, so he wasn't a complete stranger to the medium, and before the year was out, he was starring on NBC-TV or Swift in one of the first musical variety shows on tele. In 1949, as sponsors do, Swift cancelled, and Ross again found himself back in radio, this time for Gulf Oil on Mutual.

In 1950 to 1953, when radio was facing its darkest days, Ross was a facing its darkest days, Ross was no Mutual for Arteave Rings, a Boston jewelry concern which had been a longtime major magazine advertiser but was trying radio.

WBC Setting Aside **Prime Evening Time** For Educ'l TV Show

Oft-debated question of how well cultural-educational television will

Oft-debated question of how well cultural-educational television will do in prime evening time is due to be put to the test by Westinghouse Broadcasting Co. The Westinghouse Broadcasting Co. The Westinghouse stations are assigning prime evening slots to WBC's new filmed half-hour kiddie-slanted series on mathematics, "Adventures in Number and Space."

Series, filmed in New York by WBC in cooperation with Teachers College department of mathematics at Columbia U., stars Bil' Baird and his puppets. WBC has cleared the following time slots for the entry: Boston, WBZ-TY, Tuesdays, 7:30 to 8; Cleveland, KWY-TY, Saturdays, 6 to 6:30; Pittsburgh KDKA, Thursdays, 8 to 8:30; San Francisco, KPIX, Thursdays, 6:30; Thursdays, 7:30 to 8. Show kicks off the week of Nov 12.

Westinghouse, in order to give the show the biggest possible competitive push, is setting up an intensive advertising-promotion campaign in each city. Apart from at least one national magazine ad, WBC is packaging on-the-air promotional kits with sildes and films, and will even use its radio stations to promote the series. Stations are tieng the series in with junior high schools and high schools in each area and are setting up press-conferences and previews in each city, with Bil & Cora Baird and program consultant Prof. Howard Fehr making personal appearances.

Segal's 'Pops' Format in Bigtime KOBY Payoff; All Frisco Radio Up

trend has made a big comeback in the Frisco area, with all eight major stations in Frisco reporting business up anywhere from 10 to 700%.

An interesting twist on this comeback has been the sky-rocketing ratings of an independent, semi-rock 'n' roll station, Dave Segal's KOBY, which culminated with KOBY edging out the area's longtime 50,000-watt champ, KCBS, in the July-August Pulse.

Segal, who operates indies in Denver and Greenville, Miss., purchased KOBY a year ago from S. A. Cisler. The 10,000-watter at that time was known as KEAR, "the good music station"-that is, Cisler operated with a longhair-music policy.

Segal changed the call letters, installed a "Top 40" pops format, used disc jockeys with house names and, after weathering a NABET strike last October through December, has steadily beefed up the ratings of his music-and-news outlet.

Result has been a steady increase in business—and time rates.

Last January, says KOBY sales manager John McRae, the station had "only five or six accounts." Today it has about 80, half of them national. Prime time rates for a single 60-second commercial have jumped from \$15 last January to \$40, as of Oct. 1.

Competitors estimate KOBY's billings are running between \$35,000 and \$75,000 a month now, and optimistic KOBY execs hint billings are closer to \$100,000 a month. In addition, Segal's known to have turned down an offer of \$1,000,000 for the station several months

One result of KOBY's success is that several other indies have adopted a chart formula.

KYA, the McCaw-Keating KYA, the McCaw-Keating station here, has gone all-out for the kid listeners, with a "Top 30" based on actual phone calls to the station. Station manager Irv Philips says KYA has been getting about 500 calls a day with its "Voice Your Choice" gimmick. The record preferences are tabulated and this tabulation forms the basis of muste programming, just as KOBY's tabulation of record sales and juke-box-statistics from about 80 Frisco area stores forms the basis of its "Top 40."

KYA's additional gimmick start-

"Top 40."

KYA's additional gimmick, started in mid-August and not yet fully reflected in Pulse, is to phone back 50 to 100 callers daily and let them tape their choices for rebroadcast a week later. Each caller whose taped choice is aired gets \$1 and Philips says the station's aiready given away more than \$2,500 in \$1 chunks.

KJBS has also tained in the station of the started with the started way more than \$2,500 in \$1 chunks.

KJBS has also joined in the chart craze, with a "Top 50." Boss Stanley Breyer says, however, that this "Top 50" simply is based on a national survey of songs most often played on radio and that the station's basic music-and-news policy hasn't changed.

Figure KSAN S. H. Patterwork.

Even KSAN, S. H. Patterson's indie which is beamed primarily at foreign-language and Negro groups, has joined in the fun. KSAN deejay "Jumpin' George" Oxford originated a "Top 10,000," which he plugs to the hilt—facetiously, of course.

One independent has held off on rock 'n' roll. This is KSFO, which in recent years has been probably the strongest indie in the Frisco area and was purchased by Gene Autry's Golden West Broadcasters for \$1 million almost a year ago.

Golden West installed Bill Shaw the street of the stronger of the street of the stre

KSFO has the additional advantage of a very strong dial position, 560, way over on the left side, and has maintained a ratings spot close behind KOBY and the two strongest network stations, KSFO's billings are very close to, if not above, \$100,000 a month.

KCBS, the CBS flagship which Arthur Hill Hayes manned until jumping to presidency of CBS Radio, is almost surely doing the biggest business of any Frisco area outlet, probably well in excess of \$1,000,000 a year.

Henry Untermeyer, current sta-tion manager, says business is up "more than 10%" over a year ago, says national spot sales have been climbing steadily since a dip in early 1954 and says local sales show an "ever-increasing curve upward."

Possibly in reaction to KOBY's success, three KCBS performers last month started urging listeners to write in their opinions on rock 'n' roll.

to write in their opinions on rock 'n' roll.

Singer-deejay Guy Cherney began it on his morning show and in 10 days received 683 letters, of which 648 were anti-rock 'n' roll. Bill Weaver, a sort of local Arthur Godfrey, picked it up and got almost as many letters, overwhelmingly against rock 'n' roll, and Wanda Ramey, who runs an afternoon show under the house name of Jane Todd, got a couple of hundred letters expressing the same sentiments. KCBS is now in process of polling the letter-writers to get data on their purchasing power—station time salesmen presumably will use the data to counteract the effect of KOBY's upsurge to the top Pulse ratings, for KCBS (and KNBC) rates are the highest in the area (\$50 for a single 60-second spot). in the area second spot).

KFRC, the Don Lee-Mutual outlet, is up around 20% over a year ago, according to sales manager Bill Nichols. KFRC is one of Frisco's oldest and best-entrenched stations, and the only Frisco outlet still originating (Pacific)

"Our basic sound is talk." says ichols, "for people who like to Nichols, listen."

Top-rated at KNBC is Doug Pledger, a deejay addicted to polkas who is on the NBC 50,000-watter more than 25 hours a week.

KNBC station manager George Furst says business is better, won't say how much better except to point to the net's 40-plus% jump.

point to the net's 40-plus% jump. Fourth major o-and-o network outlet here is KGO, which has had a thorough managerial shakeup at the hands of its new boss, ABC vice-president John Mitchell, in the last eight months.

KGO has been running behind in the ratings and last March even dropped Pulse, according to radio sales manager Dave Lundy, "because we knew we were coming up with a new format." The changes seem to be in the direction of more live shows, more shows aimed at women, and more shows which more live shows, more shows aimed at women, and more shows which dovetail with the net's shifting program concepts. Lundy says the station resumed buying Pulse Oct. 1 and expects so considerable a lift that it's having a special 30-day survey made

Despite KGO's shakeup, Lundy adds, the station's sales are 18% ahead of a year ago.

Tessic O'Shea added a touch of itseliness to the proceedings with some full-blooded singing, and despite her girth, joined in dancing the Can-Can with plenty of gusto and no mean proficiency. For the rest, the show consisted of rather crude sketches (with a high percentage of the ladies donning mustaches, beards and gents clothing), tumblers, chorus lines and vocals. The offering lacked the polish which could turn it into a good novel entry.

Reiner's Far East Sizeup

Other Areas

Reporting on tv developments in other Far Eastern areas, Reiner tacked off the following:

tacked off the following:
Thailand: There are 10,000 sets in operation in Bangkok. The cost is about \$360 per set for a 21-incher. Program schedules are about 70 live and the balance film. A second station to be operated by the government's military department, but which also will be commercial, is due on the air next January. The sole current station IIST-TV is government owned, but operated commercially by private interests. Due to the shortage of technical help, it's on the air four-and-a-half hours dally, five days a week.

Korea: Seoul has one commercial station, HLKZ-TV and about 1,000 tv sets. A delaying factor in increasing set circulation is the 185% duty imposed by the government, a levy which has been holding up almost 700 sets in customs for nearly increase.

nent, a levy which has been holding up almost 700 sets in customs for nearly six months.

Hong Kong: Toll tv, which is creating such a storm in the U. S., is the order of things in Hong Kong. All tv in Hong Kong is wired directly to the home and is operated by Rediffusion (Hong Kong. All tv in Hong Kong believed to the home and is operated by Rediffusion (Hong Kong). Ltd. Currently about 1,000 homes are subscribing, but Rediffusion needs about 5,000 homes to break even. Rediffusion's radio service, operated on the same wired principle, currently is supporting the tv operation. Monthly charges for tv there are \$9.50, with service from 5 to 6 and 7.30 to 11:15 nightly. Most programming is in English—73°C English to 25°C Clinete. All imported films use subtitles. Manila: Currently, there are about 8,000 sets, which are expensive, \$400 each. The one tv station is DZAQ-TV, on the air from 3 to 11:15 p.m. daily. It's just beginning to turn a profit. Programming is about 75°C English and the rest Tagalog. It's a difficult area for U. S. tv film companies since any revenue earned there by the sale of the programs to the stations must be accepted in frozen pesos. A second station may go on the air next year. The U. S. Armed Forces station at Clark Field telecasts regularly—U. S. shows only.

Singapore-Malaya: A public commission, appointed last year, rend-

increasing at the rate of 60,000 sets per month, leading Reiner to estimate that by the end of 1958, total circulation will be 2,500,000.

The size of the market for U. S. telefilms there is limited by the dollar ceiling of \$325,000 for the fiscal year, which is already used twp. The size of next year's allow mup. The size of next year's allow more conditions there, but may point upward with new stations being planned and the set count increasing.

Inside Stuff—TV Films

Metro TV has worked up a tie-in for its "Thin Man" series with fashion editors of the U.S.

During National Fashion Press Week, Nov. 4-8, when the fashion editors of the U.S. will hold their convention in Los Angeles, Metro TV will shoot an episode with an appropriate background, "The Fashion Showdown." Co-star Peter Lawford will draw names by lot to determine which 15 of the fashion editors will be used in a scene-but all editors will be invited to the set on Nov. 6, date of the scheduled shooting. Also hosting the fashion editors on the set will be Edmund Beloin, "Thin Man" producer; director Oscar Rudolph; Adrian Samish, director of programs for Metro TV; and Sam Marx, exec producer.

A 1958 Thunderbird car was won by Jack Skinner, Television Programs of America account exact for Denver, Salt Lake City and adjacent areas, under TPA's musual sales. Incentive campaign just concluded on "New Adventures of Char.ie Chan." Other prizes in the campaign, called "Mickey's Thunderbird Contest," were a three-week vacation for two in Paris and a two-week vacation on the Coast, among other prizes. Trip to Paris was won by Bruce Eells, western division v.p., (to which Skinner is assigned) and the two weeks Coast trip by Art Spirt, of the central division.

Initiated by TPA exec v.p. Mickey Sillerman, the contest had each TPA salesman and each of the three sales division assigned a quota, prizes going to the men who came closest to or exceeded the quota, as well as a prize to the v.p. in charge of the division scoring highest overall sales percentage.

Because of the increased rate with which films are being made available to tv, the Broadcast Information Bureau has issued its first supplement of the "TV Film Program Directory," a semi-annual publication.

The supplement, issued this week (31), is 90 pages and covers new filmed for tv material of four hour-long series, 36 half-hour skeins, one 15-minute series and two five-minute series. Also it covers 178 one 15-minute series and two nve-minute sold theatrical features not previously available for tv.

National Telefilm Associates kicked off its new "Champagne Package" of 74 features in the wake of its recent Chicago sales convention.

The new package is composed of fresh 20th-Fox product, the big ones from Stanley Kramer and other indies and the four Shirley Temple starrers initially aired as holiday specials on the NTA Film

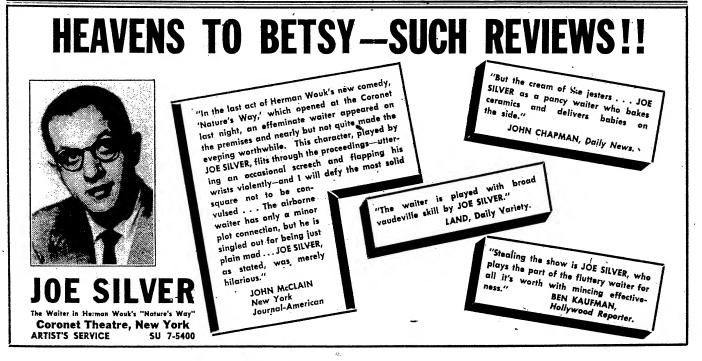

Among the fitles are "High Noon," "Bells of St. Mary," "Claudia and David," "My Friend Flicka," and "Uncle Harry."

Twenty press reps, both consumer and trade, from New York and Hollywood, are participating in the ABC Film Syndication junket to Phoenix, Ariz., where "26 Men" is being filmed. Round of activities will be topped tonight (Wed) by a banquet, to be attended by Gov. of Arizona, Ernest W. McFarland and other state dignitaries. Junket is one of the first major trips of its kind undertaken for a syndicated film service.

The Advertising Council, the do-gooders of the advertising industry, have two public service compaigns underway.

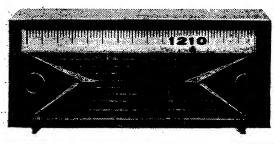

The first is Religion in American Life, prepared for the eighth consecutive year by J. Walter Thompson for the Council. This November campaign will include distribution of radio and television kits to all the stations; the dissemination of info to magazines; and the making up of some 5,500 outdoor posters.

Plans for the second campaign, the promotion of the United Nations, has already started and is under the direction of Harold L. Curtis, v.p. of the Shell Oil Co. Kenyon & Eckhardt is preparing the advertising material gratis.

Television anthologist Irving Settel has two new books due to hit the market within the next two months. First, out next week through Ballantine Books, is "Best TV Humor of 1957," and will contain scripts representing Jerry Lewis, Buddy Hackett, Spring Byington, Ozzie Nelson, Jonathan Winters, Steve Allen, Gertrude Berg, Robert Young, Garry Moore, Ida Lupino & Howard Duff, Perry Como and Eve Arden. Second, out Jan. 1, is "How to Write Television Humor," to be published clothbound by The Writer Publishing Co. Book will contain chapters by top writers, including Sydney Reznick, Art Henley, the late Leonard Hole, Bob Howard and Settel himself, along with sample scripts by Goodman Ace, Mort Breen, Jay Burton, George Tibbles and others. Settel has also been negotiating with Henry Jaffe to do book versions of the Shirley Temple fairytale series to be published at the time of telecast as a 50c edition.

Series of 16 Tuesday time buying and selling seminars by the Radio and Television Executives Society kicks off Nov. 12 at the Shelton Hotel. Seminars are going into their fourth year.

There is a speaker for each of the luncheon meetings. Set are Lewis Avery, prexy of Avery-Knodel, talking on the history of time buying; Ward Dorell, veep at John Blair, on survey techniques; comedian George Jessel, offering a suggested approach to ratings and an analysis of their worth; CBS-TV station relations-engineering veep William Lodge, on coverage factors; Brown Bolte, Benton & Bowles prexy, on client relationships, sales problems, etc.; Matthew Fox and H-R topper Frank Headley on the mechanics of barter; Don Durgin, NBC-TV veep, on daytime video; Mike Wallace, doing one of his interviews on a general tv topic, and others.

Academy of Television Arts & Sciences has definitely decided to begin its new Writers' Workshop by the middle of November. Tele writer group is accepting students for the seminars now. First faculty will consist of Ted Apstein, Robert Alan Aurthur, Paddy Chayefsky, David Davidson, Lee Davis, Ernie Kinoy, Larry Markes, Jerome Ross, David Shaw and Arnold Schulman. Basic aim is to develop "new talent and technique" in scripting for video.

Somebody, namely WLW-D. Dayton, and its program manager, Paul Law, beat Garry Moore to the punch in doing live telecasts of the "brainstorming" free-for-all conference technique. Law experimented with the idea during August, when he supervised three different half-hour telecasts employing the technique. Moore's the first network telecast, is set for today (Wed.).

Mark Van Doren will narrate the second of the New York Metropolitan Educational Television Assn.'s four one-hour specials on WCBS-TV, N.Y., on Nov. 10. First of the specials was the television debut of the Budapest String Quartet last weekend.

Van Doren will narrate "The Faces of War," a series of readings and ballads of great literary descriptions of war, from Homer down to the present. Folk singer Cynthia Gooding will do the ballads, while Earl Hyman will enact some of the scenes. Anthropologist Margaret Meade will also participate. Show will air in the 3:30 to 4:30 p.m. slot on the station.

ABC.

Despite the two-year pledge of allegiance to "Studio One" by Westinghouse, the network is concerned about future properties for the showcase to zing up its Hollywood origination, come Jan. I. "Happy" is hardly the word that can be applied to the web's reaction to its \$100,000 weekly-budgeted "The Big Record" Wednesday night entry, which has been repeatedly out-Trendexed by the competition. The "Dick & the Duchess," "Harbour, Master," "Fue!

Arden half-hours are running counter to the Paley philosophy of qualitative programming.

Similarly in the area of promotion—an area where heretofore CBS enjoyed a king-size recognition—only now is the network stepping up its operation into high gear, NBC having copped the early season's laurels with a triphammered campaign incepted as far back as last May.

If today a viewer finds Arthur Godfrey doing an in-person Monday night at 8:30 plug for the oncoming Danny Thomas show at 9, or an Ed Sullivan personally pleading for a "stay-tuned" on behalf of "GE Theatre," it's not a mirage—merely a realistic reappraisal on the part of the top command all too aware that CBS' status as the "runaway network" has taken a nosedive.

Thank you, Patrice Munsel!

OVER THE YEARS, we've come up with our share of top hits.

But even with a lot of experience, it's only human to wonder how the "Preem" is going to go.

This time, the press said it for us. Patrice, you're great!

And we'd like to congratulate not only you — but all the pros you picked to make this show the hit that it is.

That includes your executive producer-husband, Robert Schuler; producer-director, Clark Jones; writers, Larry Gelbart and Shelly Keller; orchestra leader, Charles Sanford; choreographer, Danny Daniels; vocal director, Hugh Martin; scenic designer, Jim McNaughton; gowns by Scaasi—and all the rest of the swell gang you've got.

You folks really made a big hit in a busy season.

New York-originating teledramatics.

But the picture is changing at such a rapid clip that the Broadway performer is now faced with a tv famine. When, effective Jan. 1, "Studio One" throws in the New York sponge and joins the Coast-bound trek, the legit actor will have little video space in which to move around. On a regular weekly basis, only "Kraft TV Theatre" on NBC-TV will be available in terms of employment. There are a few other isolated segments, such as the 20 live hour entries in the Monday night "Suspicion" series (but with a restrictive format limiting the type of performer; and the alternate week "U.S. Steel Hour" and "Armstrong Theatre" on CBS-TV (but here again, in the case of

the type of performer); and the alternate week "U.S. Steel Hour" and "Armstrong Theatre" on CBS-TV (but here again, in the case of the latter, the documentary-type format also invites restrictions).

Perhaps the biggest blow of all to the legit performer who has needed that added financial lift from tv came last month with the fadeout of the Sunday night Alcoa-Goodyear Playhouse dramatics on NBC-TV. Like its predecessor entry before it, "Philoc Playhouse" it provided a field day for the Broadway featured performer and star, with its Sabbath night show-casing making it a particularly inviting dish. But Alcoa and Goodyear, like so many before them, have "gone Hollywood" via the half-hour film route.

Not since "Kraft Theatre" and "Studio One" initially incepted the N.Y. originating drama pattern about a decade ago has the plight of the East-berthed actor been so desperate. Only a couple of seasons back he had as many as a dozen hour live shows to choose from and "working steady" in twhad become a habit — thanks to such entries as "Robert Montgomery Presents," Alcoa - Goodyear (nee Philleo), "Studio One, Kaiser-Armstrong hour, etc. Through the years, if it wasn't a Celanse Theatre, it was a Pulitzer Prize Playhouse, a Cosmopolitan Theatre, an Elgin Hour, or a Pontiac Hour—enough for everybody. But today they're all gone, with sponsors pledging alleglance to maden-Hollywood filmed dramatics or the Coast-berthed live productions ("Playhouse 90," "Climax," and now "Studio One in Hollywood").

To make matters still worse, there would be too few first-rate comedians to perform even if there were more first-rate comedies being written, Allen said. The comedians to perform even it there were more first-rate comedies being written, Allen said. The Bert Lahrs and Bobby Clarks are past their prime "and their tribe does not seem to be on the increase." He said that the likes of Tom Ewell and Eddie Mayehoff

He said the "halyoon days of Charlie Chaplin, Harold Lloyd," et. al. are "clearly not about to be duplicated." He noted that only duplicated." He noted that only hob Hope and Red Skelton, among the top comics, are still making Hollywood comedies, but he also noted that their flicks are not as "glamorously funny" as they were a decade ago; although both remain strong video personalities. He said there are very few exceptions among the new breed of filmdom star who can play comedy—Jack Lemmon and Tony Randall, for two.

As to niteries, Allen said they retain some comedic strength and vigor as training ground, but "even here there is little prospect" for optimism. The big nightclubbers, a la Jimmy Durante and Milton Berle and Danny Thomas, are now more associated with tv and only play the posheries for easy coin. Of the new boys in the bistros, there are few destined for the bigtime come the next 10 or so years, despite their successes in the minimum-cover field.

Allen added that the trouble is not with the allegation that new comedians aren't funny enough, but that they are afraid to risk something new and fall with it. He said they are merely "helpless victims" since there is no place for the new talents to polish up via experience.

Timex filed notice of cancellation immediately following Hope's appearance on the Sinatra show, and since then NBC has engaged in a series of meetings with Timex in efforts to unsnar! the hassle. A major meeting had been set for this past Monday, but without NBC's knowledge, Timex went ahead and purchased the Crosby spec last Thursday (24), five days before the scheduled meeting.

Some sources say that Timex used the appearance on the Sinatra show as an excuse to get out of its commitment on the Hope show, feeling that it merely wantied one more Christmas special and no tv other than that. Hence, it's pointed out, the Crosby spec buy. As a result of the Timex defection. 'Goldbergs' Cues \$3,000,000 Suit

A \$3,000,000 suit against Gertrude Berg and NBC was filed this week in New York Federal Court by radio writer Sophia Civoru, who claims a breach of contract in the original creation of "The Goldbergs." Miss Civoru is also seeking to prevent Miss Berg from renewing her copyrights on the property, with renewal date being April 17 of next year.

Suit alleges that Miss Civoru wrote the plot and stories for "The Rise of the Goldbergs," later retitled "The Goldbergs," later retitled in the Goldbergs, and the slow Act that time, she complains, Miss Berg entered into a contract with her, which she subsequently breached in August of 1929, leaving Miss Civoru out in the cold. Copyrights were filed in 1931 by Miss Berg, and Miss Civoru seeks to have those rights forfeited on the basis that Miss Berg untruthfully claimed authorship.

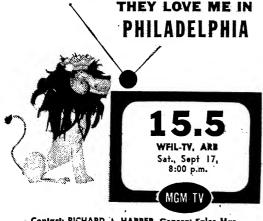

Action also seeks an accounting, an injunction against further production of the show and the denial of copyright rehewal rights. Miss Civoru also seeks to have herself declared the common law copyright owner. She's representing herself in the action.

Press Chilled, Aud. Filled In S. F. As Presley Pulls A 'Pass List Suspended'

San Francisco, Oct. 29. Elvis Presley and manager Tom Parker drew a chilly press as re-sult of Parker's dictum that no press passes would be available for Presley's two shows last Saturday (26) at Frisco Civic Auditorium.

This, apparently, was a corollary to Parker's pronouncement that Elvis "doesn't need the press"—and, in this case at least, he seemed to be right.

The click of the offbeat sounds on the smaller labels has cued RCA Victor to make an unusual artists & repertoire deal. This is with a pair of indie-trained recording supervisors, Mike Stoller and Jerry Lieber, 24-year-olds who composed "Black Denin Trousers," "Bazoom," "Hound Dog," "Jailhouse Rock" and other hits in the current idiom. According to Steve Sholes, Victor's singles a&r chief, Stoller and Lieber are being given a free hand to sign and record talent with any material they feel is suitable.

Stoller and Lieber, who have also cut numerous disks for other indies, such as Atlantic, Aladdin, Mode, Peacock, Spark, etc., will work for Victor on a non-exclusive basis. They will, however, operate out of Victor's N.Y. office on East 24th St. most of the week and plan to handle only a limited number of outside sessions due to commitments to such artists as the Coasters, the Clovers, Linda Hopkins and Ruth Brown.

To Jet-Propel Output

Hollywood, Oct. 29.

Thre are too many wrinkles in the song business and not enough in the bellies of songwriters.

That pithy observation is Imperial Records prexy Lew Chudd's analysis of the current music business. Songwriters with experience and ta'ent, he contends, just aren't working at their business.

"There's a lot of talk," Chudd declared, "about the poor quality of the song material that the public is buying. But you can't blame the public. They have to buy what's offered. And there's where the rub comes in."

Current hit charts, he pointed out, are overloaded with material that everyone in the music business admits isn't very good. Yet those same charts emphasize his point.

those same charts emphasize his point.

"Look at some of the material breaking through," Chudd declared. "Good songs are finding a ready market. The problem is to get writers to write good songs. It's no accident that some old standards are once again contending for hit parade honors. They are good songs and their revivals have presented to them to a new audience which is only to eager to huy."

Occacionally in the last few years there has been a new ballad that had musical merit. Chudd pointed out, and in each case, the song registered strongly. It has been outweighed by other stuff, but only because the less qualitative material turned out in increasing quantity.

occause the less quantative material turned out in increasing quantity.

"Ever-body wants to know when good mus'c is coming back," Chudd commented acidly. "That's easywhen the songwr ters do som thing about it. If they'd get up off their ASCAP ratings and go to work, you'd see a big change. Maybe it would be a good idea for the music business if ASCAP decided to suspend all royalties for a period of a year. If the oldtimers found out they might go hungry, we'd get good music."

After a Dash With Dot

Although the disk plug is ofmajor importance to a motion picture, films score composers must
not write for anything but the
scene itself, according to Johnny
Green, Metro's studio music chief
who scored "Raintree County"
which is due to be packaged as a
soundtrack album by RCA Victor.
Green said, however, that many
soundtrack sets have suffered from
poor production planning.

As written for the films, soundtrack scores are not independent
pieces of music meant to be waxed
as is, Green says. But, he says,
electronic and tape-splicing techniques now permit a film scorer to
convert the soundtrack music into
coherent musical compositions that
can stand on their own feet.

Green pointed out that he did

Green pointed out that he did
an extensive editing job on "Raintree County" for a double LP set
Victor is planning. While using
only the material from the soundtrack itself, Green cut out the obvious stalls (the sustained chords
running several seconds to set the
moods of a scene) and rearranged
the melodic sequences into a work
that had musical form, instead of
the episodic character which the
original score must necessarily

where appropriate, Green defimitely favors the inclusion of a song
motif in the score. He said that
Dimitri Tiomkin has been utilizing
to optimum advantage the film song

was a standout example of the
appropriate slotting of a song, also
the theme from "High and The

"The Song from 'Rajmtree County,"
which Nat King Cole has cut for

1st Time People Heard Own Anthem By Symphony Was Via Mpls. Orch

Stuttgart, Oct. 22.

"Europeans perform in America with the idea of making money. with the idea of making money. Americans still go to Europe for less money, and with an idea of contributing to musical understanding," Antal Dorati pointed out here at the conclusion of his whirlwind conducting tour with the Mineapolis Symphony through the Near East. The orchestra performed 22 concerts in a month, in such remote locations as Bombay, Bagdad, Karachi, Beirut and Istanbul. It marked the first time since the last World War that an entire American symphony has performed in these remote locations.

Tour was underwritten by the

formed in these remote locations.

Tour was underwritten by the State Department, at a cost to them of an estimated \$250,000. Although admissions were charged at each city, geared to what the local populace could pay, the cost to the State Department was tremendous. But it paid off in millions of dollars of good will, Dorati stressed.

In each country, Dorati played the country's national anthem, requiring highly intensive work on the part of the Symphony's 81-year-old arranger to adapt the music to the symphony group, since in the midst of the lands, such arrangements were unobtainable, and the time was so short.

"To our amazement, occasionally

the time was so short.

"To our amazement, occasionally there was silence at the end of the anthem. Some of the people didn't recognize it at first, and later said they had never heard of a large symphony orchestra play their anthem," he commented.

"I may become known as the father of the national anthem in some of those countries," he laughed.

Used DC-4 Planes

Travelling with the 106-member group, including the 96-man symphony and the "spare parts," group had to be split into two as the government's DC-4 airplane provided shuttle service for the orch in two trips. "Luckliy, the men and the instruments always showed up in time for the concerts," he added.

"We thought we were a flop in Bakdad," admitted Dorati.

That's because in Moslem cittes, like Bagdad, there is about a five-minute silence after each number, as the audience digests the music. Only after this terrifying long silence does the applause break out. That is what happened in Bagdad. With the differing reactions, like wild screaming in Greece to signify pleasure and 30 minutes of ovation in Yugoslavia, the orchestra soon understood that the people were overcome with pleasure, just expressed according to their country's various ways. The varied reactions were startling to an American orchestra.

In anticipation of a big Yule sales push, Columbia Records already has prepped a \$31.92 deluxer for the seasonal buying spree Package, which is going under the overall banner of "Columbia Library of Popular Music," consists of eight LP's.

Disks include interpretation of George Gershwin by Percy Faith, Richard Rodgers by Andre Kos-telanetz, Cole Porter by Michel Legrand and Jerome Kern by Paul Weston. They were initially issued as four separate two-pocket pack-ages in Col's CL line and retailed for \$7.98 each.

Elrod to Col LP Club

T. C. Elrod has joined the administrative staff of Columbia's LP Record Club. His initial function will be assisting the opening of the club's eastern shipping centre. Subsequently, he'll assume an exec post in the club's fulfillment setup reporting to Richard Brun, director of fulfillment.

Elrod comes to Col after a stint with the Crowell-Collier Record. Club. Before that he had been with Capitol Records in its branch operation and transcription departments.

Hartford Fire Levels Shut Aragon Ballroom

Shut Aragon Ballroom

Hartford, Oct. 29.
Closed as a firetrap in 1952, the Aragon Ballroom here was razed a fortnight ago in a spectacular two alarm fire. Homebase for the nation's top name bands in the 1920s and 1930s under the name of Palais Royal, dancehall was taken over in 1941 by Fellz-Ferdinando, ex-bandleader, and operated under his name as a dine & dancer.

In 1950 Ferdinando gave up the dancehall and it was retagged Aragon Ballroom, remaining in use until the fire department closed it down. Hall had also been used for amateur boxing, and vaudeville. Two localites who became featherweight champions, willie Pep and Bat Battalino, started fighting as amateurs there.

Inside Stuff—Music

Although a copyright is a form of property, it differs from other property forms insofar as owners of a copyright have claim to it for only a limited period instead of in perpetuity. So explains Herman Finkelstein, ASCAP's general attorney, in an article titled "Copyright—The Author's Property" for Pan Pipes, the national music fraternity magazine. Finkelstein states that authors in the U.S. have the rights to their property for a much shorter period than in other western democracies. In the U.S. authors' rights are limited to at term of ern democracies. In the U.S. authors' rights are limited to a ferm of 56 years, whereas in most other civilized countries of the world the period of copyright is for the lifetime of the author and for 50 years after his death. Pointing out that there is another inequity in the U.S. in that the writers of music are not able to collect performance fees from jukeboxes, he calls for a complete revision of the Copyright Act.

Dana Records, indie specializing in polka disks, has extended its fall package plan for EP's and LP's until Nov. 30. Plan, which was launched in August, originally was scheduled to run through Oct. 31. Diskery's package plan features the eight-for-seven deal. Dealers purchasing seven EP's or LP's receive one free. A special billing plan was also included in the program which allowed distributors placing orders in November to receive a split billing of three monthly payments beginning in December:

Society maestro Marshall Grant is "booked solid" for a year. The Grant trio winds up a run at the Hotel New Yorker's Golden Thread Cafe Nov. 30 and moves over to the St. Regis Hotel's Maisonette to appear with Julie Wilson. On Jan. 24, the group heads south for the seasonal stand at the Casablanca, Palm Beach, Fla. In June, Grant returns for the summer season at Herb McCarthy's Southampton, L.I., saloon, Bowden Square.

As a peg for a contest involving dealers, George R. Marek, RCA Victor disk v.p. and general manager, has asked for help in repackaging a set, "Overtures—In Spades," which was released earlier this month. Marek admits to retailers that he doesn't think this piece of merchandise has been presented in the best possible way and he wants dealers to submit ideas for a new album title and cover. Winners will get RCA Victor color television sets.

Decca Records is leading off its Christmas package entries with an LP comprising top seasonal standards by various artists. Titled "Around The Christmas Tree," set includes numbers by Bing Crosby & Carol Richards, Judy Garland, the Four Aces and Guy Lombardo, among others.

Started Early in Year

Started Early in Year

Early this year Social Research
ne, which headquarters in Chi,
peddled a music research program
to Vietor after several other diskeries had turned it down. Principals in the deal were SRI's Irving White, who assembled the
techniques for this study, and Bill
Bullock, who was then head of
Victor's singles department. The
two companies are now between
renewal contracts, but White has
left SRI to work independently
and Bullock is now manager of
the diskery's album division.

In its work for Victor to date,

and Bullock is now manager of the diskery's album division.

In its work for Victor to date, the MR firm has asstred, for what ever worth, the psychological meanings that certain disk personalities, tunes, arrangements and lyrics, have to a cross-section of teenagers and how these fit into their general fantasies. Specifically, SRI sent in reports designed to give a&r more background by which to select artists and songs more intelligently; advised the diskery (correctly, it turned out that certain artists attempting comebacks would fail; weeded out what it determined were the least of the subdue rock "n' roll."

The researcher, a psychololigist, and a song siven to work with; and advised promotion departments on pre-releases, along lines of putting money on the winners rather than on the losers.

It's known that the artists Vice will be able to study and a small pipe in his sultcase. The articles were sent to the police laboratory for analysis.

Nosa and Eddie Fisher, neuther of whom has been able to get back on The hit track for months. Stud-ies attempted to find out if these singers still express themselves in a way that's acceptable to the core of teenage buyers or, if not, what stylistic changes they'd have to make to become more acceptable.

Broached for comment, White eclined to give his specifics of Broached for comment, White declined to give his specifics of his findings. He did say, however, of the general picture, "We've found in every teenager there's a need for tenderness and for expressing energy. The teenager wants to be taken care of and yet he wants to be an adult. In short, there's a little of the Johnny Mathis and the Elvis Presley in all of them."

as they are now they're far better than intuition."

White said that he would like to do a thorough study of all the million disk sellers to assess what they have in common. This, he believes, might help research to arrive at a system that predicts. His current project is a study for deciays on how they're being received by the public and what they might do to improve that relationship.

Baden-Baden Radio As Germany's No. 1 on Jazz

Berlin, Oct. 22.

Jazz may be a stepchild of most
German radio stations, but it certainly isn't that with Suedwestfunk tainly isn't that with Suedwestrunk (Southwest station located in Ba-den-Baden). Latter, which also is the new post of Eddie Sauter (he a musical director there), deserves even the classification of being the most jazz-conscious radio station in the country.

in the country.

Checkup of program reveals that
there is a total of 18 different jazz
broadcasts scheduled between Nov.
3 and 29. Most of the shows have
a 45-minute running time, two go
even for 50 minutes, the rest being
half-hour airings. Headliners of
the various segments are Bill
Russo, Sonny Rollins, Count Basie,
Nat King Cole, Eddie Sauter,
Modern Jazz Quartet, Dizzi Gillespie, among others.

Berlin, Oct. 29.

Nat Shapiro, Columbia Records' international a&r man, here for two days of business talks in Berlin, said that for American disk-eries the (West) German market is the third most lucrative in the world. Taking into consideration that the one-two markets are the U. S. homegrounds and Britain, the placing of Germany in position that the one-two markets are the U. S. homegrounds and Britain, the placing of Germany in position had the same that this country is American diskeries' most lucrative foreign-language outlet.

Philips, which sells America's Columbia label in Germany (the Britsh Col disks are handled here by Electrola'), has currenly a percentage of about 10 on the domestic market. As to Shapiro as well as to local disk dealers, this percentage is sure to climb higher within the next few months. Checkup with this city's leading recordshop revealed that two Columbia items are currently among the first half-dozen of bestselling records: "A White Sport Coat" (Marty Robbins) and "You Don't Know Me" (Jerry Vale). Other big names here are Johnnie Ray, Frankie Laine, Dorls Day and Guy Mitchell. Shapiro hoppes to bring some of these headliners in for guest appearances to Berlin some day.

Definitely on the upbeat here as well is Johnny Mathis. Two of latter's stateside hits are in AFN-Berlin's "most requested tunes" category, these being "Wonderful" and "It's Not For Me To Say," His newer "Chances Are" also looks headed for a hit. Taking into account that the r&r craze is on the decline and the new trend is towards melodious tunes, Mathis stands a big chance to become an idol, a la Belafonte and Boone, with the pop tune-conscious teenage set.

Marek's 'Grand Opera Treasury' a Palatable Opus in Printer's Ink

By ABEL GREEN

By ABEL GREEN

George R. Marek is unique in the music business—a longhair with a mass or, at least, a middle-brow concept of customer tasks. He's proved that at RCA Victor where, from classical a&r, he is now general manager and vice president of the entire recording division of the Radio Corp. of America.

In the economic orbit of influ-

In the economic orbit of influence that Marek has long felt the classical album belongs, he has been highly successful as a merchandizer of the musical arts for greatest possible dividends in packaging, longhair music for mass sales, or at least for customer penetration beyond the heretofore accepted classical class trade.

As one dedicated to grand opera, his writings have dwelt on the subject extensively. He is music editor of House Beautiful and Good Housekeeping; he has authored such books as a work on "Puccini," "A Front Seat at the Opera" and "The Good Housekeeping Guide to Musical Enjoyment." He frequently appears on the Metropolitan Opera Quiz, in between multiple transatlantic and transcontinental crossings for recordings and executive sessions abroad and sales and ditto pownows ranging from NY to L.A.

In between he has managed to whip up a giant omnibus for Harpers (\$6.95) titled "The World Treasury of Grand Opera" and, just as he has achieved on vinylite, so has he achieved on inpinter's ink—a highly palatable, human close-up on operatic personalities, from composer to performer: maestro and vocal.

It is a painstakingly categorized anthology of aneedotage, of profound and lighter moods, ranging from the Italian, French and German opera to audiences, singers, conductors. Anybody who was anybody in the lore of opera is touched upon either in special treatises (viz., Caruso, Richard Straus, Lotte Lehmann, Verdi, Leoncavello, Rossini, et al.)

Marek is his own prolific contributor to his galaxy which constitutes this truly great "treasury" of grand opera. If there's such thing as a fun reading about a book on grand opera this is it. It will undoubtedly serve as a great source volume.

The upswing at Victor also can be attributed to the fact that the diskery has put on independent distributors to handle the sacred line. It's a special field which many of the regular distribution outlets find difficult to handle. The indies specializing in sacred disks, however have been able to open up new avenues for retailing. They've gone into bookshops, bible stores and YMCA's to get them to make their disks available. Columbia's sacred catalog, on the other hand, sacred catalog, on the other hand, is still being handled through regular channels, but its homeoffice sales staffers have been surveying the field for indie distributors to handle the line a la the Victor operation. of the regular distribution outlets eration.

Setting the pace in Victor's sacred fold are George Beverly Shea, who's part of the Billy Graham team; the Blackwood Bros, the Statesmen and Stuart Hamblen. Over at Columbia, Jimmy Dean, with his new "Hymms" album; Carl Smith, the Chuck Wagon Gang and the Mormon Taebrnacle are hot sacred sellers. Col's Gregorian Chants series is also picking up strongly. The fifth and most recent in the series, "Hail Holy Queen," already has passed the 8,000 sales mark. In the past the Col people were satisfied with a sale of about 2,000 albums.

There's plenty of live action that's stirring up interest of sacred music on disks. In addition to the aforementioned Billy Graham tour, aforementioned Billy Graham tour, the number of sacred music festivals is increasing. In Memphis recently, a sacred music fest pulled in a crowd of 25,000. And a big sacred music jamboree is slated to be held in Nashville next month just preceding the town's annual hillbilly deejay powwow.

Lieber and Stoller plan to institute open house at Victor for both artists and publishers, each getting one day a week to audition their stuff. This "open house" policy had been in force a couple of years ago in some of the diskers, but was dropped due to failure to produce. Nowadays, however, with hit material coming out of left field and even remoter points, Lieber and Stoller hope to mine this field again.

Salisbury Polling Voters on Liquor In New Move to Revive Beach B.O

Salisbury, Mass., Oct. 29.
A new move to return liquor licenses to Salisbury resort spots for most of the year 1958 got underway here yesterday (Mon.) with the mailing to the 1,800 registered voters of questionnaires attempting to determine whether the townspeople favor a repeal.
A group of leading merchants, headed by two amusement ops, Roger J. Shasheen and Eugene J. Dean, are making the effort. The town voted dry in 1956 for a two-year period and since then Salisbury beach ni eries and amusement concessionaires have report—A heavy losses.
The voters are asked to approve a three-step plan which could return liquor licenses in the annual election next March.

THE AMERICAN CIRCUS'

"Pictorial History of the American Circus" by John and Alice Durant (Barnes; \$10, is a large, showy book, handsomely illustrated, designed more for a gift edition than for handy reference. Authors, acknowledge their debt in, research to Hertzberg Circus Collection in San Antonio Public Library; also to Ken Mayo, Ringling Bros. p. a., and to the Cristiani family for "cheerful cooperation."

Book traces U. S. circus history in text and plx from Old World roots to the 1957 semi-motorcade version of the Big Show. Whether pre-Barnum or current John Ringling North, no phase of circusdom is overlooked. Most performers of note (and many obscure artists) appear in these pages. Twin Coaches, Pittsburgh, will have to give up its lucrative private-party Sunday night booking on Nov. 24 during the engagement of the Treniers. They open two days before, but accepted the eight-day stand only on condition that they could be off that Sunday to fill a previous commitment on the Steve Allen tv show. To get the Treniers, Tony Calderone, owner of the Twin Coaches, had to agree to that stipulation. On many names, particularly if they're Negro performers, Calderone, has been able to peddle Sunday nights to colored organizations and get himself a third of the way off the hook immediately. He already had a group in his pocket for the Treniers' stand but had to give them back their deposit.

Steve Gaynor, permanent emcee-singer at the New Nixon, Pittsburgh, currently on a month's leave of absence, was tagged for Boston and Providence dates in "Borscht Capades" as soon as management of that revue learned he was taking a few weeks off from his local assignment. Gaynor had requested the hiatus in order to close his house in Passaic, N.J., and move his family to Pittsburgh. "Borscht" closed briefly after the Providence stand, with troupe consisting of Phil Foster, Mickey Katz, Larry Best, Barry Sisters and Jeanie Reynolds reopening in Chicago Nov. 18. Yiddish-American revue wanted Gaynor to continue with it then, but he had to decline since he returns to New Nixon on the 15th with a year's contract.

POLITER SPOTS

Burlesque has leaped over from the wrong side of the railroad tracks and gone tony. The stripper, once the keystone of the burley craft, is graduating to the sophisticated entertainment centres and some with family trade are booking the shedders. The craft even made Carnegie Hall, N. Y., with weekend shows currently running.

Niteries such as the Chi Chi, Palm. Springs, which has booked Tempest Storm; the Dunes, Las Vegas, which is on a Minsky show kick at the moment; the Latin Quarter, N. The elevation of the striptess to the black-tie set has been a matter of evolution over many years. The first major names of the craft, Gypsy Rose Lee and Ann Corio, actually paved the way for the modern pealers. Miss Lee, particularly, made a name on the lim and literary circuits, and so (Continued on page 78)

Uruguay, another week between the Sao Paolo and Rio de Janeiro in Brazil, and a final week in Caracas, Venezuela. Negotiations were on for about two months, mainly due to interference by unauthorized entrepreneurs who misrepresented themselves as empowered to sign for Lococo in New York. Deal was finally put through by Iriberri with Glaser, who was also in on the Platters tour in B. Aires a month ago.

Kaliners Close Philly Nitery

The Kaliner brothers (Sy and Joe) quietly closed their nitery basement, the Bandstand. Long known as the Little Rathskeller, the spot was one of the first to swing into action with Repeal.

It achieved fantastic success under the Kaliner management during the 1930s and the war years. Jackie Gleason, Alan Gale, Lenny Kent, Jackie Miles and other top comics worked the place early in their careers. Several other operators tried to run the cafe in recent years, but with less luck.

Last year the Kaliners reopened the night club, renamed it the Bandstand and tried a name-music policy. It failed to catch on. They now plan to sell the liquor license and lock up for good.

Blane, however, isn't restricting
his vocal activity to platters. He's

Songstering isn't new to Blane
In fact his current stand at No. 1
marks a return to that intimery
after an 18-year absence. That was
before he and Martin hit he bigtime in the words-and-music department with such credits as the

worked up a solid ASCAP rating.
As a singer, Blane delivers
clearly, with the fact that he's doing his own familiar tunes adding
to the effectiveness of the performance. It's good showmanship
and he's got the necessary equipment to belt out a number. The
potency, however, is in the then-Iwrote association.

His repertoire is made up principally of tunes written with Martin, but at the show caught he also
threw in "I Love a New Yorker,"
a number penned with Harold Arhen, There was also a plug for the

Each gal has asset of having strong likeness to the other, this rousing interested customer projection. They are tastefully garbed in light blue dresses, group themselves nicely, and harmonize well with such tunes as "Ninety Nine Ways," Rockin' Through the Rye,' etc. Only major faulting, apart from need to sharpen act via greater experience, is that they choose numbers too similar to other acts of same genre, and need a differential to make them remembered. Trio should cash in on the real triplet gimmick and obtain some tunes to suit this angle. Act is also too brief, as done at show caught, and while it leaves 'em wanting more, outfronters don't get their full money's worth.

Kiko Goncalves a Brazilian import, is in the genre of other singsers from the carloca country who work tambourines and sing for rather joyous effects. Goncalves sings well, having a repertoire in the Portuguese patois as well as tunes of other languages including English. His offerings have the virtue of being melodic and fall easily on the audiences.

Another factor in his favor is the colorful tambourine work, Aside from punctuating the rhythms of his songs, it provides visual strongpoints. There are times when the beat is similar to that of a conga drum, and frequently, he is able to evok the impression of a series of percussion instruments. Goncalves registers in both departments, and the colorful Brazilian garb also aids his cause.

The rise of the strip, aside from the development of its own personalities, has a sound economic base. novelty that amused the femmes and delighted the lads, and didn't create any sex riots.

There is little danger that the spread of the atrip will get out of hand at this point. As in other fields, there aren't enough names among the clothing-droppers, and booking just any femme that can bare all just won't do. At the same time, too frequent bookings will transform the character of the room into one that will be on parwith a 52d St. spot. However, an occasional booking adds spice. For example, the Blue Angel, N. Y. which on several occasions played Carrie Finnell, the girl with the acrobatic glands, has never been inewn as a peel parlor. The Latin Quarter and other top cafes have booked in this direction very carefully, and so have escaped any stigma as a strip spot.

Irving Feld has put together one of the biggest packages of platter artists ever seen in these parts and labeled the album of artists "The Biggest Show Of Stars For '57" and that it is. The Super Enterprises Inc. outfit invaded this town (22) with the force of an atomic bomb and kept the smoke flying in the 3,400-seat Paramount Theatre during two evening performances. The show grabbed a whopping \$15,600 for the two shows scaled at \$3.50. Audience was very enthusiastic but orderly throughout and generously applauded and screamed delight as their faves hit the spot-

Shirley Bassey, coffee colored songstress, injects a generous quota of tight-lipped feeling into her songalog 25-minute offering with which she headlines successfully at this No. 1 Scot vaudery. Thrush slender, sallow-complexioned and sexy, uses drooping eyes, tight-inestling gown and expressive hands to pound over a varied repertoire, opening with "From This Moment On" and ranging through "Got You Under My Skin" to "Burn My Candle at Both Ends" and an expressive "Fire Down Below."

At opening shew caught, reaction was strong for Miss Bassey, if not for others on layout. The chillier clime here, plus home comforts of ty, are beginning to affect first-house attendances.

Alan Clive, English impressionist, essays comedy with attack, but has no need to use some stories of user sparroom flavor. At show caught, he workyd like a hatter to prolong act because of layout's overshort running schedule. His travesties of James Stewari and English comedian Max Wall are both topflight. Comedian, also U. S.-bound in 1958, needs to punch home better gags in faster style.

Ossle Morris also works hard for minimum of response, but this was no fault of his act, homely and bubbling with humor, and spiced with some good Welsh vocalism, especially in "Keep A Welcome."

Italian singers seem to have a firm bridgehead in the N. Y. hotel cafe rooms. Katyna Ranieri paved the way for her compatriots, at the Persian Room of the Plaza, and now Anna Maria Alberghetti and sundry members of her gifted clan have firmed up the position of the chantosseys from the Mediterranean area.

Miss Alberghetti has played the

ranean area.

Miss Alberghetti has played the Vegas circuit, as well as films during her childhood. In moving eastward to the Waldorf, Miss Alberghetti has made as strong an impact as is possible in this room. As fine singer, a neigrouper and a

pact as is possible in this room. As a fine singer, a performer and a showman, she has all the attributes to remain on the upper levels of the saloon circuit.

The modus operand of the act, of course, contributes. Anna Maria starts the proceedings, younger sister Carla continues, and Mama Vittoria takes over for a spell at the 88s. In this manner, each conserves her resources. Voices are as fresh at the end as they are at the start.

fresh at the end as they are at the start.

Anna Maria, naturally, is the focal point of the act. She has avoice that can register powerfully, yet can summon warmth and delicacy when necessary. She has color and verve. Being an excellent a ho we om an, Miss Alberghetti opens with the acrobats of the vocal world with Prooch's Theme and Variations, a coloratura bit that contains virtually everything as voice is required to do. General feeling is that if she gets through with this bit, everything else is easy. But the vocal acrobatics are fast, lively and melodic and set her up substantially with the audience. Her second tune, "Gianina Mia," brings forth bravas, but at that point she surrenders the floor to Carla who knocks off "Un bel di vedramo" and "Love Is Where You Find It" for results equality as potent.

Probably one of the most touch-

Caria who knocks on "Un bei di vedramo" and "Love is Where You Find it" for results equally as potent.

Probably one of the most touching bits of the entire turn is Anna Maria's rendition of a lullaby. "Fa La Nana Bambin," a delicate and fragile bit of beauty that just floors the house. And so it continues with Anna Maria and Caria alternating with pops and classics as the fare, and Mama even hits the act with a measure of boogle-woogle, and both girls, in tandem, bow off to "Italian Street Song."

The act is somewhat abbreviated from its original. Buting the Vegas series, the late Papa Alberghetti, who conducted, and a younger brother, who shot up the joint in cowboy. comedy numbers, came with the turn. In place of Papa is Louis Basil, who used to baton at Loew's State. N. Y., and the Chicago Theatre, Chicago, and who wound up at the Flamingo, Las Vegas, recently. Basil is a source of great confidence to the family. His musicianship for the act is flawless.

The Alberghettis performed in one of the more distinguished preems at the inn. There were parties in the audience thrown by the chain's head. Conrad Hitton, the hotel's exec veepee Claude C. Philippe, and which included Elsa Maxwell; Louella Parsons entertained at a very long table. In addition, the Alberghettis poured at a post-show purfy in their suite. Agencywise, there was a large representation. Although Anna maria is with Music Corp. of America, Carla is repped by the William Morris office. Calypso Joe and his femme partner Coco-Te are featured, and do a vivid job of churning up the atmosphere with their Trinidadian songs and dances. Even the star, Vallee, gets into the spirit of things and comes on with tropical headgear and bongo drums. Calypso Joe & Coco-Te are given the names of VIPs in the room before each show, and they cleverly weave them into their songs.

The Luis Urbina Dancers (7) featuring Jolene Lontere and Urbina himself add to the excitement of the goings-on, which are expertly woven together by producer-director Don Holladay. Hoyl Henry orch provides the proper zing for the festivities.

Bonnie Baker & Co. (4), Dick Barlow Orch (7); \$1:\$1.50 cover.

Its been some time since Bonnie Baker has warbled in town, all of her former appearances having been at the Tower Theatre where she was a considerable name when it was a strong vaude stand. In the interim some magnetism is gone from the name, but she continues to carry enough drawing power to make, it a fayorable two weeks in the Terrace Grill for her first stand in the deluxe dinner room. She's backed by the Billy Rogers Trio, a sharp little group which adds to the music and the comedy. It has herbie Rogers on electric guitar, Art Peck on piano and Billy Rogers on bongos and chiming in with the m.c. chores and comedy.

There's a considerably variety of music in the 40-minute show, Miss Baker singing some special material, some from the current pop list, a medley of Cole Porter tunes and her all-time hits. In between there are guitar and piano special-ties from the backing group and a song duo with Billy Rogers and Miss Baker. Her songs "Billy."

"Especially for You," You'd Be Surprised" and "Oh, Johnny" sold big on the Columbia label in the days when recordings were a side-line, and they still carry a punch as was evident from the rouging hand they drew at closing of the turn. The petite singing style which is her trademark sets her firmly with the fans from the opening bars and they stay with her throughout the show, making it a pleasant evening for all. Quim.

Mapes Skyroom, Reno Reno, Oct. 24. Rusty Draper, Paul Gray, Sky lets with Dick Merritt; Eddie Fitz patrick Orch. \$2 minimum.

This was the room where Rusty Draper first found himself a successful nitery niche a number of years ago. He hasn't changed. It's the same wide-open friendliness, a kind of down to earth quality, a tousled-hair look, and a rambunctious way with a song. And inseparable, the guitar. In all this time, while developing assurance and style and poise, it seems odd that he's held on so hard to guitar. He plays it well, breaks the pace with it, and accompanies himself effectively. But he's strong enough to stand up without it—or at least begin without it. As effective as he is with it—if he were unencumbered it's quite possible he would even he more effective. If he began his show with arms

Chicago, Oct. 24. Sophie Tucker with Ted Shapiro. Happy Jesters (3), Lenn Redman, Chez Paree Adorables (6), with Paul Merrill, Ted Flo Rito Orch (10); \$1.95 cover. \$4.95 minimum.

Tinsel and talent catch the spirit for the Cher's Silver Anniversary show. Production themes and headliner are appropriately geared to the nostalgic purpose in a well-put-together program. The appearance of Sophic Tucker recalls her as the first name attraction playing the Cher shortly after its opening 25 years ago.

Stature of over 50 years in show business is a powerful device in Miss Tucker's hands. From her familiar raise-of-the-eyebrow walk-on right, through her rhyming recitavo she carries a nostalgic theme through admirably. The tear-jerking histrionics never get out of hand, and she strikes a powerful chord in the middle-age matrons with her feminine denial of age even in the final crowning touch of asking support for her charity work.

Songs that lend themselves best to such treatment are her opening "They'll Never Make an Old Lady Out of Me," "With Your Life You Can Do What You Will" and a sock number with the Tucker trademark "Entertaining Papa." Hardly noticeable is the lack of audience participation when she leads "Margie" in her own Idiosyncratic rhythms. Final number, "Calypos Soph," gets a straightfaced delivery on some house-scorching lyvics. Miss Tucker interpolates her routine with all the appropriate intros and comment pertinent to the anniversary. Ted Shapiro takes the keyboard and leads Ted Fio Rito's house band through the strenuous program with smooth showmanship. He also handles several minutes of patter during the singer's costume change.

The Happy Jesters have played stageshow and hotel room formats in Chicago before and, set between the opening production gadgetry and the headlining personality, they come through in this club with a comedy routine that adds a spring and bounce to the whole show. A lantern jawed, double jointed mugger draws howis with in yoice and instrument imitations, while two sidemen are well synchronized accomplices in murdering of a series of ballads that is heavily mitted. The material is hardly changed from previous appearances hereabouts but the response ha

narily changed from previous appearances hereabouts but the response hasn't diminished.

Elaborate slivery ornamentation inside and outside the Chez is augmented with silver cakes and such other singerbread as blends into the stage setting for the opening production number. Lenn Redman sketces from behind an Illuminated translucent screen familiar headliners from the Chez's history while their trademarked tunes are offered as background music. The silver-spangled house line provides onstage motion in a well planned walkaround routine.

Entrenched in spectacular settings rather than on the bare stage as previously, thoughtfully costumed and working easily manageable routines without showy choreo antics, the Adorables this time provide a distraction for casual viewing. Their simple treatment of "Ladies of Evening" later in the show allows for the showing of more fanciful costumes and gives a breather between the heavy acts. Paul Merrill does a fine job on the vocal routines, looking quite at ease in these settings.

Allis Bros. replace the Happy Jesters on this show Nov. 6. That bill continues otherwise unchanged until the Jerry Lewis opening Dec. L. Leva.

Smaller than on previous visits, the Lewis troupe continues to pile up hotsy reception from start to finish. With opening and middle production numbers by the popular location Donn Arden Dancers, floorshow running time is 75 minutes. Joined by Cathy Basic, cutie soprano, Lewis clicks off a medley of tunes carrying back to his jazz hand days of 1917 at N.Y.'s Rector's. pagne Orch (8); \$1 admission.

Comedy, chant and terp are nicely arranged through the current floor fare in the Gatineau Club, with powerhouse Marion Powers billtopping. This canary belts everything: songs, action and gab. The customers couldn't ignore her if they wanted to and they don't want to, according to the mitting she draws throughout.

Strength of Miss Powers' comedy stint is in its solid structure with big attention to timing and jet-paced routhing, teeing with a chant-gab bit about her haircut falmost as short as a crewcut) and building to a big close with warm tributes to Sophie Tucker, Judy Garland and Al Jolson.

Jay Weston, also emceeing, works a sparkling comedy stanza which is mostly lost on the audiences here. Weston's humor is designed for a white-tie mob but in the Gatineau he took more than 10 minutes getting the tablesitiers thinking his way. Standout is a clicko panto routine on a surgleal operation with Weston, as the scalpeler, sewing up the patient sans heart. Drummer handles sound effects.

To judge by enthusiastic reception from SRO crowd at her late opening night show in this swanky Flame Room where she's having her initial tony, intimate supper club whirl, Irish songstress Carmel Quinn; owner of a superior set of pipes, bids fast to duplicate her Arthur Godfrey airlane success in whet's a new field for her.

While Miss Quinn's tv and radio fars, perhaps compristing few local cafe society regulars, undaubtedly were present in considerable numbers and came prepared to put their approval stamp on the performance, it seems safe to say that the more blase and sonbistivated nitery patrons on hand also found her brand of entertainment up their alley and highly enjoyable. There are laughs, cantivation and, of course, ear beguliment in the song session of Irish, hit parade and request numbers, sold to a faretheewell and interlarded with humor-tlinged small talk and conversations with the cuests in a fascinating Emerland Isle brogue. In no time at all Miss Quinn establishes rapport with the cuests of the conversations with the cuests in a fascinating Emerland Isle brogue. In the fiesh, her friendliness, down-to-earth qualities and own infectious pleasure are even more winning, if anything, than they've been over the air. It's off-beat fare for this sort of supper club—more naive, informal and homesy than the usual bistro floorshow stuff and nonetheless welcome for that reason. Rees.

Ropes are up at Max & Joe Schneider's 450-seater iir the heart of the theatre district for new layout headed by relaxed comic Jay Jason. Caught opening night (24) and in for two weeks, the bill is nicely fitted to room's format, with plenty of piping, terning and slick comedy. Jason holds the aud in fine fashion getting attention even from the most famished steak knife wielders, and rounds off a boff 30-minute stint by nabbing a moppet from the aud for a ventriloquist and dummy bit. Jason's topical jokes and takeoffs on video and passing scene go good.

Pat Windsor, with her husband, Charles Reader, conducting, is a production which Steuben habitues dig the most. Mandsomely costumed blonde soprano gets solid rounds on each number from bown to bow-off. Opening with "Song in My Heart," she segues to "Who Cares" and "Around the World"; does "Hallelujah" and "Street Where You Live." Miss Windsor, who with her maestro-husband were longtime standards at New York's Hotel Pierre in the Cotillion Room, encores with a great rendition of "Fascination" and bows off with terrific "Breeze and I."

forgo ten nowadays at the Met and Bing was outside the house during the afternoon olying the gallery queue with vodka, while the press recorded the gesture.

About the English lyrics of Henry Reese, you can get yourself an argument either way. This Russian work was last done at the Met during 1921 in Italian. In the present "vernacular" (the management's word and fitting) cyrtain phrases pop out and smack the ear strangely—"Why be contrary?"—"After a lorg, hard day"—"What's wrong with me?"

I is the heroine, the handsome and beautifully-voiced Lucine Amara, who vocalizes that "What's wrong with me?" question. Actually, everybody knows what's wrong. She's aching for the love of Eugene.

wrong. She's aching for the frequency of Eugene.

Up to the end of the first act it looked and sounded as if "Onegin" was going to be a nice little grand orera, which is rather like a not quile fresh egg. However, the subsequent ballroom and dueling scenes brought the proceedings alive. The music is frequently metodic and, indeed, overa buffs will complain on that very will complain on that very will complain on that very grounds. This is a genius of sym-phony writing lyric drama which avoids being operetta, but not by

much.

Thanks to the rich costuming and the new sets, all possible becuuse of Mrs. John Rockéfeller Jr. providing a special fund, the opera is opulently visual. In this it sugges a favorite of last season, "La Perichole," whose libretto and general staginess is far less and general staginess is far less son, 'La Perichole," whose more and general staginess is far less coveratic than "Oregin."

member of the east gets one ticket and "Onegin" has a big cast. Also, this year out-of-town critics showed this year out-of-town critics showed up from San Francisco, Chicago, Washington and elsewhere and had to be taken care of.

Close students of the uproar side of opera will remark that atter some years of banning solo bows, the Met has restored them. Plan is to supervise these, how-ever, limiting them mostly to the end of the performance or earlier where, as with "Leammerours" Tozzi also went over like an unmistakable clap of thunder. Add a small whinnical click of Alcssio De Paolis and some scattered appreciation of Miss Amara. That about wraps up the "personal" relassier, dressier and sassier Met

George London was not having one of his big nights. He seemed tired and the thankless title role must be. He ran on his nerve and poise as an actor, and he's one of the best in opera, but vocally there wasn't much forshim.

Arturo Basile, a new discovery from Italy, led his orchestra and singing forces with pace, clarity and fire. Margaret Webster, an expert on Shakespeare, built the forceful "line." had her singers looking and moving like actors. Her groupings are mostly admirable. Collaborating closely with the director was the City Center's new art director and designer Andreas Nomikos whose imaginative and effective sets showed an excellent use of projections. Each of the scenes was pictorially arresting.

cellent use of projections. Each of the scenes was pictorially arresting.

Perhaps the singing proper was the least part in this show, though as a whole the performance was as good as a youthful company, can be expected to give. The two debuts of the evening showed already more than promise. Irene Jordan in the lead had the technique and vocal possibilities for this arduous role but mostly lacked the ferocity required of Lady Michell. Her voice nevertheless was in character with the role and no doubt further performances will make her add the confidence and brilliance which now seems at times wanting.

John Chapman, the other debut, as Macbeth uses his voice well though he is in no way an exceptional baritone and a certain abandon in singing the role was clearly lacking. He acted with conviction and no doubt will become more convincing with added experience. Norman Treigle's Banquo had good sonority but Giuseppe Gismondo let himself be carried away in typical Italian-tenor-way fashion and was the only one who managed to remain on the outside of the performance.

Perlberg says he told Johnston in Hollywood that he disagrees with the MPEA concept that a non-film man is to be preferred in charge of the U.S. protocol at these events. Hetzel's idea is that somebody of ambassadorial rank should officiate at Cannes, Venice or wherever; in fact, the U.S. Ambassador to these countries would be ideal in the MPEA viewpoint if only to eliminate intra-trade friction, suspicion of "apple-polishing," and the like.

Perlberg points to the fact that the American motion picture in-dustry is the only free enterprise film biz in the world as another major reason for non-Government najor reason for non-covernment-al interference at these fests. Also, realistically, he feels that a trade perspective on what is "right" for these festivals would circumvent perspective on what is "right" for these festivals would circumvent any embarrassments through ill choice of subject. Privately, Perlberg mentioned a couple of pictures that, by reason of subject matter alone, might have been omitted as "representative" U. S. film entiries. Choice of subject matter must also include consideration for our Western allies, he feels, in order not to give comfort to the Iron Curtain countries. Broadly speaking, say a theme on colonialism did not rest well with the British or the French; he feels that that's the kind of film, if made in Hollywood, should not be a "representative" entry.

It is no secret that MPEA executives in the States and in the European capitals have had other idees on the subject.

special commission of top industry men to pass on each weekly half-hour segment of the program before it is projected over Italy's RAI-TV telenet.

Some industry toppers were particularly incensed recently over the handling of a filmed) side-walk poll of cinema patron tastes conducted by young Italian actress Sandra Milo. Not only were the comments often too violently in criticism of the Yank cinema and its "violence and brutality," but they also didn't spare the local industry, which came in for its share of downbeat comments.

Some people felt, the topper was, that in a stanza designed to promote the local industry and its stars, these faux pas were multiplied by the fact that Miss Milo was "hideously" photographed during the lengthy street palaver. Other comments veiledly indicated that some people in the Italian industry felt that the program or its ideators were playing favorites, and that it was not alway completely objective.

its ideators were playing favorites, and that it was not alway complete; and that it was not alway complete; objective.

Hence, the control mechanism, in the future would try to make sure that the program sticks to its purpose without boomeranging on an already harried local pic world. Called in to ald program commentator Bruno Benek in his job are: UNITALIA head Lidio Bozzini, Franco Bruno repping the exhibsector, Enrico Giannelli for the producers and Pasquale Lancia for the studios. Film director, Alessandro Blasetti, has also been called to give the program a cinematic showmanship quality. Group will meet on a weekly hasis to decide on program coordination.

Other observers, especially in the industry sector, have questioned the value to a general audience of such televising of "exposes," such as trick photography and process work, or how even Italian actors are dubbed for their local pir. Felt that these tended to distract the average patron, making him unconsclously loek for the tricks and gimmics, "behind" pix making.

Equity Revises 'Residuals' Clause For Off-B'way Shows Sold to Pix

Wednesday, October 30, 1957

Off-Broadway producers have had one of their complaints eased by Actors Equity. The union has modified its "residuals" clause in the off-Broadway contract. It now applies only to film sales and limits a production's obligation to the performer to five weeks, plus rehearsal time.

The union's prior regulation covering the sale of film rights by an off-Broadway show negated continuation of the production after such a deal was made. Under that rulling, a film sale meant that the production would have to pay its performers the difference between their off-Broadway salary and the Broadway minimum up until the time the deal was made and regular Broadway scale thereafter.

The 'feeling among off-Broadway producers was that such a regulation made it unfeasible to continue operation after a picture sale was clinched. The revised regulation requires an off-Broadway producers between their off-Broadway salary and the Broadway minimum for only the specified period.

ference between their off-Broad-way salary and the Broadway mini-mum for only the specified period. The union's action reflects an effort to prolong the run of such shows and consequently sustain employment from its members, It had dropped a move from off-Broadway to Broadway and the sale of tv rights from its residuals clause.

the length of time they appeared in the production.

Television was dropped as a residuals consideration on the theory that the money paid out for scripts by that medium was negligible compared to the coin shelled out in the film field.

Chicago Legit Relights; Guild Subscriptions Up: 'Lady' Sparking Interest

'Lady' Sparking Interest
Chicago, Oct. 29.
There's brisk action at the boxoffice as Chi has religithed after a legit blackout of more than three months. Legit starved Windy City has given Theatre Guild the rush act this term with 16,600 subscriptions, representing over \$500,000 gross. Guild secretary Harriet Watt, cautions about claiming a record, states that it's at least the biggest Chi purchase in two decades.
"My Fair Lady," opening next Tuesday (5) at the Shubert, has unquestionably been a boon to the Guild this season and in general has made this city more theatre conscious than it has been in years. The boxoffice opened last Oct. 14 to some 33,000 mail requests and has been ringing up about \$10,000 per day in window sales.
An absence of real ticket stampede thus far has been attributed to (1) the feeling that the tuner's opening is still a long way off, though it's only two weeks away, and (2) the prevailing supposition that the show has been sold to benefit parties for the first 21 performances (after opening night) and goes Guild the following three weeks. Boxoffice racks can hold tickets for only 12 weeks at a time. weeks. Boxoffice racks can hold tickets for only 12 weeks at a time

weeks. DOROUGHE FACES CAN HOLD dickets for only 12 weeks at a time. Oddly enough, tickets for opening night were still available at the week's end. Apparently everyone in the ticket lines assumed they'd be sold out.

Meanwhile, "Diary of Anne Frank" opened at Erlanger last week to an advance close to \$70,000, about \$45,000 of it in Gulld subscriptions. It drew disappointing reviews, however. "Waltz of Torreadors" opened last night (Mon.) for a five-week run at the Blackstone with an advance of about \$75,000. It is also on subscription.

about \$75,000. It is also on subscription.

A revival of "An Enemy of the People" by Alexander Productions is scheduled for a mid-February opening at the Provincetown Play-pening at the Provincetown Play-buse, N. Y. The presentation had originally been planned for an off-Broadway opening in November.

'Simply' Going Off-B'way After Main Stem Run

"Simply Heavenly" has completed the circle. The Langston-Hughes-David Martin all-Negro musical is returning to off-Broadway, after a recent rum on Broadway, it's scheduled to open Nov. 8 at the Renata Theatre.

The tuner preemed last May at the 85th Street Playhouse to generally favorable reviews. However, because of building violations, it was forced to close after 44 performances. The show remained under wraps during the summer and reopened Aug. 21 on Broadway at the Playhouse Theatre, where it ran until Oct. 12.

Equity Changes Its Agent Rules

A change has been made in the Actors Equity agency rules, the first in 30 years. The move, how-ever, is not connected with the re-

ever, is not connected with the re-cent agent campaign for an undat-ing of the rules to permit exclusivi-ty and higher commissions.

The revision is simply a case of the union having to adjust its reg-ulations to fall in line with new minimum salaries set in its recent negotiations with the League of N. Y. Theatres. The rule had pro-vided their an avent and an actor could not agree to a commission of at least \$125, plus several other conditions. conditions.

The new road minimum, however, is \$130, which makes the old figure obsolete. As a result, the union's council has changed this figure to \$50 higher than the existing minimums. Therefore, in New York, where the minimum is \$100 an actor must get \$150 before he can agree to pay an agent for more tham.10 weeks and on the road the figure has to be \$180.

Meanwhile, the council is mulling other changes recommended by the union's agency committee, Any recommendations approved by the council will be submitted to the membership before final action is taken.

One of the complaints registered in the chorus department is that at an audition for a musical earlier this season, the management had required several girls to wait for an hour with no chairs or benches to sit on. Most of those who waited ended up on the floor in the backstage area and to top it off never were given an opportunity to perform.

This particular incident resulted in Equity sending a letter of protest to the management involved. The complaints from principals cover such ground as having to read "cold" (without a chance to study the script), delays in notification of rejection for a part, lengthy waits before being called on to read and repeated readings for the same role.

The complaints, according to an Equity rep, are being discussed

Egghead, 'Heart' Folds Lose 400G

Broadway and the road were each hit with one fold last week for a total loss of approximately \$400,000. The shows were "The Egghead," a drama, and "Carefree Heart," a musical: "Egghead," starring Karl Malden closed last Saturday night (26) after 21 performances at the Barrymore Theatre, N.Y. It's figured to have dropped its entire capitalization of \$96,000 (including 20% overcall). "Heart" also wrapped up Saturday in Cleveland after completing four weeks of a scheduled five-week pre - Broadway tryout tour.

The loss on "Heart" is estimated at \$300,000. Of that, \$287,500 represents the investment, including 15% overcall. Additional coin, 15% overcall. Additional coin, however, was raised to keep the show running last week and to store the physical setup of the presentation. Co-producers Lynn Loesser and Shamus Locke are planning to refinance the venture for revision and production next

B.U. STUDES CAN NOW DO LOTSA OPERETTAS

Boston, Oct. 29.
Boston U. has acquired the stage properties of the Boston Opera House, which is to be demolished. It took 30 vans to transport all the items to the college. The flats are stored in the university's athletic field, three dimensional pieces are housed in the B. U. School of Music, and the rest is quartered in the division of theatre arts.

There are pieces from "Alice in Wonderland," "The Red Mill," "The Student Prince," "Rose Marie," "Swing Out Sweet Land" and many more. Most of the properties were used in Shubert productions which toured. When a Shubert show ended its road tour in Boston the pieces were left at the Opera House.

Size of the pieces in many cases was in keeping with the big scale of the Boston Opera House stage, which measured some 110 feet high, 30 feet deep and 100 feet wide.

Meyer Levin's bestseller about the Loeb-Leopoid case makes a gripping melodrama. The Michael Myerberg and Len S. Gruenberg production is a lurid and compeling mixture of Sunday supplement criminology, courtroom histrionics, Freudian psychiatrics, sex sensationalism and sociological sermonizing. disorganized

"Compulsion" is "Compulsion" is disorganized, sprawling, terribly overlong, painfully verbose, unattractive, frequently in poor taste and overproduced. But like the morbid book from which it is taken, it is engrossing and probably spicy enough to attract an audience. Particularly with the novel's built-in following and the initial impetus of heavy theatre party bookings, it should have a substantial run. It also stacks up as a promising film property for Darryl F. Zanuck, who acquired the rights in a preliminary deal.

This is a huse and massive pro-

deal.

This is a huge and massive production of literally scores of scenes and approximately 50 speaking parts, plus a four-piece orchestra. Primaritly to get the author into the story, it's all in the form of a flashback, with a character obvicusly representing Levin visiting the surviving murderer (Nathan Leopold in prison today to try to get material for use in seeking a pardon.

With an enormous bridge span-

colored roles of the youthful killers are played with stunning virtuosity by Roddy McDowall and Dean Stockwell, the former as the volatile, kinetic juvenile delinquent (Richard Loeb) and the latter as the brooding, intellecual (Leopold). The performances are experily matched and brilliantly sustained. An outstanding triumph opening in hight, however, was the portbayal of a heretofore obscure actor, Michael Constantine, in the vital role of the slow, shuffling and impressive defense lawyer, representing the late Clarence Darrow. An understudy for Frank Conroy, who was hospitalized with a heart attack several days before the performance but was featured in the program and may ultimately return to the cast, Constantine, went on with only a few days' notice and, quite obviously, saved the production.

Alex Segal, a recruit from televicing and intervalvents.

Alex Segal, a recruit from television and pictures, staged the show and although he rates credit for handling such a complicated production he must also take at least some of the rap for the overwritten, formless script. In the huge cast there are skillful supporting performances by Howard Da Silvas there are skillful supporting performances by Howard Da Silvas there are skillful supporting performances by Howard Da Silvas there are skillful supporting performances by Howard Da Silvas there are skillful supporting performances by Howard Da Silvas there are skillful supporting performances by Howard Da Silvas to compare the understandably indignant prosecutor. Ben Astar and Lloyd Gough as defense-engaged psychiatrists, and Reynolds Evans as prosecution alegist.

Other effective portrayals griven by Chris Gampel as the surviving slayer today, Ina Balin as a clear-headed, compassionate girl whose pity for the introspective youth turns to love, Barbra Loden as a shallow friend of the other killer, Joan Croydon as the latter boy's distraught mother, Bernard Lenrow as the guilt-harried father of one of the defendants, and Gerald Gordon as the reporter.

Peter Larkin has designed the large, multiple setting that looms over the stage like a portent. John Boxer has provided a virtual stogrefull of 1920's costumes and Charles Elson has devised the complicated, mood-creating lighting.

That leaves the matter of the daptation, and thereby hangs a long, contentious story. Original novelist Levin gets sole author billing in the program, with a parenthetical note that his is the "producer's version," whatever that means. Actually, the script produced by Myerberg and Gruenberg was not the Levin version, but one at least co-authored by Robert Thom, who was brought in for that purpose, but is billed as "assistant to the producers."

There has been considerable legal and publicity-release skirmishing over the matter of authorship, so it's a question how much of the final script was written by Levin and how much by Thom. Each has

Leopold' in prison today to try to get material for use in seeking a pardon.

With an enormous bridge spanning and dominating the stage, plus numerous cut-in scenes representing various Chicago locales, the action switches back to 1924 to cover the celebrated murder that shocked the nation and the world. It shows the young homosexual slayers as they revel in the hysterical "thrill" of a "perfect crime" and reveals how the law gradually catches up with them:

"and reveals how the law gradually catches up with them composing arguments, the psychiatric testimony and the less the court hearing with the opposing arguments, the psychiatric testimony and the lifesentencing. The author, in the person of a cub reporter working of the action from time to time, occasionally narrating or commenting. Presumably because of the rush to get the dramatized version of the yarn on the stage in time to beat the deadline imposed by the prior film sale, the adaptation verges on the chaotic. The whole flashback gimmlek, for example, is merely a ponderous method of trying to give the yarn topicality. Simpler with the same story line, inevitable, and someticans and senting how ran considerably over three hours—about an hour too long.

novel, film and play differ. This, of course, would be a limited incentive for playgoing.

Having been intrigued by the ovel, "Celle Qui N'Etait Plus" in Having been intrigued by the novel, "Celle Qui N'Etait Plus" in its English translation as "The Woman Who Was No More," the authors Blankfort determined to do an adaptation for theatre that would "illuminate" as well as "divert." This may have been motivated by Blankfort's sometime career as psychologist. Unfortunately, the co-authors have largely failed to fulfill a chiller's first prerequisite, to chill.

Thabanoliv, too, their script is

prerequisite, to chill.
Unhappily, too, their script is overstocked with a large number of mystery ciches. Early on, for example, a rifle is handled ominously, and even pointed at the audience. This is strictly atmosphere, however, the twist being that it's never used. There's a clock that has stopped and must be wound fanother mis-clue), a fog rolls heavily outside and through it German band music from a nearby barge makes its theoretically eeie way. (Apparently the play's only purpose for a German band on a French canal is that it prompts the French hero to comment that Germans even "belch in three-quarter time.")

Dark references are made to another woman in the husband's life. An early quarrel reveals that the wife had denied her spouse bedroom privileges for two years. Which came first, the mistress or the estrangement, inquires the wife. And anyway, absolutely no divorce, she says.

Granted that there might be as many denouements worked out of this situation as there are playwrights, the Blankforts had the novel and film as forerunners, and then made their own choice which, in traditional whodunit fashion, audiences are requested not to divulge. Let if only be said that there's a crackerjack curtain line to close the play, but not one that at prevailing ticket prices may seem worth sweating through two acts and six scenes worth of ordinary dialog to hear.

After connivance in a crime, the guilt-ridden husband has to make his increasingly conscience-stricken way to his doom, and the bero "Monique" is a chap whose hlood fairly freezes at the firm of "Monique" is a chap whose hlood fairly freezes at the firm of "Monique" is a chap whose hlood fairly freezes at the firm of "Monique" is a chap whose hlood fairly freezes to lend the part credibility-becomes of little avail.

Most of the drive comes from Patricia Jessel's dominant performance of a surgeon. Although she has the dubious problem of arguing murder as a method of excising cancer of the spirit, Miss Jessel's resources are equal to the task, and it's a

drapes and dimmed lighting, but the results are negligibly harrowing.

Some of the casting has been helpful. Deirdre Owen, as a young neighbor who is devoted to the unhappy husband, has urgency and piquant charm, Percy Waram sees his level best to retrieve the irretrievable as a retired Parisian detective, and Julie Bovasso has a couple of sardonic moments as a slatternly maid whose sense of practicality impels her to filch the silverware while the corpse is still warm.

Now that the story has run the gamut of French novel, novel in English, French film, American play, there wouldn't seem anywhere left for it to go. And it's dead certain that the "surprise" ending at the Golden Theatre won't be Hollywood fodder, even granting there's a market left. Geor.

JOHN, MARIAN BYRAM DICKER FRENCH SHOW

New York may be in for a uni-que production, with sound, lights and a narrator, but without actors. and a narrator, but without acfors. The presentation is the Paristan spectacle, "Son et Lumiere." John Byram, legit producer and former film-tv exec, and his wife, Broadway pressagent Marian Byram, are currently in Europe in connection with acquiring the American rights to the offering.

Produced frequently in France, the off-beat entry was presented last summer in Greenwich, England, with Laurence Olivier as narrator.

Peter Ustinov; author and star of "Romanoff and Juliet," in a guest date on the Arlene Francis Show over NBC-TV last Friday (25), took a fling at "the experts" (his word for critics), while answering a question about the difference in the audience reaction between London and New York—the comedy ran "for a year" in the former. The British actor-playwright said that "the difference in audience reaction is always exaggerated by the experts."

"I have a theory about that," he explained. "The experts are by nature gloomy. They emphasize the differences between things, not the similarities. "Audiences are remarkably similar," he asserted, adding that when acting in "Romanoff and Juliet," he almost forgets whether the performance is in London or New York. When he walks outside the theatre in New York, Ustinov is immediately reminded it's the Istler, because he is often nearly run down by cars.

He smilingly explained, "That's because in England, we drive from the right side."

Dick Moore, editor of Equity, the official monthly magazine of Actors Equity, reveals in the November edition of the publication that he's responsible for the anonymous interviews that have been runing in the periodical. The question-and-answer series has thus far covered actress Sybil Thorndike, director Tyrone Guthrie and N.Y. Dally News drama critic John Chapman. Already completed for future editions are interviews with N.Y. Times legit reviewer Brooks Atkinson and N.Y. Herald Tribune aislesitter Walter Kerr.

"Be My Guest?" which opened a four-week tryout Oct. 21 at the Theatre Royal, Brighton, England, was formerly titled "Every Bed Is Narrow." It was written by Mary Jukes, of the Toronto, Globe & Mail, and preemed last season at the Crest Theatre, Toronto. Flu hit the Brighton opening, with three understudies on, one of them for star Dennis Price. But co-star Jane Baxter appeared. Anna Deere Wiman is the predictor. is the producer.

Originally presented at the Edinburgh Festival last summer, "Man of Distinction" has now_come to town after an extended tryout during which the production has reportedly been tightened considerably. Whatever improvements may have been made, it still remains a frail and unlikely show. It has prohably recouped its investment on the road, where the marquee value of the two stars were apparently good enough to keep the boxoffice humming, but is not a proposition for Broadway.

The play, a dated comedy of the '20's, may have been mildly amusing in its day, but is tired stuff by present standards. The comedy passages are painfully thin and not even the personal charm and beauty of Moira Shearer can save the show, Just to aggravate matters, Anton Walbrook is miscast in the title role.

Miss Shearer plays the daughter of a powerful tycoon who decides it's time for her to get married. A love match, he hasists, is out of the question, and to find a suitable husband the daughter advertises in a local newspaper.

A scoundrel and confidence trickster, who has sponged on lonely women for his livelihood, answers the ad, a meeting is arranged and in a matter of seconds they're madly in love. Papa opposes the match, but he's outwitted by the scoundrel.

A dull production is occasionally enlivened by short dancing bouts in which Miss Shearer shows off, her skill by doing the Charleston and the Black Bottom. But that's about the only plus feature in the show. Good acting talent is given intered the second and the Black Bottom. But that's about the only plus feature in the show. La Compagnie De Mime Marcel Marceau

London, Oct. 15.

Leon Hepner by arrangement with Emile Hebey and Gerard Foussier) presentation of two-act revue. Created and Wischer Parket and Wischer Leader Proceedings of the Company of the Company

The Marcel Marceau miming company has a deservedly high international reputation and parts of the current program at the Cambridge Theatre have a standard brillance. The quality is not consistently sustained, however, and some of the longer sketches turn out to be dull. The show, presented by Leon Hepner for a month's engagement, should be a moderate sized bo. attraction.

Easily the highlight of the cur-

rent program is the star's magnifi-cent impression of David and Gollatth. At one moment he's the terrifying giant and in the next the meek David. All the changes in personality are effected in an instant as he runs to and fro be-hind a small screen in the centre of the stage. Also in top class are the impressions of a brace of tight-rope walkers and a tug-of-war team.

the impressions of a prace or ugarrope walkers and a tug-of-war

Less effective are three overlong
sketches in which the mime gestures alone are not adequate to
the story. Without the aid of the

"The Public Prosecutor" is a melodrama of the French Revolution, occasionally suffering from melodrama of the French Revolution, occasionally suffering from overmuch gab and insufficient action. Some turgid passages strain the patience, but interest is held with reasonable consistently. Transfer to a commercial theatre could be justified only by the hiring of a cast of considerably greater stellar attraction and by pepping up of production.
The yarn deals with the period when Robespierre, Marie Antoinette, Louis XVI, et al., have come and gone, and Napoleon is still an obscure army officer. The dramatic hinge occurs when the Public Prosecutor arranges for the death sentence on an unknown prisoner, who turns out to be himself.

Kitty Black's smooth translation

semience of an unknown prisoner, who turns out to be himself.

Kitty Black's smooth translation could do with some trimming and Alan Badel's direction, whilst technically okay, lacks punch. The dual job of guiding the play and appearing as the leading man has undoubtedly caused both to suffer.

Badel gives the Public Prosecutor the necessary willness and sinister effect, but the performance-lacks weight and authority. Similarily, Barbara Chilcott, as the scheming Mme. Tallier, also lacks the forceful personality needed to portray a woman capable of disrupting the lives of the men around her.

the total the total the portray a woman capable of the men around her.

Some of the lesser parts are well played, notably a shrewdly mannered piece of comedy by Aubrey Morris as a timid opportunist whose main objective is to duck the guillotine. Litz Fisk's decor is strangely disconcerting, as the Public Prosecutor's office appears to have been fashioned out of a disused lion's cage yanked in from a nearby circus.

Philly Busy; 'Rumple' So-So \$33,200, Anne Baxter \$12,200, 'Game' \$6,300

Philadelphia, Oct. 28.

Despite Phility's habitual preference for musical fare, "Rumple" is getting only a mild reception. The tuner arrived last Monday (21) at the Shubert and the advance was nothing sensational. Critical reception was tepid. Aisle-seaters were lenient, but the reviews were hardly money notices. Most favorable was Murdock (Inquirer). Gaghan (News) and De Schauensee (Bulletin) were pickier. All three crix felt that the show needs more work and added material.

Dancers of Bali

EFFIRETCE OF BRIEF

Another company from Bali came to the States five years ago, being then well received. This one will be, too. It is a special dish and deal in exotic background and art. Helpful at the boxoffice should be the fact that there are enough people and scenery to constitute a stage-full, something necessary in today's hard-sell. The native Gamelan (Balinese term for orchestra) and the rich cloth and design and the general quaintness all seen in a temple courtyard setting make lively and diverting values.

Made up of percussion devices of native (and ancient) invention, plus some flutes, the Gamelan music has surprising variety and shading of emphasis. It even comes close to western-ear melody, one tune early in the proceedings being remarkably like the pop "Three Little Fishles" of 1938. I Wajan Begeg is the leader (at one of the two drums) and his 30-odd men in native attire sit and pound a variety of gong-like xylophones with poker-faced vigor. Balinese musical literature is extensive but not one note of it is written down.

The various dance specialties are mostly of the storytelling sort, em-

poker-faced vigor. Balinese musical literature is extensive but not
one note of it is written down.

The various dance specialties are
mostly of the storytelling sort, employing a good deal of highly disciplined mime. It is one of the unique
features that the girl dance principals range from a young age mine
to an average veteran of 12 years.
Mario, lord of Balinese choreography, who makes two appearances,
both evidencing his right to renown, is now a man described as
above 60, since on the paradise
island of Ball there are no annual
birthdays, no doubt one reason for
its being such a happy place.

Performance assets of "Dancers
of Ball" in touring America are
these: (1) a good deal of wit and
humor in the mime; (2) conflict in
the danced tales but no oriental
disembowellngs; (3) the "bodied"
Gamelan music congenial to the
Stateside nervous system; and (4)
enough sheer virtuosity, as in the
specialties of Mario and his protege, I Gusti Ngurah Raka.

It is Raka who dances the
"Kebian," a dance invented by
Mario 30 years ago which the originator is now too old to do. This is
a sitting dance of weird-wonderful
tension with the legs colled under.
It seems that the Balinese arts
though milleniums old are not
frozen in moulds. There is constant
addition of new dances and tales.

Something else in favor of this
attractive group of visitors: Bali
(now part of the new Republic of
Indensia) is quite well public zed
via the movies and the travel lecture circuits. Bali was Shangri-La
long before Roosevelt used the
phrase during the war (for another
place).

After being introduced to the N.Y. audience, Miss Truce The was described as having laryngitis and unable to talk. So Fred Schang of Columbia took over as narrator at the ANTA. Straightforward, clear and now and then amusing, he was obviously having a lot of fun suddenly turning "talent."

I own a fully-equipped summer play-house of about 600 seats, near New house of about 600 seats, near New York, of excellent standing and finang cially successful. Unfortunately, my private affairs make difficult my personal attention to the playhouse, just producing recent Broadway hits is really not sufficiently stimulating despite any profits. I can sell or lease the playhouse, but I would prefer to keep it if—I can find someone with time, energy and imagination to help create and maintain an exciting enterprise with good potentials.

This is a young ballet company without a formal corps de ballet, relying mainly on specially conceived pieces for seven handpicked dancers. The assets are the compactness of the group, light sets and versatility of style. However, though individually fine additions to any company, there are no top magnitude names or talents, and no weighty ballets hacks what it takes to concert-tour U.S.

Classic and modern dancing is mixed.

Nude With Violin

Nude With Violin

Wilmington, Oct. 29.

Playwrights Co. and Lance Hamilton & Charles Russell presentation of three-set (live scenes) comedy by Noel Coward (we scenes) comedy by Noel Coward (Noel Cowar

Neel Coward has concocted a bit of fluff in "Nude With Violin." It's smart, sophisticated comedy, however, and should have no trouble paying off, at least with Coward as the potent star. The play has chalked up a 13-month run in London (originally with John Gielgund as star) and while it's unlikely to repeat that success here, it still is assured a hefty audience, as long as Coward remains in the meaty role of the deceased painter's valet who has an anwest to everything. Coward, in sparkling dialog, takes the art world for a ride. The curtain rises in the Paris studio of a noted painter, following his funeral. Comes the revelation the painter was a fraud, having sold the work of four assorted proteges as his own. Complications ensue as the truth comes to light, and the plot deals with the efforts of the painter's disorganized family to reach a happy solution.

The plot is only the framework for Coward's pointed satire on hijinks in the world of painting. There are also choice comedy characterizations, but nothing can hide the fact that actually Coward hasn't much in the way of a play with any real substance. It's the laugh lines that matter and the author has a full quota of them.

Coward is a delight as star. He doesn't waste a word or a gesture and has command of the stage at all times. However, it is not a oneman show. Morris Carnovsky makes a strong impression as the lawyer-manager of the artist's estate and Joyse Carey is excellent as the superficial wife. Luba Malina and Mona Washbourne are good for laughs, as does Sally Cooper as the daughter with a mind of her own. William Traylor, as a brash magazine correspondent, and Cory Devlin, as a religious fanatic from Jamaica, also register. Oliver Smith has designed a tasteful studio setting and the costumes by Frank Thompson, and Peggy Clark's lighting add to the visual aspects of the production. Coward directed with the emphasis on laughs. There isn't much to the play but it's fun.

Truce of the Bear

Rlackfriar's Gulld production of threeact drama by Pat Wilmot. Staged by

In his attempt to fashion a play out of tragic events in Budepest a year ago, Pat Wilmot has succumbed to a pitfall common to writers when passion about a cause of the Bear," ex-newspaperman Wilmot's first play, has the demerit of becoming a tract rather than the seething drama that the author clearly wanted to derive from Hungary's hour of desperate courage. The familiar dramatic device of studying a microcosm of people trapped together against their will is the framework for "Truce". In a narrow street in Budapest a barricade is built and eight people make common cause in a desperate last stand against hopeless odds of Communist troops.

The group numbers a defecting Russian officer, an aging alcoholic, an adolescent patriot, a shopkeeper, a prostitute who has trafficked with the enemy, a Jewish scientist who is fleeing from his work with the Russians, a Hungarian girl who is in love with the play's other character, an American newspaperman (natch).

Skirmishes with enemy soldiery take place, guns blaze periodically, there are vehement conversations shout the regrettable state of the world, scathing remarks are made about leaders on both sides of the Iron Curtain, the U.N. and the U.S. are looked to for help those so to the play marks time, awaiting the inevitable end at which some of the trapped 'escape to the West, others remain to match rifies with tanks and artillery.

The Blackfriars' efficient director, Dennis Gurney, has kept the slick outward show that always marks his work, but there is a curious air of incredibility, as if he recognized that for all the righteous enthuslasm, scripter Wilmothad delivered a static play.

Floyd Allan has designed a "dead end" set, complete with demolished Russian army tank, that is a credit to have achieved on the Blackfriars' small stage. Fred J. Scollay as the Russian, Bill Landsman as the drunk, and Cathleen Inter nole of the adolescent who must help man the barricades. Bill Alexander's heroics tend to make maudlin a part that could really bespeak the tragedy of Hun

The Shakespearewrights are at it again. Having been absent for economic reasons from the off-Broadway scene since their "Hamlet" last year, they have now returned, with a freewheeling revival of "Julius Caesar," a sonorous production of ranging scope and power."

power."

None of the company is a "name," yet these young actors create scenes of compelling the-atrical excitement on their small-stage on the upper West Side. Shakespeare's sweep and grandeur are seized upon, and if the best of the mighty line is sacrificed, meaning and emotional values are not.

of the mighty line is sacrificed, meaning and emotional values are not.

The story goes, of course that because Caesar was running away with the show. Shakespeare had to have him killed off mid-way in the play. By their act division, scene flow and emphasis, the Shakespearewrights have obviated this possible difficulty. In fact, the revival might well be called "Brutus and Cassius," or vice versa, for it is largely their story and the casting has been to this strength.

The Cassius and Brutus are played by Joseph Ruskin, and Ernest Graves respectively, actors of vigor, perceptivity and strength. Whether plotting with each other in hushed whispers about assassinating Caesar, or whether raging at one another in choler and frustration when their fortunes are on the wane, Ruskin and Graves strike the sort of stage sparks that nowadays are attributed to mid- and late-19th century Shakespearem production. It's the kind of acting that isn't often seen in an era of introspective torn F-kind-performance.

ance, and it makes Shakespeare and theatre synonymous with animation and impact.

But there is skill for the quiet passages, too, Portia pleading with Brutus to chose her wifely loveliness rather than the darting terrors of conspiracy, and his slow withdrawal from her embrace at ominous knocks on the door. Brutus later moving revelation to Cassius that Portia has let despair lead her to suicide, and Cassius subsequent remorse. Metellus Cimber's touching tribute over the body of the dead Cassius, and Brutus' farewell to life.

Philip Lawrence has staged, revealing a background of study as well as a vital conception of a turbulent era. He has cast well, M'el Dowd being a lovely Portia, Robert Mandam having burning, venegeful ardor as Marc. Antony, Ronald Bishop injecting fitful humor as an effete Casca, Sydney Walker as a ferocious Caesar, looking as fearsome as if he had just bitten into a sour apple, and Gordon Kayes lending size to the spotty part of conspirator Metellus Cimber.

Those in search or reflective theatre can skip the trip to West End Ave, and 97th St., but those with a taste for theatre-in-the-large may find the journey rewarding.

The fifth season of the Broadway Chapel Players opened with a double showing of James Bridie's whimsical religious fantasy, "Tobias and the Angel." At 2:40 p.m. Sunday (20) the Chapel Players inaugurated the Phoenix Theatre's series of five religious drama matiness. At 5 p.m. the same day the company had trouped back for a performance at its home stand, the Broadway Congregational Church.

The Bridie tale is of a blind man's ingenuous son who undertakes an arduous journey to collect and a family debt and discovers his maturity en route. Unbeknownst to the lad, the man who shares his travels is the archangel Raphael, and during their wanderings playwright. Bridie gives droll consideration to such matters as courage, charity, love, human-kindness.

consideration to such matters as courage, charity, love, human-kindness.
With a simply accoutred stage, and using a semi-stylization that makes the one-set stage many places, director Bill Penn has elicited the script's good humor and the authors' fameliul point of view. Fortunately, he has veered away from the saccharine that now and then threatens to intrude.

At first, Ray Boyle seems miscast as the wide-eyed son, but he becomes more comfortable as the boy grows into adulthood. As his father, Don McHenry fulfills the difficult stage task of seeming blind. He reveals a man of patience and loving-kindness, and he has a movingly fine histant when his sight is miraculously restored.

As the archangel, Christopher Hewett has twinkle and sharp wit, Gerry Jedd is the bride whom the boy brings home from his trayels, and G. Wood fusses profusely as her wealthy father. Geor.

Miam's Lewd Mag Drive

The Dave (Miam') County Commission has instructed county manager O. W. Campbell to ban 17 magazines from the area's newsstands as "obscene," after the Decent Literature Council, an unofficial group, asked the body to take action against the publications. There is a state law against such literature, which applies if distributors 'fail to comply with such request from the County Manager. The sheriff's office is the enforcing agent for such an order. On the list of mags are Cabaret, Lowdown, Exposed, Hush Hush as well as Gala, Paris Life, Vue, He. Caper, Adam, Behind The Scenes, Frolic, Tab, Harem, Scope, Sunbathing and Dude.

It is understood that local distribs have agreed to take the publications off the stands, when-and-if they receive official order to do so, their contracts with national circulation companies permit them such action only upon official action of the kind. However, the county attorney advised the commission they were taking it upon themselves to act as censors, and that is was a "dangerous area." Distributors are awaiting written requests on the matter.

Mark Turns Author

Mark Hanna, top authors' agent and a baseball buff was 'way back, recalls the time he played 'Checkers With Matty,' as his byline piece in the October Esquire is titled. Incidentally, Hanna is typical of the recent crop of savvy agents who, on the one hand, must apple-polish their authors and still have a forthright and savvy concept of market values.

Hanna is considered "a pretty good editor" by his clients, meaning, that he can tell from the ms., which market is best—and he can also tell his clients why and how to "punch it up."

SCULLY'S SCRAPBOOK

+++++ By Frank Scully +++++

Considering that David O. Sciznick has taken more bows over the years over "Gone With The Wind" than the writer, the weather bureau or the Metro stockholders, it does seem to be carrying modesty to the point of oblivion for Fred Haney, another Hollywood local boy, to have had so little to say about bringing the first world series championship to the bushleague town of Milwaukee.

Everybody waited in vain for the tv and radio reporters to drag Freddie before a mike after Lew Burdette gave the bedamned, bedoomed Yankees 24 goose eggs in a row. But he never came up for so much as a big sigh of relief.

It's quite possible, of course, that immediately after the Braves won that last game in Yankee Stadium, Haney rushed to the clubhouse to shave and didn't want to talk with lather all over his face. But I don't recall he was ever shown shaving either, and about everybody else in uniform was.

Some people have been circulating for some time the graves.

unnorm was.

Some people have been circulating for some time the groundless rumor that Haney is a strong, silent man, a sort of Calvin Coolidge of baseball. But this has as much solid foundation as a white feather in a sandstorm.

Fred Haney, Cellar Lecturer

I once split a speaking platform with Fred Haney and know he has a well-sustained gift of gab. It was at an Adventurers Club or something that met in a cellar in downtown L.A. It was during the war. I was pitching for a book I'd written and I think Haney was pitching for the Hollywood Stars. He wasn't pitching for them on the mound but behind the mike. Nobody wanted to sponsor the Stars which were owned by Bob Cobb of the Brown Derby. It looked as if they were going off the air, and while most people would hardly look on that as a catastrophe, there were a lot of convalescent Gl's in hospitals around L.A. who missed the gab. So Haney volunteered to do it. He didn't get off the hook for five years.

Casey Stengel, another local boy, has generally been considered the gabbiest ballplayer in all history, but it can be doubted that he has talked as much in a whole season as a radio commentator talks in one game. Haney was good away from the mike as well as behind it because between him. Bing Crosby and Bob Cobb they got some solvent sucker to sponsor the broadcasts.

sucker to sponsor the broadcasts.

Where Fans Are For Cooling
Except for George Raft hardly anybody ever went to the ballgames of the Hollywood Stars in those days, but many looked at their version of the national pasttime on early tv and listened to Fred Hancy's descriptive stuff over radio. Well, maybe Harry Ruby, Bing Crosby and Leo McCarey showed up as well as Raft, but whenever I looked in at Gilmore Stadium there couldn't have been fewer fans around than if some driller had reported a dry hole.

Fred worked as an electrician around the studio lots during the winter months and had been doing this for some time. Having been a bigleague third baseman when Ty Cobb was managing the Detroit Tigers, Haney was welcome around the sports-slanted Hollywood lots. Indeed, if he had been a football player instead of a baseball player he might have been knighted as an assistant director and worked his way up to directoral eminence as has Jesse Hibbs. But even keeping electric heaters going on stages in winter time is an appreciated and well paid job.

he might have been knighted as an assistant director and worked his way up to directoral eminence as has Jesse Hibbs. But even keeping at electric heaters going on stages in winter time is an appreciated and well paid job.

At the end of all that talk behind the mike he convinced the waning Stars management that he knew enough baseball to manage at least a Pacific Coast league team, and, by golly, if he didn't come up with a winner! In fact in four years he won two What-of-It? championships and finished second and third the other two years.

This made him ripe for either announcing bigleague games or managing one. He had already been a cellar lecturer and to have managed a cellar ball team hardly made him eligible for insulin shock treatment, so he accepted a nod from the Pittsburgh Pirates and got out of there before they all dropped to the sub-cellar.

In a fast switch he landed, on at least a raft. He got to Milwaukee as coach and then moved up to manage these bushleaguers who now are champions of the world.

In the final game when he switched Bob Hazel from seventh position in the batting order to leadoff man, after Hazel hadn't got a hit in nine times at bat, it 'didn't look as if Haney were as bright as his friends insisted he was, especially when Hazel struck out. But from the on Hazel and all the Braves showed that Freddie knows how to pick them, even if there is no visual record that he uses Gillette blue blades or shaves at all.

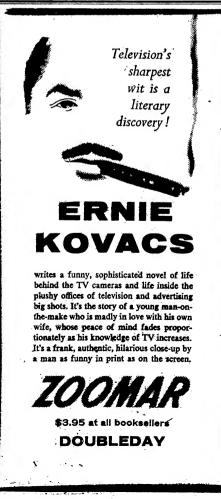

He isn't the first ballplayer named Freddie to come from Los Angeles and make history. Freddie Snodgrass was doing that before Freddie Haney was knee high to a cactus plant. I'm not so sure Snodgrass finished in a blaze of glory. In fact I believe with the Giants he dropped a fly or something, but he certainly was the first Californian to show they could throw a ball as well as the bull west of the Pecos.

With California now doomed to carry a minor league before, the studios are going to get a lot of pitches for winter jobs from these bigleague bums; but Fred Haney, if he st

course, will be part of the weekly's story.
